Table of Contents

<i>Introduction</i>	1
About This Book	1
Conventions Used in This Book	2
Foolish Assumptions	2
How This Book Is Organized	3
Part I: Getting Your Butt off the Couch	3
Part II: Enjoying Total-Body Health:	
Eating Well and Staying Injury-Free	3
Part III: Getting to the Heart of the Matter	4
Part IV: Lift and Curl: Building a Stronger Bod with Weights	4
Part V: Cardio-Strength Workouts:	
Getting the Best of Both Worlds	4
Part VI: Conquering the Gym (Even at Home)	5
Part VII: Exercising for All Ages and Stages	5
Part VIII: The Part of Tens	5
Icons Used in This Book	6
Where to Go from Here	6
<i>Part I: Getting Your Butt off the Couch</i>	7
Chapter 1: Fitness 101: Getting the Scoop	9
Yes, This Class Has Tests	9
Choosing Your Weapon	10
Seeing into the heart of the matter	10
Getting buff with weights	11
Cardio and strength together: Two for the price of one	11
Stretching Your Mind (and Body)	11
What Are You Eating?	12
At Home or at the Gym — Choosing What’s Best for You	12
Special Exercises for Special People	13
Chapter 2: Testing Your Fitness	15
What’s Your Health History?	16
What’s Your Heart Rate?	17
What’s Your Blood Pressure?	17
How Fit Is Your Heart?	18
How Much of You Is Fat?	19
Pinching an inch	20
Taking your measurements	21
Calculating your body mass index	21

Getting zapped (also body-fat scales and handheld testers)	23
Getting dunked (underwater weighing)	24
BOD POD: The cutting edge of body-fat testing	25
DEXA: X-ray vision	25
How Strong Are You?	25
Measuring your upper-body strength	26
Measuring your abdominal strength	27
Measuring your lower-body strength	28
How Flexible Are You?	28
Your Fitness Test Results	31
Chapter 3: Establishing Your Plan of Attack	33
Setting Goals	33
Long-term goals	34
Short-term goals	35
Immediate goals	35
Backup goals	35
Finding Ways to Reward Yourself	36
Writing Everything Down	36
Making a goal sheet	37
Keeping a workout log	38
Making Exercise a Habit	40
Expect to feel uncomfortable at first	41
Pace yourself	41
Work out with friends or join a club	41
Mix it up	41
Buy the right gear and equipment	42
Cut yourself some slack	43
Chapter 4: Hiring a Trainer	45
Five Smart Reasons to Hire a Trainer	45
Weeding Out the Poseurs	46
Certification	47
University degrees	49
Experience	50
Brochures	50
Liability insurance	50
An interview	51
A trial session	51
Trainer fees	51
Knowing a Quality Trainer When You See One	53
Getting the Most out of Your First Training Session	54
Being the Best Client You Can Be	55

***Part II: Enjoying Total-Body Health:
Eating Well and Staying Injury-Free57***

**Chapter 5: This Doesn't Have to Happen to You:
Avoiding Common Injuries 59**

Taking Care of Common Injuries	59
Strains and sprains	60
Shin splints	61
Achilles tendonitis	61
Knee pain	62
Stress fractures	63
Lower-back pain	63
Tennis elbow	64
Neck pain	65
Rotator-cuff injuries	66
Chafing	66
RICE, RICE Baby	67
Rest	67
Ice	68
Compression	68
Elevation	68

Chapter 6: The Scoop on Stretching 69

Why You Need to Stretch	69
Before, After, During? Knowing When to Stretch	70
Following a Few Rules of Stretching	71
A Simple Stretching Routine	71
Neck stretch	72
Chest expansion	73
Back expansion	73
Standing hamstring stretch	74
Standing quad stretch	75
Double calf stretch	76
Horse biting tail	77
Butterfly stretch	78
Finding Alternative Ways to Stretch	79
Active Isolated stretching	79
PNF	82

