

Chapter 8

You can exclude disabled users by using this filter string instead:

```
(&(objectCategory=person)(objectClass=user)(
!(userAccountControl:1.2.840.113556.1.4.803:=2)))
```

7. Each theme has a section in this XML file; for example the theme VINTAGE:

```
<Templates>
<TemplateID>Vintage</TemplateID>
<DisplayName>Vintage</DisplayName>
<Description>Description</Description>
<Thumbnail>../images/thvintage.png</Thumbnail>
<Preview>../images/thvintage.gif</Preview>
</Templates>
```

8. Copy this section and paste it back. Then edit the copied section to match the names of your theme. The TemplateID must match your folder name but must include small letters! You also need to change the DisplayName and the Description field since they are displayed in SharePoint's theme list.

```
<Templates>
<TemplateID>demo</TemplateID>
<DisplayName>Demo</DisplayName>
<Description>My Demo Theme</Description>
<Thumbnail>../images/thice.png</Thumbnail>
<Preview>../images/thice.gif</Preview>
</Templates>
```
