

Brown Global Consulting Group, LLC

Brown Global Consulting Group, LLC provides management consulting services to help organizations develop and maintain a leadership position in the marketplace. Utilization of our services helps to increase individual productivity and enhance employee effectiveness. Our services further increase the return on investment by reducing hard dollars associated with failed deployment plans. Profitability is gained by equipping organizations with training, development, planning, and management solutions that are proven to be effective domestically and in emerging markets.

Professional Expertise/Services

Brown Global Consulting Group, LLC specializes in program, organizational and leadership management consulting services. Our aim is to improve an organization's global effectiveness. We provide customized services in program assessment, planning, design, and management; organizational change management; process engineering; and global leadership planning, development and training.

Management Consultants with Brown Global Consulting Group, LLC have proven track records in program and project delivery, quality assurance and compliance, process analysis and design, corporate training, change management, and organization behavior. Our extensive technology background includes software development, hardware infrastructure, telecommunications, and data warehouse.
