

Index

Note to the Reader: Throughout this index **boldfaced** page numbers indicate primary discussions of a topic. *Italicized* page numbers indicate illustrations.

A

- A (host) records
 - in DNS, **390–394**, *391*
 - in zone file format, **424**
- /a switch
 - in defrag, **881–882**
 - in NTBACKUP, **1526–1527**
 - in tskill, **1295**
 - in winnt, **125**
- A switch in nbtstat, **342**
- AAS files, **994**
- absolute path for shortcuts, **814–815**
- Accept Any Authentication Including Clear Text option, **1612**
- access control. *See* permissions; security
- access control entries (ACEs)
 - for permissions, **729–731**, *730–731*
 - for shares, **924**
- Access Control Lists (ACLs), **30–31**
 - for permissions, **729–731**, *730–731*
 - for policies, **757–759**, *758*
 - for Registry keys, **91–92**
 - for security groups, **709**
 - ADMT tool for, **640–641**
 - in migration, **617**
 - for shares, **924**
- Access Control Settings for Computers dialog box, **172**
- Access tab
 - for NNTP servers, **1373–1376**, *1374*
 - for SMTP servers, **1389–1392**, *1389*
 - for Windows Services, **1221**
- Access this computer from the network right, **734**
- accessibility options, **107**
- Accessories, profile settings for, **799**
- Account Is Disabled option, **693**, **699**
- Account Is Locked Out option, **698**
- Account Is Sensitive and Cannot Be Delegated option, **699**
- Account Is Trusted for Delegation option, **699**
- Account Lockout Duration option, **778**
- Account Lockout Threshold option, **778**
- Account Operators group, **719**
- Account Policies category, **771**
- Account tab, **697–699**, *697*, **704–705**, *704*
- Account Transition Options screen, **638–639**, *639*
- accounts
 - auditing management of, **605**
 - computer, **101–102**, **114–115**, **170**
 - user. *See* users and user accounts
- ACEs (access control entries)
 - for permissions, **729–731**, *730–731*
 - for shares, **924**
- ACLs (Access Control Lists), **30–31**
 - for permissions, **729–731**, *730–731*
 - for policies, **757–759**, *758*
 - for Registry keys, **91–92**
 - for security groups, **709**
 - ADMT tool for, **640–641**
 - in migration, **617**
 - for shares, **924**
- Act as part of the operating system right, **734**
- Action tab, **1470**, *1470*
- actions in IPSec, **283**, **288–290**, *288–289*
- Activate Scope screen, **315**, *315*
- activation, **111–113**
 - DHCP scopes, **315–316**, *315–316*
 - ICS, **269–270**, *269–270*
 - in licensing, **1274–1278**, *1274–1278*
- Active Desktop, **1265**
- Active Directory, **473–474**
 - for auditing, **603–611**, *607–608*
 - backing up, **1536**
 - certificates for. *See* certificates
 - cleaning out, **643–644**
 - for connectivity, **484–485**, **1130–1132**
 - for contacts, **546–547**
 - defragging database for, **641–642**
 - for delegation, **481–483**, **652**
 - DHCP servers for, **307–309**, *308*
 - DNS for, **366–367**, **471–472**, **549–555**, *554*, **652–653**
 - for domain controllers, **650**
 - for domains, **488–490**
 - first, **509–522**, *512–521*
 - names of, **651–652**
 - in planning, **651–652**
 - second, **522–524**, **544–546**, *544–545*
 - for empty root, **505–507**
 - for forests, **502–507**, *502*
 - administrators for, **525–535**, *525–526*, *531–535*
 - global catalogs for, **495**
 - synchronization in, **569–571**
 - FTP user isolation with, **1360–1363**, *1361*
 - functional levels in, **596–600**, *597*

- for group policies, 487, 498, **600–603**, 652
- for groups, 490
 - changes to, 649–650
 - inside groups, 491–496, 492–494
 - size of, 496
