

Singapore Training and Development Association (STADA)

Professional Expertise/Services

The Singapore Training and Development Association (STADA) is committed to facilitate the transfer of human capital development (HCD) skills and technology to enhance the development of HCD practitioners and corporations. STADA fulfills this role through community of practice on different HCD domains, offering professional certification, development programs and networking activities.

STADA provides solutions to organizations in the areas of change management, organization development, employee engagement, cultural change, leadership development, coaching, mentoring, and team innovation.
