Brand Promise

Shaping the workplace of tomorrow. Optimizing results for today. Elevating organizations to new heights. Inspiring people to reach their full potential. Welcome to the world of Valarie Willis Consulting.

Chaotic times are forcing organizations to do more with less and to meet ever-escalating demands. At the same time, organizations are searching for new ways to propel themselves beyond yesterday's standards and performance. Leadership is needed throughout the organization at all levels.

Valarie Willis addresses these very challenges with effective, uplifting solutions. For businesses seeking improvement, striving for growth, or stretching beyond yesterday's boundaries, Valarie Willis offers a wide spectrum of educational, consulting, and speakers' bureau services.

They're designed to help organizations:

- Achieve desired results faster
- Remove roadblocks and pitfalls to success
- Experience breakthroughs and bust stagnation
- Ignite passion and keep morale high.

As a hallmark of her work, Valarie specializes in custom services and solutions LINKED to YOUR organization's mission, project, or workforce objectives. She knows it's crucial that clients attain the desired results from her contributions. Valarie is committed to fulfilling that expectation on every assignment.

Whatever project she tackles, Valarie's efforts impact organizations in a positive way. Her work is both substantive and inspiring at the same time.

Valarie draws from her multi-faceted 25-year work history—in the trenches, in countless layers of management, in the executive office, as a church and community leader, and as an entrepreneur—to offer two distinct areas of practice:

Strategic Management Consulting: Focused on education (including facilitation and train-the-trainer services), on the human-side of organizational change (including creating champions and advocates), and on the stickiest of project manager challenges (including organization, motivation, collaboration, and communication).

Besides speakers' bureau and management consulting services, Valarie has forged two "hot topic" tracks for her clients to integrate throughout their organizations:

Leadership: Speeches, training, programs, and/or consulting services tailored to your organization.

Shaping the Workplace of Tomorrow: Speeches, training, programs, and/or consulting focused on creating a "better workplace" through exploration of cutting-edge trends, innovation, alliances, and collaboration.

Valarie's brand promise is to inspire people to flourish to their fullest potential. She fosters a no-limit, winning attitude in others. From her perspective, all employees in the business world have the power to make their work and work environment exceptional.

People are saying....

"I was very impressed with Valarie's positive attitude, people skills and business acumen."

"I've been to many different types of leadership training and yours was the very best!"

"One of the best presenters I have had the opportunity to listen to."

"Valarie was fantastic, passionate, educational and energizing."

"The Leadership Challenge is an invigorating, energizing experience that will open your eyes."

What's YOUR Need?

Custom work is Valarie's hallmark. With client needs in the forefront, Valarie devises invaluable solutions for the demands at hand.

Need a powerful, motivating keynote for a large company event?

Need to help your employees deal with organizational change?

Need to address leadership issues with managers?

Need to get a cross-functional team to collaborate on a critical project?

Need additional staff short term on a strategic project?

For these and other similar needs, simply contact Valarie to get started.

Just need an outside perspective?