- improvements in, 9–13
- inheritance with, 932–933, 933
- logons under, 507–508
- for migration. *See* migration
- for namespace unification, **485–486**
- and operations masters. *See* FSMOs (Flexible Single Master of Operators)
- for OUs, 496–500
- planning, 651–653
- for political needs, **483–484**
- for printers, **1073–1075**, 1074–1076, 1089
- renaming domains in, 644–649
- replicating, **484–485**
 - inter-site, 593–596, 593–595
 - local. *See* local Active Directory replication
 - selective, 12–13
- restoring, 1536–1540, 1537
- RIS authorization in, 151–152, 151–152
- for searches, 479–480
- for security, 474–479
- for shared folders, 547–549, 548
- for shares, 919–920
- for sites, **500–501**, 589–593, 590–592, **651**
- split-brain DNS for, 447–448
- for subadministrators, **480–481**
- for support tools, **486–487**
- time zones for, 114
- for trees, 501–502
- Windows 9x and Me workstations access to, **1156–1157**
- Windows NT workstation access to, 1149
- Active Directory Application Mode (ADAM), 439
- Active Directory Domains and Trusts tool, 525
 - for domain naming, 563
 - for forest functional levels, 599
 - for transitive forest trusts, 625–626, 626
 - for UPN suffixes, 528
- Active Directory Installation Wizard
 - for child domains, 544–545, 544–545
 - for domain controllers, 512–522, 512–521
 - for trees, 503
- Active Directory Integrated authentication, **1403**
- Active Directory-integrated zones, **416–418**, 417, **436**
 - creating, **436–437**, 437
 - multimaster zone replication in, **437–438**
 - problems in, **441–442**
 - replication control in, **438–440**, 439
 - secure DDNS registration in, **440–441**
- Active Directory Migration Tool (ADMT), 618, **629**
 - for ACLs, **640–641**
 - example, 629–630
 - migration process with, **633–640**, 634–640
 - setup for, **630–633**, 633
 - testing migration with, **637–638**
 - for trusts, 630
- Active Directory Schema object, 560
- Active Directory Sites and Services tool, 525
 - for domain controllers, 584–585, 585
 - for GC servers, 530–531, 532
 - for replication, 573–574, 574, 593–594, 593
 - for RSOP, 786
 - for sites, 590, 590
 - for subnets, 592, 592
- Active Directory Users and Computers tool, 114
 - for Administrator and Guest account, **689–690**
 - for delegation, 540–541, 541
 - for domain accounts, **686–687**
 - for functional levels, 597
 - functions in, **687–689**, 688–689
 - for groups
 - creating, **706–709**, 707–709
 - security, **714–717**, 715–717
 - for MSI packages, 1009, 1009
 - for printers, 1112
 - for RIS, 166
 - for roaming profiles, 802
 - for root, 506
 - for RSOP, 786
 - for shares, 549, 919
 - for Terminal Services client connections, 1254, 1254
 - for user accounts, 28, **525–526**, 525–526, 684
 - creating, **690–693**, 691–693
 - managing, **703–705**, 704
 - properties for, **693–703**, 694–700
- active partitions, 831
- Active Registrations folder, 357
- Active Server Pages (ASP) for SMTP servers, **1400–1401**
- active sessions for Terminal Services clients, 1257
- ADAM (Active Directory Application Mode), 439
- adapters
 - drivers for, **183–184**
 - MAC addresses for, 485
 - multiple IP addresses for, **242–243**, 242
 - for RIS, 147
 - in routers, 198
 - for Terminal Services, 1239
 - for Windows 9x and Me workstations, 1150–1151, 1151
 - for Windows XP workstations, 1132, 1133
- Adapters and Settings tab, 219

- Add a Group Policy Object Link dialog box, 753–754, 754
- Add a New Installation Image option, 168
- Add a New Web Service Extension option, 1338
- Add Catalog dialog box, 1419, 1419
- Add Counters dialog box, 1447–1448, 1447, 1469
