Chapter 5: The Power of Layers and Frames	263
Chapter 6: Slicing Up Content for the Web	291
Chapter 7: Advanced Fireworks 8 Tools	313
Chapter 8: Integrating Fireworks 8 with Other Macromedia Products	331
<i>Book IV: Flash 8</i>	345
Chapter 1: Introduction to Macromedia Flash 8	347
Chapter 2: Using the Graphics Tools	367
Chapter 3: Working with Symbols	391
Chapter 4: Making Your Life Easier with Layers	401

Chapter 5: Creating Animation	413
Chapter 6: Adding Sound and Video	427
Chapter 7: Publishing Movies	435
Chapter 8: Getting Interactive with ActionScript	447
Chapter 9: Creating Interfaces with Components and Forms	457
Chapter 10: Integrating Macromedia Flash 8 with Other Macromedia Products	469
Book V: Contribute 3.....	479
Chapter 1: Introduction to Contribute 3.....	481
Chapter 2: Basics for Contributors	497
Chapter 3: Contribute 3 Administration.....	525
Chapter 4: Integrating Contribute 3 with Other Macromedia Products.....	563
Book VI: FreeHand MX.....	569
Chapter 1: Introduction to FreeHand MX.....	571
Chapter 2: Understanding FreeHand MX Basics	583
Chapter 3: Using the FreeHand MX Text Tools.....	607
Chapter 4: Creating Illustrations with FreeHand MX.....	631
Chapter 5: Transforming Text, Shapes, and Images with FreeHand MX	649
Chapter 6: Exploring the Color Management Tools	673
Chapter 7: Integrating FreeHand MX with Other Macromedia Products	695
Book VII: ColdFusion MX 7 Developer Edition	707
Chapter 1: Introduction to ColdFusion MX 7 Developer Edition.....	709
Chapter 2: Working with the ColdFusion Administrator	723
Chapter 3: ColdFusion MX 7 Developer Edition Basics	735
Chapter 4: Understanding CFML Basics	747
Chapter 5: Variables, Functions, and Structured Data.....	761
Chapter 6: Using Databases with ColdFusion MX 7 Developer Edition.....	783
Chapter 7: Advanced Features in ColdFusion MX 7 Developer Edition	791
Chapter 8: Integrating ColdFusion MX 7 Developer Edition with Other Macromedia Products	807
Index	815

Table of Contents

Introduction..... 1

- About This Book.....1
- How to Use This Book1
- Three Presumptuous Assumptions2
- Macintosh versus Windows.....2
- How This Book Is Organized.....3
 - Book I: An Introduction to Building Web Sites.....3
 - Book II: Dreamweaver 83
 - Book III: Fireworks 8.....3
 - Book IV: Flash 8.....3
 - Book V: Contribute 3.....4
 - Book VI: FreeHand MX.....4
 - Book VII: ColdFusion MX 7 Developer Edition.....4
- Icons Used in This Book.....4
- Where to Go from Here.....5

Book 1: An Introduction to Building Web Sites..... 7

Chapter 1: Why Build a Web Site?9

- Understanding Why People Build Web Sites9
- Finding Your Place on the Web.....10
- What Drives People to the Web.....12
- Choosing the Right Type of Web Site13
- Macromedia Studio 8: Your Ally in Development14
- Before You Start: Things to Know15

Chapter 2: Developing Web Content17

- Developing Content: A Four-Step Process17
- Choosing and Organizing Content18
 - Classifying common types of Web content19
 - Categorizing your content.....19
- Creating Content for the Web20
- Prepping Content for the Web22

Chapter 3: Choosing the Right Tools for the Job23

- Before You Begin: When Not to Use Macromedia Studio 8.....23
- Using Dreamweaver 8 for Web Development24
- Designing with Fireworks 8.....25
- Creating Animation with Flash 826

xii *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Illustrating with FreeHand MX.....	28
Creating a Dynamic Site with ColdFusion 7	29
Managing Your Site with Contribute 3.....	29

Chapter 4: Best Practices for Web Development 31

Following the Best Path of Development	32
Step one: Develop a site concept	32
Step two: Define your requirements	32
Step three: Generate content.....	33
Step four: Design the site	33
Step five: Build the site.....	34
Step six: Test and deploy your site	36
Getting the Right People at the Right Time	38
Building a team	38
Involving the right people at the right time.....	39

