|--|------------|
| <b><i>Introduction</i></b> .....   | <b>1</b>   |
| <b><i>Book I: Getting Started</i></b> .....                                  | <b>7</b>   |
| Chapter 1: Cruising Around the Dreamweaver CS4 Workspace .....               | 9          |
| Chapter 2: Planning and Designing Your Site .....                            | 31         |
| Chapter 3: Creating and Managing Sites .....                                 | 43         |
| <b><i>Book II: Mastering the Basics</i></b> .....                            | <b>57</b>  |
| Chapter 1: Creating Documents .....  | 59         |
| Chapter 2: Working with Text .....   | 73         |
| Chapter 3: Inserting Graphics .....  | 93         |
| Chapter 4: Making Links with Text and Images .....                           | 113        |
| Chapter 5: Adding Flash, Movies, Sound, and More .....                       | 127        |
| Chapter 6: Organizing Data with Tables .....                                 | 151        |
| Chapter 7: Building Fabulous Forms .....                                     | 169        |
| <b><i>Book III: Working Like the Pros</i></b> .....                          | <b>197</b> |
| Chapter 1: Looking Good with Cascading Style Sheets (CSS) .....              | 199        |
| Chapter 2: Building Sites with Templates .....                               | 243        |
| Chapter 3: Using Library Items and Server-Side Includes .....                | 275        |
| Chapter 4: Creating Code Snippets and History Panel Commands .....           | 293        |
| Chapter 5: Integrating Dreamweaver with Fireworks .....                      | 311        |
| Chapter 6: Dreamweaver Cross-Application Integration .....                   | 329        |
| <b><i>Book IV: Energizing Your Site</i></b> .....                            | <b>343</b> |
| Chapter 1: Working with Layers .....   | 345        |
| Chapter 2: Jazzing Up Pages with JavaScript Behaviors and Spry Widgets ..... | 369        |
| Chapter 3: Designing Pages with Frames .....                                 | 419        |
| Chapter 4: Making Your Pages XHTML-Compliant .....                           | 447        |
| <b><i>Book V: Publishing Your Site</i></b> .....                             | <b>457</b> |
| Chapter 1: Using Reports to Test Your Site before Publishing .....           | 459        |
| Chapter 2: Keeping Your Code Clean .....                                     | 483        |
| Chapter 3: Preparing to Publish Your Files Online .....                      | 499        |
| Chapter 4: Publishing Your Web Pages Online .....                            | 515        |

|   |            |
|---|------------|
| <b><i>Book VI: Working Collaboratively</i></b> .....                      | <b>527</b> |
| Chapter 1: Working Efficiently with a Team .....                          | 529        |
| Chapter 2: Setting Up and Connecting to a Contribute Site .....           | 543        |
| Chapter 3: Managing a Contribute Site .....                               | 557        |
| <b><i>Book VII: Building Web Applications</i></b> .....                   | <b>567</b> |
| Chapter 1: Preparing to Build Web Applications.....                       | 569        |
| Chapter 2: Configuring MySQL Database Connections for PHP.....            | 583        |
| Chapter 3: Configuring ASP Database Connections .....                     | 589        |
| Chapter 4: Configuring ASP.NET Database Connections .....                 | 599        |
| Chapter 5: Configuring JSP Database Connections .....                     | 607        |
| Chapter 6: Configuring ColdFusion Database Connections.....               | 615        |
| Chapter 7: Dealing with Database Issues.....                              | 625        |
| <b><i>Book VIII: Making Pages Dynamic</i></b> .....                       | <b>635</b> |
| Chapter 1: Preparing Dynamic Content Sources .....                        | 637        |
| Chapter 2: Using Dynamic Content in Your Web Pages.....                   | 649        |
| Chapter 3: Previewing and Testing Your Dynamic Pages.....                 | 663        |
| Chapter 4: Building Dynamic Forms.....                                    | 671        |
| Chapter 5: Advanced Dynamic Data Presentation .....                       | 677        |
| <b><i>Book IX: Developing Applications Rapidly</i></b> .....              | <b>687</b> |
| Chapter 1: Building Master and Detail Pages .....                         | 689        |
| Chapter 2: Creating Search and Results Pages .....                        | 705        |
| Chapter 3: Building Record Insert Pages and Restricting Site Access ..... | 715        |
| Chapter 4: Developing Record Update and Delete Pages .....                | 727        |
| <b><i>Index</i></b> .....   | <b>747</b> |

# Table of Contents

.....

|   |          |
|---|----------|
| <b><i>Introduction</i></b> .....              | <b>1</b> |
| About This Book.....                          | 1        |
| Conventions Used in This Book.....            | 2        |
| What You Don't Have to Read.....              | 3        |
| Assumptions About You.....                    | 3        |
| How This Book Is Organized.....               | 3        |
| Book I: Getting Started.....                  | 3        |
| Book II: Mastering the Basics.....            | 3        |
| Book III: Working Like the Pros.....          | 3        |
| Book IV: Energizing Your Site.....            | 4        |
| Book V: Publishing Your Site.....             | 4        |
| Book VI: Working Collaboratively.....         | 4        |
| Book VII: Building Web Applications.....      | 4        |
| Book VIII: Making Pages Dynamic.....          | 4        |
| Book IX: Developing Applications Rapidly..... | 4        |
| Icons Used in This Book.....                  | 5        |
| Where to Go from Here.....                    | 5        |

