

# Contents at a Glance

---

<b><i>Introduction</i></b> .....	<b>1</b>
<b><i>Part I: Getting Started</i></b> .....	<b>5</b>
Chapter 1: Understanding Active Directory .....	7
Chapter 2: Analyzing Requirements for Active Directory .....	23
Chapter 3: Designing an Active Directory Implementation Plan .....	41
<b><i>Part II: Planning and Deploying with Active Directory Domain Services</i></b> .....	<b>53</b>
Chapter 4: Playing the Name Game .....	55
Chapter 5: Creating a Logical Structure.....	71
Chapter 6: Getting Physical.....	83
Chapter 7: Ready to Deploy!.....	103
<b><i>Part III: New Active Directory Features</i></b> .....	<b>127</b>
Chapter 8: AD LDS: Active Directory on a Diet .....	129
Chapter 9: Federating Active Directory .....	141
Chapter 10: AD Certificate Services and Rights Management Services .....	157
<b><i>Part IV: Managing Active Directory</i></b> .....	<b>173</b>
Chapter 11: Managing Users, Groups, and Other Objects.....	175
Chapter 12: Managing Active Directory Replication .....	203
Chapter 13: Schema-ing!.....	219
Chapter 14: Managing Security with Active Directory Domain Services .....	233
Chapter 15: Maintaining Active Directory .....	253
<b><i>Part V: The Part of Tens</i></b> .....	<b>271</b>
Chapter 16: The Ten Most Important Active Directory Design Points .....	273
Chapter 17: Ten Cool Web Sites for Active Directory Info .....	279
Chapter 18: Ten Troubleshooting Tips for Active Directory .....	285
<b><i>Part VI: Appendixes</i></b> .....	<b>291</b>
Appendix A: Windows 2008 AD Command Line Tools .....	293
Appendix B: Glossary .....	305
<b><i>Index</i></b> .....	<b>315</b>

# Table of Contents

<b><i>Introduction</i></b> .....	<b>1</b>
This Book Is for You.....	1
How This Book Is Organized .....	2
Part I: Getting Started.....	2
Part II: Planning and Deploying with Active Directory Domain Services .....	3
Part III: New Active Directory Features.....	3
Part IV: Managing Active Directory .....	3
Part V: The Part of Tens.....	4
Part VI: Appendixes .....	4
Icons Used in This Book.....	4
<b><i>Part I: Getting Started</i></b> .....	<b>5</b>
<b>Chapter 1: Understanding Active Directory.</b> . . . . .	<b>7</b>
What Is Active Directory?.....	7
Active Directory is an umbrella .....	8
Active Directory is an information store .....	9
Active Directory has a structure (Or hierarchy).....	11
Active Directory can be customized .....	11
Getting Hip to Active Directory Lingo.....	11
The building blocks of Active Directory .....	12
The Active Directory schema.....	18
Domain Controllers and the global catalog.....	19
The DNS namespace.....	21
Because It's Good for You: The Benefits of Active Directory .....	22
<b>Chapter 2: Analyzing Requirements for Active Directory.</b> . . . . .	<b>23</b>
Why Gather Information? .....	23
Gathering Business Information .....	24
Surveying the business environment.....	25
Determining business goals.....	31
Gathering Technical Information .....	32
Surveying the technical environment .....	33
Determining technical goals.....	39
Best Practices .....	39

**Chapter 3: Designing an Active Directory Implementation Plan . . . 41**

Why You Need an Implementation Plan .....	41
Building the Active Directory Planning Team.....	43
Creating Active Directory Planning Documents.....	45
Business and technical assessments .....	45
Vision Statement.....	45
Requirements/scope document.....	45
Gap analysis.....	46
Functional specification.....	46
Implementation standards.....	47
Risk assessment/contingency plan.....	47
Tracking Project Implementation.....	48
Creating the Active Directory Design .....	49
Best Practices .....	51

***Part II: Planning and Deploying with Active Directory Domain Services .....* 53****Chapter 4: Playing the Name Game . . . . . 55**

