

Pfeiffer Partner Program

Daniel Willms

I am 32 years old, was born and raised in a German colony in the south of Brazil. I went to school for journalism and later on for Six Sigma. I moved to the US 5 years ago and started my business right after that. I've been working with Mileris for more than 6 years as a consultant. We are putting all our efforts, energy and contacts together to take TLC to Brazil and make it a huge success!

Professional Expertise/Services

Mileris is a company specialized in consultancy, training and corporate education. It's been in business for more than 30 years offering innovating methodologies and solutions to orient the learning process, create new habits and transmit knowledge.