Chapter 7: Nutrition Basics 85

Control Your Calories	86
Get the Skinny on Fat	87
Distinguish between healthful and unhealthful fats	87
So how much fat is it okay to eat?	88

Choose Your Carbs Carefully	89
Choosing the best carbs	89
Getting enough fiber	89
Avoiding processed carbs	90
Going low-carb — with modifications	90
Get Enough Protein, but Don't Fall for High-Protein Propaganda	91
Analyze Your Eating Habits	92
Follow a Food Pyramid	93
The USDA Food Guide Pyramid	93
The Mediterranean Diet Pyramid	95
Harvard School of Public Health's Healthy Eating Pyramid	96
Fuel Up for Your Workouts	97
Before you work out	97
During your workout	98
After your workout	98
Don't go too long without eating	98
Drink Lots and Lots of Fluids	99
Don't Waste Money on Useless Supplements	101

***Part III: Getting to the Heart of the Matter* 103**

Chapter 8: Cardio Crash Course 105

Two Cardio Rules That You Can't Break	105
Warming up	106
Cooling down	107
How Hard Do You Need to Push?	108
The talk test	108
Perceived exertion	108
Measuring your heart rate	109
How Much Do You Need to Do?	115
Following a Cardio Plan for Good Health	116
How often you need to do cardio for good health	116
How long your workouts should last for good health	117
How hard you need to push for good health	117
Following a Cardio Plan for Weight Loss	117
How often you need to do cardio for weight loss	118
How long your workouts should last for weight loss	118
How hard you need to push for weight loss	118
Which activities burn the most calories	119
Following a Cardio Plan to Maximize Your Fitness	121
How often you need to do cardio for maximum fitness	122
How long your workouts should last for maximum fitness	122
How hard you need to push for maximum fitness	122
Four ways to boost your fitness	122
Training for a specific event	124
Giving It a Rest	124

Chapter 9: Using Cardio Machines127

Can You Trust Those Calorie Counters?128

Combating Boredom on Aerobic Machines129

 Take a cardio-machine class129

 Vary your workouts129

 Listen to music or a book on tape130

 Watch TV or a video130

 Read a magazine131

 Exercise in short spurts131

 Think, but not too hard131

 Monitor your heart rate132

 Talk to a friend132

Exercising in the Great Indoors132

 Treadmill133

 Elliptical trainer134

 Stationary bicycle136

 Stair-climber139

 Rolling stair-climber141

 VersaClimber143

 Rowing machines144

Chapter 10: Exercising Outdoors147

Walking147

 Essential walking gear148

 Walking the right way148

 Walking tips for rookies149

Running149

 Essential running gear150

 Running the right way150

 Running tips for rookies151

Bicycling: Road and Mountain151

 Essential cycling gear152

 Cycling the right way153

 Cycling tips for rookies153

In-Line Skating154

 Essential skating gear154

 Skating the right way155

 Skating tips for rookies155

Swimming156

 Essential swimming gear156

 Swimming the right way157

 Swimming tips for rookies158

Snowshoeing158

 Essential snowshoeing gear159

 Snowshoeing the right way159

 Snowshoeing tips for rookies160

***Part IV: Lift and Curl: Building a Stronger Bod with Weights* 161**

Chapter 11: Why You've Gotta Lift Weights163

Five Important Reasons to Pick Up a Dumbbell	163
Stay strong for everyday life	164
Keep your bones healthy	164
Prevent injuries	165
Look better	165
Speed up your metabolism	165
Building Muscle: Myths and Reality	166
How long does it take to get stronger?	167
Do some people have greater strength potential than others? ...	167
Strength is one thing, but how long will it take before my body looks better?	168
What if I want to get muscle definition like Demi Moore or Jackie Chan?	168
Will weight lifting turn me into a WWE contender?	168
But what if I want to increase bulk?	169
If I stop lifting weight, won't my muscle turn to fat?	169
Should I lose weight before I start lifting weights?	170

