

INDEX

NUMBERS

- 3D scenes, using in Draw, 275
- 3D View dialog box, displaying for Calc charts, 244–245
- 3G, support for, 111

SYMBOLS

- * (asterisk), using in domain hierarchy, 71
- \ (backslash) escape character, using, 290
- (dash) character, using with commands, 289
- = (equal) sign, typing in Calc, 234

A

- access levels, selecting, 55
- accessibility features
 - slow versus bounce keys, 82–83
 - support for, 7, 65, 88
 - visual subsystem, 85
- Account Properties dialog box, opening, 136
- add-ins, activating, 159, 235
- Add/Remove Applications program, using, 26–27
- address fields, controlling display of, 197
- Address tab, displaying, 87
- addresses, maintaining for contacts, 204–205
- adduser command, using, 295
- algorithms, choosing for encryption keys, 149
- Alignment toolbar, opening in Draw, 270
- Alt key, using to move windows, 100
- apg-get commands, using with packages, 295
- applets, types of 18, 21. *See also* panel applets
- applications
 - accessing and removing, 22
 - adding and removing, 26–27
 - adding to desktop, 22–23
 - adding to main panel, 22–23
 - browsing through, 27
 - launching, 16–17
 - sorting, 69
- appointments, creating and managing, 206–207, 210–211
- Assistive Technologies application, using, 88–89
- asterisk (*), using in domain hierarchy, 71
- asymmetric versus symmetric encryption, 53
- asymmetric-key encryption, explained, 50, 53
- audio files
 - associating with system events, 74
 - copying from CDs, 284–285
- Authorization utility, explained, 102–103
- auto-complete function, using with Login window, 109
- automatic updates. *See* Update Manager

B

- backgrounds, selecting, 19, 58
- backslash (\) escape character, using, 290
- battery life, enhancing, 15, 66
- /bin directory, contents of, 30
- BitTorrent protocol, using, 190–191
- Bluetooth preferences, setting up, 77
- /boot directory, contents of, 30
- boot process, selecting modes for, 7
- bootable CD, generating, 4–5
- bounce keys accessibility feature, explained, 82
- Brasero Disc Burning application, using, 280–283
- browsers. *See* Firefox browser; File Browser
- bug reports, consulting, 105, 181
- build-dep command, using with packages, 295
- BUM (BootUp Manager), using, 121
- burning CDs, 4–5, 280–283

C

- Calc application
 - creating formulas with, 234–235
 - creating spreadsheets with, 232–233
 - filtering spreadsheet data in, 240–241
 - inserting and formatting charts in, 242–245
 - manipulating columns and rows in, 238–239
 - manipulating spreadsheet cells with, 236–237
 - predefined styles in, 237
 - printing spreadsheets in, 246–247
 - sorting spreadsheet data in, 240–241
- Calculator application, using, 138–139
- Calendar application, using in Evolution, 206–207
- cameras, setting up for Softphones, 177
- Cameras tab, options on, 94–95
- cd command, using, 291
- /cdrom directory, contents of, 30
- CDs
 - burning, 280–283
 - burning Ubuntu to, 4–5
 - playing music on, 276–277
 - ripping, 284–285
- channels
 - adding to volume control applet, 24–25
 - choosing for sound cards, 74
- Character Map application, using, 140–141
- characters
 - formatting with Writer, 216–217
 - obtaining information about, 141
- charts
 - formatting data series in, 245
 - inserting and formatting in Calc, 242–245
 - inserting into slides, 252–253

chatting

- with Ekiga Softphone, 176–179
- with Pidgin Internet Messenger, 180–183

clear command, using with Terminal, 289

click functionality, alternatives for, 65

Clock and Calendar applet, described, 21

Clock Preferences dialog box, opening, 131

code formatting, exploring options for, 156

colors

- adding to shapes, 266–267
- changing for panel backgrounds, 19

columns

- displaying attributes in, 34
- executing with elevated privileges, 289
- including in Writer tables, 228
- inserting and deleting in Calc, 238–239
- sorting on, 41

