<i>Introduction</i>	1
About This Book.....	1
Conventions Used in This Book	2
What You're Not to Read.....	3
Foolish Assumptions	3
How This Book Is Organized.....	4
Part I: Defining Type 1 Diabetes	4
Part II: Considering the Consequences of Type 1 Diabetes	4
Part III: Treating Type 1 Diabetes	5
Part IV: Living with Type 1 Diabetes	5
Part V: The Part of Tens.....	6
Part VI: Appendixes.....	6
Icons Used in This Book.....	7
Where to Go from Here.....	7

Part 1: Defining Type 1 Diabetes **9**

Chapter 1: Dealing with Type 1 Diabetes	11
Understanding What Type 1 Diabetes Is (and Isn't).....	12
Handling the Physical and Emotional Consequences of Type 1 Diabetes	13
Treating Type 1 Diabetes Effectively	14
Undergoing regular testing.....	14
Eating wisely	15
Exercising for more control	15
Taking insulin	16
Using other medications and treatments.....	16
Deciding to transplant	16
Living Well with Type 1 Diabetes	17
Handling school, work, and other daily activities.....	17
Adjusting to sick days and travel.....	17
Getting through pregnancy and menopause	18
Aging with type 1 diabetes	18
Chapter 2: Recognizing Type 1 Diabetes	19
Understanding How Type 1 Diabetes Works	19
Distinguishing between controlled and uncontrolled glucose.....	21
Triggering type 1 diabetes.....	24
Checking Out the Statistics on Who Gets Type 1 Diabetes	25
Rates among different places and races.....	25
Rates in children versus adults	26
Rates in families with members who have type 1 diabetes	26

- Making a Diagnosis of Type 1 Diabetes27
 - Surveying the symptoms and undergoing testing27
 - Gathering a group of the right doctors.....28
 - Developing key skills after the diagnosis29

Chapter 3: Excluding Other Types of Diabetes 31

- Distinguishing Type 2 and Latent Autoimmune Diabetes from Type 1 Diabetes31
 - Type 2 diabetes.....32
 - Latent Autoimmune Diabetes in Adults (LADA).....35
- Delving into Diabetes Caused by Other Diseases and Agents36
 - Considering hormone-induced causes of diabetes.....36
 - Examining diabetes caused by destructive diseases of the pancreas.....40
 - Discovering drugs and chemicals that may cause or worsen diabetes42

***Part II: Considering the Consequences of Type 1 Diabetes* 43**

Chapter 4: Overcoming Short-Term Complications 45

- Managing Low Blood Glucose: Hypoglycemia.....46
 - Determining the cause.....46
 - Recognizing the symptoms48
 - Distinguishing the severity levels of hypoglycemia49
 - Understanding hypoglycemic unawareness51
 - Preventing and treating hypoglycemia.....52
- Dealing with Very High Blood Glucose: Diabetic Ketoacidosis55
 - Considering some potential causes56
 - Surveying the symptoms.....57
 - Preventing and treating diabetic ketoacidosis58

Chapter 5: Preventing Long-Term Complications 61

- Focusing on Eye Disease62
 - Background retinopathy.....64
 - Proliferative retinopathy.....65
- Coping with Kidney Disease66
 - The effects of uncontrolled diabetes on the kidneys67
 - Preventing kidney disease.....69
 - Treating kidney disease if prevention fails70
- Knowing about Nerve Disease.....71
 - Disorders of sensation.....72
 - Disorders of movement (mononeuropathy).....74
 - Disorders of automatic (autonomic) nerves75
- Macrovascular Complications: Protecting Your Heart.....76

Considering Associated Diseases78
 Hyperthyroidism and hypothyroidism.....78
 Skin disease.....80
 Celiac disease81

Chapter 6: Handling Emotional Effects 83

Coming to Terms with the Diagnosis.....83
 Knowing that your child is in good company.....84
 Encouraging positive coping skills.....85
 Realizing that Type 1 Diabetes Is a Family Disease87
 Getting a grip on general guidelines for parents.....87
 Caring for children of all ages.....89
 Helping siblings be understanding.....92
 Handling Issues of Self-Esteem.....93
 Busting myths about having a chronic disease.....93
 Clearing up fears about having special needs94
 Maintaining a High Quality of Life.....95