## ***Book 1: Getting Started***..... **7**

### **Chapter 1: Cruising Around the Dreamweaver CS4 Workspace . . . . . 9**

|  |    |
|--|----|
| Choosing a Workspace Layout.....                       | 9  |
| Getting to Know the Dreamweaver Workspace.....         | 11 |
| Exploring the Document Window.....                     | 15 |
| Document tab bar.....                                  | 15 |
| Document toolbar.....                                  | 16 |
| Rulers.....  | 18 |
| Grids.....   | 18 |
| Guides.....  | 19 |
| Status bar.....  | 19 |
| Understanding the Panels and Properties Inspector..... | 20 |
| The Panel dock.....                                    | 21 |
| Accessing panels and panel groups.....                 | 21 |
| Using the Insert panel.....                            | 22 |
| Using the Properties inspector.....                    | 23 |
| Working with the Files panel.....                      | 23 |
| Customizing the Workspace.....                         | 25 |
| Setting Dreamweaver Preferences.....                   | 26 |
| Finding Help.....                                      | 27 |
| Using Dreamweaver Help (F1).....                       | 27 |
| Working with the Reference panel.....                  | 27 |
| Visiting the Dreamweaver Support Center.....           | 28 |

**Chapter 2: Planning and Designing Your Site . . . . . 31**

|  |    |
|--|----|
| Understanding the Web Design Workflow.....         | 31 |
| Knowing Your Audience .....                        | 32 |
| Defining the client's expectations.....            | 32 |
| Exploring the audience's expectations .....        | 32 |
| Examining Issues That Impact the Site Design ..... | 33 |
| Monitor resolution.....                            | 36 |
| Browser optimization.....                          | 38 |
| Content.....                                       | 38 |
| Planning the Site Layout.....                      | 39 |
| Designing and Optimizing Graphics.....             | 41 |

**Chapter 3: Creating and Managing Sites . . . . . 43**

|   |    |
|---|----|
| Understanding General Web Site Structure .....    | 43 |
| Web site structure .....                          | 43 |
| Root-level organization .....                     | 44 |
| Setting Up a Site with a Wizard.....              | 46 |
| Setting Up a Site Using the Advanced Method ..... | 49 |
| Remote Info.....                                  | 52 |
| Testing Server .....                              | 52 |
| Version Control.....                              | 52 |
| Cloaking.....                                     | 52 |
| Design Notes.....                                 | 52 |
| File View Columns.....                            | 53 |
| Contribute.....                                   | 53 |
| Templates .....                                   | 53 |
| Spry.....   | 53 |
| Managing Multiple Sites.....                      | 53 |
| Duplicating sites.....                            | 54 |
| Exporting and importing sites.....                | 54 |
| Removing sites from the managed-sites list.....   | 55 |

***Book II: Mastering the Basics*..... 57****Chapter 1: Creating Documents . . . . . 59**

|  |    |
|--|----|
| Creating a New Document .....                      | 59 |
| Saving Documents .....                             | 62 |
| Saving a copy of a file .....                      | 63 |
| Saving multiple documents at once .....            | 64 |
| Reverting to a previous version of a file .....    | 64 |
| Opening Existing Files.....                        | 65 |
| Setting Page Properties.....                       | 65 |
| Understanding Invisible Page Elements .....        | 66 |
| Importing Tabular Data Files .....                 | 69 |
| Importing Word and Excel Files (Windows Only)..... | 70 |

|   |                |
|---|----------------|
| <b>Chapter 2: Working with Text</b> .....                     | <b>73</b>      |
| Adding Text .....   | 73             |
| Editing Text .....  | 74             |
| Removing Text .....   | 75             |
| Setting Text Properties in the Properties Inspector .....     | 76             |
| HTML Properties Inspector .....                               | 77             |
| CSS Properties Inspector .....                                | 79             |
| Creating Inline Styles.....                                   | 81             |
| Inserting Special Characters .....                            | 83             |
| Creating Lists .....  | 84             |
| Editing with the Find and Replace Tool.....                   | 85             |
| Searching for tags and attributes .....                       | 86             |
| Searching for text in specific tags.....                      | 88             |
| Saving and reusing searches .....                             | 90             |
| Using regular expressions in your searches .....              | 90             |
| <br><b>Chapter 3: Inserting Graphics</b> .....                | <br><b>93</b>  |
| Inserting Images in Your Web Page.....                        | 94             |
| Using the Insert panel .....                                  | 94             |
| Using the Insert menu .....                                   | 96             |
| Using the Assets panel .....                                  | 96             |
| Using the Files panel.....                                    | 96             |
| Editing, Deleting, and Moving Inserted Images.....            | 97             |
| Using an Image Placeholder When a Graphic Isn't Ready.....    | 97             |
| Setting Image Attributes with the Properties Inspector.....   | 99             |
| Naming your images .....                                      | 99             |
| Specifying the width and height of images .....               | 99             |
| Resizing and resetting images .....                           | 100            |
| Adding vertical or horizontal padding.....                    | 100            |
| Adding image links.....                                       | 100            |
| Adjusting targets.....  | 100            |
| Specifying the original file.....                             | 101            |
| Adding image borders .....                                    | 101            |
| Providing Alternate text.....                                 | 101            |
| Aligning images .....   | 102            |
| Using the image-editing buttons .....                         | 103            |
| Creating Interactive Images.....                              | 104            |
| Adding rollover images .....                                  | 104            |
| Creating image maps .....                                     | 106            |
| Inserting a navigation bar with images .....                  | 108            |
| Inserting Fireworks HTML .....                                | 110            |
| <br><b>Chapter 4: Making Links with Text and Images</b> ..... | <br><b>113</b> |
| Understanding Hyperlinks.....                                 | 114            |
| Creating Text Links .....                                     | 115            |
| Making Image Links .....                                      | 117            |
| Inserting E-Mail Links .....                                  | 117            |

