

NexMU, incorporated in Malaysia and Singapore is made up of experienced Six Sigma, Lean and Leadership Development practitioners who have all been supporting Motorola University's external market for the last 10 years. All the Master Black Belt, Black Belt and Leadership Program trainers have been certified by Motorola University, the premier institution for Six Sigma globally.

They are experienced trainers and coaches or consultants with more than 15 years of related experience in Six Sigma and Leadership Development areas. All the trainers have regional exposure and experience, teaching and guiding Six Sigma practitioners in Malaysia, Singapore, Australia, New Zealand, India, Pakistan, Bangladesh, Philippines, Middle East and Egypt.

They have accumulated experiences in applying Six Sigma for many sectors apart from manufacturing, namely in the Oil & Gas, Engineering, Plantations, Insurance, Financial, Telecommunications, Service, Education and Public sectors.

Additionally, the trainers for the Leadership Development programs e.g. Achieving Results thru People and Essentials of Management, etc have trained several hundred managers in Malaysia, Singapore, India and China for internal Motorola staff as well as external customers. They are also certified coaches.

Professional Expertise/Services

NexMU provides programs encompassing business process improvement methodology such as Six Sigma, Lean, Leadership Development and many other programs.

We also offer consultation and coaching services.

Through our total solutions, consulting and instructional services, we have created a successful track record for assisting organizations to improve their overall business performance and build sustainable growth.
