Page 37

Boxed text above the heading “Percents” should read:

Write the following decimals as fractions or mixed numbers: 76.3 and 965.053.

In the line directly under this boxed text, the denominator in the last fraction should be 1000, not 100, so: $965 \frac{53}{1000}$

Page 64

In the last equation line on the page, the most right quadratic equation should read $6x^2 + 13x - 28$

Page 65

In the first equation line on the page following the first two paragraphs, the most right quadratic equation should read $6x^2 + 13x - 28$

Page 75

Question 5 should read:

How many more DSL connections were sold in 2000 compared to cable modems?
