***Introduction*..... 1**

About This Book.....	1
What's New in Dreamweaver CS3?.....	2
Using Dreamweaver on a Mac or PC.....	3
Conventions Used in This Book.....	4
What You're Not to Read.....	5
Foolish Assumptions.....	5
How This Book Is Organized.....	6
Part I: Creating Great Web Sites.....	6
Part II: Appreciating Web Design Options.....	6
Part III: Making It Cool with Multimedia and JavaScript.....	7
Part IV: Working with Dynamic Content.....	7
Part V: The Part of Tens.....	7
Icons Used in This Book.....	8
Where to Go from Here.....	8

***Part 1: Creating Great Web Sites* 9**

Chapter 1: The Many Ways to Design a Web Page 11

Comparing Web Designs.....	12
Appreciating the advantages of CSS.....	12
Reviewing old-school designs.....	15
Considering frame options.....	16
Creating dynamic Web sites.....	17
Understanding Browser Differences.....	19
Developing a New Site.....	20
Managing your site's structure.....	20
Preparing and planning a Web site.....	22
Customizing the Workspace in Dreamweaver CS3.....	23
The Document window.....	24
Customizing the interface.....	25
The Insert bar.....	25
The Property inspector.....	26
The docking panels.....	27
The menu bar.....	28
The status bar.....	28

Chapter 2: Opening and Creating Sites in Dreamweaver 29

Setting Up a New or Existing Site.....	29
Defining a Web site in Dreamweaver.....	30
Editing and managing multiple sites.....	32

Creating New Pages	34
Naming Web Pages	36
Designing your first page.....	37
Creating a headline.....	37
Changing fonts and text sizes	38
Adding paragraphs and line breaks	40
Adding images	41
Setting Links.....	47
Linking pages within your Web site	48
Setting links to named anchors within a page.....	50
Linking to another Web site	51
Setting a link to an e-mail address.....	53
Changing Page Properties	54
Adding Meta Tags for Search Engines	57
Previewing Your Page in a Browser	59
Chapter 3: Adding Graphics	61
Creating and Optimizing Web Graphics	62
Choosing the best image format	63
Saving images for the Web	63
Optimizing JPEG images in Photoshop.....	64
Optimizing GIF images in Photoshop.....	66
How small is small enough?	68
Inserting Images in Dreamweaver	70
Aligning Images on a Page.....	71
Centering an image.....	71
Aligning an image with text wrapping	72
Creating complex designs with images	74
Image Editing in Dreamweaver.....	75
Cropping an image	76
Adjusting brightness and contrast.....	76
Sharpening an image.....	78
Optimizing images in Dreamweaver	78
Inserting a Background Image	80
Creating Image Maps	81
Chapter 4: Managing, Testing, and Publishing a Site	85
Testing Your Site in Different Browsers.....	86
Understanding browser differences.....	88
Using Dreamweaver's Browser Compatibility feature	89
Testing Your Work with the Site Reporting Features.....	90
Finding and Fixing Broken Links	93
Checking for broken links.....	94
Fixing broken links	94
Changing and moving linked files.....	98
Publishing Your Site to a Web Server	100
Setting up Web server access for FTP	102
Putting your Web site online.....	104

Synchronizing Local and Remote Sites	107
Setting Cloaking Options	109
Making the Most of Dreamweaver's Site Management Features.....	111
Using a testing server	111
Using Check In and Check Out.....	111
Staying in touch with integrated e-mail.....	113
Using Design Notes	114
Activating Site Map Layout	117
Using the File View Columns option	119
Enabling Contribute features	121
Remembering Your History	121
Using the Quick Tag Editor	122

Part II: Appreciating Web Design Options 125

Chapter 5: Cascading Style Sheets 127

Introducing Cascading Style Sheets.....	128
Understanding the basics of styles	129
Looking at the code behind the scenes.....	130
Creating Styles in Dreamweaver	132
Defining a new style	132
Applying styles in Dreamweaver	136
Removing styles in Dreamweaver	137
Redefining HTML tags.....	137
Changing link styles	139
Creating advanced styles	141
Managing conflicting styles.....	141
Editing an existing style.....	143
Comparing CSS Rule Options.....	143
The Type category	144
The Background category	145
The Block category	147
The Box category	148
The Border category	149
The List category.....	150
The Positioning category	151
The Extensions category.....	153
Using External Style Sheets.....	153
Creating an external style sheet	154
Linking to an external style sheet	155
Editing an external style sheet	156
Applying ready-made external style sheets	158
Appreciating the CSS Styles panel.....	159
Using Design Time Style Sheets	162

Chapter 6: Creating CSS Layouts	163
Using CSS for Page Layout	163
Creating designs using the box model	164
Comparing margins and padding	168
Displaying CSS in different browsers	170
Creating a CSS Layout	171
Creating Styles to Align Images	178
Styling an Unordered List for Links	181
Working with AP Divs	186
Creating AP Divs	187
Adding elements, resizing, and repositioning layers	188
Stacking and changing visibility of AP Divs	190
Nesting AP Divs: One happy family	192
Setting AP Div options	194
Using Dreamweaver's CSS Layouts	196
Chapter 7: Coming to the HTML Table	199
Creating HTML Tables	200
Creating Tables in Standard Mode	202
Merging and splitting table cells	206
Controlling cell options	207
Formatting multiple columns in a table	209
Sorting Table Data	211
Importing Table Data from Other Programs	212
Using Tables for Spacing and Alignment	214
Using tables to design forms	214
Using nested tables: Tables within tables	218
Chapter 8: Framing Your Pages	219
Appreciating HTML Frames	219
Understanding How Frames Work	222
Creating a frame in Dreamweaver	223
Saving files in a frameset	226
Setting Targets and Links in Frames	229
Naming frames	229
Setting links to a target frame	231
Comparing target options	232
Changing Frame Properties	234
Changing frame borders	234
Changing frame sizes	236
Changing scrolling and resizing options	236
Setting margin height and width	237
Chapter 9: Coordinating Your Design Work	239
Templating Your Type	239
Creating Templates	240
Creating editable and uneditable regions	240
Creating a new template	242