Part III: Treating Type 1 Diabetes 97

**Chapter 7: Undergoing Essential Tests and Monitoring
 Blood Glucose 99**

Doing Key Tests at the Doctor’s Office.....100
 Foot problems.....101
 Blood pressure.....102
 Weight and height.....103
 Hemoglobin A1c105
 GlycoMark108
 Thyroid functions.....109
 Microalbuminuria.....110
 Eye problems111
 Cholesterol.....111
 The Basics of Testing Blood Glucose at Home.....113
 Deciding on the frequency of testing.....114
 Performing the test115
 Testing away from the finger116
 Selecting a Home Blood Glucose Meter116
 Considering a few factors when choosing a meter117
 Using a typical data management system.....118
 Surveying standard blood glucose meters120
 Checking out meters for continuous glucose monitoring.....124

Chapter 8: Eating a Healthy Diet127

Carbohydrates: The Energy Source with the Biggest
 Impact on Blood Glucose128
 Getting a grip on the glycemic index129
 Filling up with fiber132

Carbohydrate counting	132
Other tips for managing carbohydrate intake	134
Looking at Other Sources of Energy	135
Protein	135
Fat	136
Getting Enough Vitamins, Minerals, and Water	137
Vitamins	138
Minerals	139
Water	140
Understanding Diet Challenges at Every Age	140
Focusing on Other Food Factors	141
Using sugar substitutes	142
Considering fast food	143
Choosing a vegetarian diet	146
Handling Eating Disorders	146
Different types of disorders	147
Sources of help	149

Chapter 9: Exercising to Improve Control of Type 1 Diabetes151

The Benefits of Exercise for People with Type 1 Diabetes	152
Taking Care Before Starting an Exercise Program	153
Talking to the doctor	153
Deciding to devote an hour each day	154
Determining how hard to exercise	154
Adjusting insulin usage and following other precautions	155
Developing (And Sticking to) an Exercise Plan	156
Encouraging exercise at all ages	156
Choosing an activity	160
Competing against others	162
A good pick for everyone: Walking 10,000 steps a day	163
Training with weights	164

Chapter 10: Understanding the Basics of Using Insulin171

The Purpose and Types of Insulin	172
What does insulin do?	172
What are the different types of external insulin?	173
The Details of Insulin Doses	175
Calculating the bolus dose	176
Adjusting the basal dose	178
Injecting Insulin	178
Before you begin: Selecting an injection site	179
Syringes and needles	180
Taking (or giving) a shot	181
Insulin pens	184
Insulin infusers	185
Jet injectors	186
Avoiding side effects, no matter the method	187

A Major Advance: Inhaled Insulin	187
The limits on potential patients	188
Determining the dose.....	188
Inhaling the insulin.....	190
A few notes on inhaler maintenance and usage.....	191
Chapter 11: Delivering Insulin with a Pump	193
Keeping a Few Considerations in Mind before Using an Insulin Pump....	193
Using an Insulin Pump Properly.....	195
Taking the right doses	195
Setting temporary doses	197
Changing the needle and insulin	198
Living comfortably with the pump.....	199
Switching from the pump in special cases.....	200
Checking Out Various Insulin Pumps	201
MiniMed Paradigm pumps	201
Accu-Chek Spirit Insulin Pump System.....	203
Animas pumps	203
CozMore Insulin Technology System.....	204
Dana Diabecare II pump.....	204
OmniPod Insulin Management System	205
Choosing the right pump.....	206
Chapter 12: Getting a Grip on Other Drugs and Treatments	207
Boosting Insulin's Effect: Pramlintide.....	207
Surveying Different Treatments	209
Acupuncture.....	209
Biofeedback.....	210
Chromium.....	210
Cinnamon	211
Ginseng.....	211
Vanadium.....	211
Drinking Alcohol Safely	212
The maximum amount of alcohol allowed	212
The dangers of excess alcohol	213
Finding help.....	214
Avoiding Dangerous Drugs.....	215
Prescription medications	215
Tobacco	216
Illegal drugs.....	218
Chapter 13: Surveying Kidney, Pancreas, and Pancreatic Islet Transplants	221
Receiving a New Kidney	222
Recognizing when you need a new kidney.....	222
Knowing when you can't have a kidney transplant	222
The pros and cons of a kidney transplant	223

