Introduction	xii
Chapter 1 ■ Basic Concepts	1
How to Read This Book	2
What Is CGI?	2
Production Workflow	4
CG Workflow	8
CG Specialties	12
Core Concepts	14
Coordinate Systems	22
Basic Animation Concepts	23
Basic 3ds Max Terms and Concepts	27
Summary	30
Chapter 2 ■ Your First Max Animation	31
Getting Around in 3ds Max	32
Project and File Management Workflow	32
The 3ds Max Interface	35
Jumping Headlong into Animation	41
Setting Up the Hierarchy	52
Summary	59
Chapter 3 ■ The 3ds Max Interface	61
What Am I Looking At?	62
Managing Scene Objects	96
Summary	103

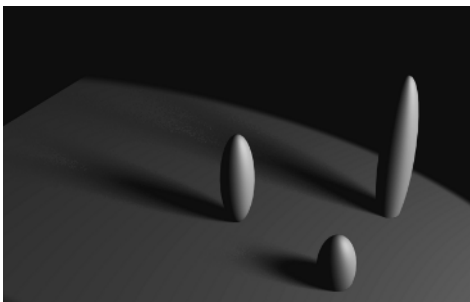

Chapter 4 ■ Modeling in 3ds Max: Part I	105
Planning Your Model	106
Modeling Concepts	107
Look at the Mesh You Got Us Into!	119
Editable Poly Tools	129
Modeling a Chest of Drawers	137
Modeling a Hand	164
Summary	177
Chapter 5 ■ Modeling in 3ds Max: Part II	179
Setting Up the Scene	180
The Editable Poly Tools	184
Lofting the Barrel	206
Lathing the Wheels	215
Using Snapshot to Create the Tracks	217
Summary	223
Chapter 6 ■ Organic Poly Modeling	225
Setting Up the Scene	226
Creating the Basic Form	231
Adding Detail	254
Final Touches	271
Summary	273
Chapter 7 ■ Materials and Mapping	275
Materials	276
The Material Editor	278
Mapping a Pool Ball	294
Mapping, Just a Little Bit More	302
Maps	305
More Mapping Exercises	309
Mapping Coordinates	315
Summary	323

Chapter 8 ■ Introduction to Animation	325
Hierarchy in Animation: The Mobile Redux	326
Using Dummy Objects	330
Bouncing Ball	333
Using the Track Editor–Curve Editor	335
Track View	350
Anticipation and Momentum in Knife Throwing	354
Summary	364
Chapter 9 ■ Character Studio and IK Animation	365
Character Animation	366
Character Studio Workflow	366
Creating a Biped	368
Animating a Biped	376
Associating a Biped to a Character	391
Using Inverse Kinematics	399
Summary	404
Chapter 10 ■ 3ds Max Lighting	405
Basic Lighting Concepts	406
Three-Point Lighting	408
3ds Max Lights	411
Common Light Parameters	425
Ambient Light	432
Creating Shadows	432
Atmospheres and Effects	438
Light Lister	442
Summary	443

Chapter 11 ■ 3ds Max Rendering	445
Rendering Setup	446
Motion Blur	455
Previewing with ActiveShade	457
Cameras	457
Safe Frame	462
Render Elements	463
Rendering Effects	466
Raytraced Reflections and Refractions	470
Summary	477
Chapter 12 ■ Particles and Dynamics	479
Understanding Particle Systems	480
Setting Up a Particle System	484
Particle Systems and Space Warps	499
Using Rigid Body Dynamics	504
Using Soft Body Dynamics	511
Summary	514
Index	515
