

Professional and Trade Associations

Professional and trade associations offer networking opportunities, post job openings on their sites, advertise jobs in their print publications, and help you stay informed about developments in your field or a field into which you would like to transfer.

There are literally tens of thousands of trade and professional associations in this country, so the list in this appendix is by no means comprehensive. I've included it here as a sampling of the types of associations you'll find in various fields.
