

Index

Note to the Reader: Throughout this index **boldfaced** page numbers indicate primary discussions of a topic. *Italicized* page numbers indicate illustrations.

A

- a:active class, 254
- a and a& element, 65, **693–696**
 - in Client-Side Image Map, 565
 - in Hypertext, 556
 - in Intrinsic Events, 569
 - in Name Identification, 573
 - in Target, 568
 - in XHTML 1.1 specification, 550–551
- a:link class, 254
- a:visited class, 254
- abbr attribute
 - for cell headings, 831–832
 - for cells, 823
- abbr element, 554, **686–687**
- abbreviations, **686–687**
- above attribute for layers, 770
- above value for sound elevation, 906
- abs method, **958–959**
- absolute items
 - font sizes, 857
 - font weights, 860
 - location paths, 626
 - positioning, 902
 - units, 854
 - URLs, **60–61**, 61
- absolute value of numbers, **958–959**
- abstract modules, **548–550**
- accept attribute, 153, 740, 760
- accept-charset attribute, 740
- access issues
 - in ISP sites, 395
 - in personal servers, 400
 - in searchable sites, **451**
 - in uploading files, 401–402
- access logs, 395
- accessibility, **340–341**
 - adaptive technologies for, **344–346**, 346
 - alternate text for, 347
 - need for, **341–344**, 341–344
 - planning for, **346–347**
 - of XML, **497**
- Accessibility Features of CSS site, 270
- accesskey attribute
 - anchors, 693
 - buttons, 716
 - embedded objects, 736
 - form input, 761
 - image map areas, 702
 - labels, 768
 - legends, 772
 - selection lists, 806
 - text areas, 827
- accuracy, testing sites for, **366**
- acos method, **959**
- acronym element, 554, **697–698**
- action attribute
 - cgiemail, 173
 - form object, 941, **1016**
 - forms, 148, 169, 740
- activating image maps, **102**, 102
- active links, color of, 53–54
- active pseudoclass, 851
- Active Server Pages (ASP), **438**
- active verbs for directories, 371
- ActiveX components, 319, 438
- ActiveX site, 319
- adaptive technologies
 - for accessibility, **344–346**, 346
 - tables effect on, **110–111**
- addition operator, 931
- address element, 36, 554, **698–699**
- addresses
 - for contacts, 36, **698–699**
 - of FTP server, 401
 - of HTTP server, 401
 - in links, 65

- Adobe Acrobat PDF files, 383
- ads, 374, 377–378
- AIFF (Audio Interchange File Format), 311
- alert method, 959
- alerts
 - displaying, 959
 - onclick events for, 293
- alignment and align attribute
 - applets, 699
 - blank space, 809
 - divisions, 731
 - embedded objects, 736
 - form input, 760
 - frames, 208, 210, 753
 - headings, 38–39, 39, 748
 - images, 81, 84, 86–88, 87–88, 756
 - legends, 772–773
 - objects, 315, 789–790
 - paragraphs, 36, 799
 - rules, 49–50, 749
 - tables, 132–133, 133, 817
 - bodies, 821
 - captions, 121–122, 718
 - cell headings, 832
 - cells, 128–129, 823
 - column groups, 136, 724
 - columns, 722
 - footers, 829–830
 - headers, 836
 - rows, 838
 - text, 864
 - fields for, 155
 - vertical, 867–868
- alink attribute
 - color, 53–54
 - document bodies, 711
- alinkColor property, 939, 1016–1017
- all declarations processed property, 649
- all element, 671
- alternate text and alt attribute
 - for accessibility, 347
 - animated GIFs, 309
 - applets, 700
 - form input, 761
 - frames, 198, 200–201, 210
 - image maps, 96, 99–100, 702
 - images, 81, 84–85, 85, 91, 756
 - scripts, 287
- always value for page breaks, 916–917
- Amaya browser, 9, 10
- American Standard Code for Information Interchange (ASCII), 1049
- & character entity, 542
- ampersands (&)
 - in AND operator, 932
 - in assignment operators, 933
 - in comparisons, 932
 - for entities, 542, 1038
 - in URLs, 469
- ancestor axis, 626
- ancestor-or-self axis, 627
- anchor method, 958–960
- anchor object, 935–936
- anchor pseudo-classes, 254
- anchors and anchor element, 65, 693–696. *See also* links and linking
 - events for, 288
 - generating, 958–960
 - for linking, 66–68, 66–68
 - name
 - forming, 68–69
 - linking to, 69–70
 - in scripts, 935–936
- anchors array, 936
- anchors property, 939, 1017
- AND operators, 932
- angle brackets (<>) for tags, 17
- animateColor element, 642
- animation
 - Flash, 314, 314
 - in GIF images, 78, 307
 - developing, 307, 308
 - incorporating, 309
 - in SMIL, 635
- Animation module, 633
- Animation Shop, 307, 308