- Add dialog box
 - for groups, 538
 - for templates, 740
- Add Directory dialog box, 1419–1420, 1420
- Add Excluded Files dialog box, 1506–1508, 1507
- Add Exclusions screen, 310–311, 310
- Add from Store option, 680
- Add Group dialog box, 743
- Add Group option, 755
- Add Hardware Wizard, 1586–1587, 1587
- Add Mailbox dialog box, 1405, 1405
- Add Mirror dialog box, 861, 861
- Add more client drivers option, 1114
- Add more ports option, 1114
- Add Network Adapter dialog box, 1159, 1159
- Add Network Place Wizard
 - for Windows 2000 Professional workstations, 1142, 1142
 - for Windows XP workstations, 1136, 1138–1139
- Add Network Share Alias Automatically option, 1418
- Add New Application Pool dialog box, 1342–1343, 1343
- Add New Connection option, 1300
- Add New Hardware Wizard, 1132
- Add New option, 1506, 1508
- Add New Quota Entry dialog box, 902, 902
- Add Newsgroup dialog box, 1380
- add option in netdom, 621–622
- Add or Remove a Role option, 1242
- Add Port option, 1121
- Add Port screen, 1070, 1070
- Add Printer Driver Wizard, 1123
- Add Printer Wizard
 - for client connections, 1086–1090, 1086, 1088–1090
 - for print server installation, 1065–1069, 1065–1069
 - for shared printers, 1072–1073, 1072–1073
- Add Protocol option, 1160
- Add RAS Device dialog box, 1632, 1632
- Add/Remove Programs dialog box
 - for IIS, 1306
 - for publishing, 995, 1013–1014, 1014
 - restricting, 775
- Add/Remove Snap-in dialog box, 57–59, 58, 60, 558, 663
- Add/Remove Templates dialog box, 772, 773
- Add/Remove Windows Components tool
 - for DHCP, 306
 - for IIS, 1078
- Add Scheduled Task option, 1658
- Add Standalone Snap-In dialog box, 58, 558, 663
- Add Standard TCP/IP Printer Port Wizard, 1070–1071, 1070–1071
- Add tab in Software Console, 1054–1055, 1054–1056
- Add to a Group option, 709
- Add to Domain option, 114
- Add Upgrade Package dialog box, 1005, 1005, 1033, 1033
- Add User or Group option, 733
- Add workstations to domain right, 734
- Additional Port Information Required screen, 1071, 1071
- AddPrinterConnection method, 1095
- Address Assignment Range screen, 275, 275
- Address Assignment tab, 279, 279
- Address Leases folder, 325, 325
- Address Range Assignment screen, 1600, 1600
- address ranges
 - in NAT, 275, 275, 278–279, 279
 - in RRAS, 1600, 1600
- Address Resolution Protocol (ARP), 199
- Address tab, 694, 695
- addresses
 - IP. *See* IP addresses
 - MAC, 196–198, 304–305, 485
- addusers utility, 705
- AddWindowsPrinterConnection method, 1095–1096
- Adjust for Best Performance option, 1489
- ADM files (administrative templates)
 - folder for, 746
 - group policies for, 772–776, 773–774, 776
- Admin Pack tools, 686
- ADMIN\$ share, 955–956
- administrative installs
 - process, 1019–1020, 1020–1021
 - updating, 1021–1024, 1022–1023
- administrative/resource model, 619
- administrative shares, 955–956
- administrative templates (ADM files)
 - folder for, 746
 - group policies for, 772–776, 773–774, 776
- Administrative Templates folder, 772–774, 778
- Administrative Templates node, 765, 767
- Administrator account, 684, 689–690
 - locking out, 1439
 - renaming, 685, 1440–1441
- Administrator Password screen, 129–130, 129
- administrators
 - ADMT for, 631
 - for domains, 235–236
 - for encryption, 895
 - forest-wide, 525–535, 525–526, 531–535
 - passwords for, 113, 129–130, 236
 - for Sysprep program, 186
 - in trusts, 620

- Administrators group, 685
 - nesting in, 714–715
 - rights in, 719
- Administrators Have Full Control; Other Users Have Read and Write Access option, 918
- Administrators Have Full Control; Other Users Have Read-Only Access option, 918