Book II: Dreamweaver 8 **41**

Chapter 1: Introduction to Dreamweaver 8 43

Exploring the Dreamweaver 8 Interface	43
Selecting a workspace on start-up	44
Introducing the new Start page	44
Introducing the Document Window.....	46
Choosing among Standard, Expanded Table, and Layout Modes.....	47
Examining Your Web Site with the Files Panel.....	48
Exploring Toolbar Buttons.....	49
Using Panels and Inspectors.....	51
Understanding the role of panels	51
Working with the Properties panel	52
Getting Help	52

Chapter 2: Creating Basic Web Pages 55

Setting Ruler and Grid Options in the Document Window	55
Creating and Opening Pages	57
Establishing Page Properties.....	58
Working with Text	60
Adding, editing, and deleting text	60
Inserting a line break	63
Working with Images.....	64
Inserting an image	64
Deleting or moving an image	65
Modifying an image	65
Working with Links.....	67
Inserting a link	68
Deleting a link	68
Using named anchors	68

Table of Contents **xiii**

Working with Tables	70
Inserting a table	70
Deleting a table	72
Using layout tables	72
Storing information in table cells	74
Previewing Your Work	74
Chapter 3: Creating and Using Dreamweaver Sites	75
Defining a Site in Dreamweaver 8.....	75
Creating Your First Site.....	76
Creating a site manually	76
Creating a site using a wizard	78
Setting Up a Remote Connection	82
Using Advanced Site Options	85
Testing your server	86
Cloaking	87
Using Design Notes	87
Setting up a site map.....	87
Selecting columns for the File view.....	87
Enabling Contribute compatibility.....	88
Publishing Your Site.....	89
Maintaining Your Site.....	90
Running reports.....	90
Checking links	92
Using Source Control	93
Chapter 4: Punching Up Your Pages with Forms and Frames	95
Incorporating Forms into Web Pages	95
Adding a form	96
Specifying form properties.....	97
Labeling form objects	98
Using text fields	99
Setting up buttons.....	100
Adding other form elements	101
Structuring Pages with Frames.....	102
Adding frames.....	102
Modifying frames.....	103
Deleting frames.....	106
Saving frames	106
Saving framesets.....	106
Setting no-frames content	106
Targeting content	107
Chapter 5: Laying Out Pages with Layers	111
Adding a Layer.....	111
Selecting a Layer	112
Deleting a Layer.....	113
Placing Objects in a Layer.....	113

xiv *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Changing Layer Properties	113
Including a background image or color in a layer	114
Naming a layer	114
Aligning layers	115
Changing the visibility of a layer	116
Layering layers: Setting the z-index	117
Moving a layer	119
Resizing a layer	120
Nesting Layers	120
Enabling nesting	121
Creating a new nested layer	121
Nesting an existing layer	122
Collapsing or expanding your view in the Layers tab	122

Chapter 6: Using ColdFusion MX 7 Developer Edition in Dreamweaver 8 123

Understanding the Integration of ColdFusion and Dreamweaver	123
Using Features on the Insert Bar	126
Editing a Tag	130
Getting Data from a Database	130
Using the Bindings Tab	133
Introducing Server Behaviors and Components	135
Understanding server behaviors	135
Considering components	135

Chapter 7: Advanced Web Page Design Techniques 137

Creating Clickable Image Maps with Hotspots	137
Creating a hotspot	137
Modifying a hotspot	139
Adding Flash Text Rollovers	139
Adding Flash text	140
Changing Flash text	141
Adding Flash Button Rollovers	142
Adding a Flash button	142
Changing a Flash button	144
Inserting Image Rollovers	144
Setting Up a Navigation Bar	146
Adding Audio and Video to Your Pages	148
Embedding an audio or video clip	149
Embedding background music	150
Linking to an audio or video clip	150
Adding Other Media	151
Using Dreamweaver 8 Templates	152
Validating Your Code	156

Table of Contents **xv**

Chapter 8: Integrating Dreamweaver 8 with Other Macromedia Products157

Integrating Dreamweaver with Fireworks	159
Making Fireworks your primary image editor	159
Working with tables	160
Integrating Dreamweaver with Macromedia Flash	163
Inserting a Flash movie into a Dreamweaver document	163
Working with the Property inspector	164
Editing a Flash movie in Dreamweaver	165
Editing a link in an SWF file in Dreamweaver	166
Integrating Dreamweaver with ColdFusion	167
Integrating Dreamweaver with FreeHand	167
Integrating Dreamweaver with Contribute	167