command line. *See* Terminal application

conduits, configuring and enabling, 92–93

Connect to Server feature, using, 39

connections, configuring, 110–111

connectors, placing on shapes, 268–269

contacts, creating, 86, 204–205

copying files

- and directories, 293
- and folders, 45

cp command, using, 293

CPU load, displaying, 128

Crop tool, using with photos, 166

cryptographic hash and key, use of, 50, 53

D

dash (-) character, using with commands, 289

data integrity, ensuring, 5

data series in charts, formatting, 245

date and time, adjusting, 32, 130–131

decrypting files, 52–53

del command, using, 293

deleting

- categories in Evolution, 211
- columns and rows in Calc, 238–239
- directories, 293
- files, 293
- files and folders, 42–43
- folders, 37
- users, 136, 295

deluser command, using, 295

desktop. *See also* remote desktop connection

- adding applications to, 22–23
- creating files on, 16
- viewing remotely, 186–187

desktop cube effect plug-in, features of, 59, 101

/dev directory, contents of, 30

Devices tab

- using with audio devices, 74
- using with Network Tools, 112

df command, using, 294

Dictionary application, looking up words in, 142–143. *See also* language support

digital video cameras, features of, 94

directories

- copying, 293
- creating, 290
- creating in Desktop folder, 16
- deleting, 293
- listing contents of, 291
- moving, 293
- moving between, 291
- naming, 290
- specifying for indexing, 98
- viewing space used by, 144–145

directory paths, viewing, 39

disabilities. *See* Assistive Technologies application

Disc Burning application, using, 280–283

disc image, burning, 4

disk drives, displaying information about, 128–129. *See also* hard-drive space

Disk Usage Analyzer, using, 144–145

Document Statistics option, using, 156

document templates, selecting, 16

documents

- creating with Writer, 214–215
- placing graphics in, 226–227
- printing from OpenOffice.org Writer, 230–231
- reprinting, 147

Drafts folder, saving messages to, 196

Drag and Drop option, using with mouse, 64

Draw application

- aligning shapes in, 270–271
- changing glue points on shapes with, 268–269
- creating 3D shapes in, 274–275
- creating flowcharts in, 264–265
- creating shapes in, 265–266
- exporting images from, 273
- features of, 264–265
- ordering objects in, 271
- resizing images in, 273
- tools in, 266

drawer applet, contents of, 23

drive contents, displaying, 9

drivers

- checking for printers, 60
- for hardware, 106
- for sound cards, 74–75

INDEX

drives. *See also* hard-drive space
displaying information about, 128–129
mounting and unmounting, 9
`du` command, using, 294
DVD format, using, 281

E

effects, applications for, 59, 259
Ekiga Softphone, making VoIP calls with, 176–179
email. *See* Evolution email client
Email option, using with XSane image scanner, 174
encryption
requiring for remote desktop connections, 76
setting up, 50–53, 78–81
encryption keys, managing, 148–151
equal (=) sign, typing in Calc, 234
/etc directory, contents of, 30
events, triggering in Pidgin, 183. *See also* system logs
Evolution email client
Address Book feature in, 205
attaching files to, 196
Calendar application in, 208–209
Categories feature in, 210–211
composing and sending email with, 196–197
configuring email accounts in, 192–195
controlling display of address fields in, 197
creating appointments with, 206–207
creating folders for, 200–201
creating tasks in, 212–213
creating templates for, 199
creating templates from, 197
editing, 197
enabling indexing of, 98
Junk Mail filter in, 202–203
opening message windows in, 198
organizing email in, 200–201
Plain Text and HTML formats for, 197
receiving and replying to email with, 198–199
routing automatically, 200
sending with Evolution, 193
using Junk Mail filter with, 202–203
using rules with, 200
using Search folders feature with, 201
Evolution Mail Integration plug-in, features of, 159
Evolution sync conduits, using, 92
execute permission, explained, 54
Export to HTML plug-in, features of, 159
external drives
analyzing space used by, 145
checking, 9