|   |     |
|---|-----|
| Creating Named Anchor Links .....       | 119 |
| Step 1: Lay down the named anchor ..... | 120 |
| Step 2: Link to the named anchor .....  | 120 |
| Creating Temporary Links.....           | 121 |
| Setting Link Targets.....               | 122 |
| Editing and Deleting Links.....         | 122 |
| Editing links .....                     | 123 |
| Deleting links .....                    | 123 |
| Using the Tag Chooser.....              | 124 |
| Coding Links by Hand .....              | 126 |

## **Chapter 5: Adding Flash, Movies, Sound, and More . . . . . 127**

|  |     |
|--|-----|
| Flash Elements You Can Add to Your Web Site.....                 | 127 |
| Inserting Flash Movies (SWFs).....                               | 128 |
| Adding a Flash movie to your page .....                          | 128 |
| Setting Flash movie attributes .....                             | 130 |
| Inserting FlashPaper .....                                       | 132 |
| Inserting Flash Video.....                                       | 133 |
| Adding Shockwave Movies, Java Applets, and ActiveX Controls..... | 138 |
| Setting Shockwave movie properties .....                         | 139 |
| Setting Java applet properties .....                             | 140 |
| Setting ActiveX control properties.....                          | 141 |
| Adding Netscape Navigator Plug-ins.....                          | 143 |
| Setting Netscape Navigator plug-in properties .....              | 144 |
| Playing Netscape Navigator plug-ins .....                        | 144 |
| Acceptable Sound File Formats .....                              | 145 |
| Adding Other Video and Sound to a Page .....                     | 146 |
| Linking versus embedding video .....                             | 147 |
| Linking versus embedding sound.....                              | 147 |
| Launching a Media External Editor .....                          | 148 |

## **Chapter 6: Organizing Data with Tables . . . . . 151**

|  |     |
|--|-----|
| Creating Tables .....  | 152 |
| Inserting a basic table in your page .....                   | 153 |
| Turning On Table Visual Aids .....                           | 155 |
| Formatting Tables with the Properties Inspector .....        | 156 |
| Merging and Splitting Rows and Columns.....                  | 158 |
| Merging cells .....  | 160 |
| Splitting a cell .....                                       | 160 |
| Setting Table Width and Heights .....                        | 161 |
| Adding Rows and Columns to a Table .....                     | 161 |
| Adding a row .....   | 162 |
| Adding a column .....  | 162 |
| Adding multiple rows or columns .....                        | 162 |
| Deleting rows and columns .....                              | 163 |
| Inserting Text and Images in Table Cells.....                | 163 |
| Formatting Individual Table Cells .....                      | 163 |
| Changing Table Measurements from Pixels to Percentages ..... | 164 |

Importing Tabular Data ..... 165  
 Sorting Information in a Table ..... 166  
 Working with Tables Created by Other Programs ..... 167

**Chapter 7: Building Fabulous Forms . . . . . 169**

Organizing Data in Your Form ..... 170  
 Creating a Fabulous HTML Form ..... 171  
 Adding and Labeling Form Fields ..... 173  
     Text fields ..... 174  
     Hidden fields ..... 176  
     Check boxes ..... 178  
     Radio buttons ..... 180  
     Lists and menus ..... 183  
     Jump menus ..... 184  
     Image fields ..... 185  
     File upload fields ..... 186  
     Buttons ..... 187  
     Label tags ..... 188  
     Fieldset tags ..... 189  
 Validating a Form with JavaScript ..... 192  
 Validating a Form with Spry Assets ..... 193

***Book III: Working Like the Pros* ..... 197**

**Chapter 1: Looking Good with Cascading Style Sheets (CSS). . . . . 199**

Understanding Cascading Style Sheets (CSS) ..... 200  
 Exploring Different Style Sheet Types ..... 202  
     Internal styles ..... 202  
     External styles ..... 204  
     Inline styles ..... 205  
 Working with the CSS Styles Panel ..... 206  
     All mode ..... 206  
     Current mode ..... 207  
     CSS Styles panel viewing buttons ..... 207  
 Understanding CSS Style Types ..... 208  
     Custom styles (Class) ..... 209  
     ID styles (ID) ..... 210  
     CSS tag redefines ..... 212  
     Compound styles ..... 212  
 Adding a Style to a New or Existing Style Sheet ..... 214  
 Attaching a Style Sheet to Your Document ..... 217  
 Applying a Custom Class Style ..... 219  
 Editing a CSS Style ..... 220  
     Editing in All mode ..... 220  
     Editing in Current mode ..... 221  
     Adding properties to a CSS style ..... 221  
 Deleting a CSS Style ..... 222

|   |     |
|---|-----|
| Exploring the CSS Rule Definition Dialog Box .....        | 222 |
| Type properties .....                                     | 223 |
| Background properties .....                               | 225 |
| Block properties.....                                     | 227 |
| Box properties.....                                       | 229 |
| Border properties .....                                   | 230 |
| List properties.....                                      | 231 |
| Positioning properties.....                               | 232 |
| Extensions properties .....                               | 234 |
| Renaming CSS Styles .....                                 | 235 |
| Exporting Internal Styles to an External Style Sheet..... | 236 |
| Converting Inline Styles to CSS Rules .....               | 237 |
| Using Design Time Style Sheets .....                      | 239 |
| Using the Code Navigator.....                             | 240 |