***Book III: Fireworks 8* 171**

Chapter 1: Introduction to Fireworks 8173

Understanding the Power of Fireworks.....	173
Making designing easier with layers.....	174
Creating slices.....	174
Taking a Quick Tour of the Fireworks 8 Interface	176
The Tools panel: A bird's-eye view.....	177
The Tools panel: A bug's-eye view	178
Across the aisle: The right-side panels.....	181
The Property inspector	182
Viewing and Previewing Your Work	182
Customizing Your Work Environment	183
Collapsing and expanding panels.....	183
Moving, docking, and grouping panels.....	184
Setting Fireworks Preferences	186
Setting General preferences	187
Editing just the way you want.....	188
Telling Fireworks how to play with others.....	189
Expanding your Folder options	189
Importing files in a useful form.....	190
Getting Help	190

Chapter 2: Fireworks 8 Basics193

Creating a New Document.....	193
Changing Views of Your Document.....	195
Saving Documents.....	197
Modifying Document Size.....	198
Changing the image size	198
Changing the canvas size	201

xvi *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

An Introduction to Color Management.....	203
Hexadecimal numbers	204
Web-safe colors.....	204
Chapter 3: Working with Text, Shapes, and Images	207
Working with Text	207
Creating text with the Text tool.....	209
Selecting a font and changing its size.....	210
Adding a little color.....	211
Manipulating text	214
Working with Vector Shapes	218
Making a good old-fashioned line.....	218
Making simple shapes.....	219
Making complex shapes	222
Editing, moving, and deleting shapes	224
Splitting shapes	225
Adding a little color to your shapes	226
Working with Bitmap Images	228
Exploring the bitmap drawing tools	228
Inserting a bitmap image.....	230
Selecting areas in a bitmap image.....	231
Editing bitmaps: The basics.....	233
Chapter 4: Transforming Text, Shapes, and Images	235
Scaling Graphics.....	235
Using the Scale Transformation tool	236
Resizing by entering numerical values	237
Distorting and Skewing Images and Text	238
Distorting an image	239
Skewing an image	240
Distorting and skewing text	241
Rotating and Flipping Graphics and Text.....	243
Rotating graphics	243
Rotating text.....	245
Flipping images.....	246
Flipping text	247
Adding Gradients, Textures, and Patterns	
to Shape Fills and Bitmap Selections	247
Introducing gradients	248
Adding patterns.....	253
Adding textures	253
Adjusting Color Information and More with Filters.....	254
Fine-tuning your colors.....	254
Blurring and sharpening.....	259
Using the other filters: Convert to Alpha and Find Edges.....	261
Adding shadows to objects.....	262
Using Extras: Lite Versions Bundled with Fireworks 8.....	262

Table of Contents *xvii*

Chapter 5: The Power of Layers and Frames	263
Managing Layers	264
Adding and deleting layers	265
Making a layer active	265
Expanding and collapsing layers	266
Making a layer visible or invisible on the canvas	267
Locking and unlocking a layer	267
Renaming a layer	267
Moving a layer in front of or behind other layers	268
Merging layers	270
Using Layers for Masking	270
Creating a bitmap mask	271
Creating a vector mask	274
Using the Web Layer	275
Cutting your objects with the Slice tool	276
Slicing your canvas more exactly with the Polygon Slice tool	277
Working with Objects	278
Renaming an object in the Layers panel	278
Moving an object between layers	278
Setting an object's opacity/transparency	278
Blending	279
Managing Frames	282
Adding frames	283
Deleting and editing frames	284
Renaming frames	284
Using Frames to Create Rollovers and Animated GIFs	284
Creating a rollover	285
Creating an animated GIF	286
 Chapter 6: Slicing Up Content for the Web	 291
Exploring the Advantages of Using Slices	291
Creating and Editing Slices	293
Naming a slice	293
Moving a slice	294
Resizing a slice	295
Duplicating a slice	296
Optimizing Your Images for the Web	297
Working with the options in the Optimize panel	298
Making a JPEG	300
Making a GIF	303
Previewing Slices	306
The Preview pane	307
The 2-Up view	307
The 4-Up view	308
Relating Hotspots and Slices	309

