Adhering to general rules	28
Considering health and safety.....	29
Disposing of your waste.....	31
Living with livestock and bees	31
Taking care with pesticides and chemicals.....	33
Putting in ponds.....	33
Kitting Yourself Up with Tools and Equipment.....	33
Investing in the basics.....	34
Going for optional extras	37
Looking after your tools.....	38
Choosing protection for your plants.....	38

Chapter 4: Deciding What to Grow and When 43

Choosing What to Grow.....	43
Realising that timing and location are everything.....	44
Deciding on growing from seed or buying plants.....	44
Sowing from Seed	45
Sowing in containers, trays and modules.....	46
Thinning out	48
Transplanting	49
Sowing directly into the soil.....	50
Buying Plants	51
Knowing what to look for.....	51
Buying fruit trees	51
Catch crops.....	53
Heritage varieties.....	53
Selective breeding and hybridisation	54
Creating an Allotment Calendar	55

Chapter 5: Preparing Your Plot 57

Maintaining a Tidy Allotment.....	57
Removing debris and rubbish.....	58
Sorting out the undergrowth.....	58
Meeting the Enemy: Common Weeds	59
Preventing perennial problems.....	59
Doing away with the annuals.....	62
Killing Off Weeds	63
Initial weeding strategy.....	64
Organic control	64
Chemical spraying	66

Designing Your Space	67
Considering your location	67
Putting pen to paper.....	68
Using the bed system	69
Terracing your plot.....	73
Creating support for climbers.....	73
Getting the right division of space	76
Chapter 6: Keeping Your Soil Healthy	77
Assessing Your Soil Type	77
Discovering what soil is made of	78
Understanding different soil types	78
Checking your soil's pH level	81
Adjusting Your Soil's pH.....	82
Making your soil more alkaline	82
Making your soil more acidic	83
Assessing Organic Matter.....	84
Maintaining Soil Structure.....	84
Getting the Low-Down on Nutrients.....	85
Nitrogen for leaves, stems and shoots.....	85
Phosphorus for seed germination and roots	86
Potassium for fruit and flowers.....	87
Creeping Around with Helpful Beasts.....	87
Bacteria	87
Fungi	88
Winning with worms.....	88
Admiring creepy-crawlies	90
Improving Your Soil	90
Adding organic matter	90
Double digging and single digging	91
Using the no-dig method.....	93
Nurturing Home-Made Compost.....	94
Choosing a composter	94
Chapter 7: Keeping Your Plants Healthy	97
Using Fertilisers	97
Fulfilling your plants' needs	98
Dealing with Watering.....	103
Getting your priorities right	103
Watching for the signs of dehydration	104
Saving water	104
Collecting rainwater	106
Rotating Your Crops.....	107
Putting Down Pests	110
Aphids	110
Cutworms.....	110

Rabbits	110
Rats and mice	111
Birds	111
Slugs and snails	111
Flea beetles	113
Wireworms.....	113
Dealing with Diseases	113
Problems with Specific Plants.....	115
Brassicas	116
Carrots.....	117
Courgettes, squashes and marrows	117
Cucumbers.....	117
Peas and beans.....	118
Potatoes	119
Tomatoes	121
Fruit Pests and Diseases	121
Chapter 8: Growing Organic.....	125
Deciding Whether Organic Is Right for You	125
Weighing up the pros and cons	126
Understanding organic methods	128
Embracing nature and the environment.....	128
Getting Practical	129
Preparing for disappointment and accepting imperfections	129
Selecting your plants carefully.....	130
Using organic pest control	131
Utilising organic fertilisers and feeds.....	133
Considering companion planting.....	135
Planting to deter pests	135
Planting to attract beneficial insects.....	136
Encouraging Wildlife onto Your Plot.....	137
Part III: Growing Your Favourite Vegetables.....	139
Chapter 9: Going Underground with Root Vegetables.....	141
Growing Potatoes	141
Getting started with potatoes	142
Undertaking routine care.....	145
Using the no-dig method.....	147
Considering varieties of potatoes.....	147
Harvesting and storage	149
Cultivating Carrots	150
Getting started with carrots	150
Considering varieties of carrots	152
Harvesting and storage	154