## **Chapter 2: Building Sites with Templates . . . . .243**

|  |     |
|--|-----|
| Creating a Template .....  | 244 |
| Converting an HTML page into a template.....                                     | 245 |
| Creating a new template from scratch.....  | 247 |
| Working with Editable Regions.....   | 249 |
| Creating editable regions.....   | 249 |
| Removing editable regions .....  | 251 |
| Renaming editable regions .....  | 252 |
| Exporting a site without any template markup.....                                | 254 |
| Creating Optional and Optional Editable Regions.....                             | 255 |
| Creating optional regions .....  | 256 |
| Creating optional editable regions .....   | 257 |
| Modifying optional regions.....  | 257 |
| Creating Repeating Regions .....   | 258 |
| Creating repeating regions .....   | 259 |
| Creating repeating tables.....   | 259 |
| Creating Editable Tag Attributes .....   | 261 |
| Changing editable tag attributes in template-based files .....                   | 263 |
| Resetting an editable tag attribute to uneditable.....                           | 264 |
| Building Nested Templates .....  | 264 |
| Creating nested templates.....   | 264 |
| Modifying nested templates .....   | 265 |
| Creating a New Document from a Template .....                                    | 266 |
| Editing Templates and Updating Pages .....                                       | 267 |
| Modifying a template and updating<br>all the pages that use it .....             | 268 |
| Selectively updating pages with the most recent<br>version of the template ..... | 269 |
| Applying Templates to Pages.....   | 270 |
| Detaching Templates from Pages.....  | 271 |
| Managing Templates .....   | 271 |
| Renaming a template.....   | 272 |
| Deleting a template file.....  | 272 |

|   |            |
|---|------------|
| <b>Chapter 3: Using Library Items and Server-Side Includes . . . . .</b>      | <b>275</b> |
| Introducing Library Items.....  | 276        |
| Creating Library Items .....  | 276        |
| Creating a selection-based library item .....                                 | 277        |
| Creating an empty library item .....  | 278        |
| Inserting a Library Item in Your Document .....                               | 279        |
| Editing and Managing Library Items .....                                      | 281        |
| Editing library items .....   | 281        |
| Updating documents and sites that use library items .....                     | 281        |
| Renaming library items .....  | 282        |
| Deleting library items .....  | 283        |
| Detaching library items.....  | 284        |
| Copying a library item from one site to another .....                         | 284        |
| Re-creating library items.....  | 285        |
| Understanding Server-Side Includes .....                                      | 285        |
| Creating and Inserting Server-Side Includes .....                             | 286        |
| Creating a server-side include.....   | 288        |
| Inserting a server-side include.....  | 289        |
| Editing Server-Side Includes.....   | 291        |
| <br>  |            |
| <b>Chapter 4: Creating Code Snippets and History Panel Commands . . . . .</b> | <b>293</b> |
| Understanding What Snippets Do .....  | 294        |
| Using Dreamweaver’s Snippets .....  | 294        |
| Creating Code Snippets .....  | 295        |
| Creating a text snippet .....   | 295        |
| Creating a JavaScript snippet.....  | 297        |
| Creating a snippet with the wrap option .....                                 | 300        |
| Creating a snippet with graphics .....  | 302        |
| Working with Snippets .....   | 304        |
| Sharing snippets .....  | 304        |
| Editing snippets .....  | 305        |
| Deleting snippets .....   | 305        |
| Managing snippets .....   | 305        |
| Creating History Panel Commands .....   | 306        |
| Working with the History Panel .....  | 306        |
| Recording commands.....   | 307        |
| Playing commands.....   | 308        |
| Renaming and deleting commands.....   | 309        |
| <br>  |            |
| <b>Chapter 5: Integrating Dreamweaver with Fireworks. . . . .</b>             | <b>311</b> |
| Preparing to Work with Dreamweaver and Fireworks.....                         | 312        |
| Setting Fireworks launch-and-edit preferences .....                           | 312        |
| Optimizing Dreamweaver for use with Fireworks .....                           | 314        |
| Using Fireworks Images in Dreamweaver.....                                    | 316        |
| Inserting a Fireworks image in a Dreamweaver document .....                   | 316        |
| Replacing an image placeholder with a Fireworks graphic.....                  | 316        |

|  |     |
|--|-----|
| Editing Images in Fireworks Tables.....                    | 320 |
| Optimizing Your Images in Fireworks.....                   | 322 |
| Using Fireworks HTML in Dreamweaver .....                  | 324 |
| Inserting Fireworks HTML in a Dreamweaver document .....   | 324 |
| Pasting Fireworks HTML in a Dreamweaver document.....      | 325 |
| Updating Fireworks HTML in a Dreamweaver Document .....    | 326 |
| Editing Fireworks Pop-Up Menus .....                       | 327 |
| Roundtrip pop-up menu editing (Fireworks 8 and later)..... | 327 |
| Pop-up menu editing (Fireworks MX 2004 and earlier) .....  | 328 |

