

## Index

$Mo(C)$  35  
 $SO(3)$  8, 230  
 $SU(2)$  30, 230  
 $\mathbb{H}$  19  
 $\mathbb{H}_1$  23  
 $so(3)$  233  
 $su(2)$  233

### a

adjoint operators 234  
 affine connection 74  
 Andoyer variables 88, 136, 195  
 angular momentum 54  
 angular velocity operator 45  
 angular velocity vector 46  
 axis of rotation 8

### b

base space 124  
 basis  
     holonomic 76  
     natural 76  
     vector space 1  
 bifurcation 149  
 bilinearity 95  
 bracket 92  
     classical Poisson 92  
     Lie bracket 229  
     Lie–Poisson 97  
     Poisson 95

### c

Cayley transform 13  
 Cayley–Klein parameters 31  
 change of basis 6  
 Chasles’ theorem 42  
 Christoffel symbols 73  
 closed form 85  
 commutator 232  
 conditionally stable 163  
 configuration space 60

conjugate 20  
 conjugation operator 234  
 constraint 99  
     acatastatic 101  
     catastatic 100  
     holonomic 99  
     ideal 119  
     nonholonomic 99  
     nonideal 119  
     rheonomic 100  
     sclereonomic 100  
 contraction 85  
     vector 85  
 covariant derivative 74  
 covector 1, 60, 85  
 curvature terms 107

### d

d’Alembert’s principle 72, 118  
 Darboux theorem 86  
 Dedekind cuts 18  
 differential manifold 60  
 differential structure 227  
 distribution 101, 118  
 dual vector space 1

### e

Ehresmann connection 124  
 ellipsoid of inertia 141  
 elliptic integral of the third kind 134  
 Euclidean 3  
 Euler equations 62, 64  
     generalized 64  
 Euler parameters 24  
 Euler top 129  
 Euler–Poinsot top 129  
 Euler–Rodrigues parameters 24  
 exact form 85  
 explicit Euler method 163

### f

fiber 124

- fiber bundle 123
- force of constraint 103
- frame 2
  
- g**
- generalized force 72
- generalized velocities 59
- geometric phase 143, 145
- gyroscopic terms 73
- gyrostat 148
  
- h**
- Hamilton's equations 84
- Hamilton's principle 69
- herpolhode 142
- holonomic basis 76
- Hopf fibration 125
  
- i**
- idempotent 10
- implicit Euler method 163
- inertia tensor 51
- infinitesimal generators of rotations 225
- inner product 3
- integrable distribution 101
- integral of motion 129
- invariable plane 142
- inverse 20
- involutory 37
- isospectral deformation 156
  
- j**
- Jacobi identity 95, 229
  
- k**
- kinematic equation 48
- kinematic equations 65
- Kowalevsky top 153
  
- l**
- Lagrange multiplier 102
- Lagrange top 145
- Lagrangian 59
- Lax equation 156
- Lax pair 156
- left invariant vector field 229
- Leibniz identity 95
- Lennard-Jones potential 211
- Levi-Civita connection 75
- Lie algebra 231
- Lie group 227
- Lie group methods 170
- line of the nodes 48
- linear operator 2
- Liouville tori 155
- Liouville-integrable 155
- locally trivial 124
  
- m**
- Möbius transformations 35
- matrix group 230
  
- n**
- natural system 72
- nonholonomic basis 76
- norm 20
- nutation 15
  
- o**
- orthogonal matrix 7
- outer product 85
  
- p**
- phase space 60
- pitch 16
- Poinsot Construction 141
- polhode 142
- precession 15
- principal axes 51
- principal moments of inertia 51
- projection method 104
- pure quaternion 21
  
- q**
- quasi-velocity 76
- quaternions 17
  - free rotation 116
  
- r**
- reduced equation 105
- reduction 104
  - reduced equation 105
- representation of a covector 2
- representation of a vector 2
- Riemann sphere 31
- right trivialization 239
- rigid body motion 39
- rigid body transformation 39
- RK4MK method 173
- Rodrigues triangle 26
- roll 16
- rolling disc 111
- rolling sphere 108
- rotation reversal 29
- Runge-Kutta methods 166
  
- s**
- scalar part 20
- screw pitch 43
- screw transformation 43
- SE method 173
- singular value decomposition 121
- skew-symmetry 95
- special orthogonal group 8
- special unitary matrices 30
- spin 15

standard basis 7  
state space 60  
Steiner's theorem 52  
stereographic projection 31  
SVD 121  
symplectic form 86

**t**

tangent manifold 60  
tangent map 228  
tangent space 228  
top 65  
    Euler 129  
    Kowalevsky 153  
    Lagrange 145  
torque 62  
total space 124  
translation 40, 229  
transposition of rotations 29  
triangle equalities 51  
two-wheeled robot 114

**u**

unconditionally stable 163  
unconstrained 72  
unit quaternion 21

**v**

variation 69  
vector field 229  
vector part 20  
vector product 7  
vector space 1  
vertical vectors 124  
virtual displacement 118

**w**

wedge product 85  
wobblestone 183

**y**

yaw 16
