<i>Chapter 5</i>	■	NURBS Modeling 103
<i>Chapter 6</i>	■	Polygons and Subdivision Surfaces 133
<i>Chapter 7</i>	■	Character Modeling 177
PART III	■	KEYFRAMED ANIMATION 247
<i>Chapter 8</i>	■	Basic Animation 249
<i>Chapter 9</i>	■	Deformers and Skeletons: Rigging I 287
<i>Chapter 10</i>	■	Binding and Controls: Rigging II 313
<i>Chapter 11</i>	■	Character Animation 345
<i>Chapter 12</i>	■	Nonlinear Animation Techniques 391
PART IV	■	AUTOMATED ANIMATION 429
<i>Chapter 13</i>	■	Rigid Body Animation 431
<i>Chapter 14</i>	■	Introducing MEL 461
<i>Chapter 15</i>	■	Programming with MEL 481
<i>Chapter 16</i>	■	Expression-Driven Animation 513
<i>Chapter 17</i>	■	Introduction to Particles 545
<i>Chapter 18</i>	■	Advanced Particle Animation 573

PART V ■ CREATING OUTPUT 597

Chapter 19 ■ Rendering Basics **599**

Chapter 20 ■ Lighting for Animation **623**

Chapter 21 ■ Texturing For Animation **655**

Chapter 22 ■ Advanced Rendering for Animation **709**

PART VI ■ ADVANCED TOPICS 735

Chapter 23 ■ Maya Fur **737**

Chapter 24 ■ Maya Cloth **771**

Chapter 25 ■ Paint Effects **813**

Chapter 26 ■ Fluid Effects **849**

Chapter 27 ■ Compositing and Editing **881**

Index ■ **901**

Contents

Foreword	xii
Introduction	xxiii
PART I ■ BEFORE YOU BEGIN	1
Chapter 1 ■ The Maya Interface	3
What's Behind the Maya Interface?	4
Interface Elements	7
Summary	31
Chapter 2 ■ Creating an Animation Story	33
Generating the Initial Idea	34
Refining Your Idea	37
Writing and Refining the Screenplay	41
Hands On: Generating the Idea and Story for "Mighty Muskrat"	43
Summary	49
Chapter 3 ■ Getting Ready for Maya	51
Developing Characters	52
Planning Thought	52
Choosing the Proper Tool	53
Hands On: The Mighty Muskrat Takes Shape	54
Summary	79
PART II ■ MODELING	81
Chapter 4 ■ Modeling Basics	83
What Is Modeling?	84
Modeling Tools	87
Modeling with Primitives	98
A Look Inside a Primitive: Torus	98

Hands On: Building a Street Lamp	99
Summary	102
Chapter 5 ■ NURBS Modeling	103
NURBS Curve and Surface Concepts	104
Creating Curves	108
Editing Curves	111
Creating Surfaces	117
Editing Surfaces	124
Hands On: Building a Bicycle Wheel	129
Summary	132
Chapter 6 ■ Polygons and Subdivision Surfaces	133
Polygon Concepts and Terms	134
Creating Polygons	136
Displaying and Selecting Polygons	141
Working with Polygons	147
Subdivision Surface Modeling	162
Hands On: Building a Chain Wheel	172
Summary	176
Chapter 7 ■ Character Modeling	177
Character Modeling Surfaces and Tools	178
Hands On: Modeling the Mighty Muskrat	193
Summary	246
PART III ■ KEYFRAMED ANIMATION	247
Chapter 8 ■ Basic Animation	249
Keyframe Animation	250
Animation Controls	251
Creating Keyframes	254
Editing Keyframes	261
Hands On: The Incredible Bouncing Ball!	274

Hands On: Animating a Finger	282
Summary	286
Chapter 9 ■ Deformers and Skeletons: Rigging I	287
Joint and Lattice Deformers	288
Hands On: Creating and Binding a Skeleton for Mortimer	296
Summary	312
Chapter 10 ■ Binding and Controls: Rigging II	313
Rigging Control Principles	314
Hands On: Creating Controls for the Mighty Muskrat	319
Summary	344
Chapter 11 ■ Character Animation	345
Preparing to Animate: Step Away from the Computer!	346
Hands On: Animating Mortimer, Pose to Pose	355
Summary	390
Chapter 12 ■ Nonlinear Animation Techniques	391
Working with Poses	392
Working with Clips	394
Hands On: Creating a Walk Cycle	405
Hands On: Using Trax to Lip-Synch	412
Summary	426
PART IV ■ AUTOMATED ANIMATION	429
Chapter 13 ■ Rigid Body Animation	431
What Are Rigid Body Dynamics?	432
Creating a Simple Rigid Body	433
Bowling for Keyframes: Animating in Active and Passive Rigid Modes	435
Using the Rigid Body Solver	441

Working with Fields	447
Using Impulse and a Newton Field to Simulate Orbital Dynamics	449
Converting (Baking) a Rigid Body Animation into Keyframes	451
Building a Desk Toy: Adding Constraints to a Rigid Body	453
Hands On: Using Rigid Body Dynamics in the “Mighty Muskrat”	457
Summary	460

