Introduction	xxi
Chapter 1: Setting Up Your Site Hierarchy	1
Overview	2
Site Hierarchy	3
SMS Server Roles	3
Connecting Child Sites to Parent Sites	4
Installing a Secondary Site	4
Attaching a Child Site to a Parent Site	11
Site Boundary Management	12
Roaming Boundaries	12
Active Directory	14
Summary	15
Chapter 2: Specifying and Managing Site System Roles	17
Management Point	18
Client Access Point	22
Distribution Point	25
Distribution Point Groups	26
Protected Distribution Points	27
Server Locator Point	29
Reporting Point	31
Summary	32
Chapter 3: Managing SMS Security	33
Security Modes	34
Advanced Security Mode	34
Standard Security Mode	34
Security Levels	35
SQL Security	35
WMI Security	35
IIS Security	35
Standard Security Mode	35

Contents

Advanced Security Mode	36
SMS Accounts	36
Common Accounts for Both Modes	36
Providing a Secure Infrastructure	41
Configuring Connection Accounts	41
Client Connection Accounts	41
Site System Connection Accounts	42
Managing Object/Class Level Security Rights	42
Summary	51
Chapter 4: Configuring Site Settings	53
Addresses	53
Senders	59
Component Configuration	60
Software Distribution	60
Status Reporting	61
Management Point	62
Site Maintenance	63
SQL Commands	65
Summary	66
Chapter 5: Specifying Discovery Methods	67
Windows User Account Discovery	68
Windows User Group Discovery Method	70
Heartbeat Discovery Method	72
Network Discovery Method	73
Active Directory System Discovery	77
Active Directory User Discovery	79
Active Directory System Group Discovery	81
Third-Party Discovery Tools	83
Enhanced System Discovery	83
Enhanced AD User Discovery	83
Summary	83
Chapter 6: Enabling Client Agent Settings	85
What Is an Agent?	85
The Hardware Inventory Agent	86
The Software Inventory Agent	89

 Contents

The Remote Tools Client Agent	93
Advertised Programs Client Agent	98
Software Metering Client Agent	100
Site Maintenance Software Metering tasks	102
Summary	102
Chapter 7: Client Installation Methods	103
Client Push Installation	103
Client Installation through Group Policy	107
Manually Installing the Client Using CCMSetup.exe	108
Command-Line Switches	108
Installation Properties	109
Prestaging the SMS Client on a Desktop Image	111
Additional Client Deployment	111
Using ORCA to Customize client.msi	112
Summary	115
Chapter 8: Managing Collections	117
Creating a New Collection	117
Creating a Direct Membership Rule	118
Query-Based Membership Rules	120
Query-Based Membership Rule Criteria	122
Limiting Queries	125
Updating Collections	126
Replicating Collections Between Hierarchies	127
Moving a Collection	129
Deleting Objects from a Collection	130
Viewing Advertisements Targeted to a Collection	131
SMS Collection Structure and Management	132
Summary	133
Chapter 9: Creating and Distributing Packages	135
Creating a New Package from a Definition File or an MSI	136
General Package Information	136
Specifying a Data Source	137
Configuring Programs	140
Tricks	143
Summary	144

Contents

Chapter 10: Creating Advertisements	145
Stop! Consider Change Management	145
Creating a Basic Advertisement	146
The Include Members of Subcollections Checkbox	147
Scheduling Advertisements	148
Expiring an Advertisement	152
Setting the Priority of an Advertisement	152
Advanced Client Options	153
Organizing Advertisements	154
Summary	155
Chapter 11: Configuring Software Metering Rules	157
Software Metering Rules Properties Dialog Box	157
Disabling a Software Metering Rule	159
Viewing Software Usage Reports	159
Default Reports for Software Metering	160
Verify Software Metering Is Installed	162
Summary	162
Chapter 12: Providing Console and Web-Based Reporting	163
Reports	163
The Report Viewer	164
Create a Reporting Point	164
Creating and Running Reports	164
Report Types	165
Filtering	165
Running a Report	166
Cloning a Report	166
Report Prompts	167
Exporting and Importing Reports	167
Report SQL Statement Dialog Box	168
Creating Reports	168
Scheduling Reports	169
Dashboards	170
Creating Dashboards	171
SQL Versus WQL	173
Providing Custom Consoles	175
Providing Access to Web Reports	176
Summary	176