## **Chapter 6: Dreamweaver Cross-Application Integration . . . . . 329**

|   |     |
|---|-----|
| Working with Adobe Flash .....                    | 329 |
| Inserting and Optimizing Photoshop Graphics ..... | 331 |
| The Smart Objects workflow .....                  | 331 |
| The Copy/Paste workflow.....                      | 335 |
| Accessing and Using Adobe's Bridge.....           | 337 |
| Launching Bridge from Dreamweaver.....            | 338 |
| Launching Dreamweaver from Bridge.....            | 338 |
| Inserting a file from Bridge .....                | 339 |
| Integrating Your Files with Device Central.....   | 339 |
| Setting Up Dreamweaver to Use Adobe AIR.....      | 341 |

## **Book IV: Energizing Your Site ..... 343**

### **Chapter 1: Working with Layers . . . . . 345**

|  |     |
|--|-----|
| Understanding Layers.....                                | 346 |
| Creating Layers .....                                    | 349 |
| Drawing an AP Div layer.....                             | 349 |
| Adding content to layers.....                            | 350 |
| Creating nested layers.....                              | 350 |
| Setting layer preferences .....                          | 352 |
| Managing AP Div Layers with the AP Elements Panel .....  | 353 |
| Preventing layer overlap.....                            | 354 |
| Naming layers.....                                       | 355 |
| Changing the z-index (stacking order).....               | 356 |
| Editing layer visibility.....                            | 356 |
| Selecting and Adjusting AP Div Layers .....              | 357 |
| Selecting layers .....                                   | 357 |
| Resizing and moving AP Div layers .....                  | 358 |
| Setting Layer Properties .....                           | 358 |
| Controlling Layer Style and Positioning with CSS.....    | 361 |
| Controlling Layers with Behaviors.....                   | 364 |
| Converting AP Divs to Tables and Tables to AP Divs ..... | 365 |
| Converting AP Div layers to a table.....                 | 366 |
| Converting tables to AP Div layers.....                  | 367 |

|   |                |
|---|----------------|
| <b>Chapter 2: Jazzing Up Pages with JavaScript Behaviors and Spry Widgets</b> ..... | <b>369</b>     |
| Understanding JavaScript Behaviors .....  | 371            |
| Adding JavaScript to Your Page .....  | 372            |
| Using Dreamweaver’s Default Behaviors.....  | 374            |
| Using the Behaviors panel.....  | 375            |
| Attaching a behavior .....  | 377            |
| Changing and deleting behaviors .....   | 378            |
| Updating old behaviors.....   | 379            |
| Call JavaScript.....  | 379            |
| Change Property.....  | 380            |
| Check Plug-In.....  | 382            |
| Drag AP Element .....   | 383            |
| Spry Effects.....   | 386            |
| Go to URL.....  | 389            |
| Jump Menu/Jump Menu Go.....   | 391            |
| Creating a jump menu .....  | 391            |
| Editing the Jump Menu behavior .....  | 392            |
| Adding and removing a Go button.....  | 393            |
| Open Browser Window .....   | 394            |
| Popup Message.....  | 397            |
| Preload Images.....   | 399            |
| Set Nav Bar Image.....  | 400            |
| Set Text of Container.....  | 402            |
| Set Text of Frame .....   | 403            |
| Set Text of Status Bar .....  | 404            |
| Set Text of Text Field .....  | 406            |
| Show-Hide Elements.....   | 407            |
| Swap Image.....   | 409            |
| Swap Image Restore .....  | 411            |
| Validate Form.....  | 412            |
| Using Third-Party Behaviors .....   | 412            |
| Visiting the Adobe Exchange Web site .....  | 412            |
| Using the Extension Manager .....   | 413            |
| Working with Spry Widgets.....  | 415            |
| <br><b>Chapter 3: Designing Pages with Frames</b> .....                             | <br><b>419</b> |
| Understanding Frames.....   | 420            |
| Creating Frames and Framesets .....   | 422            |
| Using predefined framesets to create a new file.....                                | 424            |
| Displaying a file in a predefined frameset.....                                     | 425            |
| Creating custom framesets.....  | 426            |
| Adding, Removing, and Resizing Frames.....  | 427            |
| Adding frames .....   | 427            |
| Removing frames .....   | 427            |
| Resizing a frame .....  | 428            |
| Nested Framesets .....  | 428            |
| Opening Pages in a Frame .....  | 429            |

|  |     |
|--|-----|
| Saving Frames and Framesets.....   | 431 |
| Saving all the files in the frameset .....                                       | 431 |
| Saving only the frameset file .....  | 432 |
| Saving an individual file in a frame .....                                       | 433 |
| Titling a Frameset .....   | 433 |
| Setting the Background Color of a File in a Frame .....                          | 434 |
| Setting Frame Properties with the Properties Inspector.....                      | 434 |
| Setting frameset properties.....   | 435 |
| Setting frame properties .....   | 437 |
| Frame Accessibility Settings .....   | 438 |
| Setting accessibility preferences .....  | 438 |
| Adding or editing accessibility settings to a frame<br>with the Tag Editor ..... | 439 |
| Targeting Frames with Links .....  | 439 |
| Adding Noframes Content .....  | 441 |
| Creating Floating Frames.....  | 443 |

