***Introduction*..... 1**

About This Book.....	1
System Requirements	2
How This Book Is Organized.....	2
Part I: Wireless Networking Fundamentals	3
Part II: Making Plans.....	3
Part III: Installing a Wireless Network.....	3
Part IV: Using a Wireless Network.....	3
Part V: The Part of Tens.....	4
Icons Used in This Book.....	4
Where to Go from Here.....	5

***Part 1: Wireless Networking Fundamentals*..... 7**

Chapter 1: Introducing Wireless Home Networking 9

Nothing But Net(work): Why You Need (Or Want) One	10
File sharing.....	11
Printer and peripheral sharing	11
Internet connection sharing.....	12
Phone calling for free	15
Home arcades and wireless to go.....	16
Wired versus Wireless	16
Installing wired home networks	17
Installing wireless home networks.....	18
Picking a Wireless Standard.....	20
Planning Your Wireless Home Network.....	23
Choosing Wireless Networking Equipment	24

Chapter 2: From a to g and b-yond 29

Networking Buzzwords You Need to Know	30
Workstations and servers	30
Network infrastructure	32
Network interface adapters	35
Get the (Access) Point?.....	39
Infrastructure mode	41
Ad hoc mode.....	42
Your Wireless Network's Power Station: The Antenna.....	42

Industry Standards	45
The Institute of Electrical and Electronics Engineers.....	45
The Wi-Fi Alliance.....	46
IEEE 802.11b	46
IEEE 802.11a: Fast, faster, and fastest	47
When does a + b = g?	48
The ISM bands	49

Chapter 3: Bluetooth, HPNA, and HomePlug 51

Who or What Is Bluetooth?.....	52
Wi-Fi versus Bluetooth	53
Piconets, Masters, and Slaves	54
Integrating Bluetooth into Your Wireless Network.....	57
Wirelessly synching your PDAs	58
Wireless printing and data transfer	60
Extending Your Wireless Home Network	
with “No New Wires” Solutions.....	61
Network Power(line)!.....	62
Home Phoning (ET Got It Backward!).....	65

Part II: Making Plans 67

Chapter 4: Planning a Wireless Home Network 69

Deciding What to Connect to the Network.....	70
Counting network devices.....	70
Choosing wired or wireless.....	71
Choosing a wireless technology	73
Choosing an access point.....	74
Deciding where to install the access point	76
Adding printers.....	82
Adding entertainment and more	85
Connecting to the Internet	85
Budgeting for Your Wireless Network	90
Pricing access points	90
Pricing wireless network adapters.....	91
Looking at a sample budget	91
Planning Security	92

Chapter 5: Choosing Wireless Home Networking Equipment 93

Access Point Selection	94
Certification and Standards Support.....	94
Compatibility and Form Factor	97
Bundled Functionality: Servers, Gateways, Routers, and Switches	98
DHCP servers	98
Gateways, NAT, and cable or DSL routers	100
Switches.....	101
Print servers	101

Operational Features	102
Security.....	103
Range and Coverage Issues	105
Manageability	106
Web-based configuration.....	106
Software programming	106
Telnetting to your device	107
Upgradeable firmware	107
Price	108
Warranties	108
Customer and Technical Support	109

Part III: Installing a Wireless Network..... 111

Chapter 6: Installing Wireless Access Points in Windows113

Before Getting Started, Get Prepared	113
Setting Up the Access Point.....	115
Preparing to install a wireless AP.....	115
Installing the AP.....	116
Configuring AP parameters	120
Changing the AP Configuration	123

Chapter 7: Setting Up Your Windows PCs for Wireless Networking125

Setting Up Wireless Network Interface Adapters.....	125
Installing device drivers and client software.....	126
PC Cards and mini-PCI cards.....	128
Compact Flash cards.....	130
PCI and PCiX cards	132
USB adapters.....	133
Modifying Wireless Network Adapters.....	134
Synchronizing and Internet Access	135
Wireless Zero Configuration with XP	137
Easy installation	137
Automatic network connections	138
Tracking Your Network's Performance	140

Chapter 8: Setting Up a Wireless Mac Network143

Understanding AirPort Hardware	143
Getting to know the AirPort Card.....	144
Apple AirPort Extreme-ready computers.....	144
“Come in, AirPort Base Station — over. . .”.....	146
Getting aboard the Express.....	148