Contents

Chapter 13: Managing Software Updates	177
Installing the ITMU	178
Synchronizing the WSUSScan.cab	187
Distribute Software Updates Wizard	187
Verifying the Results of the ITMU	193
Reports	193
Status Messages	193
Summary	194
Chapter 14: Troubleshooting	197
Preventing Problems	197
Do I Really Need to Do All That?	200
Understand the Structure of the SMS Client and Server	200
The SMS Client Folder Structure	200
The Folder Structure for the SMS Site Server	200
Other Site System Folders	202
SMS Status Messages	202
Drilling into a Problem in the Site Status View	203
Viewing Status Messages with SMS 2003 Web Reports	206
Client Status Messages	208
SMS 2003 Logs, Where Troubleshooting Begins	214
SMS Site Server Logs	215
Management Point Logs	218
The Legacy Client Logs	219
The Advanced Client Logs	220
Monitoring Client Health	223
Repairing Client Issues	224
Intersite Communication Issues	224
Summary	226
Chapter 15: Using Third-Party Solutions	227
www.myITforum.com	227
www.FAQshop.com	228
www.sms-alliance.com	228
1E	228
Macrovision Corporation	229
Intrinsic Technologies	229
PS'SOFT	229
Vintela	229
iAnywhere	229

Contents

SMSView	230
SMS 2003 Monster MOF	231
SMS 2003 Web Remote Tools	233
Corey Becht's Right Click Tools	245
myITforum Code Repository	246
Microsoft SMS Toolkit 2	247
The IIS Lockdown 2.1 Template	247
URLScan 2.5 Template	248
Policy Spy	248
SMS Trace	248
Advanced Client and Management Point Cleaner	249
Advanced Client Spy	250
Policy Verifier	251
Send Schedule	252
Management Point Spy	252
Set Preferred Distribution Point and CAP	252
Delete Certificate	253
Patch Management Evaluation	253
Delete Group Class	254
Transfer SMS ID	254
Package Loader	255
Management Point Troubleshooter	255
Client Site Assignment Verifier	256
Site Boundary Tool	256
Create Secondary Site Tool	258
Create SMS Address Tool	259
Microsoft SMS SDK	260
Summary	263
Chapter 16: Scripting SMS 2003	265
Tools Needed to Script SMS 2003	265
Where to Start Scripting	266
Creating Collections	267
Creating Sub-Collections	267
Adding a System to a Collection	268
Removing a System from a Collection	269
AddColl Code	269
Creating a Package and Program	274
Updating the Distribution Points	277
Refreshing Distribution Points	278

Contents

Advanced Client Scripting	278
Software Inventory	278
Hardware Inventory	279
Finding the Assigned Site	279
Setting the Assigned Site	279
Refreshing Machine Policies	280
1E Client Health Script	280
Building Right-Click Tools	290
Summary	297
Chapter 17: Where Is SMS Going?	299
SMS 2003 R2	299
SMS 2003 R2 Features	300
SMS 2003 R2 Setup	301
Inventory Tool For Custom Updates	302
Custom Updates Publishing Tool	306
Scan Tool For Vulnerability Assessment	310
Device Management Feature Pack	315
OS Deployment Feature Pack	317
Systems Center Configuration Manager 2007	320
Operating System Deployment	320
Network Access Protection	320
Software Distribution	320
Software Update Management	320
Desired Configuration Management	321
Device Management	321
Software Inventory and Metering	321
Hardware Inventory	321
Remote Control	321
Wake on LAN	321
Vulnerability Assessment	321
Software Development Kit	321
Backup and Recovery	321
Other Key SCCM 2007 Points	322
Summary	323
Appendix A: SMS 2003 Setup	325
Index	335
