Book VIII: Advanced Mac OS X.....	5
Icons Used in This Book	6

Book I: Introducing Mac OS X

Chapter 1: Shaking Hands with Mac OS X	9
Convince Me: Why Mac OS X?.....	10
Pretty to behold	10
Stable, stable, stable.....	14
Multitasking and multithreading for normal human beings.....	16
The definition of Internet savvy.....	17
Lots of free goodies	18
What Do I Really Need to Run the Big X?.....	19
Upgrading from Earlier Versions of Mac OS	20
Back up — PLEASE back up.....	20
Snuff out disk errors.....	20
Plug it, road warrior	21
Personalizing the Big X	22
Chapter 2: Navigating and Running Programs	25
Restarting, Sleeping, and Shutting Down.....	25
A Window Is Much More Than a Frame.....	28
Opening and closing windows	28
Scrolling windows.....	29
Minimizing and restoring windows	30

Zooming windows.....	31
Toggling toolbars.....	32
Moving windows.....	32
Resizing windows.....	32
Switching windows.....	33
Menu Mysteries Explained.....	34
Icons 'R Us.....	35
Hardware.....	36
Programs and applications.....	37
Files.....	37
Folders.....	38
Aliases.....	39
Selecting Icons for Fun and Profit.....	40
Selecting a single icon.....	41
Selecting multiple icons.....	41
Keyboard Shortcuts for the True Power User.....	42
Houston, We're Go to Launch Programs.....	43
Running applications from your hard drive.....	43
Running applications from a CD-ROM or DVD-ROM.....	44
Switching 'Twixt Programs with Aplomb.....	45
Opening and Saving Your Stuff in an Application.....	47
Opening a document.....	47
Saving a document.....	49
Quitting Programs.....	49

Chapter 3: Basic OS X Housekeeping..... 51

The Finder: It's the Wind beneath Your Wings.....	51
Copying and Moving Files and Folders.....	53
Cloning Your Items — It's Happening Now!.....	54
Deleting That Which Should Not Be.....	54
Dragging unruly files against their will.....	55
Deleting with the menus and the keyboard.....	55
Emptying That Wastepaper Basket.....	55
WAIT! I Need That After All!.....	56
Renaming Your Items.....	56
Adding a Dash of Color.....	57
Displaying the Facts on Files and Folders.....	57
Adding Spotlight comments.....	59
Displaying extensions.....	59
Choosing the application with which to launch a file.....	60
Locking files against evildoers.....	61
Creating an Alias.....	61
Using the Apple Menu.....	62
Using Recent Items.....	62
Playing with the Dock.....	63
Bad program! Quit!.....	65
Tracking down your version.....	65
Specifying a location.....	66
Availing Yourself of Mac OS X Services.....	66

Get Thee Hence: Using the Go Menu.....	67
Monkeying with the Menu Bar	69
Using menu bar icons.....	69
Doing timely things with the Clock.....	71
Eject, Tex, Eject!.....	71
Common Tasks Aplenty.....	72
Opening and editing text files.....	73
Listening to an audio CD.....	73
Recording — nay, burning — a data CD	74
All You Really Need to Know about Printing	75

Chapter 4: Searching Everything with Spotlight 79

Basic Searching 101.....	79
Is Spotlight Really That Cool?	81
Expanding Your Search Horizons.....	83
Customizing Spotlight to Your Taste.....	85

Chapter 5: Fun with Photo Booth and Front Row 87

Capturing the Moment with iSight and Photo Booth.....	87
Producing Video on the Spot with iMovie.....	90
Controlling Your Mac Remotely with Front Row.....	91

Chapter 6: Keeping Track with the Address Book 95

Hey, Isn't the Address Book Just a Part of Mail?	95
Entering Contact Information	97
Using Contact Information	99
Arranging Your Contact Cards.....	101
Using Network Directories	102
Printing Contacts with Flair	104
Swapping Bytes with vCards.....	105