- announcements
 - intranet sites for, 392
 - for publicity, 374
- any element, 671, 674–675
- Apache server software, 401
- ' character entity, 542
- appName property, 948, 1017
- appearance
 - of lists, 42–44, 43
 - testing sites for, 363
- Applet module, 573
- applets and applet element, 35, 313–314, 313, 359, 573, 699–702
- applets property, 939
- application servers, 437
- appName property, 426, 948, 1017
- appVersion property, 426, 948, 1018
- arccosines, 959
- archive attribute
 - applets, 700
 - objects, 316, 790
- arcsines, 960
- arctangents, 960–961
- area and area& element, 99–101, 702–704
 - in Client-Side Image Map, 565
 - in Intrinsic Events, 569
 - in Target, 568
- areas in image maps, 97–99, 97–98, 702–704
- Arial font, 55
- armenian value for bullets, 897
- arrays, elements in, 418
- ASCII (American Standard Code for Information Interchange), 1049
- ASCII characters and values
 - character sets based on, 1049
 - file type, 26
 - of strings, 970, 1008
- ascii command in FTP, 402–403
- asin method, 960
- ASP (Active Server Pages), 438
- ASP.NET, 438
- assert element, 682
- assignment operator, 932–933
- asterisks (*)
 - in assignment operators, 933
 - for comments, 849
 - in Extended Backus-Naur Format, 520
 - in FTP, 403
 - for multiplication, 931
 - for password fields, 162
- atan method, 960
- atan2 method, 960
- atomic data types, 679
- Atomz Search tool, 453
- Attr object, 654
- attribute axis in XPath expressions, 627
- attribute element
 - in RELAX NG, 681
 - in schemas, 676–678
- attribute list declarations, 517, 533–537
- attribute nodes, 591–592
- attribute type property, 650
- attribute-value pairs, 83, 534–536
- attributeElement element, 642
- attributes, 12, 13, 16
 - collections of, 553
 - common, 16–17, 689–690
 - entering, 17–19
 - in Infoset, 650
 - nodes for, 414
 - reference for, 692–846
 - in sample code, 13–15
 - in schemas, 676–678
 - settings for, 536–537
 - in SMIL, 634
 - Tidy tool for, 219
 - values for, 20–21
- attributes property, 649
- AU format, 311
- audio clip type, 635
- Audio Interchange File Format (AIFF), 311
- Audio Video Interleave (AVI) format, 312
- aural properties, 269–270, 904–912. *See also* sounds
- author-centered development, 328
- auto-generated content, 918–920
- auto-responders, 375

auto value

- box size, 918
- height, 886
- margins, 913–915
- overflow, 902
- page breaks, 916–917
- sound, 909

automating processes for intranet sites, 391

autoreverse attribute, 642

AVI (Audio Video Interleave) format, 312

avoid value for page breaks, 916–917

axes

- in XPath expressions, 626–627
- in XSLT expressions, 593

axis attribute

- cell headings, 832
- cells, 823

azimuth property, 904–905

B

b element, 48, 563, 705

\b escape sequence, 934

back method, 961

background and background attribute

- color of, 52–53, 263, 890
- for document body, 105, 712
- images for, 103–105, 103–104, 146, 349–350, 889–891, 893–894
- for layers, 770
- logos in, 350
- for master documents, 349–351, 349–350
- position of, 891–893
- properties for, 263–264, 888–894
- for tables, 125–128, 125–128, 817
 - cell headings, 832–833
 - cells, 823
 - images, 127–128

background property, 263, 888–889

background-attachment property, 889

background-color property, 263, 890

background-image property, 263–264, 890–891

background-position property, 891–893

background-repeat property, 263–264, 893–894

background sounds, 310, 707–708

backslashes (\) as escape character, 933–934

backspaces, escape sequence for, 934

backups

- for ISP sites, 396
- for personal servers, 400
- for public sites, 376

Backus-Naur Format, 520–521

backward compatibility, 214–215

bandwidth for streaming media, 632

bars (|)

- in assignment operators, 933
- in Extended Backus-Naur Format, 520
- as OR operator, 932
- in XSLT patterns, 629

base and base& element, 32, 64, 706

- in Base, 572
- in Target, 568

Base module, 572

base URI property, 649, 651

basefont element, 35, 54, 574, 706–707

baseline value for vertical alignment, 867

Basic module, 561–562

Basic Forms module, 557

Basic Tables module, 559–560

bdo element, 564, 707

before pseudoclass, 851

begin attribute

- par, 642
- SMIL clip types, 636

behavior attribute, 780

behind value for azimuth, 905

below attribute for layers, 770

below value for sound elevation, 906

Berners-Lee, Tim, 6, 486

bicolor attribute, 53

- document bodies, 105, 712
- layers, 770
- scrolling text, 780
- tables, 817
 - cell headings, 832
 - cells, 823
 - rows, 839

- bgColor property for document object, 939, **1018**
- bgproperties attribute, 712
- bgsound element, **707–708**
- Bidirectional Text module, **564**
- big element, 563, **708–709**
- big method, **961**
- binary command, 402–403
- binary files in fTP, 402–403, 405
- bitwise operators, 931–932
- blank space, specifying, **809–810**
- blink element, 48, **709–710**
- blink method, **962**
- blink value, 864
- blinking text, 48, **709–710**, 864, **962**
- block elements, 849
- block quotations, **710–711**
- block value, 894
- blockquote element, 36, 554, **710–711**
