Introduction	xix
Chapter 1: Workflow Programming Principles	1
Workflow Programming Language	1
Custom Activities	4
Developing Custom Leaf Activities	5
Activity Initialization	6
Activity Uninitialization	10
Activity Execution	11
Developing Custom Composite Activities	16
Developing Custom Flow Control Activities	17
Developing Non-Iterative Flow Control Constructs	17
Developing Iterative Flow Control Constructs	24
Developing Custom Conditions	29
Summary	43
Chapter 2: Developing Custom Workflows	45
SharePoint Workflow Terminology	45
SharePoint Solution Package	46
Recipe for Developing a Custom SharePoint Workflow	47
Implementing a SharePoint Workflow	48
OnWorkflowActivated	49
Using OnWorkflowActivated	59
LogToHistoryListActivity	64
Using LogToHistoryListActivity	67
Putting It All Together	72
Implementing Workflow Input Forms	76
Implementing an Association Workflow Input Form	76
Implementing an Initiation Workflow Input Form	111
Implementing a Workflow Template	117
Implementing a Workflow Feature	124
Deploying Workflow Template Files and Feature	124
Deploying Workflow Input Forms	125

Contents

Installing a Workflow Feature	125
Activating a Workflow Feature	125
Summary	126
<u>Chapter 3: Programming SharePoint External Data Exchange Services</u>	<u>127</u>
Extending WF	127
ITaskService	133
ISharePointService	140
IListItemService	145
Using CallExternalMethodActivity and HandleExternalEventActivity Activities	151
IWorkflowModificationService	184
Correlation Parameters	186
Summary	202
<u>Chapter 4: CallExternalMethodActivity-Based SharePoint Activities</u>	<u>203</u>
CallExternalMethodActivity	203
Creating SharePoint Tasks	208
Creating SharePoint Tasks with Content Types	220
Updating SharePoint Tasks	257
Deleting SharePoint Tasks	261
Completing SharePoint Tasks	267
Sending E-mails	268
EnableWorkflowModification	272
Implementing Custom CallExternalMethodActivity-Based Activities	273
Creating SharePoint List Items	275
Deleting SharePoint List Items	281
Summary	285
<u>Chapter 5: HandleExternalEventActivity-Based SharePoint Activities</u>	<u>287</u>
Handling OnTaskChanged Event	287
Handling OnTaskCreated Event	303
Handling OnTaskDeleted Event	306
Handling OnWorkflowItemChanged Event	309
Handling OnWorkflowItemDeleted Event	328
Handling OnWorkflowModified Event	332
Summary	333

Chapter 6: Workflow Security and Management, and Fault Handling	335
SPWorkflowManager	335
Workflow Security	339
Fault Handling	356
Summary	368
Chapter 7: Workflow Modification and Task Editing	369
Implementing a Workflow Modification Input Form	369
Making Changes to the Workflow Itself	369
Implementing and Deploying the Workflow Modification Form	384
Implementing a Workflow Edit Task Input Form	398
Summary	430
Chapter 8: Developing Custom Office SharePoint Designer 2007 Actions and Conditions	431
Recipe for Implementing a Custom Action	431
Implementing a Custom SharePoint Activity	432
Compiling a Custom SharePoint Activity to a Strong-Named Assembly	434
Installing Assembly in GAC	434
Registering a Custom SharePoint Activity As an Authorized Type	434
Implementing an .Actions XML File	435
Deploying the .Actions XML File	436
Using Visual Studio	436
Testing Your Custom Action in Office SharePoint Designer 2007	442
Recipe for Implementing a Custom Condition	457
Summary	464
Chapter 9: Workflow Actions and Conditions XML Markup Language	465
Attributes of the Action Element	466
Name	466
ClassName	466
Assembly	467
Category	467
CreatesTask	467
CreatesInList	469
AppliesTo	470
ListModeration	471
UsesCurrentItem	472

Contents

RuleDesigner Child Element of Action Element	472
DesignerType Attribute of the FieldBind Element	473
Field Attribute of FieldBind Element	552
Id Attribute of FieldBind Element	552
OperatorTypeFrom Attribute of FieldBind Element	552
Text Attribute of FieldBind Element	552
TypeFrom Attribute of FieldBind Element	552
Value Attribute of FieldBind Element	554
Option Child Element of FieldBind Element	554
Parameters Child Element of Action Element	557
Conditions	558
Condition Attributes	558
Child Elements of Condition Element	559
Summary	559
Chapter 10: Deploying Workflows and Actions through SharePoint Solution Package	561
Cabinet and DDF Files	562
Solution Manifest	564
Deploying Workflows	565
Deploying Actions	571
Summary	577
Index	579