Chapter 7: The Joys of Maintenance 107

Deleting Applications the Common Sense Way.....	107
Popping the Hood: Using the System Profiler.....	109
Tracking Performance with Activity Monitor	110
Fixing Things with the Disk Utility	113
Displaying the goods on your disks	113
Playing doctor with First Aid.....	115
Erasing without seriously screwing up.....	116
Partitioning the right way	118
RAID has nothing to do with insects	120
Updating Mac OS X.....	122
I Demand That You Back Up Your Hard Drive.....	123
Hitching a ride on the Time Machine	123
Using other backup solutions	125
I Further Demand That You Defragment	126
Special Start-Up Keys for Those Special Times	126
Crave the Newest Drivers.....	127

Chapter 8: Getting Help for the Big X 129

Displaying the Help Viewer Window 129
Searching for Specific Stuff 130
Prodding Apple for the Latest Gossip 132
Calling for Help Deep in the Heart of X 132
Other Resources to Chew On 133
 Voice support 133
 Mac publications and resource sites 133
 Local Mac outlets and user groups 134

Chapter 9: Troubleshooting the X 135

Don't Panic! 135
The Troubleshooting Process 136
 Step 1: Always try a simple shutdown 137
 Step 2: Check all cable connections 137
 Step 3: Retrace your steps 137
 Step 4: Run Disk Utility 138
 Step 5: Run antivirus software 138
 Step 6: Check the Trash 139
 Step 7: Check online connections 139
 Step 8: Disable troublesome Login Items 139
 Step 9: Turn off your screen saver 140
 Step 10: Check for write protection 140
 Step 11: Check your System Profiler 141
 Step 12: Reboot with the Mac OS X Installation disc 141
Do I Need to Reinstall Mac OS X? 142
It's Still Not Moving: Troubleshooting Resources 142
 The Mac OS X Help Viewer 143
 The Apple Mac OS X Support site 143
 Your local Apple dealer 143

Book II: Customizing and Sharing 145

Chapter 1: Building the Finder of Your Dreams 147

Will That Be Icons or Lists or Columns . . . or Even a Flow? 147
Doing the Toolbar Dance 151
 Hiding and showing the toolbar 151
 Hiding and showing the status bar 151
 Giving your toolbar big tires and a loud exhaust 152
Searching for Files from the Toolbar 154
Searching for Files from the Find Dialog 155
Configuring the View Options 157
 Setting icon view options 157
 Setting list view options 160
 Setting column view options 162
 Setting Cover Flow view options 164
Setting Finder Preferences 164

Chapter 2: Giving Your Desktop the Personal Touch. 167

- Changing the Background 167
 - Picking something Apple 168
 - I just gotta have lavender 170
 - Selecting your own photo 170
- Changing the Screen Saver 171
- Changing Colors in Mac OS X..... 172
- Adding Stickies..... 172
- Customizing the Dock 175
 - Adding applications and extras to the Dock 175
 - Keeping track(s) with Stacks..... 176
 - Resizing the Dock..... 177
- Stick It on the Dashboard 178
- Arranging Your Precious Desktop..... 180

Chapter 3: Delving under the Hood with System Preferences. 181

- The Preferred Way to Display the Preferences 181
- Saving Your Preferences..... 182
- Searching for Specific Settings..... 183
- Getting Personal 183
 - Appearance preferences 183
 - Desktop and screen saver preferences 185
 - Dock preferences 186
 - Exposé and Spaces preferences..... 187
 - Language & Text preferences 190
 - Security preferences..... 191
 - Spotlight preferences 193
- It's All about the Hardware 194
 - CDs and DVDs preferences 194
 - Displays preferences 195
 - Energy Saver preferences 196
 - Keyboard preferences 197
 - Mouse preferences 198
 - Printing and fax preferences 199
 - Sound preferences 201
- Sharing the Joy: Internet and Network 202
 - Bluetooth preferences..... 202
 - MobileMe preferences..... 203
 - Network preferences 204
 - Sharing preferences..... 208
- Tweaking the System 209
 - Accounts preferences 209
 - Date and time preferences..... 211
 - Parental Controls preferences 212
 - Software Update preferences 212
 - Speech preferences 213
 - Startup Disk preferences 214
 - Time Machine preferences 215
 - Universal Access preferences 216