The Need for DNS .....	55
Essential DNS.....	56
Identifying resource records.....	57
Active Directory Requirements for DNS.....	57
Examining SRV records.....	58
Exploring dynamic updates.....	59
Storing and replicating DNS information.....	59
The Active Directory Namespace.....	62
Defining the Active Directory namespace .....	62
Comparing an Active Directory namespace to a DNS namespace .....	63
Types of Active Directory Naming .....	64
Fully qualified domain name .....	64
Distinguished name .....	64
User principal name .....	65
NetBIOS name.....	65
Planning the Active Directory Namespace.....	66
Understanding domain naming.....	66
Understanding OU naming.....	67
Understanding computer naming.....	67
Understanding user naming .....	68
What's New in Windows Server 2008 DNS? .....	69
Support for IPv6.....	69
Support for read-only domain controllers.....	70
Background loading of zone data .....	70
GlobalNames zone .....	70

---

<b>Chapter 5: Creating a Logical Structure</b> .....	<b>71</b>
Planting a Tree or a Forest? .....	71
Defining Domains: If One Isn't Enough.....	73
Less is more!.....	74
Recognizing the divine order of things .....	75
The multiple forests model .....	78
Organizing with OUs: Containers for Your Trees.....	79
Creating a structure.....	80
Planning for delegating administration.....	81
<b>Chapter 6: Getting Physical</b> .....	<b>83</b>
The Physical Side of Active Directory .....	83
Active Directory Physical Components.....	85
Domain controllers and global catalog servers .....	85
Active Directory sites.....	86
Subnets.....	86
Site links .....	87
Designing a Site Topology .....	88
Placing domain controllers.....	88
Placing global catalog servers.....	90
Placing operations masters .....	90
Defining Active Directory sites .....	92
Creating Active Directory site links.....	94
Read-Only Domain Controllers .....	96
RODC prerequisites and limitations.....	97
Running DNS on an RODC.....	98
RODC administrative separation .....	99
RODC credential caching.....	100
<b>Chapter 7: Ready to Deploy!</b> .....	<b>103</b>
Installing Windows Server 2008.....	103
To Core or Not to Core .....	105
Deploying AD DS on a Full Server.....	107
Initial Configuration Tasks Wizard and	
the Server Manager console .....	107
Attended domain controller installation .....	110
Unattended domain controller installation .....	115
Deploying AD DS on a Core Server .....	118
After the install .....	120
Miscellaneous Issues.....	122
Installing AD DS from media.....	122
Deploying an RODC .....	124

**Part III: New Active Directory Features ..... 127****Chapter 8: AD LDS: Active Directory on a Diet .....129**

The Need for a Lighter AD.....	129
AD LDS as a phone book.....	131
AD LDS as a consolidation store.....	131
AD LDS as a Web authentication service.....	132
Working with AD LDS.....	133
Security and Replication with AD LDS.....	135
Deploying AD LDS.....	136

**Chapter 9: Federating Active Directory .....141**

Authentication Everywhere!.....	141
Identities, tokens, and claims.....	144
Security token services.....	145
Federations.....	146
Federation Scenarios.....	149
Web single sign-on scenario.....	149
Federated Web SSO scenario.....	150
Federated Web SSO with forest trust scenario.....	152
Deploying Active Directory Federation Services.....	154

**Chapter 10: AD Certificate Services  
and Rights Management Services .....157**

Active Directory Certificate Services.....	157
What is public key infrastructure (PKI)?.....	157
Inside AD Certificate Services.....	160
Enterprise PKI console.....	164
Active Directory Rights Management Services.....	165
Managing information usage.....	165
Inside Active Directory Rights Management Services.....	166
Installing AD RMS.....	172

**Part IV: Managing Active Directory ..... 173****Chapter 11: Managing Users, Groups, and Other Objects .....175**

Managing Users and Groups.....	175
Creating user objects.....	175
Editing user objects.....	178
Understanding groups.....	188
Creating and editing groups.....	190
Viewing default users and groups.....	192
Managing Organizational Units.....	196
Delegating Administrative Control.....	198