**Chapter 4: Making Your Pages XHTML-Compliant . . . . . 447**

|   |     |
|---|-----|
| Understanding the Benefits of Using XHTML with Dreamweaver .....          | 447 |
| Getting the Basics of XHTML Syntax.....                                   | 448 |
| Discovering the strict rules you can't live without .....                 | 448 |
| Taking advantage of strict and transitional rules.....                    | 449 |
| Handling Dreamweaver's Automatic XHTML Code                               |     |
| Compliance Tools .....  | 450 |
| Making Sure Your Documents Follow XHTML Syntax .....                      | 454 |
| Creating a new XHTML document with Dreamweaver .....                      | 454 |
| Telling Dreamweaver to create XHTML-compliant files<br>all the time ..... | 454 |
| Transforming HTML document code into XHTML.....                           | 455 |
| Converting existing HTML files to XHTML .....                             | 456 |
| Making sure your HTML file can be converted to XHTML .....                | 456 |
| Validating Your XHTML.....  | 456 |

***Book V: Publishing Your Site* .....** **457**

**Chapter 1: Using Reports to Test Your Site before Publishing . . . . 459**

|   |     |
|---|-----|
| Testing Your Site .....                           | 460 |
| Following general testing guidelines .....        | 460 |
| Previewing your pages in a browser .....          | 461 |
| Setting the primary and secondary browsers.....   | 461 |
| Previewing pages in multiple browsers .....       | 463 |
| Setting download times and size .....             | 464 |
| Examining the Results Panel .....                 | 466 |
| Searching Your Code for Tags and Attributes ..... | 467 |
| Validating Your Code .....                        | 468 |
| Running the Validation panel.....                 | 468 |
| Setting Validator preferences.....                | 469 |

- Testing Your Pages with Browser Compatibility ..... 470
  - Setting the target browsers for Browser Compatibility..... 471
  - Using the Browser Compatibility panel ..... 472
  - Viewing and fixing errors ..... 474
- Checking and Fixing Links ..... 475
- Handling Workflow and HTML Reports ..... 477
  - Launching reports ..... 477
  - Saving reports as XML files ..... 480
- Viewing File Transfer Activity with the FTP Log ..... 481
- Debugging a ColdFusion Application (Windows)..... 481

**Chapter 2: Keeping Your Code Clean . . . . . 483**

- Eliminating Formatting Issues Before They Occur..... 484
  - Setting Copy and Paste preferences..... 485
  - Using the Paste Special command..... 486
  - Cleaning Up Word HTML ..... 487
- Checking Your Spelling, Grammar, and Readability ..... 488
- Getting Your HTML and XHTML Code Consistent ..... 490
- Reviewing Source Formatting and Making Changes ..... 492
  - Setting code formatting preferences ..... 492
  - Introducing your Code Category preferences..... 493
- Applying Source Formatting ..... 496
  - Applying source formatting to a complete file..... 496
  - Applying source formatting to a selection of a file..... 497
- Changing Links Sitewide..... 497

**Chapter 3: Preparing to Publish Your Files Online. . . . . 499**

- Creating a Remote Connection ..... 499
  - Setting up a remote folder ..... 500
  - Configuring a remote access type ..... 501
- Cloaking Your Files and Folders ..... 510
  - Enabling and disabling cloaking options ..... 511
  - Cloaking individual folders ..... 513
  - Uncloaking previously cloaked file types ..... 513

**Chapter 4: Publishing Your Web Pages Online . . . . . 515**

- Understanding File Transfer Basics ..... 515
  - Transferring dependent files ..... 516
  - Working during file transfers..... 516
- Putting Files on and Getting Files from the Remote Server ..... 517
  - Examining the Files panel transfer options ..... 518
  - Putting files on a remote server..... 520
  - Getting files from a remote server ..... 521
  - Viewing the FTP and background file activity logs ..... 522
- Keeping Your Local and Remote Site Files Up to Date ..... 523
  - Viewing the newest files without synchronization..... 523
  - Synchronizing your files..... 524

**Book VI: Working Collaboratively ..... 527****Chapter 1: Working Efficiently with a Team ..... 529**

|  |     |
|--|-----|
| Attaching Design Notes to Your Files ..... | 529 |
| Enabling and disabling Design Notes .....  | 531 |
| Removing Design Notes .....                | 532 |
| Adding Design Notes to a file .....        | 532 |
| Viewing and editing Design Notes .....     | 534 |
| Checking Files In and Out .....            | 535 |
| Using Version Control with Subversion..... | 537 |
| Defining File View Columns .....           | 539 |
| Customizing File View Columns .....        | 539 |
| Sorting columns .....                      | 541 |

