Understanding the Importance of Keywords	72
Thinking Like Your Prey	73
Starting Your Keyword Analysis.....	74
Identifying the obvious keywords	74
Looking at your Web site's access logs	74
Examining competitors' keyword tags	75
Brainstorming with colleagues	75
Looking closely at your list	75
Using a Keyword Tool.....	78
Using Wordtracker	81
Creating a Wordtracker project	83
Adding keywords to your initial project list	85
Cleaning up the list	88
Exporting the list	89
Performing competitive analysis.....	89
Finding keywords more ways	92
Choosing Your Keywords.....	92
Removing unhelpful terms	92
Picking combinations.....	94
Yet More Keyword Tools	95

Chapter 6: Creating Pages That Search Engines Love 97

Preparing Your Site	97
Finding a hosting company	98
Picking a domain name.....	98
Seeing Through a Search Engine's Eyes	100
Understanding Keyword Concepts	103
Picking one or two phrases per page	103
Checking prominence	104
Watching density	104
Placing keywords throughout your site	105
Creating Your Web Pages	106
Naming files.....	106
Creating directory structure.....	106
Viewing TITLE tags.....	107
Using the DESCRIPTION meta tag	108
Tapping into the KEYWORDS meta tag.....	110
Using other meta tags	111
Including image ALT text	113
Adding body text	113
Creating headers: CSS versus <H> tags	114

Formatting text	115
Creating links	116
Using other company and product names	117
Creating navigation structures that search engines can read	118
Blocking searchbots	119
Chapter 7: Avoiding Things That Search Engines Hate	121
Dealing with Frames	121
The HTML Nitty-Gritty of Frames	123
Providing search engines with the necessary information	125
Providing a navigation path	126
Opening pages in a frameset	128
Handling iframes	129
Fixing Invisible Navigation Systems	129
Looking at the source code	130
Turning off scripting and Java	132
Fixing the problem	133
Flush the Flash animation	133
Avoiding Embedded Text in Images	135
Reducing the Clutter in Your Web Pages	135
Use external JavaScripts	137
Use document.write to remove problem code	137
Use external CSS files	138
Move image maps to the bottom of the page	139
Avoid the urge to copy and paste from MS Word	139
Managing Dynamic Web Pages	139
Determining whether your dynamic pages are scaring off search engines	141
Fixing your dynamic Web page problem	142