Using AirPort with OS X Macs	149
Configuring the AirPort Base Station on OS X	150
Upgrading AirPort Base Station firmware on OS X	153
Connecting another computer to your AirPort network on OS X	154
Adding a Non-Apple Computer to Your AirPort Network	156
Connecting to Non-Apple-Based Wireless Networks	158
Chapter 9: Setting Up Internet Sharing	159
Deciding How to Share Your Internet Connection	159
Connection sharing	160
Routers and gateways	160
Sharing dial-up Internet connections	162
Obtaining an IP Address Automatically	163
Windows 2000	165
Windows XP	167
Mac OS	169
Setting Up Internet Connection Sharing	170
Windows 2000	172
Windows XP	174
Mac OS X	175
Setting Up Your Windows XP Firewall	176
Getting SP2	177
Setting the firewall on your shared connection	177
Chapter 10: Securing Your Wireless Home Network	181
Assessing the Risks	182
General Internet security	182
Airlink security	184
Getting into Encryption and Authentication	186
Introducing Wired Equivalent Privacy (WEP)	188
A better way: WPA	190
Clamping Down on Your Wireless Home Network's Security	192
Getting rid of the defaults	193
Enabling encryption	194
Closing your network	197
Going for the Ultimate in Security	198
 Part IV: Using a Wireless Network	 201
Chapter 11: Putting Your Wireless Home Network to Work	203
A Networking Review	204
Basic networking terminology	204
Setting up a workgroup	205

Will You Be My Neighbor?206

Sharing — I Can Do That!209

 Enabling sharing on Windows 2000 or Windows XP210

 Setting permissions211

 Accessing shared files213

Be Economical: Share Those Peripherals213

 Setting up a print server214

 Sharing other peripherals217

Sharing between Macs and Windows-based PCs218

 Getting on a Windows network218

 Letting Windows users on your network219

Chapter 12: Gaming Over a Wireless Home Network221

 PC Gaming Hardware Requirements223

 Networking Requirements for PC Gaming224

 Getting Your Gaming Console on Your Wireless Home Network225

 Console online gaming services and equipment226

 Console wireless networking equipment232

 Dealing with Router Configurations235

 Getting an IP address236

 Dealing with port forwarding237

 Setting Up a Demilitarized Zone (DMZ)240

Chapter 13: Networking Your Entertainment Center243

 Wirelessly Enabling Your Home Entertainment System244

 Getting at Your Entertainment System-Based Content248

 Expanding Your Home Entertainment Center

 with Wireless Adapters250

 Getting at Your PC-Based Content255

 My name is Media, and I'll be your server256

 The ultimate: A home theater PC258

 Internet Content for Your Media Players and HTPCs260

Chapter 14: Other Cool Things You Can Network263

 Making a Connection to Your Car264

 Your car's path to wireless enlightenment264

 Synching your car stereo with home266

 Turning your car into a hotspot268

 Getting online with your own car PC270

 Picking wireless gear for your car271

 “Look, Ma, I'm on TV” — Video Monitoring over Wireless LANs272

 Controlling Your Home over Your Wireless LAN275

 Using your cell phone as a remote control276

 Whole-home 802.11-based IR coverage277

 See me, feel me, hear me, touch me278

 Sit, Ubu, Sit . . . Speak!281

Chapter 15: Using a Bluetooth Network 283

Discovering Bluetooth Basics.....	284
Bluetooth Mobile Phones.....	287
Bluetooth PDAs	289
Other Bluetooth Devices.....	291
Printers	292
Audio systems	292
Keyboards and meeses (that's plural for mouse!)	294
Bluetooth adapters	294
Understanding Pairing and Discovery.....	296

Chapter 16: Going Wireless Away from Home 299

Discovering Public Hot Spots	300
Freenets and open access points	302
For-pay services	305
Using T-Mobile Hot Spots.....	307
Using Wayport Hot Spots	308
Using Boingo Hot Spots.....	308
Tools for Finding Hot Spots	309
Netstumbler.com	310
Boingo.....	311
On the Go with EV-DO!.....	312

Part V: The Part of Tens 315**Chapter 17: Ten FAQs about Wireless Home Networks 317****Chapter 18: Ten Ways to Troubleshoot
Wireless LAN Performance 327**

Check the Obvious.....	328
Move the Access Point	330
Move the Antenna.....	331
Change Channels.....	331
Check for Dual-Band Interference.....	332
Check for New Obstacles	332
Install Another Antenna	333
Use a Signal Booster	333
Add an Access Point.....	335
Add a Repeater or Bridge.....	337
Check Your Cordless Phone Frequencies	338

Chapter 19: More Than Ten Devices to Connect to Your Wireless Network in the Future	341
Your Bath.....	342
Your Car.....	343
Your Exercise Gear	346
Your Home Appliances	346
Your Musical Instruments	348
Your Pets	348
Your Phones.....	349
Your Robots	351
Your Wearing Apparel.....	352
Chapter 20: Top Ten Sources for More Information	357
CNET.com.....	358
Wi-Fi Planet	359
Broadband Wireless Exchange Magazine	359
PC Magazine.....	360
Electronic House Magazine.....	360
Tom's Networking	361
Practically Networked	361
ExtremeTech.com	361
Network World.....	362
Other Cool Sites	362
<i>Index</i>.....	365
