

Pfeiffer Partner Program

Big Sky Thinking

Professional Expertise/Services

Big Sky Thinking is a boutique firm partnered with top international coaches who develop deep conversational awareness and emotional grounding through our customized communication workshops, individual coaching and company leadership retreats. Our clients are inspired to build a purposeful culture as their cornerstone to long-term profits AND a happy thriving work environment.

Big Sky Giving—Creating Children and Family Missions of Philanthropic Purpose—customized for those committed to how our children, especially females, are gifted with a rare opportunity in our history to change the world for the coming generations. We cover topics such Speaking and Living in Elegance—Cultivating the Art of Feminine Leadership for Women and Young Ladies, and Building Family Cultures of Purpose. Five years from now, what will your family conversations be filled with at the dinner table? We want them to include philanthropy and community giving with a dose of Elegant Speaking, an absence of bullying behaviors and a strong dose of kindness and laughter.