- Administrators properties dialog box, 714–715, 715
- adminpak.msi file, 4
 - publishing, 1008–1014, 1009–1014
 - redeploying, 1014–1015, 1015–1016
- AdminPassword setting, 134
- ADMT (Active Directory Migration Tool), 618, 629
 - for ACLs, 640–641
 - example, 629–630
 - migration process with, 633–640, 634–640
 - setup for, 630–633, 633
 - testing migration with, 637–638
 - for trusts, 630
- adprep command, 614–615
- ADSL (Asymmetric Digital Subscriber Line), 1584
- Advanced Attributes dialog box
 - for encryption, 893–894, 893
 - for Indexing Service, 1420, 1420
- Advanced Certificate Request screen, 672, 672
- Advanced Connection Properties dialog box, 1590–1591
- Advanced Delivery dialog box, 1394–1396, 1395
- Advanced Deployment Options dialog box, 1004, 1004
- Advanced Features option, 540–542
- Advanced Options menu, 1549–1550
 - for boot logging, 1553–1554
 - for Debugging mode, 1554
 - for Last Known Good Configuration, 1551–1553, 1552
 - for Safe Modes, 1550–1551
 - for VGA mode, 1553
- Advanced Research Projects Agency (ARPA), 190–191
- Advanced Restore Options screen, 1534–1537, 1535, 1537
- Advanced Schedule Options dialog box, 1512, 1513
- Advanced Security Settings dialog box for routing, 1653–1654, 1653
- Advanced Security Settings for dialog box
 - for auditing, 952, 952, 1104–1107, 1105, 1107
 - for ownership, 946–950, 947–949
 - for permissions, 731, 937, 939, 943–944, 943–945
 - for Terminal Services, 1268, 1269
- Advanced Security Settings for Computers dialog box, 172
- Advanced Settings dialog box
 - for Internet gateways, 1623–1624, 1623
 - for network binding order, 219
- Advanced tab
 - for DDNS registrations, 430, 430
 - for DHCP classes, 318, 319
 - for DNS
 - queries, 451
 - round-robin, 393, 393
 - for ICS, 269–270, 269–270, 272
 - for Internet gateways, 1622–1623, 1622
 - for permissions, 931, 937
 - for printers
 - hours, 1098, 1099
 - logging, 1124, 1124
 - searches, 1074, 1076
 - spooling, 1062, 1117, 1117
 - for SMTP server domains, 1398, 1398
 - for software deployment, 1000–1001, 1001, 1010, 1011
 - for Terminal Services, 1487
 - for trace logs, 1468, 1468
 - for WINS
 - logging and burst mode, 351–352, 352
 - replication, 354–356, 354–355
 - for zone transfers, 414
- Advanced TCP/IP Settings dialog box, 238–243, 238, 240, 242
 - for automatic metrics, 248
 - for DDNS registrations, 436
 - for NFA, 1674, 1675
 - for NLBC, 300–301, 301
 - for RAS, 1591–1592, 1592
- Advanced Web Site Identification dialog box, 1320, 1320
- Advertise only if the OS understands MSI Files option, 1049
- .aero domain, 371
- AHs (Authentication Headers) in IPSec, 282
- Alert Logs folder, 1469–1470
- alerts, logs for, 1468–1472, 1469–1471
- Alias (CNAME) tab, 399–400, 400
- aliases
 - for FTP sites, 1356–1358, 1356–1358
 - for SMTP servers, 1396–1397
 - in Web sharing, 977–978
 - for Web sites, 1334–1335, 1335
- Aliases (CNAME) records
 - in DNS, 398–400, 400
 - in zone file format, 425
- All Files and Programs That Users Open From the Share Will Be Automatically Available Offline option, 984
- All ICMP Traffic filter, 286
- All IP Traffic filter, 286
- All Other DNS Domains option, 455
- All Tasks option, 1017
- All Unassigned option, 1314
- All Users directory, 797
- All Users folder, 801–802
- All Users Have Read-Only Access option, 918

- Allow Access option, 1601
- Allow All Computers Which Successfully Authenticate to Relay option, 1392
- Allow Anonymous Access to This Web Site option, 1316
- Allow Anonymous Connections option, 1352
- Allow Both Nonsecure and Secure Dynamic Updates option, 407