Chapter 4: You Mean Others Can Use My Mac, Too? 219

How Multiuser Works on Mac OS X 219
Configuring Your Login Screen 221
Locking Things Down..... 224
Starting Applications Automatically after Login 225

Chapter 5: Setting Up Multiuser Accounts 227

Adding, Editing, and Deleting Users 227
 Adding a new user account 228
 Editing an existing account 230
 Deleting an existing account 230
Tightening Your Security Belt..... 232
 Setting Parental Controls 232
 Assigning the Simple Finder 236
Using Keychains — NOT..... 237

Chapter 6: Sharing Documents for Fun and Profit 241

Sharing over a Network versus Sharing on a Single Mac 241
 No network is required 242
 Relying on a guaranteed lock 242
 Most places are off-limits 243
Permissions: Law Enforcement for Your Files 243
Permission and Sharing Do's and Don'ts..... 246
Sharing Stuff in Office 2008..... 247
 Document-sharing features 247
 File-level sharing features 247

***Book III: The Digital Hub* 251**

Chapter 1: The World According to Apple. 253

First, Sliced Bread . . . and Now, the Digital Hub 253
What Does Digital Mean, Anyway? 254
What Can I Digitize?..... 255
 Photographs 255
 Music 256
 Video..... 256
 DVD 256
The Software That Drives the Hub 256
 iPhoto 257
 iTunes..... 258
 iMovie..... 259
 iDVD 260
 GarageBand 260
 iWeb 260
Can I Use All This Stuff at One Time?..... 260

Chapter 2: Jamming with iTunes and iPod	263
What Can I Play on iTunes?	264
Playing an Audio CD	265
Playing Digital Audio and Video	267
Browsing the Library	269
Finding songs in your Music Library	270
Removing old music from the Library	270
Watching video	271
Keeping Slim Whitman and Slim Shady Apart:	
Organizing with Playlists	271
Know Your Songs.....	273
Setting the song information automatically	274
Setting or changing the song information manually	274
Ripping Audio Files.....	276
Tweaking the Audio for Your Ears	277
A New Kind of Radio Station	278
iTunes Radio.....	278
Tuning in your own stations.....	279
Radio stations in your playlists	280
iSending iStuff to iPod.....	281
Sharing Your Media across Your Network.....	282
Burning Music to Shiny Plastic Circles	282
Feasting on iTunes Visuals.....	284
Buying Digital Media the Apple Way.....	285
Chapter 3: Focusing on iPhoto	287
Delving into iPhoto.....	287
Working with Images in iPhoto	289
Import Images 101.....	290
Organize mode: Organizing and sorting your images	291
Edit mode: Removing and fixing stuff the right way.....	300
Producing Your Own Coffee-Table Masterpiece	303
You'll Love MobileMe Gallery!.....	306
Mailing Photos to Aunt Mildred.....	308
Chapter 4: Making Magic with iMovie	311
The iMovie Window.....	311
A Bird's-Eye View of Moviemaking.....	314
Importing the Building Blocks	315
Pulling in video clips	315
Making use of still images	317
Importing and adding audio from all sorts of places	318
Building the Cinematic Basics	321
Adding clips to your movie	321
Removing clips from your movie.....	322
Reordering clips in your movie.....	322
Editing clips in iMovie	323

