

# Contents

<i>Foreword</i> . . . . .	<i>xxvii</i>
<i>Introduction</i> . . . . .	<i>xxix</i>

## **Part 1 • Basics of the Modelling Environment . . . . . 1**

<b>Chapter 1 • Inside Revit Structure . . . . .</b>	<b>3</b>
Using the Graphical User Interface (GUI) . . . . .	4
Menu Bar . . . . .	5
Toolbars . . . . .	5
Options Bar . . . . .	6
Type Selector . . . . .	7
Design Bar . . . . .	7
Project Browser . . . . .	8
Drawing Area . . . . .	11
View Control Bar . . . . .	13
Status Bar . . . . .	14
Shortcuts . . . . .	14
Right-Click, or Context, Menu . . . . .	14
Elements . . . . .	16
Model Elements . . . . .	16
Datum Elements . . . . .	16
View-Specific Elements . . . . .	17
Element Organization . . . . .	19
Categories . . . . .	19
Families . . . . .	20
Types . . . . .	21
Instances . . . . .	21
Element Properties Dialog Box . . . . .	21
Project Views and Display . . . . .	22
Plans . . . . .	23
View Range . . . . .	24
Callouts . . . . .	26
Sections . . . . .	26
Elevations . . . . .	27
Drafting . . . . .	27
Legends . . . . .	27
Schedules . . . . .	27
3D . . . . .	27
Sheets . . . . .	28
Plan Region . . . . .	28
Visibility/Graphic Overrides Dialog Box . . . . .	28

Graphic Standards . . . . .	29
Object Styles . . . . .	30
Material Styles . . . . .	30
Line Styles . . . . .	31
Line Weights . . . . .	31
Line Patterns . . . . .	33
Fill Patterns . . . . .	33
The Bottom Line . . . . .	35
<b>Chapter 2 • Setting the Project Environment . . . . .</b>	<b>37</b>
Working with Project Templates . . . . .	37
The Ingredients of a Good Template . . . . .	38
Using the No Template Option . . . . .	40
Creating a New Custom Project Template . . . . .	40
Starting a Project from a Template . . . . .	41
Project Information . . . . .	42
Adding Project Information to a Title Block . . . . .	44
Project Location . . . . .	47
Project Position and Orientation . . . . .	47
Project Units . . . . .	53
Common Units . . . . .	53
Structural Units . . . . .	54
Structural Settings . . . . .	55
Symbolic Representation Settings . . . . .	55
Analytical Settings . . . . .	62
Rebar Settings . . . . .	62
Adjusting the Cover Distance . . . . .	62
Abbreviation for Tagging . . . . .	63
Options . . . . .	63
Project Browser Organization . . . . .	65
View Naming Conventions . . . . .	65
Common Methods of Organization . . . . .	68
Transferring Project Standards . . . . .	72
The Bottom Line . . . . .	74
<b>Chapter 3 • Starting to Model Your Project . . . . .</b>	<b>75</b>
Importing and Linking . . . . .	75
Data Formats . . . . .	75
Linking Revit Architecture . . . . .	89
Creating a Structural Grid . . . . .	104
Modifying the Gridline . . . . .	106
Creating Levels . . . . .	108
Creating Floor Plans . . . . .	109
Modifying the Level Line . . . . .	110
Changing the Elevation . . . . .	111
The Bottom Line . . . . .	114