Producing Parsnips	154
Getting started with parsnips.....	154
Considering varieties of parsnips	155
Harvesting and storage	156
Bringing Forth Beetroot.....	156
Getting started with beetroot.....	157
Considering varieties of beetroot	158
Harvesting and storage	159
Chapter 10: Exploring More Root Vegetables	161
Turning Your Hand to Turnips	161
Getting started with turnips	161
Considering varieties.....	163
Harvesting and storage	163
Getting Sweet on Swedes	163
Getting started with swedes	164
Considering varieties.....	165
Harvesting and storage	165
Rearing Radishes	165
Getting started with radishes.....	166
Considering varieties.....	166
Harvesting and storage	168
Savouring Scorzonera and Salsify	168
Getting started with scorzonera and salsify.....	169
Considering varieties.....	169
Harvesting and storage	169
Growing Celeriac	170
Getting started with celeriac	170
Considering varieties.....	171
Harvesting and storage	172
Growing Florence Fennel.....	172
Getting started with Florence fennel.....	172
Considering varieties.....	173
Harvesting and storage	174
Chapter 11: Bringing Home the Brassicas	175
Brassica Basics	175
Getting started with brassicas	176
Keeping your brassicas at their best.....	176
Don't Call Me Broccoli: Growing Calabrese	177
Getting started with calabrese.....	177
Considering varieties.....	178
Harvesting and storage	178

Raising Broccoli	179
Getting started with sprouting broccoli	179
Considering varieties.....	180
Harvesting and storage	180
Cultivating Cabbage	181
Getting started with cabbages	181
Considering varieties.....	183
Harvesting and storage	184
Bringing Forth Brussels Sprouts.....	184
Getting started	185
Considering varieties.....	186
Harvesting and storage	186
Getting a Head with Cauliflowers	187
Getting started with cauliflowers.....	187
Considering varieties.....	188
Harvesting and storage	189
Keeping Healthy with Kale	189
Getting started with kale.....	190
Considering varieties.....	190
Harvesting your Kale	191
Alien Invasion: Growing Kohlrabi.....	191
Getting started with kohlrabi	191
Considering varieties.....	192
Harvesting and storage	193
Chapter 12: Growing Wholesome Herbs	195
Knowing Where to Start.....	195
Choosing Which Herbs To Grow	196
Growing herbs from seed	196
Growing from cuttings.....	198
Getting More for Your Money	199
Dividing herbs	199
Using mound layering.....	200
Growing herbs in a sunny spot	202
Selecting herbs for semi-shade	204
Homing in on healing herbs.....	205
Experimenting with unusual herbs.....	210
Getting the Most from Your Herbs	211
Drying	211
Freezing.....	213
Bottling.....	213

Chapter 13: Cultivating Everyday Essentials	215
Getting to Know the Onion Family	215
Growing Bulb Onions	216
Getting started with onions	217
Considering varieties	219
Harvesting and storage	220
Growing Shallots	221
Getting started with shallots	222
Considering varieties	222
Harvesting and storage	222
Spring onions	223
Getting started with spring onions	223
Considering varieties	223
Harvesting	223
Growing Leeks	224
Getting started with leeks	224
Considering varieties	225
Harvesting and storage	226
Growing Garlic	227
Getting started with garlic	227
Considering varieties	227
Harvesting and storage	228
Getting to Know Pumpkins and Squashes	228
Growing Pumpkins and Winter Squashes	228
Getting started with pumpkins and squashes	229
Considering varieties	230
Harvesting and storage	231
Growing Courgettes and Summer Squash	232
Getting started with courgettes and summer squashes	232
Considering varieties	233
Harvesting and storage	234
Growing Tomatoes	234
Getting started with tomatoes	235
Considering varieties	238
Harvesting and storage	242
Ripening your tomatoes	242
Chapter 14: Growing Leafy Greens	245
Savouring Salad Leaves	245
Growing Lettuces	246
Loose-leaf	247
Cos	248

Butterhead.....	249
Iceberg.....	250
Harvesting and storage	250
Winter lettuces	251
Growing Other Salad Leaves	251
Endive.....	251
Chicory.....	252
Rocket.....	254
Other leaves to try.....	256
Growing Green Leaf Vegetables.....	257
Spinach.....	257
Swiss chard and spinach beet.....	258
Good King Henry.....	259
Growing Oriental Leaf Vegetables	260
Mizuna.....	260
Mustard greens	261
Pak-choi and tatsoi	262
Komatsuna greens	263

Chapter 15: Planting Beans, Peas and Other Odds and Pods.265

Growing Beautiful Beans.....	266
French beans	266
Raising runner beans.....	270
Broad beans.....	273
Playing with Pods	276
Peas.....	277
Sweetcorn	281