xviii *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Exporting Images.....	310
Exporting a single image	310
Exporting multiple image slices	311
Exporting an animated GIF.....	312
Chapter 7: Advanced Fireworks 8 Tools	313
Using Advanced Export Options.....	313
Readying your PNG for HTML export	315
Exporting HTML with your images	316
Setting the export HTML file options.....	318
Setting Up Image Maps and Button Rollovers.....	319
Creating image maps with hotspots	320
Creating advanced button rollovers	321
Bringing Interactivity to Your Pages with Behaviors.....	324
The Swap Images behavior	324
Generating pop-up menus	326
Chapter 8: Integrating Fireworks 8 with Other Macromedia Products	331
Integrating Fireworks with Macromedia Flash	333
Exporting files from Fireworks to Macromedia Flash.....	333
Importing files into Macromedia Flash from Fireworks	335
Integrating Fireworks with Dreamweaver	336
Setting preferences.....	336
Editing PNGs	337
Working with tables	338
Integrating Fireworks with FreeHand	340
Importing FreeHand files into Fireworks.....	341
Editing Fireworks objects in FreeHand.....	343
Integrating Fireworks with Director.....	344
 Book IV: Flash 8	 345
Chapter 1: Introduction to Macromedia Flash 8	347
Understanding What Macromedia Flash Is and How It Works	347
Seeing what Macromedia Flash can do	347
Creating content for a Web site in Macromedia Flash.....	348
Using Macromedia Flash on a Web site.....	349
Comparing Bitmaps and Vector Graphics.....	349
Exploring Basic Moviemaking Principles	350
The Stage	350
The Timeline and frames.....	351
Layers.....	351
Scenes	352
Creating a Flash Document File.....	352

Table of Contents **xix**

Taking a Quick Tour of the Macromedia Flash Interface	352
Menus.....	352
Timeline.....	354
The Tools panel	356
Getting Organized with Panels	357
The Properties panel	358
Library.....	358
Viewing the Stage.....	360
Setting Movie and Macromedia Flash Preferences	361
Setting document properties	361
Creating your own keyboard shortcuts.....	363
Getting Help	365

Chapter 2: Using the Graphics Tools **367**

Choosing When to Use the Macromedia Flash Tools	367
Creating Shapes and Text.....	367
Line tool.....	368
Oval tool	369
Rectangle tool.....	369
Polystar tool.....	370
Pencil tool.....	371
Pen tool.....	372
Brush tool.....	372
Paint Bucket tool	373
Ink Bottle tool	374
Text tool.....	374
Modifying Shapes and Text.....	376
Selection tool	376
Lasso tool	377
Moving and copying objects	377
Eraser tool.....	378
Reshaping with the Selection tool.....	378
Subselect tool	379
Free Transform tool	379
Straightening and smoothing with the Selection tool	382
Optimizing curves	382
Softening edges.....	383
Flipping.....	383
Transferring properties with the Eyedropper tool	384
Grouping	384
Breaking objects apart.....	385
Aligning objects	385
Working with Colors	386
Creating solid colors.....	386
Creating gradients	387
Editing fills.....	388
Working with bitmap fills	389

XX *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Chapter 3: Working with Symbols	391
Appreciating the Importance of Symbols	391
Working with Graphic Symbols	392
Working with instances of symbols	392
Creating graphic symbols	393
Using graphic symbols	394
Editing graphic symbols	394
Creating and Working with Movie Clip Symbols	395
Working with Button Symbols	397
Creating simple button symbols	398
Adding pizzazz to buttons	399
Testing buttons	400
Chapter 4: Making Your Life Easier with Layers	401
Working with the Layer List	402
Working with Layers	403
Creating layers	403
Using layers	403
Editing layers	403
An introduction to guide layers	406
Using mask layers	407
Changing Layer Options	409
Altering the visibility of objects	409
Locking and unlocking layers	409
Setting layer properties	409
Using Folders to Manage Layers	410
Chapter 5: Creating Animation	413
Getting Familiar with the Timeline	413
Understanding the frame rate	414
Working with the Timeline	414
Onion skinning	415
Using Frames and Keyframes	416
Creating Animation Frame By Frame	417
Creating Tweened Motion Animation	418
Preparing to tween	418
Creating a simple tween	419
Motion tweening along a path	420
Creating Tweened Shape Animation	422
Creating a simple shape tween	422
Using shape hints for more control	423
Adding Basic Interactivity to Animation	424
Go To	424
Stop	425
Play	425
On (mouse event)	425
Working with Scenes	425