<b>Part 2 • Developing Your Structural Model</b> .....	<b>115</b>
<b>Chapter 4 • Structural Columns</b> .....	<b>117</b>
Getting to Know the Column Families .....	117
Columns .....	119
Structural Columns .....	121
Family Loading and Duplication .....	125
Adding Structural Columns to Your Project .....	131
Placement .....	131
Copying Columns to Other Levels .....	136
Top and Bottom Attachment .....	139
Adding Sloped Columns to your Project .....	143
In-Place Family Creation .....	145
External Family Creation .....	146
Using a Graphical Column Schedule .....	151
Setting the Appearance .....	152
Annotating .....	157
Displaying Structural Columns .....	161
The Bottom Line .....	169
<b>Chapter 5 • Floor Slabs and Roof Decks</b> .....	<b>171</b>
Floor Slabs and Decks .....	171
Slab Properties .....	172
Slabs-on-Grade .....	174
Slab Edges at the Ground Level .....	178
Floor Deck Creation .....	183
Making a New Composite Deck Type .....	184
Adding a Cantilever to a Floor Deck .....	185
Roofs .....	186
Roof Deck Properties .....	187
Adding and Editing Roof Sub-Elements .....	198
The Bottom Line .....	205
<b>Chapter 6 • Walls</b> .....	<b>207</b>
Placing a Wall in Your Model .....	207
The Draw Option .....	209
The Pick Option .....	209
Top/Bottom and Height/Depth Constraints .....	211
Location Line (Loc Line) .....	212
Sketch Tools .....	215
Element Properties .....	217
Creating a New Compound Wall .....	221
Modifying the Wall .....	229
Creating a New Stacked Wall .....	231
Attaching to a Roof .....	232
The Bottom Line .....	233

<b>Chapter 7 • Structural Framing</b> .....	<b>235</b>
Structural Framing Families and Properties .....	235
Working with the Framing Libraries .....	238
Floor and Roof Deck Constraints .....	239
Adding Floor Framing .....	242
The Beam Options Bar Settings .....	242
Beam Element Properties .....	245
Adding Floor Framing to Your Virtual Model .....	246
In-filling Bays with the Beam System Tool .....	247
Using Curved Beams .....	251
Other Important Types of Floor Framing .....	252
Adding Roof Framing .....	256
Attaching Sloped Framing to a Flat Plane .....	257
Warped Roof Type Framing .....	258
Adding Steel Braced and Moment Frames .....	264
Moment Frames and Cantilevered Beams .....	264
Braced Frames .....	267
The Bottom Line .....	270
<b>Chapter 8 • Foundations</b> .....	<b>273</b>
Foundation Walls .....	273
Piers and Pilasters .....	274
Footings .....	276
Isolated Footings .....	284
Caissons, Grade Beams, and Piles .....	287
Grade Beams .....	292
Foundation Slabs .....	293
Piles and Pile Caps .....	295
Elevator Pits .....	297
Modeling an Imported Site .....	300
Visibility Settings .....	300
Pads .....	301
The Bottom Line .....	302
<b>Part 3 • Documenting Your Structural Model</b> .....	<b>305</b>
<b>Chapter 9 • Model Documentation</b> .....	<b>307</b>
Drafting Tools .....	307
Datum Elements .....	308
Dimensions .....	308
Spot Dimensions and Coordinates .....	312
Grids .....	314
Reference Planes .....	316

Annotation Elements . . . . .	317
Tags . . . . .	317
Beam Annotations . . . . .	322
Text . . . . .	324
General Notes . . . . .	327
Keynotes . . . . .	329
Symbols . . . . .	329
Detail Elements . . . . .	333
Detail Lines . . . . .	333
Filled Regions . . . . .	334
Repeating Details . . . . .	335
Masking Regions . . . . .	335
Detail Components and Groups . . . . .	336
Typical Details Sheets: Creating and Managing . . . . .	338
Save to Library . . . . .	340
Insert from File . . . . .	340
The Bottom Line . . . . .	341
<b>Chapter 10 • Modeling Rebar . . . . .</b>	<b>343</b>
Drafting a 2D Rebar . . . . .	343
Line Styles . . . . .	344
Drafting in the Model . . . . .	345
Placing 3D Reinforcement . . . . .	348
Object Styles . . . . .	348
Cover Settings . . . . .	350
Adding Bars Parallel to the Current Work Plane . . . . .	351
Adding Bars Perpendicular to the Work Plane . . . . .	354
The Rebar Shape Browser . . . . .	355
Sketching Rebar . . . . .	357
Area Reinforcement . . . . .	359
Path Reinforcement . . . . .	362
The Bottom Line . . . . .	369
<b>Chapter 11 • Schedules and Quantities . . . . .</b>	<b>371</b>
Scheduling Basics . . . . .	371
Schedule Properties . . . . .	373
Calculated values . . . . .	382
Schedule Keys . . . . .	383
Material Takeoff Schedules . . . . .	387
Editing Schedules . . . . .	390
Exporting Schedules to a Spreadsheet . . . . .	392
Keynote Legends . . . . .	398
Adding a Keynote Tag . . . . .	400
The Bottom Line . . . . .	401