F

FIFO (first-in-first-out) queue, explained, 31
File Browser
Address bar in, 38
buttons in, 35
configuring preferences for, 32–35
magnifying and shrinking icons in, 39
mounting, 9
Search button in, 38
side pane in, 38
stretching icons in, 39
`file` command, using, 290–293
file formats, support for, 9
file permissions, managing, 54
file search indexing settings, adjusting, 98–99
file servers, mounting, 39
file storage volumes, displaying, 9
file system
creating symbolic links in, 37
hierarchy, 30
opening, 9
presenting view of, 38
files
browsing and opening, 38–39
copying, 45, 293
creating, 290
creating on desktop, 16
decrypting, 52–53
deleting, 42–43, 293
downloading with Transmission BitTorrent client, 190–191
editing with Text Editor, 156–157
encrypting, 50–53
excluding from indexing, 98
finding, 292
finding with File Browser, 40–41
finding with Tracker Search tool, 160–161
launching, 16–17
learning about, 291
moving, 44–45, 293
naming, 290
printing, 146
re-indexing with Tracker Search tool, 161
renaming, 37, 293
retrieving from Trash, 43
selecting by patterns, 41
selecting for updates, 133
sharing via torrents, 191
types of, 31
using List view with, 33
viewing space used by, 144–145
fill, setting for objects, 267
Filter control, using with log files, 126

filters

- applying to Evolution categories, 210
- applying to spreadsheet data, 240–241
- applying with GIMP, 170–171
- Junk Mail, 202–203
- using with email, 200–201
- using with keyrings, 150
- using with styles in Writer, 221
- using with Writer graphics, 227

Financial calculator, features of, 138

find command, using, 292

Firefox browser

- browsing Web with, 184–185
- using with BitTorrent, 190–191

FireWire, use by digital video cameras, 94

first-in-first-out (FIFO) queue, explained, 31

flowcharts

- adding annotations to, 264
- creating in Draw, 264–265

folder permissions, managing, 54–55

folders

- browsing and opening, 38–39
- copying, 45
- creating and renaming, 36–37
- customizing icons for, 37
- deleting, 37, 42–43
- moving, 44–45
- opening, 38
- opening in new windows, 38
- organizing email with, 200
- retrieving from Trash, 43
- setting properties for, 37

fonts, changing with Writer, 216–217

Fonts tab, displaying, 58

footers, inserting in Writer, 223

foreign-language character sets, typing, 96–97. *See also* language support

formulas

- creating in Writer tables, 229
- creating with Calc application, 234–235

frame rate, adjusting for Softphone, 179

free command, using, 294

F-Spot photo manager

- described, 95
- importing photos into, 164–165

FTP sites, mounting, 39

G

games, availability of, 27, 162–163

glue points, changing on shapes, 268–269

Gmail accounts, using Evolution email with, 193

GMplayer, command line for, 85

GNOME desktop

- hack for controlling recent file access, 47
- organization of, 16

GNOME Games, support provided by, 163

GNOME Sound Recorder, features of, 287

gnome-pilot Settings dialog box, displaying, 92

gnome-screenshot command, using, 153

GOOCR application, installing, 175

Google search page, using with Firefox, 184–185

Grant button, using with explicit permissions, 102

graphics editing, performing with GIMP, 168–171

graphics, placing in Writer documents, 226–227. *See also* images

graphs

- inserting and formatting in Calc, 242–245
- inserting into slides, 252–253

grep command, using, 292

grid and guides, using in Draw, 265

group role, explained, 54

Group Settings dialog box, opening, 137

group-id flag permission, setting, 55

groups and users. *See* users and groups

- read permission, explained, 54
- red-eye removal tool, using with photos, 166
- refresh rate, defined, 61
- releases, receiving notifications about, 123

- reminders, creating with Evolution, 158–159, 207
- remote desktop connection, enabling, 76. *See also* desktop
- Remote Desktop Viewer, using, 186–187
- remote drives, analyzing, 145
- removable drives and media, configuring, 94–95
- remove command, using with packages, 295
- Reset commands, using with Terminal, 289
- resolution
 - defined, 61
 - setting for scanners, 174
 - verifying, 7
- Rhythmbox Music Player
 - creating audio CDs with, 283
 - features of, 276–277
 - ripping CDs with, 284–285
- ripping CDs, 284–285
- rm and rmdir commands, using, 293
- roles in trust levels, types of, 54
- root account, use of, 289
- /root directory, contents of, 30–31
- Rotate tab, using with objects, 267
- rows
 - including in Writer tables, 228
 - inserting and deleting in Calc, 238–239