Chapter 12: Your Muscles: Love 'Em or Lose 'Em171

Shoulders	174
Deltoids	174
Rotator cuff	175
Back	176
Trapezius	176
Latissimus dorsi	177
Rhomboids	178
Erector spinae	178
Chest (the Pectorals)	179
Arms	180
Biceps	181
Triceps	182
Forearm muscles	182
Abdominals	183
Rectus abdominis	183
Internal and external obliques	185
Butt and Hips	185
Gluteus maximus	185
Hip abductors	186
Leg adductors	187
Legs	188
Quadriceps	188
Hamstrings	188
Gastrocnemius and soleus	189
Tibialis anterior	190

Chapter 13: Demystifying Strength Equipment	191
Weight Machines	191
The advantages of machines	192
The drawbacks of weight machines	193
Special tips for machines	195
Free Weights	196
The advantages of free weights	199
The drawbacks of free weights	199
Special tips for free weights	199
A word about benches	200
Cable Pulleys	201
Tubes and Bands	202
Your Body	203
Chapter 14: Designing a Strength-Training Program	205
The Building Blocks of a Weight Workout	205
How many reps should I do?	206
How much should I lift?	207
How do I know when I'm ready to lift more weight?	207
How fast should I do my reps?	207
How many sets should I do for each muscle group?	208
How long should I rest between sets?	209
In what order should I do my exercises?	209
How many times a week do I need to lift weights?	210
How often should I change my routine?	211
All about Abs	213
A Simple Functional Workout	214
Reading the exercise instructions	214
Lifting weights the right way	215
A word about the exercises	216
The strength workout	217
<i>Part V: Cardio-Strength Workouts: Getting the Best of Both Worlds</i>	237
Chapter 15: Circuit Training for Fitness and Fun	239
Setting Up Stations and Knowing Which Exercises to Do	239
Arm-strengthening stations	240
Leg-strengthening stations	243
Abdomen, butt, and lower-back strength stations	244
Moving through Sample Stations	246
Putting the Stations Together into a Circuit	247
Chapter 16: All about Yoga: Mind and Body	249
Knowing Your Asana from Your Elbows	249
Finding a Yoga Style That's Right for You	250

Taking Yoga Classes	251
A Yoga Routine	252
Easy pose	253
Forward bend	253
Child's pose	254
Sage twist	255
Cat pose	255
Triangle pose	256
Sun salutation	257

Chapter 17: Pilates: Sculpting and Strengthening259

Understanding How Pilates Works	259
Finding a Class or Instructor	260
Looking at a Some Pilates Exercises	262
Upper-abdominal curls	262
Bridge	262
Basic cat	264

Part VI: Conquering the Gym (Even at Home)265

Chapter 18: Health-Club Primer: Getting the Most Out of Your Gym267

Should You Join a Health Club?	268
Three reasons to sign up	268
Three reasons to say, "No thanks"	269
Knowing How to Judge a Gym	269
Location	269
Size	270
Cost	270
Equipment	273
Classes	273
Members	274
Staff	274
Cleanliness	275
Hours	275
Extra amenities	275
Braving the Gym Alone	276
Health-Club Etiquette: The Unwritten Rules	278
Major no-nos	279
Locker-room rules	280
A Classroom Code of Conduct	282

Chapter 19: Choosing an Exercise Class or DVD283

Why Take a Class?	284
Getting through when you haven't a clue	284
What to expect from your instructor	285

A word about cost286
 Popular classes286
 Choosing from Among All the Exercise DVDs294
 Advantages of exercise DVDs294
 How to choose a DVD295
 Where to buy DVDs298
 Your DVD options299
 Our favorite instructors300
 Important safety tips301