**Chapter 12 • Sheets . . . . .403**

- Getting to Know Your Sheets . . . . . 403
  - Creating a Titleblock . . . . . 405
- Adding Information to Your Sheets . . . . . 414
  - Placing and Working with Views on Sheets . . . . . 415
  - Working with View Titles . . . . . 421
  - Key Plan Strategies . . . . . 424
- Creating a Sheet Index . . . . . 427
- Keeping Track of Revisions . . . . . 431
  - Placing a Revision Cloud . . . . . 431
  - Tagging a Revision Cloud . . . . . 433
  - Setting the Display of Revision Clouds and Tags . . . . . 433
  - Understanding the Sheet Issues/Revisions Dialog . . . . . 434
- The Bottom Line . . . . . 438

**Part 4 • Sharing Your Structural Model . . . . . 439**

**Chapter 13 • Worksharing . . . . .441**

- Understanding the Worksharing Concept . . . . . 441
  - Knowing the Workflow . . . . . 442
  - Speaking the Language . . . . . 443
  - When to Use Worksharing . . . . . 444
- Enabling Worksharing . . . . . 446
  - User-Defined Worksets . . . . . 447
  - Explaining Default Worksets . . . . . 448
  - Creating the Central File . . . . . 450
- Staying in Sync . . . . . 455
  - Saving to Central . . . . . 455
  - Reloading Latest . . . . . 456
- Working with Worksharing . . . . . 456
  - Moving Elements Between Worksets . . . . . 456
  - Taking Ownership . . . . . 459
  - Improving Performance . . . . . 464
- Using the Worksharing Monitor . . . . . 466
  - Observing the Graphical User Interface (GUI) . . . . . 467
- Maintaining Your Project . . . . . 468
  - Accessing Backup Files . . . . . 468
  - Detaching from Central . . . . . 470
  - Upgrading the Central File . . . . . 470
  - Auditing Your Project File . . . . . 471
- The Bottom Line . . . . . 475

**Chapter 14 • Visualization . . . . .477**

- How Much Do You Need? . . . . . 477
  - Modeling Beyond the Paper Documents . . . . . 477
  - Model Creep . . . . . 479

Materials . . . . .	481
Synthetic . . . . .	481
Real World . . . . .	482
Rendering . . . . .	484
Quality . . . . .	486
Output Settings . . . . .	488
Lighting . . . . .	488
Background . . . . .	490
Dealing with Images . . . . .	491
Controlling Display . . . . .	494
Sun Studies . . . . .	497
The Walkthrough Command . . . . .	499
Exporting for Outside Rendering . . . . .	501
AutoCAD DWG . . . . .	502
3ds Max (FBX) . . . . .	503
Outside Rendering . . . . .	503
The Bottom Line . . . . .	505
<b>Chapter 15 • Revit Structure Analysis . . . . .</b>	<b>507</b>
Creating Loads . . . . .	507
Structural Settings . . . . .	508
Analytical Model Settings . . . . .	513
Placing Loads . . . . .	529
Line Load with Host . . . . .	531
Area Load (By Sketch) . . . . .	533
Exporting for Structural Analysis . . . . .	536
Transfer of Data . . . . .	538
The Bottom Line . . . . .	539
<b>Part 5 • Advanced Topics . . . . .</b>	<b>541</b>
<b>Chapter 16 • Project Phases and Design Options . . . . .</b>	<b>543</b>
Working with Project Phases . . . . .	543
The Properties of Phases . . . . .	545
Assigning Elements to Phases . . . . .	548
Linked Revit Structure Models and Phasing . . . . .	549
Displaying Phases in Views . . . . .	550
Working with Design Options . . . . .	557
How Design Options Work . . . . .	557
Creating Design Option Sets . . . . .	558
Adding and Editing Design Option Elements . . . . .	560
Displaying Design Options in Your Views . . . . .	561
Other Design Option Considerations . . . . .	565
The Bottom Line . . . . .	568