<b>Chapter 12: Managing Active Directory Replication</b> . . . . .	<b>203</b>
Understanding Replication.....	204
Intrasite replication.....	204
Intersite replication.....	205
Propagating updates.....	206
Implementing a Site Topology.....	207
Creating sites.....	208
Creating subnets.....	210
Creating site links.....	212
Creating a site link bridge.....	216
<b>Chapter 13: Schema-ing!</b> . . . . .	<b>219</b>
Schema 101.....	219
Introducing object classes.....	220
Examining object attributes.....	222
Extending the Schema.....	227
Adding classes and attributes.....	228
Deactivating objects.....	229
Transferring the Schema Master.....	230
Reloading the Schema Cache.....	231
<b>Chapter 14: Managing Security with Active Directory Domain Services</b> . . . . .	<b>233</b>
NTLM and Kerberos.....	233
NTLM authentication.....	234
Meet Kerberos, the guard dog.....	234
Implementing Group Policies.....	237
Using GPOs within Active Directory.....	238
GPO inheritance and blocking.....	240
Group policy management.....	244
Group policy reporting and modeling.....	248
Fine-Grained Password and Account Lockout Policies.....	248
Active Directory Auditing.....	248
<b>Chapter 15: Maintaining Active Directory</b> . . . . .	<b>253</b>
Database Files.....	253
Specifying the location of the database files.....	254
How the database and log files work together.....	255
Defragmenting the Database.....	256
Online defragmentation.....	258
Offline defragmentation.....	260
Backing Up the Active Directory Database.....	261
Restoring Active Directory.....	263
Non-authoritative restore.....	263
Authoritative restore.....	264
Preventing accidental deletions.....	265

Restartable Active Directory.....	265
Other Tools for Maintaining AD.....	266
Event Viewer.....	267
Snapshots and the AD Database Mounting Tool .....	267
REPADMIN .....	269

## ***Part V: The Part of Tens*..... 271**

### **Chapter 16: The Ten Most Important Active Directory Design Points . . . . .273**

Plan, Plan, Plan!.....	273
Design AD for the Administrators .....	274
What's Your Forest Scope? .....	274
Often a Single Domain Is Enough!.....	275
Active Directory Is Built on DNS.....	275
Your Logical Active Directory Structure Isn't Based on Your Network Topology .....	276
Limit Active Directory Schema Modifications .....	276
Understand Your Identity Management Needs .....	276
Place Domain Controllers and Global Catalogs Near Users.....	277
Keep Improving Your Design .....	277

### **Chapter 17: Ten Cool Web Sites for Active Directory Info . . . . .279**

Microsoft's Windows Server 2008 Web Site.....	279
Windows Server 2008 TechCenter .....	280
TechNet Magazine .....	280
Directory Services Team Blog.....	281
Exchange Server Team Blog.....	281
Windows IT Pro Magazine .....	282
Windows Server Team Blog .....	282
Windows Server 2008 Most Recent Knowledge Base Articles Feed.....	283
Windows Server 2008 Most Popular Downloads .....	283
My Blog .....	283

### **Chapter 18: Ten Troubleshooting Tips for Active Directory . . . . .285**

Domain Controller Promotion Issues.....	285
Network Issues.....	286
What Time Is It? .....	286
Can't Log On to a Domain.....	286
Monitoring Active Directory Resources .....	287
Can't Modify the Schema.....	288
Replication Issues.....	288
Working with Certificates .....	288
Group Policy Issues.....	289
Branch Office Users Logging In for the First Time .....	289

---

<b><i>Part VI: Appendixes</i></b> .....	<b>291</b>
<b>Appendix A: Windows 2008 AD Command Line Tools</b> .....	<b>293</b>
DNSCMD.....	293
NTDSUTIL .....	294
NTDSUTIL Activate Instance .....	295
NTDSUTIL Authoritative Restore.....	296
NTDSUTIL Files.....	296
NTDSUTIL IFM .....	297
NTDSUTIL Local Roles.....	298
NTDSUTIL Roles .....	299
NTDSUTIL Set DSRM Password.....	299
NTDSUTIL Snapshot .....	300
REPADMIN .....	300
DSAMAIN.....	301
Other Commands.....	302
<b>Appendix B: Glossary</b> .....	<b>305</b>
<b><i>Index</i></b> .....	<b>315</b>
