PREFACE	xi
PART I OVERVIEW	1
1. Introduction	3
2. Mixed Liquor Biota Food Chain	19
3. Samples	27
4. Safety	31
PART II MICROSCOPY	33
5. Rationale for Microscopy	35
6. The Microscope	57
7. Microscopic Measurements	67
8. The Stereoscopic Binocular Microscope	71
9. Equipment and Supplies	75
10. Wet Mounts and Smears	77
11. Staining Techniques	83
	<i>vii</i>

Part III THE BULK SOLUTION	91
12. Dispersed Growth	93
13. Particulate Material	97
14. Spirochetes	101
PART IV FLOC PARTICLES AND FOAM	103
15. Floc Particles	105
16. Tetrads	115
17. Zoogloal Growth	117
18. Foam	119
PART V PROTOZOA	127
19. Protozoa	129
20. Relative Predominance of Bacteria and Protozoa	141
PART VI ROTIFERS	147
21. Rotifers	149
PART VII WORMS AND WORMLIKE ORGANISMS	155
22. Free-Living Nematodes	157
23. Gastrotriches	159
24. Water Bears	161
25. Bristleworms	163
26. Bloodworms	165
27. Sludge Worms	167
PART VIII CRUSTACEANS	169
28. Copepods and Cyclops	171
29. Water Fleas	173
30. Ostracoda	175

PART IX FILAMENTOUS ORGANISMS	177
31. Filamentous Organisms	179
PART X ALGAE AND FUNGI	191
32. Algae	193
33. Fungi	195
PART XI COLLECTION, EVALUATION, AND PRESENTATION OF OBSERVATIONS	197
34. Microscopic Set-up and Rating Tables	199
35. Worksheets	221
36. Report of Microscopic Examination	229
REFERENCES	235
ABBREVIATIONS AND ACRONYMS	237
CHEMICAL COMPOUNDS	239
GLOSSARY	241
INDEX	243