<b>Chapter 17 • Standards: Increasing Revit Productivity</b> . . . . .	<b>569</b>
Get to Work? . . . . .	569
Know Your Limitations . . . . .	569
Standards Planning . . . . .	570
Annotation Standards . . . . .	580
Line Styles . . . . .	583
Fill Patterns and Filled Regions . . . . .	586
User Customization . . . . .	589
The Revit .ini File . . . . .	590
Library Paths . . . . .	592
Shortcut Keys . . . . .	594
Modifying Your Model . . . . .	596
Object Styles . . . . .	596
Visibility/Graphics . . . . .	599
Color Modeling . . . . .	602
The Bottom Line . . . . .	603
<b>Chapter 18 • Family Creation: Beyond the Built-In Libraries</b> . . . . .	<b>605</b>
Creating Families . . . . .	606
Creating a Family File . . . . .	607
In-Place Families . . . . .	628
Grouping . . . . .	634
Creating a Group . . . . .	634
The Bottom Line . . . . .	641
<b>Chapter 19 • Advanced Structural Families</b> . . . . .	<b>643</b>
Tapered Steel Girders . . . . .	643
Create the Basic Constraints . . . . .	644
Bent Steel Beams . . . . .	654
Wood Nailer on a Steel Beam . . . . .	657
Wood Shear Walls . . . . .	662
Using Detail Components in Wall Families . . . . .	663
Elevator Pits . . . . .	667
Steel and Wood Trusses . . . . .	678
Working with the Truss Template to Create a Wood Truss . . . . .	681
The Bottom Line . . . . .	684
<b>Appendices</b> . . . . .	<b>685</b>
<b>Appendix A • The Bottom Line</b> . . . . .	<b>687</b>
Chapter 1: Inside Revit Structure . . . . .	687
Chapter 2: Setting the Project Environment . . . . .	688
Chapter 3: Starting to Model Your Project . . . . .	689
Chapter 4: Structural Columns . . . . .	690
Chapter 5: Floor Slabs and Roof Decks . . . . .	691

Chapter 6: Walls . . . . .	692
Chapter 7: Structural Framing . . . . .	693
Chapter 8: Foundations . . . . .	694
Chapter 9: Model Documentation . . . . .	696
Chapter 10: Modeling Rebar . . . . .	697
Chapter 11: Schedules and Quantities . . . . .	698
Chapter 12: Sheets . . . . .	700
Chapter 13: Worksharing . . . . .	701
Chapter 14: Visualization . . . . .	702
Chapter 15 Revit Structure Analysis . . . . .	703
Chapter 16: Project Phases and Design Options . . . . .	705
Chapter 17: Standards: Increasing Revit Productivity . . . . .	707
Chapter 18: Family Creation: Beyond the Built-In Libraries . . . . .	708
Chapter 19: Advanced Structural Families . . . . .	709
<b>Appendix B • The Gallery Up Close . . . . .</b>	<b>711</b>
Mid-Rise with Multiple Structure Types . . . . .	711
Modeling Techniques . . . . .	713
Concrete Pan and Joist Structures . . . . .	718
What's in the Family . . . . .	720
Workaround Solutions . . . . .	723
Projects with Miscellaneous Framing . . . . .	725
Loose Lintel Opening Family . . . . .	726
Brick Support Frame Families . . . . .	726
A Campus Design . . . . .	728
A Hollywood Studio Project at NBC Universal . . . . .	731
The Historic Rose Bowl Locker Room and Media Center Project . . . . .	736
A Church Project . . . . .	739
A Student Housing Project . . . . .	742
Shear Walls . . . . .	743
Floor Framing . . . . .	744
Roof Trusses . . . . .	744
Summary . . . . .	745
<i>Index . . . . .</i>	<i>747</i>