**Table of Contents xxi**

Chapter 6: Adding Sound and Video	427
Exploring Sound and Video Formats	427
Sound file formats	427
Video file formats	428
Working with Sounds	428
Importing sounds	428
Placing a sound in a movie	429
Editing sounds	430
Setting sound properties	431
Working with Video Clips	433
Chapter 7: Publishing Movies	435
Publishing Movies the Simple Way	435
Optimizing Movies for Speed	437
Simplifying graphics	438
Optimizing text	438
Minimizing the size of sound files	439
Testing download time	439
Generating HTML and Graphics	440
Creating HTML code	441
Creating graphic files	442
Creating QuickTime movies	444
Creating self-playing movies	445
Exporting movies and images	446
Chapter 8: Getting Interactive with ActionScript	447
Exploring the Role of ActionScript	447
Using Actions in Your Movies	448
Timeline Control actions	449
Browser/Network actions	450
Movie Clip Control actions	450
Advanced actions	450
Creating Frame Actions	451
Creating Button Actions	453
Chapter 9: Creating Interfaces with Components and Forms	457
Adding Components	458
Check boxes	460
Radio buttons	460
Push buttons	461
Combo boxes	461
List boxes	462
Scroll panes	462
Label	463
Loader	464
TextArea	464
TextInput	464

xxii *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

NumericStepper.....	465
Window	465
Setting component properties.....	465
Creating Forms with Macromedia Flash.....	466
Collecting data within a Flash movie.....	466
Posting form data.....	468
Chapter 10: Integrating Macromedia Flash 8 with Other Macromedia Products	469
Integrating Macromedia Flash with Fireworks.....	469
Importing a Fireworks PNG into Macromedia Flash	470
Cutting and pasting between Macromedia Flash and Fireworks	471
Integrating Macromedia Flash with Dreamweaver	472
Integrating Macromedia Flash with FreeHand	473
Integrating Macromedia Flash with ColdFusion.....	474
 Book V: Contribute 3	 479
Chapter 1: Introduction to Contribute 3	481
Why Contribute?	481
Exploring the Contribute Interface.....	482
Panel basics	482
Menus.....	487
Setting Preferences	492
Setting Editing preferences	493
Setting File Editors preferences.....	493
Setting FTP Proxy preferences.....	494
Setting Invisible Elements preferences.....	495
Setting Microsoft Documents preferences.....	495
Setting Security preferences	495
Chapter 2: Basics for Contributors	497
Connecting to a Site.....	497
Connecting to a site with the connection key	498
Connecting to a site with the Connection Wizard.....	499
Opening an Existing Page for Editing.....	502
Creating a New Page	503
Working with Text	504
Adding text	504
Formatting text	504
Working with Tables	509
Inserting a table.....	510
Adding information to a table.....	511
Modifying a table.....	512

Table of Contents **xxiii**

Adding Images, Links, and More	516
Inserting an image	516
Inserting a Flash movie.....	517
Inserting a link	517
Inserting a document as FlashPaper.....	519
Previewing Your Work	520
Uploading (Publishing) a Page	520
Working Offline	521
Collaborating	522
Chapter 3: Contribute 3 Administration	525
Setting Yourself Up as Site Administrator	525
Creating General Settings.....	529
Changing the administrator's e-mail address	529
Changing the Administrator password.....	530
Setting up Contribute Publishing Services (CPS).....	531
Establishing Web server settings	532
Using the Rollback feature to save file backups.....	535
Setting New Pages defaults	536
Deleting all permissions and settings at once	537
Setting Up Users and Roles.....	537
Opening the Administer Website dialog box	537
Setting up a new role.....	538
Deleting roles	538
Editing Role Settings	539
Making general settings	540
Granting access to folders and files	541
Extending file deletion privileges	543
Customizing editing settings.....	543
Granting styles and fonts permissions	546
Granting permission to create new pages.....	548
Setting file placement rules.....	551
Working with shared assets	553
Customizing options for adding new images	556
Creating Connection Keys to Provide Access to Contributors	558
Chapter 4: Integrating Contribute 3 with Other Macromedia Products	563
Using FlashPaper 2.....	563
Teaming Contribute with Dreamweaver	566
Understanding Dreamweaver Templates	566
Working with PayPal and Google	567
Inserting PayPal buttons	567
Inserting a Google search field	568

xxiv *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Book VI: FreeHand MX569