Transitions for the masses	324
Even Gone with the Wind had titles	325
Sharing Your Finished Classic with Others	326
Chapter 5: Burn Those DVDs! Using iDVD	329
Introducing Your Mac to iDVD	329
Starting a New DVD Project	332
Creating a new project	332
Opening an existing project	333
Automating the whole darn process	333
Creating a DVD from Scratch	334
Choosing just the right theme	334
Adding movies	335
Great, now my audience demands a slideshow	338
Now for the music	340
Giving Your DVD the Personal Touch	341
Using Uncle Morty for your DVD Menu background	341
Adding your own titles	341
Changing buttons like a highly paid professional	342
Give my creation motion!	343
Previewing Your Masterpiece	343
A Word about Automation	345
One-click paradise with OneStep DVD	345
Exercising control with Magic iDVD	346
Recording a Finished Project to a Shiny Disc	347
Chapter 6: Becoming a Superstar with GarageBand	349
Shaking Hands with Your Band	350
Composing and Podcasting Made Easy	352
Adding tracks	353
Choosing loops	356
Resizing, repeating, and moving loops	360
Using the Arrange track	361
Tweaking the settings for a track	363
Automatic Composition with Magic GarageBand	364
Sharing Your Songs and Podcasts	366
Creating MP3 and AAC files and ringtones	367
Sending a podcast to iWeb or iTunes	368
Burning an audio CD	369
Chapter 7: Crafting a Web Site with iWeb	371
Looking around the iWeb Window	372
Planning Your Pages	373
Adding a New Site	374
Adding a New Page	375
Editing a Page	376
Modifying text	377
Replacing images	378
Adding new elements	379

Tweaking with the Inspector..... 381
 Publishing Your Web Site 382

Chapter 8: No, It's Not Called iQuickTime 385

QuickTime Can Do That?..... 385
 Playing Media with QuickTime 386
 Opening QuickTime movies 386
 Operating QuickTime Player 387

Chapter 9: Turning Your Mac into a DVD Theater 391

The DVD Hardware..... 391
 The DVD Player: It's Truly Shiny 392
 Using the Controller 392
 Keeping your eyes on the Viewer 394
 Taking Advantage of Additional DVD Features..... 395
 Controller extras 395
 DVD Player preferences 396

Book IV: Using iWork 401

Chapter 1: Desktop Publishing with Pages 403

Creating a New Pages Document..... 404
 Open an Existing Pages Document..... 405
 Saving Your Work..... 405
 Touring the Pages Window 405
 Entering and Editing Text..... 407
 Using Text and Graphics Boxes 407
 The Three Amigos: Cut, Copy, and Paste..... 408
 Cutting stuff 408
 Copying text and images..... 409
 Pasting from the Clipboard 409
 Formatting Text the Easy Way..... 409
 Adding a Spiffy Table 410
 Adding Alluring Photos..... 411
 Adding a Background Shape 413
 Are You Sure About That Spelling?..... 413
 Printing Your Pages Documents..... 414
 Sharing That Poster with Others..... 415

Chapter 2: Creating Spreadsheets with Numbers 417

Before We Launch Numbers 417
 Creating a New Numbers Document..... 418
 Opening an Existing Spreadsheet File..... 419
 Save Those Spreadsheets!..... 420
 Exploring the Numbers Window..... 420
 Navigate and Select Cells in a Spreadsheet..... 422

Entering and Editing Data in a Spreadsheet.....	423
Selecting the Right Number Format	423
Aligning Cell Text Just So	424
Format with Shading	425
Insert and Delete Rows and Columns	426
The Formula Is Your Friend	427
Adding Visual Punch with a Chart.....	428

Chapter 3: Building Presentations with Keynote 431

Creating a New Keynote Project	432
Opening a Keynote Presentation	433
Saving Your Presentation	433
Putting Keynote to Work	434
Adding Slides.....	435
Working with Text and Graphics Boxes	435
Adding and Editing Slide Text.....	437
Formatting Slide Text for the Perfect Look	437
Using Presenter’s Notes in Your Project	438
Every Good Presentation Needs Media	438
Adding a Background Shape	438
Creating Your Keynote Slideshow.....	439
Printing Your Slides and Notes.....	440