Saving any page as a template	245
Making attributes editable	247
Creating a new page from a template	249
Making Global Changes with Templates	250
Identifying a template	251
Attaching and detaching templates	252
Reusing Elements with the Library Feature	253
Creating and using Library items	254
Editing one instance of a Library item	257
Creating Predesigned Pages with Dreamweaver's Design Files	258
Using a Tracing Image to Guide Your Layout	260

***Part III: Making It Cool with Multimedia and JavaScript*263**

Chapter 10: Adding Interactivity with Behaviors265

Creating a Rollover Image	267
Creating Swaps with Multiple Images	269
Using the Open Browser Window Behavior	275
Attaching multiple behaviors	277
Editing a behavior	277
Installing New Extensions for Behaviors.....	278

Chapter 11: Showing Off with Multimedia281

Understanding Multimedia Players	282
Working with Adobe Flash	283
Adding Flash buttons and text with Dreamweaver.....	283
Using scripts to make Flash function better	284
Creating Flash text with Dreamweaver	284
Creating Flash buttons with Dreamweaver	286
Inserting Flash files	288
Setting options for Flash.....	289
Working with Video and Audio on the Web	292
Comparing popular video formats	294
Comparing popular audio formats.....	295
Adding Audio and Video Files to Web Pages	296
Linking to audio and video files.....	297
Inserting audio and video files	298
Setting options for audio and video files.....	299
Setting multimedia parameters	300
Adding Flash audio and video files	302
Working with Java	305
Inserting Java applets	305
Setting Java parameters and other options.....	306
Use PDFs When They're Warranted.....	307

Chapter 12: Forms Follow Function309

Creating HTML Forms.....	310
Creating radio buttons and check boxes	313
Adding text fields and text areas.....	315
Creating drop-down lists	318
Finishing your form with Submit and Reset buttons	320
Using jump menus	322
Understanding How CGI Scripts Work.....	323
Configuring your form to work with a script	324
Using hidden fields.....	327

Part IV: Working with Dynamic Content.....329**Chapter 13: Building a Dynamic Web Site: Getting Started331**

Understanding the Dynamic Web Site	332
Talking the Talk: Key Concepts	333
Database applications	335
Dynamic Content Technologies Supported by Dreamweaver.....	335
ASP	336
ASP.NET	336
JavaServerPages (JSP).....	337
ColdFusion MX.....	337
PHP	337
Spry	337
Serving Dynamic Web Pages.....	338
Setting up a local Web server	338
Giving permission.....	339
Setting up Dreamweaver for Windows	342
Setting up Dreamweaver for Mac users.....	345

Chapter 14: Bringing Data into the Mix347

Exploring the Panels	347
The Databases panel.....	348
The Bindings panel.....	349
The Server Behaviors panel.....	350
The Components panel.....	353
Creating a Recordset	353
Using a Recordset on Your Page	356
Repeating a Region	358
Adding a Dynamic Image.....	358
Binding the Image	360
Adding Navigation to a Dynamic Page	362
Creating a Master-Detail Page Set	364

Chapter 15: Using Forms to Manage Your Dynamic Web Site 367

Establishing User Authentication	367
Creating a login page.....	368
Restricting access to pages.....	371
Securing Sensitive Information on Your Web Site.....	372
Searching for Database Records	373
Setting up the search page.....	374
Setting up the results page.....	374
Editing a Database from a Browser.....	376
Adding a record to your database.....	377
Updating a record using a browser	379
Validating user input with Spry validation widgets	382
E-Commerce Basics.....	386
What puts the e-commerce into an e-commerce Web site?	387
Adding e-commerce extensions to Dreamweaver.....	388

Part V: The Part of Tens*389*Chapter 16: Ten Resources You May Need 391**

Registering a Domain Name.....	391
Choosing a Web Hosting Service.....	392
Selling Stuff on the Web.....	394
Keeping Track of Traffic	394
Survey Your Visitors	395
What Font Is That?	395
Save Time with Templates	395
Keep Up with Web Standards at W3.org.....	396
Extend Dreamweaver at Adobe.com	396
Dress Up the Address Bar with a Favicon.....	396
Find Out More from Other Web Designers.....	396

Chapter 17: Ten Timesaving Tips 397

Design for Your Audience.....	397
Create a Consistent Design	398
Follow the Three Clicks Rule	399
Get a Head Start on Your Designs	399
Split the View.....	400
Design in a Flash.....	400
Find Functional Fonts	401
Keep Frequently Used Items Handy.....	401
Be Prepared for Fast Updates.....	402
Back It Up.....	403

Chapter 18: Ten Great Web Sites Designed in Dreamweaver405

An Artist Showcase	406
A Powerful Yoga Site	407
Sage Words on the Web	408
The Memory Keeper's Daughter	409
Lights, Camera, Multimedia	410
A Sure Shot of Entertainment	411
A Delicious Blog Edited in Dreamweaver	412
Showcasing a Portfolio	413
My Growing Digital Family	414
Yours Truly	415

***Index*.....417**