Chapter 16: Growing More Unusual Veg285

Growing Artichokes.....	285
Globe artichokes	285
Jerusalem artichokes.....	287
Chinese artichokes	289
Growing Simple Yet Impressive Veg	290
Bell peppers.....	290
Chilli peppers	293
Aubergines.....	294
Cucumbers.....	297
Growing Fine Produce.....	300
Asparagus	300
Celery	303
Trench celery	304
Okra	305

Part IV: Extending Your Allotment Repertoire 307**Chapter 17: Growing Fruitful Fruit309**

Planting Fruit Trees.....	309
Training trees.....	310
Buying fruit trees.....	313
Growing Apples.....	314
Getting started with apples.....	314
Considering varieties.....	315
Harvesting and storage.....	317
Growing Pears.....	318
Getting started with pears.....	318
Considering varieties.....	319
Harvesting and storage.....	320
Growing Berries.....	320
Blackberries.....	320
Gooseberries.....	322
Blueberries and bilberries.....	324
Strawberries.....	326
Raspberries.....	329
Growing Currants.....	332
Blackcurrants.....	332
Redcurrants and whitecurrants.....	334
Growing Greenhouse Exotics.....	335
Kiwi fruits.....	335
Melons.....	336

Chapter 18: Nurturing Flowers on an Allotment339

Growing Beautiful Flowers for Cutting.....	339
Sweet peas.....	340
Dahlias.....	341
Sweet Williams.....	343
Zinnias.....	344
Cleome.....	345
Growing Edible Flowers.....	346
Nasturtiums.....	346
Lavender.....	347
Alliums.....	348
Growing Flowers for Drying and Seed Heads.....	349
Poppies.....	349
Physalis.....	350
Sedums.....	352
Hops.....	353
Sea hollies.....	353

Part V: Getting the Most Out of Your Allotment 355**Chapter 19: Involving Children on the Allotment357**

Reaping the Benefits of Gardening	358
Keeping fit and healthy	358
Recognising where food comes from	359
Growing Easy Vegetables and Flowers	360
Quick and easy leaves	360
Super-fast radishes	361
Perfect pumpkins	361
Towering sunflowers	362
Cheerful cherry tomatoes	363
Organising Projects for Wee Ones	364
Building sweet pea pyramids	364
Planting trees, shrubs and seedlings	365
Creating a wildlife patch	366
Preparing fresh food	368

Chapter 20: Hobnobbing with Allotment Society371

Finding an Allotment Mentor	371
Following Allotment Etiquette	372
Learning From Others' Hits and Misses	373
Getting Involved in Clubs and Societies	375
Socialising on Your Allotment	376
Looking out for each other	376
Offering holiday cover	377

Chapter 21: Entering the World of Giants379

Creating Perfect Growing Conditions	379
Preparing ideal soil	380
Watering your way to success	380
Choosing the right seeds	381
Growing Giant Vegetables	381
Colossal cabbages	381
Monster carrots	383
Long leeks	384
Mammoth marrows	385
Prime pumpkins	386
Mentioning Some Other Monsters	388
Honing Your Techniques	389
Letting you in on my top-secret tricks	389
Breeding Selectively	390
Collecting seeds	391
Harvesting seeds	391
Entering Competitions	392
Joining the elite	392
Finding out where to exhibit	393

<i>Part VI: The Part of Tens</i>	395
Chapter 22: Ten Common Mistakes to Avoid	397
Buying Inferior Seeds and Plants.....	397
Ignoring Problems Until It's Too Late.....	398
Planting Combinations that Don't Work.....	398
Planting Root Crops in Manure-Rich Soil.....	399
Spreading Clubroot.....	399
Planting Out Too Early.....	400
Underestimating Climate Zones.....	401
Getting Watering Wrong.....	401
Allowing Your Plants to Bolt.....	402
Failing to Thin Out.....	402
Chapter 23: Ten Ways to Revive a Flagging Allotment	405
Doing Double Digging.....	405
Having a Jolly Good Tidy.....	406
Starting Again.....	407
Investing in New Plants.....	407
Re-establishing Paths, Edges and Beds.....	407
Planting Green Manure.....	408
Sowing Some Nitrogen Fixers.....	408
Checking the Soil's pH Level.....	409
Considering Companion Planting.....	409
Rotating Your Plants.....	410
<i>Index</i>	411