Chapter 1: Introduction to FreeHand MX571

Introducing FreeHand MX	571
Using Illustration Tools for the Web	572
Understanding the Role of Vector Graphics	572
Investigating the FreeHand MX Interface.....	574
Exploring the document window	574
Using the drawing tools	574
Working with toolbars	576
Perusing the panels.....	577
Modifying groups.....	580

Chapter 2: Understanding FreeHand MX Basics583

Creating FreeHand Documents.....	583
Creating a new document.....	584
Modifying documents with the Properties panel.....	585
Editing a Master Page	589
Changing the Document Tab Thumbnail Display	589
Using the Page Tool	590
Opening Existing Documents.....	591
Using the Document Grid.....	592
Using Rulers	592
Creating guides	593
Editing guides	594
Adding Text to Your Illustration.....	595
Creating Predefined Shapes	595
Creating Custom Shapes with the Pen Tool.....	597
Using the Line Tool	598
Coloring Shapes.....	598
Using the Fill Color box	598
Changing a shape's fill color	600
Creating Outlines.....	600
Using the Stroke Color box	600
Changing an object's stroke color.....	601
Working with Layers	601
Creating layers	602
Editing layers	603
Saving Documents in FreeHand.....	604
Saving FreeHand files	604
Exporting files in other formats.....	605

Chapter 3: Using the FreeHand MX Text Tools607

Creating Text with the Text Tool.....	607
Creating auto-expanding text boxes	608
Creating fixed-size text boxes	608

Table of Contents **xxv**

Using Text Rulers	609
Checking the Spelling of a Text Selection	610
Editing Blocks of Text	612
Moving and deleting text	612
Resizing text boxes	612
Changing text box characteristics	613
Formatting Text	614
Choosing a font type, size, and style	616
Creating text styles.....	617
Choosing a text color.....	618
Aligning your text	619
Changing paragraph settings	619
Formatting text in columns and rows.....	621
Scaling text horizontally.....	622
Copying attributes between text boxes.....	623
Adding visual effects to text	623
Adjusting the Spacing and Position of Characters and Lines	625
Adjusting leading.....	625
Adjusting kerning	625
Adjusting baseline shift	626
Working with Text and Paths.....	627
Converting text to a path	627
Aligning text to a path.....	628
Aligning text to both sides of an ellipse	628
Modifying the alignment of text along a path	629
Chapter 4: Creating Illustrations with FreeHand MX	631
Using Predefined Shapes	631
Creating rectangles and squares	632
Creating polygons.....	633
Creating ellipses	634
Creating spirals.....	635
Creating Free-form Shapes	636
Using the Pencil tool	637
Using the Variable Stroke Pen tool.....	638
Using the Calligraphic Pen tool	639
Selecting Objects.....	640
Using the Pointer tool.....	640
Using the Subselection tool	641
Using the Lasso tool.....	641
Editing Objects with the Object Tab.....	642
Grouping and Ungrouping Objects	643
Arranging Objects	644
Aligning Objects with the Align Panel	645
Slicing Objects with the Knife Tool.....	647

xxvi *Macromedia Studio 8 All-in-One Desk Reference For Dummies*

Chapter 5: Transforming Text, Shapes, and Images with FreeHand MX	649
Working with Bitmap Images	649
Modifying Objects	650
Scaling graphics	650
Skewing and distorting objects	653
Rotating objects	655
Flipping objects	657
Using the Move command	659
Giving an object some perspective	660
Extruding an object	662
Scaling, skewing, and rotating with the Pointer tool	662
Using the Trace Tool	664
Creating New Shapes by Combining Shapes	666
Using the Xtra Tools to Change a Shape	667
Using the Arc tool	668
Using the 3D Rotation tool	668
Using the Smudge tool	669
Using the Shadow tool	669
Using Xtra Operations to Modify Shapes	670
Chapter 6: Exploring the Color Management Tools	673
Using the Mixer Tab	674
Mixing a CMYK color	674
Mixing an RGB color	675
Mixing an HLS color	676
Mixing a color from the System Color Picker	677
Working with the Mixer Tab	678
Using the Mixer tab to apply color to an object	678
Using the Mixer tab to change the current fill or stroke color	679
Adding a color to the Swatches tab of the Assets panel	679
Creating Color Tints	680
Using the Swatches Tab of the Assets Panel	681
Adding preset colors to the Swatches tab	683
Renaming a color	683
Exporting a color palette	684
Adding custom colors to the Swatches tab	685
Using the Eyedropper Tool	686
Modifying Strokes	686
Modifying Fills	688
Creating a basic fill	688
Creating a gradient fill	689
Creating a tiled fill	691
Using FreeHand's other fill types	692