Chapter 14 ■ Introducing MEL 461

MEL Is Fundamental	462
What Is a Scripting Language?	462
The Script Editor	463
What Is an Attribute?	466
How to Get Help with MEL	468
Hands On: Creating, Moving, and Naming an Object—with One Keystroke	470
Placing Objects Using a Marking Menu	472
Hands On: Building a Room Automatically	474
Hands On: Utility Scripts for Rigging and Animating “Mighty Muskrat”	477
Summary	479

Chapter 15 ■ Programming with MEL 481

Variables, Loops, and Branching	482
Debugging MEL Scripts	488
A Comment on Commenting	490
Hands On: Making a Mountain	491
Creating a GUI	495
Using Procedures and Scripts	498
Using Expressions with MEL	502

Hands On: Scripts to Help Rig Mortimer	502
Summary	511
Chapter 16 ■ Expression-Driven Animation	513
Elements of Expressions	514
Expression Techniques	516
Using Expressions to Automate Animation	521
Expressions and Rigid Bodies	523
Procedural Implementation of Expressions: MEL That Writes MEL	525
Building Up Motions Using Expressions	530
Hands On: Using Expressions to Automate Mortimer's Rig	538
Summary	544
Chapter 17 ■ Introduction to Particles	545
What Are Particles?	546
Creating Particles	546
Working with Particles	551
Adding Particles to Objects	558
Attaching Fields to Objects	558
Particle Rendering in Maya	561
Hardware versus Software Rendering	562
Hands On: Creating Smoke for the Cigarette Butt Army	570
Summary	572
Chapter 18 ■ Advanced Particle Animation	573
A Simple Expression and a Simple Ramp	574
Moving Particles Around in a Volume Field	580
Changing Color and Lifespan per Particle	582
Changing Radius by Position	583
Moving Particles Upward in a Spiral	584

Collision Events and Expressions	586
Emitter Expressions	588
Changing Opacity with Motion	589
Hands On: Creating a Cigarette Butt Army	590
Summary	596

PART V ■ CREATING OUTPUT 597

Chapter 19 ■ Rendering Basics 599

Rendering an Object	600
Using Other Rendering Techniques	615
Hands On: Rendering “Mighty Muskrat” Scene 3	618
Summary	622

Chapter 20 ■ Lighting for Animation 623

Types of Lights	624
Shadows	632
Light Effects	638
Lighting Techniques	644
Hands On: Lighting the Mighty Muskrat	648
Summary	653

Chapter 21 ■ Texturing For Animation 655

Using the Hypershade	656
Using Shading and Texturing Attributes	661
Shading and Texturing Polygons and Subdivision Surfaces	677
Using Shading and Texturing Techniques	691
Hands On: Texturing the Mighty Muskrat	698
Summary	707

Chapter 22 ■ Advanced Rendering for Animation 709

Tips for Rendering an Animation	710
Render Layers	710

Render Passes	714
The Maya Vector Renderer	716
Rendering Wireframes	718
Maya Hardware Rendering	719
Rendering with mental ray for Maya	721
Hands On: Rendering Mighty Muskrat Scene 3	730
Summary	734

PART VI ■ ADVANCED TOPICS 735

Chapter 23 ■ Maya Fur 737

Creating Fur: A Mohawk Haircut	738
Fur Attribute Maps	748
Attractors	750
Hands On: Furring the Mighty Muskrat	758
Summary	769

Chapter 24 ■ Maya Cloth 771

Basic Workflow for Creating Cloth	772
Cloth Panel Properties	788
Manipulating Cloth	792
Animating Cloth via Constraints	793
Texturing Cloth	800
Cloth Cache Files	800
Exporting and Importing Garments	802
Simulation in the Batch or Prompt Mode	802
Hands On: Creating a Cape for Mortimer	803
Summary	811

Chapter 25 ■ Paint Effects 813

Paint Effects Theory	814
Strokes and Brushes	815
Painting on a 2D Canvas	818

Modifying and Saving Brushes	821
Painting a 2D Texture onto a 3D Object	827
Painting in a 3D Scene	828
Converting Paint Effects to Polygons	838
The Rendering Process	839
Hands On: Creating a Make-Believe Forest	841
Summary	848

Chapter 26 ■ Fluid Effects 849

What Is a Fluid (and What Isn't It)?	850
Drag-and-Drop Fluids	852
Creating and Editing Fluids	856
Painting into Containers	867
Creating an Ocean Effect	870
Creating a Pond Effect	875
Hands On: Creating Fluid Effects	
Smoke for Zy-Gar	876
Summary	879

Chapter 27 ■ Compositing and Editing 881

Compositing	882
Hands On: Compositing a Sample Shot from “Mighty Muskrat”	889
Editing	891
Hands On: Editing “Mighty Muskrat”	896
Summary	899