S

- /sbin directory, contents of, 31
- scan resolution, setting, 174
- scanners, checking availability of, 172
- scanning images, 172–175
- Scientific calculator, features of, 138
- SCIM input methods, setting up, 96–97
- screen, locking, 15
- screen resolution, adjusting, 61
- screensaver, changing, 62–63
- screenshots, capturing, 152–153
- Script-Fu scriptlets, writing with GIMP, 171
- search and indexing preferences, adjusting, 98–99
- Search button, using in File Browser, 38, 40
- Search folders feature, using with email, 201
- searches, running in Tracker, 160
- secure shell (SSH) protocol, use of, 14, 148
- security. *See also* keyrings; passwords
 - basis of, 54
 - best practices, 15
 - setting for remote desktop connections, 76
- Security tab, changing login options on, 108–109
- services
 - managing, 120–121
 - running continuously, 73
 - stopping for Bluetooth, 77
 - turning off, 72

- shapes
 - aligning, 270–271
 - changing glue points on, 268–269
 - creating in Draw, 265–266
 - placing connectors on, 268–269
- shell commands, using, 155
- shortcut, adding, 16–17
- shutdown process, importance of, 49
- slides
 - adding to presentations, 250–251
 - changing backgrounds of, 255
 - inserting objects into, 252–253
 - printing, 262–263
- slow keys accessibility feature, explained, 82
- Snippets plug-in, features of, 157
- Softphone, making VoIP calls with, 176–179
- software
 - adding with Synaptic Package Manager, 124–125
 - disabling, 129
- software packages. *See* packages; Synaptic Package Manager
- software services, managing, 120–123
- Solitaire games, availability of, 162
- songs, playing on Rhythmbox Music Player, 276–277
- sorting
 - on columns, 41
 - spreadsheet data, 240–241
- sound cards
 - choosing channels for, 74
 - drivers for, 75
- sound files
 - associating with system events, 74
 - copying from CDs, 284–285
- sound hardware, verifying, 8–9
- Sound key binding, explained, 67
- Sound Preferences application, using, 74–75
- sound volume, adjusting, 24–25
- sounds, recording, 286–287
- special characters, inserting, 96–97, 140–141
- spell-checker, using, 156–157
- spreadsheet data, sorting and filtering, 240–241
- spreadsheets
 - creating, 232–233
 - previewing in Calc, 247
 - printing in Calc, 246–247
- SSH (secure shell) protocol, use of, 14, 148
- startup services, managing, 120–121
- Statistics tab, using with software sources, 123
- Status functionality, using with tasks, 213
- sticky-bit permission, use of, 55
- styles
 - applying with Writer, 218–219
 - in Calc application, 237
 - categories in Writer, 221

INDEX

`sudo` command

- using, 289
- using to install packages, 295
- using with GOCR application, 175

`sudo deluser username` command, using, 295

Sum function, using in Writer tables, 229

SVCD (Super Video CD) format, support for, 281

swap files, use of, 11

Switches tab, using with volume, 24

symbolic link

- creating in file system, 37
- defined, 31

symmetric versus asymmetric encryption, 53

Synaptic Package Manager. *See also* packages

- adding software with, 124–125
- launching, 28
- Quick Search feature, 127

system, accessing directly, 288–289

system appearance, adjusting, 56–59

system beep, setting, 74–75

system commands, using, 294–295

system events, associating sounds with, 74

system logs, reviewing, 126–127. *See also* events

System menu, preferences in, 68

system passwords, listing, 150

system performance, observing, 128–129

system status, checking, 294

T

tables, inserting with Writer, 228–229

tag cloud, defined, 165

tags

- adding to photos, 167
- creating for photos, 165–167

`tail` command, using, 291

tar formats, explained, 36

tasks, creating in Evolution, 212–213

telephone calls, making over Internet, 176–179

templates

- creating from email, 197
- selecting, 16
- using with Calc application, 233
- using with email, 199
- using with Impress presentations, 249
- using with Writer, 215

Terminal application

- accessing command line with, 154–155
- launching, 288
- resetting, 289
- selecting, 85
- system commands, 294–295
- taking screenshots from, 153