**Chapter 2: Setting Up and Connecting to a Contribute Site . . . . . 543**

|  |     |
|--|-----|
| Understanding Contribute Best Practices.....                                     | 544 |
| Making a Dreamweaver Site Connection Compatible<br>with Contribute .....         | 545 |
| Using Dreamweaver to Administer a Contribute Site .....                          | 547 |
| Making the Most of Templates.....  | 549 |
| Leaving a Trail of Bread Crumbs for Contribute Users .....                       | 551 |
| Connecting to a Contribute Site.....   | 552 |
| Transferring files to and from a Contribute site<br>from within Dreamweaver..... | 552 |
| Setting Contribute file and folder permissions .....                             | 553 |
| Understanding Contribute Special Files .....                                     | 553 |
| Troubleshooting a Contribute Site in Dreamweaver .....                           | 554 |
| Fixing connection problems .....   | 554 |
| Checking the _mm folder .....  | 555 |

**Chapter 3: Managing a Contribute Site . . . . . 557**

|   |     |
|---|-----|
| Managing Contribute Files Using Dreamweaver.....  | 558 |
| Rolling back your files .....                     | 559 |
| Making changes to Contribute files .....          | 561 |
| Enabling Contribute users to use templates .....  | 562 |
| Unlocking a checked out file.....                 | 563 |
| Using Dreamweaver to Edit a Contribute Site ..... | 563 |
| Updating templates in a Contribute site.....      | 564 |
| Editing style sheets in a Contribute site .....   | 564 |

**Book VII: Building Web Applications ..... 567****Chapter 1: Preparing to Build Web Applications . . . . . 569**

|  |     |
|--|-----|
| Understanding Web Applications.....      | 569 |
| Choosing a Web Application Platform..... | 571 |

|   |     |
|---|-----|
| Choosing a Web Server .....                           | 571 |
| Hosted sites .....                                    | 571 |
| Hosting your own site .....                           | 572 |
| Choosing an Application Server .....                  | 574 |
| PHP .....   | 574 |
| Active Server Pages (ASP) .....                       | 576 |
| ASP.NET .....   | 576 |
| Java Server Pages (JSP).....                          | 576 |
| ColdFusion .....                                      | 577 |
| Considering Web/Application Server Combinations ..... | 577 |
| Setting Up the Testing Server in Dreamweaver .....    | 578 |
| Introducing Databases .....                           | 580 |
| Choosing a Database.....                              | 582 |

**Chapter 2: Configuring MySQL Database**

**Connections for PHP ..... 583**

|  |     |
|--|-----|
| Adding a PHP Database Connection .....         | 583 |
| Creating a new dynamic PHP page .....          | 583 |
| Creating the database connection for PHP ..... | 585 |
| Editing a PHP Database Connection.....         | 587 |
| Deleting a PHP Database Connection .....       | 588 |

**Chapter 3: Configuring ASP Database Connections ..... 589**

|  |     |
|--|-----|
| Understanding ASP Database Connections.....                    | 589 |
| Creating a New ASP Page.....                                   | 590 |
| Connecting to a Database with a Data Source Name (DSN).....    | 591 |
| Connecting to a Database with a Custom Connection String ..... | 593 |
| Connecting to a Remote Database without a DSN.....             | 594 |
| Understanding physical paths and virtual paths .....           | 594 |
| Finding the database's physical path                           |     |
| when you know the virtual path .....                           | 595 |
| Connecting to a remote database with a virtual path.....       | 596 |
| Editing an ASP Database Connection.....                        | 596 |
| Deleting an ASP Database Connection.....                       | 597 |

**Chapter 4: Configuring ASP.NET Database Connections ..... 599**

|   |     |
|---|-----|
| Exploring ASP.NET Database Connections .....  | 599 |
| Creating a New ASP.NET Page .....             | 600 |
| Building an OLE DB Connection .....           | 601 |
| Using templates.....                          | 601 |
| Using data link properties .....              | 603 |
| Building an SQL Server Connection .....       | 604 |
| Editing an ASP.NET Database Connection .....  | 605 |
| Deleting an ASP.NET Database Connection ..... | 605 |

**Chapter 5: Configuring JSP Database Connections . . . . . 607**

Gathering Database Connection Information ..... 607  
Adding a JSP Database Connection..... 608  
    Java Runtime Environment installation ..... 609  
    Installing the JDBC driver ..... 609  
Creating a New JSP Document ..... 610  
Connecting to a Database..... 611  
Editing a JSP Database Connection ..... 612  
Deleting a JSP Database Connection..... 613

**Chapter 6: Configuring ColdFusion Database Connections . . . . . 615**

Pulling Together Database Connection Information..... 615  
Understanding How ColdFusion Connects to Databases ..... 616  
Adding a ColdFusion Database Connection ..... 616  
    Creating a new ColdFusion document ..... 616  
    Specifying RDS login information..... 617  
    Configuring a database connection with the ColdFusion  
    Administrator ..... 618  
    Configuring a database connection in Dreamweaver..... 620  
Editing a ColdFusion Database Connection ..... 621  
    Using Dreamweaver ..... 621  
    Using the ColdFusion Administrator ..... 622  
Deleting a ColdFusion Database Connection ..... 623

