

Keith Bronitt

I have over 35 years of experience in the training industry, following ten years in the financial services industry.

Professional Expertise/Services

My ten years of work with The Forum Corporation was primarily in sales and marketing, but in The Forum Corporation model, all professionals do facilitation and consulting, and in my case did design and development of training programs and consulting solutions as well. The work was for a myriad of Fortune companies, with many of whom I still do work.

The experience covered a wide range of disciplines, including leadership and management development, culture change projects, sales training and customer service, among others.

My most recent 25 years has been as an independent consulting working with The Forum Corporation as a consulting resource (doing design, development, facilitation, coaching, etc.), and with other smaller consulting firms, as well as developing and managing my own clients.

Recent Assignments

- Merrill Lynch – delivered their leadership and management development curriculum
- Ultramar Travel Services – designed, developed and delivered their customer and change initiative
- C&B Consulting – designed, developed and delivered a number of training programs for this benefits consulting firm, including team building, sales training, customer service skills, and management development