Terminal command line, using, 288–289

Terminal Server Client, accessing Windows systems with, 188–189

Terminal window

- components of, 288
- getting help in, 289

text

- adding to slides, 251
 - selecting for indexing, 98
- ## Text Editor, using, 156–157
- text messages, sending with Pidgin, 182
 - Text option, using with Calc formulas, 235
 - Text tool, using with flowcharts, 264
 - themes, installing, 57

thumb drives, using, 48–49

time and date, adjusting, 130–131

time zone, selecting city in, 10

Timezone setting, using in Evolution, 194

/tmp directory

- contents of, 31
- folder, 11
- using sticky-bit permission with, 55

Tomboy Notes, creating notes with, 158–159

`top` command, using, 294

torrents, features of, 191

Totem Movie Player, features of, 278–279

touch command, using, 290

traceroute function, using with Network Tools, 114–115

Tracker applet, features of, 161

Tracker Preferences application, using, 98–99

Tracker program, features of, 73

Tracker Search Tool application, using, 160–161

Transmission BitTorrent client, downloading files with, 190–191

Trash applet, using, 21, 42–43

U

Ubuntu

- burning to CD, 4–5
 - conducting upgrades to, 133
 - current release of, 2
 - downloading, 2–3
 - installing, 10–13
- ## Ubuntu 8.10, variants of, 2
- ## Ubuntu Desktop, launching, 15
- ## Ubuntu project, focus of, 3
- ## Ubuntu releases, receiving notifications about, 123
- ## Ubuntu version, displaying, 128–129
- ## `uname` command, using, 294
- ## Unmount option, using with drives, 9
- ## Update Manager
- running, 132–133
 - using, 28–29

Updates tab, using with software sources, 122–123

- upgrade command, using with packages, 295
- upgrade options, displaying, 29
- upgrades, conducting, 133
- URL (uniform resource locator), opening with launcher, 17
- USB cables, using with PalmOS devices, 90
- USB flash drives, using, 48–49
- user accounts, deleting when unused, 135
- user ID, adding to encryption keys, 151
- user information, obtaining, 294
- user role, explained, 54
- User Switcher applet, features of, 21, 73
- useradd command, using, 295
- username, entering, 14
- users
 - creating and deleting, 295
 - deleting, 136
 - switching between, 15
 - viewing, 136
- users and groups
 - adding and managing, 134–137
 - utility for, 103
- UTF-8 encoding, displaying for characters, 141

V

- version of Ubuntu, displaying, 128–129
- video bandwidth, limiting for Softphone, 179
- videos, playing, 278–279
- virtual desktops. *See* workspaces
- Visual Effects tab
 - displaying, 59
 - features of, 58
- VNC (virtual network computing) protocol, use of, 186–187
- VoIP calls, making with Softphone, 176–179
- volume, adjusting, 24–25, 67

W

- w command, using, 294
- Web, browsing with Firefox, 184–185
- Web browser, choosing for preferred applications, 84
- Web camera, described, 94–95
- Web pages, publishing presentations as, 263
- Webcam, making video calls with, 177
- who and whoami commands, using, 294
- window manager, adjusting behavior of, 100–101
- windows
 - activating with mouse pointer, 101
 - moving quickly, 100
- Windows systems
 - accessing remotely with Terminal Server Client, 188–189
 - accessing with Remote Desktop Viewer, 186–187

word processors

- Text Editor, 156–157
- Writer, 214

words

- looking up in dictionary, 142–143
- stemming, 98

workspaces

- changing number of, 20
- switching between, 20
- using in Impress, 253

write operations, caching, 49

write permission, explained, 54

Writer word-processing program

- applying Default style in, 224
- applying styles with, 218–219
- Book Preview command in, 231
- creating documents with, 214–215
- creating paragraph styles in, 220–221
- displaying Page Style dialog box in, 223
- features of, 214
- formatting characters and paragraphs with, 216–217
- formatting page numbers in, 223
- inserting headers and footers in, 222–223
- inserting tables in, 228–229
- Page Preview command in, 231
- placing graphics in, 226–227
- setting margins in, 224
- style categories in, 221
- using fields in, 222
- using page formatting options in, 224–225
- using style filters with, 221
- using templates with, 215

X – Z

- X11 connections, establishing remotely, 14
- XDMCP protocol, connecting to remote machines on, 14

- .zip format, explained, 36