**Chapter 7: Dealing with Database Issues . . . . . 625**

Troubleshooting Basic Database Access ..... 626  
    Verifying contact with the database server ..... 626  
    Validating your database username and password ..... 627  
Problematic Permissions: IIS and File-Based Databases ..... 628  
Troubleshooting Microsoft Error Messages ..... 630  
    8004005: Data source name not found ..... 631  
    80040e07: Data type mismatch in criteria expression ..... 631  
    80040e10: Too few parameters..... 631  
    80040e14: Syntax error in INSERT INTO statement ..... 631  
    80040e21: ODBC error on Insert or Update ..... 631  
    800a0bcd: Either BOF or EOF is true ..... 632  
Troubleshooting JSP Database Connections ..... 632  
Identifying Problems within the Database ..... 632  
General Troubleshooting..... 633

***Book VIII: Making Pages Dynamic..... 635***

**Chapter 1: Preparing Dynamic Content Sources . . . . . 637**

Exploring Your Database in the Databases Panel ..... 638  
Defining Form Parameters..... 639  
Defining URL Parameters..... 641

|  |     |
|--|-----|
| Defining Session Variables .....           | 643 |
| Using a Database as Your Data Source ..... | 645 |
| Understanding recordsets .....             | 645 |
| Defining a recordset .....                 | 645 |

**Chapter 2: Using Dynamic Content in Your Web Pages . . . . . 649**

|   |     |
|---|-----|
| Displaying and Formatting Dynamic Content ..... | 649 |
| Adding dynamic text .....                       | 650 |
| Formatting your dynamic content .....           | 651 |
| Testing your dynamic text .....                 | 652 |
| Working with Database Recordsets .....          | 653 |
| Repeating regions on your page .....            | 654 |
| Repeating regions in HTML tables .....          | 656 |
| Adding a recordset navigation bar .....         | 658 |
| Showing and hiding regions on your page .....   | 660 |
| Adding Dynamic Form Elements to Your Page ..... | 660 |

**Chapter 3: Previewing and Testing Your Dynamic Pages . . . . . 663**

|   |     |
|---|-----|
| Viewing Live Data in Your Dynamic Web Pages .....     | 663 |
| Understanding how Live Data mode works .....          | 663 |
| Uploading dependent files to the testing server ..... | 665 |
| Providing parameters for user input .....             | 667 |
| Troubleshooting problems in Live Data mode .....      | 668 |
| Previewing a Dynamic Web Page in Your Browser .....   | 669 |

**Chapter 4: Building Dynamic Forms . . . . . 671**

|                                  |     |
|----------------------------------|-----|
| Inserting Text Fields .....      | 671 |
| Adding Check Boxes .....         | 673 |
| Working with Radio Buttons ..... | 674 |
| Inserting Lists and Menus .....  | 676 |

**Chapter 5: Advanced Dynamic Data Presentation . . . . . 677**

|   |     |
|---|-----|
| Using ColdFusion Components .....                       | 677 |
| Building Web pages that use ColdFusion components ..... | 678 |
| Creating ColdFusion components .....                    | 680 |
| Creating Custom Server Behaviors .....                  | 683 |

***Book IX: Developing Applications Rapidly..... 687***

**Chapter 1: Building Master and Detail Pages. . . . . 689**

|  |     |
|--|-----|
| Building Master and Detail Pages in One Operation<br>(PHP, ASP, JSP, ColdFusion) ..... | 690 |
| Developing Master and Detail Pages Block by Block .....                                | 694 |
| Creating the master page .....   | 694 |
| Setting up links to open a detail page .....   | 695 |
| Building detail pages .....  | 697 |

|   |     |
|---|-----|
| Developing Master and Detail Pages for ASP.NET..... | 700 |
| Creating a master page .....                        | 700 |
| Creating links that open the detail page .....      | 700 |
| Creating a detail page.....                         | 702 |
| Testing Your Master and Detail Pages.....           | 702 |

**Chapter 2: Creating Search and Results Pages . . . . . 705**

|   |     |
|---|-----|
| Creating the Search Page.....               | 705 |
| Building the Results Page .....             | 708 |
| Building the recordset.....                 | 708 |
| Displaying the results.....                 | 711 |
| Testing Your Search and Results Pages ..... | 712 |

**Chapter 3: Building Record Insert Pages and Restricting Site Access. . . . . 715**

|   |     |
|---|-----|
| Creating the Record Insert Page in One Operation..... | 716 |
| Building a Record Insert Page Block by Block .....    | 719 |
| Adding the form .....                                 | 719 |
| Adding the Insert Record server behavior .....        | 721 |
| Testing Your Record Insert Page.....                  | 722 |
| Building a Login Page .....                           | 724 |
| Setting up a database table .....                     | 724 |
| Creating the HTML form on the login page .....        | 724 |
| Adding a Log In User server behavior to the page..... | 724 |
| Restricting Access to Your Pages .....                | 725 |

**Chapter 4: Developing Record Update and Delete Pages . . . . . 727**

|   |     |
|---|-----|
| Building an Update Page.....                                    | 727 |
| Creating link to the update page.....                           | 728 |
| Putting the update page together.....                           | 730 |
| Testing Your Update Page.....                                   | 735 |
| Building Pages to Delete a Record .....                         | 737 |
| Creating delete links to open the confirmation page.....        | 738 |
| Defining the URL parameter to pass to the confirmation page.... | 738 |
| Building the confirmation page.....                             | 739 |
| Adding logic to delete the record.....                          | 742 |
| Testing Your Delete Page .....                                  | 744 |

***Index*..... 747**