***Book V: The Typical Internet Stuff* 443**

Chapter 1: Getting on the Internet 445

Shopping for an ISP	445
Investigating Various Types of Connections	447
Setting Up Your Internet Connection.....	449
Using an internal or external modem.....	449
Using Ethernet hardware	450

Chapter 2: Using Apple Mail 453

Know Thy Mail Window.....	453
Setting Up Your Account	456
Adding an account	457
Editing an existing account	459
Deleting an account.....	459
Receiving and Reading E-Mail Wisdom.....	459
Reading and deleting your messages	461
Replying to mail	462
Raise the Little Flag: Sending E-Mail.....	465
What? You Get Junk Mail, Too?	469
Attachments on Parade	471

Fine-Tuning Your Post Office	472
Adding sound	472
Checking Mail automatically	472
Automating junk mail and message deletion	472
Adding signatures	473
Changing the status of an account	473
Automating Your Mail with Rules.....	474
Chapter 3: Staying in Touch with iChat	477
Configuring iChat	478
Changing Modes in iChat.....	480
Will You Be My Buddy?.....	481
Chat! Chat, I Say!.....	483
Sharing Screens and iChat Theater	486
Sending Files with iChat.....	487
Eliminating the Riffraff	488
Adding Visual Effects	488
Chapter 4: Expanding Your Horizons with iDisk.	491
Grabbing Internet Storage for Your Mac	492
Understanding What’s on Your iDisk.....	494
Opening and Using iDisk.....	495
Chapter 5: Going Places with Safari.	497
Pretend You’ve Never Used This Thing.....	498
Visiting Web Sites	499
Navigating the Web	500
Setting Up Your Home Page	503
Adding and Using Bookmarks	504
Downloading Files	506
Using Subscriptions and History	507
Tabs Are Your Browsing Friends.....	507
Saving Web Pages	508
Protecting Your Privacy	509
Yes, there are such things as bad cookies	510
Cleaning your cache.....	511
Handling ancient history.....	511
Avoiding those @*!^%\$ pop-up ads	511
Chapter 6: Staying Secure Online	513
What Can Really Happen?.....	513
“Shields Up, Chekov!”	516
Firewall basics.....	516
Antivirus basics.....	519
A Dose of Common Sense: Things Not to Do Online.....	520

Book VI: Networking in Mac OS X..... 523

Chapter 1: Setting Up a Small Network 525

What Do I Need to Set Up My Network?	525
Something to network	526
Network interface card (NIC)	527
Switch	527
Cables	528
Setting Up Your Network.....	529
Understanding the Basics of Network Configuration.....	530
TCP/IP	530
Software applications	532
Configuring Network System Preferences	532
Using DHCP for automatic IP address assignment	532
Manually choosing an IP address range	533
Verifying Connectivity	536
Troubleshooting Your New Network	537
Physical problems with your network	538
Network configuration problems.....	539

Chapter 2: Using Your Network 541

It's All about (File) Sharing.....	541
Creating an account.....	541
Enabling file sharing	543
Connecting to a shared resource.....	543
Sharing a Connected Printer	544
Sharing Files with Windows Computers	544
Accessing File Shares on Windows Computers	545
Using FTP to Access Files	546
Using the Mac OS X built-in FTP to share files	547
Using FTP from Terminal to transfer files.....	548
Using the Built-in Firewall.....	550
Remote Control of Your Mac	551
Using Screen Sharing.....	551
Remotely control your Mac (for free, no less!)	552
How VNC works.....	552
Remote control of another computer from your Mac.....	554