Chapter 20: Designing a Home Gym303

 Planning Your Exercise Space303
 Looking at the big picture303
 Choosing an inviting spot for your equipment304
 Taking careful measurements304
 Thinking about flooring305
 Equipment Shopping Tips305
 Shopping around305
 Taking a test drive306
 Looking for safety features307
 Asking for a discount307
 Checking out warranty and service plans307
 Investing in Cardio Equipment307
 Treadmills308
 Elliptical trainers310
 Stair-climbers311
 Stationary bikes311
 Rowing machines313
 Two cardiovascular bargains313
 Buying Strength Equipment316
 Exercise bands and tubes316
 Ankle weights317
 Free weights318
 Weight benches321
 Multi-gyms321
 Considering Flexibility Gadgets324

Part VII: Exercising for All Ages and Stages327

Chapter 21: Fit Pregnancy: Exercising for Two329

 Understanding the Benefits of a Fit Pregnancy330
 Working with Your Healthcare Provider331
 Great Activities to Consider During Pregnancy332
 Walk this way332
 Getting into the swim of things332
 Prenatal low-impact aerobics or yoga class333
 Continue lifting weights334

Monitoring Your Prenatal Workout Routine	335
Keep Exercising after the Baby Arrives	338
Chapter 22: Kids, Tweens, and Teens: Fun Activities for the Whole Family	339
Getting Your Toddler Outdoors	340
Taking your kids along on your fitness routine	340
Focusing on fun	341
Finding Time with Your Preteen	342
Leaving the car behind	343
Cutting back on TV and video games	344
Connecting with Your Teenager	344
Planning new traditions	344
Letting your teen find his groove	345
Chapter 23: Staying Active as You Age	347
Keeping Yourself Young with Exercise	347
Knowing Where to Begin	348
Cardio workouts for a healthy heart	349
Resistance training for strength	350
Pilates for balance	350
Stretching and yoga for flexibility	350
Staying Safe	351
<i>Part VIII: The Part of Tens</i>	<i>353</i>
Chapter 24: Ten Great Reasons to Break a Sweat	355
You Reduce Your Risk of Medical Problems	356
You Can Control Your Weight	359
You Improve Your Looks	360
You Gain Psychological Benefits	360
You Enjoy Social Benefits	361
You Improve Your On-the-Job Performance	362
Your Family Benefits	362
You Satisfy Your Competitive Urges	363
You Have Fun	364
You Enjoy Life More	364
Chapter 25: Ten Great Fitness Investments under \$100	367
A Water Bottle	367
A Good Pair of Socks	368
Stretching Mat	368

Weightlifting Gloves369
 A Workout Log369
 PlateMates370
 A Gym Bag370
 A Heart-Rate Monitor371
 A Personal Training Appointment371
 A Massage372

Chapter 26: Ten Fitness Rip-Offs 373

Anti-Cellulite Products374
 Metabolism Boosters374
 Fat Blockers375
 Effortless Exercisers375
 Electronic Muscle Stimulation Machines375
 Spot-Reducing Gadgets376
 Weight-Loss Clothing376
 Four-Minute Workouts377
 Gym Cardio Machine Knockoffs377
 Hand Weights378

Chapter 27: Ten Ways to Stay Motivated 379

Train for an Event379
 Keep Your Goals in Plain Sight380
 Work Out with a Club or a Team380
 Work Out with a Buddy381
 Join an Internet Fitness Community381
 Test Your Fitness Regularly382
 Mix Up Your Workouts382
 Dress the Part383
 Keep Yourself Entertained383
 Read Success Stories384

Appendix: Educating Yourself 385

Sifting Through Scientific Research385
 Look for context386
 Consider the source386
 Don't assume cause and effect387
 Look for comparison groups387
 Do some math387
 Notice the length of the study388
 Pay attention to the number of subjects388
 Don't make too much of animal studies388
 Recognize that people lie in surveys388

Fitness Magazines	389
Check out specialty magazines	389
Beware of sensational headlines	389
Know that advertisers influence editorial copy	390
Newspapers	390
The Internet	391