- Allow Client Posting option, 1372
- Allow Control Messages option, 1373
- Allow Dynamic Updates option, 427
- Allow Feed Posting option, 1373
- Allow Incoming Mail to be Relayed to This Domain option, 1397
- Allow Inheritable Permissions from Parent to Propagate to This Object option, 931–932, 937, 941
- Allow Logon to Terminal Server option, 1260
- Allow Only Anonymous Connections option, 1352
- Allow Other Network Users to Connect through This Computer's Internet Connection option, 270, 272, 1622
- Allow permissions for shares, **924–925**, 933
- Allow Posting option, 1377
- Allow Print Spooler to Accept Client Connections policy, 1111
- Allow Printers to be Published policy, 1109
- Allow Processing Across a Slow Network Connection option, 783, 785
- Allow <Protocol>-Based Remote Access and Demand Dial Connections option, 1606
- Allow Pruning of Published Printers policy, 1109
- Allow Servers to Pull News Articles from This Server option, 1373
- Allow the Focus of the Group Policy to Be Changed option, 748
- Allow the User to Customize Views option, 75
- Allow This Number of Users option, 915
- Allow Time Zone Redirection option, 1264
- AllowAllPaths option, 1561
- AllowRemovableMedia option, 1561
- AllowWildCards option, 1561
- #ALTERNATE command, **346**
- Alternate Phone Numbers dialog box, 1593, 1594
- Always Available Offline option, 985
- Always move new import media to the Backup media pool option, 1510
- Always Update DNS option, 429
- American Registry for Internet Numbers (ARIN), 200
- Amount of Time Clients Cache This Referral in Seconds setting, 967
- analog modems for RAS, **1582–1583**
- Analysis Report dialog box, 878–879, 879
- Analyze Computer Now option, 744
- AND operator in Indexing Service queries, 1423
- angle brackets (<>) for tags, 162
- Anonymous access
 - in ADMT, **631**
 - for NNTP servers, 1375
 - for SMTP servers, 1390
- anonymous FTP, 1351–1352, 1363, 1365
- ANONYMOUS LOGON group, 722
- answer files, **125–135**, 126–132
- Anyone Who Uses This Computer option, 1621
- Apache package, 1303
- APCs (asynchronous procedure calls), 1454
- APIPA (Automatic Private IP Addressing) feature, 264
- APIs (Application Programming Interfaces), **337–338**, **904**
- APNIC (Asia Pacific Network Information Center), 200
- Append Data permission, 927, 929
- Append or replace existing backup sets option, 1503
- appending with backups, 1528
- Apple Clear Text option, 1185–1186
- Apple Clear Text or Microsoft option, 1186
- Apple Encrypted option, 1185–1186
- Apple Encrypted or Microsoft option, 1186
- Apple System Profiler program, 1174, 1174
- AppleShare Client, 1176
- AppleShare IP (ASIP), 1219
- AppleTalk operating system
 - disabling, 1200, 1201
 - features, **1176–1178**
- Application Data folder
 - in folder redirection, 767–768
 - in user profiles, 798
- Application logs, 1474
- Application Name setting, 1324
- application order of group policies, **755–757**, 756
- application partitions, 13
- Application Pool setting, 1324
- application pools, **1339–1340**
 - creating, **1342–1344**, 1343
 - properties for, **1340–1342**, 1340–1342
- Application Programming Interfaces (APIs), **337–338**, **904**
- Application Properties dialog box, 1477, 1478
- applications
 - deployment. *See* software deployment
 - group policies for, 603
 - Task Manager for, **1482**, 1482
 - in Terminal Services. *See* Terminal Services
 - in Web site security, 1324
- Applications subkey, 1284–1285, 1285, 1287
- Applications tab in Task Manager, 1482, 1482
- Apply Group Policy option, 1010
- Apply Group Policy permission, 602
- APPS folder, 913