Chapter 3: Going Wireless 555

Speaking the Wireless Lingo	555
Figuring Out the Different Flavors of Wireless Ethernet	557
Basic Wi-Fi: 802.11b	557
Let's get Extreme: 802.11g	558
Raising the bar to 802.11n.....	558
The guy with the turquoise teeth	559

Keeping Your Wireless Network Secure	559
WPA and WPA2	560
WEP	561
The LEAP security standard	561
Setting Up Your Wireless Network	562
Installing an AirPort Extreme network card	562
Setting up an Ad Hoc wireless network	562
Setting up wireless networks with an AirPort Base Station	564

Chapter 4: Sharing That Precious Internet Thing 567

Sharing the Internet	567
Using Network Address Translation	568
Ways to Share Your Internet Connection	570
Using hardware for sharing an Internet connection	570
Using software for sharing an Internet connection	572
Connecting Everything for Wired Sharing	573
Using the software method	573
Using the hardware method	574
Adding Wireless Support	576
If you already have a cable/DSL router or are using software Internet sharing	576
If you do not have a cable/DSL router or an AirPort Extreme Base Station	577

***Book VII: Expanding Your System* 579**

Chapter 1: Hardware That Will Make You Giddy 581

Parading Pixels: Digital Cameras, DV Camcorders, and Scanners	582
Digital cameras	582
DV camcorders	583
Scanners	584
Incredible Input: Keyboards, Trackballs, Joysticks, and Drawing Tablets	585
Keyboards	585
Trackballs	586
Joysticks	588
Drawing tablets	589
Sublime Storage: CD/DVD Recorders	590
Awesome Audio: Subwoofer Systems and MP3 Hardware	590
Subwoofer speaker systems	591
MP3 players (well, actually, just the iPod)	591

Chapter 2: Add RAM, Hard Drive Space, and Stir.	593
Adding Memory: Reasons for More RAM	593
Shopping for a RAM Upgrade.....	595
Finding out the current memory in your Mac.....	595
Determining the exact model of your computer.....	596
The Tao of Hard Drive Territory	597
Internal versus External Storage	598
External drives	598
Internal drives	599
Determining How Much Space You Need.....	600
Shopping for a Hard Drive.....	601
Installing Your New Stuff	601
The easy way.....	602
The hard way.....	602
Chapter 3: Port-o-Rama: Using USB and FireWire.	605
Appreciating the Advantage of a FireWire Connection	605
Understanding USB and the Tale of Two Point Oh	607
Hey, You Need a Hub!.....	608
Uh, It's Just Sitting There.....	608
Common FireWire and USB headaches.....	608
Check those drivers.....	610
Chapter 4: I'm Okay, You're a Printer	611
Meet the Printer Browser	611
Adding a Funky Printer	614
Managing Your Printing Jobs	615
Sharing a Printer across That There Network.....	617
Chapter 5: Applications That You've (Probably) Gotta Have.	619
The Trundling Microsoft Mammoth.....	620
Your Mac OS X Toolbox: TechTool Pro.....	622
Image Editing for the Masses	623
The Morass of Digital Video	624
Yes, It's Really Called "Toast".....	625
If You Positively Have to Run Windows	626
All Hail FileMaker Pro.....	628
Utilities That Rock.....	628
StuffIt	629
QuicKeys X3.....	629
BBEdit.....	630
REALbasic	631
At Least One Game	632
Mac OS X Chess.....	632
World of WarCraft.....	633

Book VIII: Advanced Mac OS X..... 635**Chapter 1: . . . And UNIX Lurks Beneath 637**

Why Use the Keyboard?.....	637
UNIX keyboarding is fast.....	638
The UNIX keyboard is a powerful beast.....	638
Go where no mouse has gone before.....	639
Automate to elevate.....	640
Remote control.....	640
Uncovering the Terminal.....	641
What's a prompt?.....	641
A few commands to get started.....	642
Using the skills you already have.....	643
UNIX Commands 101.....	644
Anatomy of a UNIX command.....	644
Command-line gotchas.....	645