Table of Contents *xxvii*

Chapter 7: Integrating FreeHand MX with Other Macromedia Products695

Integrating FreeHand with Fireworks	695
Integrating FreeHand with Macromedia Flash	696
Creating animations	696
Using ActionScript.....	698
Exporting Flash movies	699
Integrating FreeHand with Dreamweaver	702
Adding navigation links	702
Publishing a document as HTML.....	703

Book VII: ColdFusion MX 7 Developer Edition 707

Chapter 1: Introduction to ColdFusion MX 7 Developer Edition . . . 709

Creating Dynamic Web Sites	709
Exploring the Components of ColdFusion	712
Understanding the Role of the Web Application Server	712
Investigating CFML.....	713
Working with the ColdFusion Administrator	713
Setting Up the ColdFusion Environment	714
Finding an ISP.....	714
Installing the application server	714
Configuring the application server	717
Introducing Databases.....	718
Taking a Quick Tour of ColdFusion in Dreamweaver.....	720

Chapter 2: Working with the ColdFusion Administrator723

Exploring the Functionality of the ColdFusion Administrator	723
Logging On to the ColdFusion Administrator	724
Working with the ColdFusion Administrator	725
Creating Data Sources	726
Setting up a data source	727
Other data source tasks	729
Connecting to a Mail Server.....	730
Controlling Logging on Your Site.....	732
Debugging Options for Building Your Site	733

Chapter 3: ColdFusion MX 7 Developer Edition Basics735

Understanding the ColdFusion Application Server Model	736
Getting Acquainted with CFML.....	738
Introducing CFML tags.....	738
Working with variables	742
Using expressions.....	744

xxviii Macromedia Studio 8 All-in-One Desk Reference For Dummies

Chapter 4: Understanding CFML Basics	747
Setting Up Your Page Architecture	747
Understanding template basics	747
Using <CFINCLUDE>	749
Using Conditional Processing.....	750
Using <CFIF> and <CFELSE>	751
Using <CFELSEIF>	752
Using <CFSWITCH>.....	753
Using SQL Queries.....	753
Exploring SQL concepts	754
Using <CFQUERY>	755
Using SQL commands	756
Outputting Content to the Screen.....	758
Using <CFOUTPUT>.....	759
Looping.....	759
Chapter 5: Variables, Functions, and Structured Data	761
Working with Variables and Parameters	761
Creating variables with <CFSET>.....	762
Testing the existence of variables with <CFPARAM>	764
Getting access to variables through <CFQUERY>	768
Using variables generated by ColdFusion	768
Using CFML Functions	768
Using the arrayNew function	770
Using the isDefined function	771
Using the len function	771
Using the DateFormat function.....	772
Using the Trim function	773
Casting Data into Arrays, Lists, and Structures	773
Creating lists	774
Creating arrays	776
Using structures	780
Chapter 6: Using Databases with ColdFusion MX 7 Developer Edition	783
Understanding Relational Databases.....	783
Understanding ODBC and OLE.....	786
Creating Queries in ColdFusion.....	787
Using <CFQUERY>	788
Using <CFINSERT>	788
Using <CFUPDATE>.....	790

**Table of Contents *xxix***

Chapter 7: Advanced Features in ColdFusion MX 7 Developer Edition	791
Using <CFFORM>	791
Working with Sessions and Cookies	794
Using session variables	795
Setting and retrieving cookies	797
Sending Mail.....	799
Creating Graphs.....	801
Building Custom Tags	804
Chapter 8: Integrating ColdFusion MX 7 Developer Edition with Other Macromedia Products	807
Integrating ColdFusion with Dreamweaver	807
Integrating ColdFusion with Fireworks	810
Integrating ColdFusion with Macromedia Flash.....	810
Using the Macromedia Flash Remoting service	811
Working with CF.query and CF.http.....	813
Understanding the Macromedia Flash Communication Server	814
Charting	814
<i>Index</i>	<i>815</i>