Understanding the costs	223
Undergoing an evaluation	224
Finding a donor, living or deceased	224
The process of surgery and recovery.....	225
Getting a New Pancreas (Alone or with a New Kidney)	225
Recognizing when you need a new pancreas	226
Knowing when you can't have a pancreas transplant	226
The pros and cons of a pancreas transplant	226
Looking at the costs	227
Finding a pancreas donor.....	227
The process of surgery and recovery.....	228
On the Cutting Edge: Pancreatic Islet Transplantation	229
Recognizing when you need islet transplantation	229
Knowing when you can't have an islet transplant	230
The pros and cons of an islet transplant.....	230
Considering the costs	231
The donation of islets	231
The process of surgery and recovery.....	232
Dealing with Continuing Issues after Any Transplant	232
Following up and treating your diabetes.....	233
Checking for long-term complications	233
Avoiding infections.....	233
Being careful with conception	234
Watching out for cancer	234
Finding More Information Online	234

***Part IV: Living with Type 1 Diabetes*237**

Chapter 14: Adjusting to School, Work, and Other Activities239

Dealing with Diabetes in School.....	240
Developing a Section 504 Plan	240
Considering an individualized education program.....	242
Handling diabetes in college	242
Living with Diabetes as a Working Adult.....	243
Understanding limits and protections	243
The real risk of hypoglycemia in the workplace	244
Taking action if you suspect discrimination related to diabetes.....	245
Working together: Helping employers integrate employees with diabetes	245
Driving Safely with Type 1 Diabetes	247
Tackling Insurance Issues	248
Health insurance	248
Life insurance.....	250

Chapter 15: Managing Illness and Travel	251
Dealing with Sick Days.....	251
Monitoring the blood glucose.....	252
Measuring blood ketones	253
Modifying the diet	254
Taking medications	255
Traveling with Type 1 Diabetes	256
Carrying the necessities	256
Adjusting insulin intake in a different time zone.....	257
Eating sensibly.....	258
Ensuring a smooth journey.....	259
Chapter 16: Going through Pregnancy and Menopause	261
Understanding Normal Female Sexual Development	262
Starting before birth	262
Continuing at puberty and adolescence	262
Controlling Type 1 Diabetes before Conception	263
Handling blood glucose during your menstrual periods	263
Dealing with sexual dysfunction.....	264
Getting a few tests if you're thinking of getting pregnant	264
The risks of conceiving before you have control of T1DM	265
Using contraception until you're under control.....	268
Ensuring a Safe Pregnancy and Delivery.....	269
Using insulin during and after pregnancy	270
Managing your diet	271
Adding exercise	272
Monitoring your baby.....	272
Dealing with Type 1 Diabetes during Menopause.....	272
Sticking to good habits	273
Considering hormone replacement therapy.....	274
Chapter 17: Controlling Type 1 Diabetes in the Elderly	277
Making a Diagnosis	278
Surveying symptoms	279
Conditions connected to the onset of type 1 diabetes.....	280
Confirming the diagnosis with testing.....	280
Recognizing the Challenges of Managing Type 1 Diabetes in the Elderly	281
Realizing how the elderly differ from other patients.....	281
Determining an elderly patient's ability to treat his own type 1 diabetes	282
Effectively Treating Type 1 Diabetes in the Elderly.....	283
Medications.....	284
Nutrition	285
Exercise.....	286

Checking Out Resources for the Elderly with Type 1 Diabetes	287
Government help	287
Drug company resources	288

***Part V: The Part of Tens*291**

Chapter 18: Ten Ways to Involve Kids in Their Own Diabetes Care293

Set Some Goals for Care with Your Child	294
Show Your Child How to Test His Blood Glucose	294
Shop for Food Together.....	295
Plant a Garden Together	296
Have Your Child Help with the Cooking.....	296
Exercise as a Family.....	297
Show Your Child How to Administer Insulin	297
Plan a Trip Together	298
Have Your Child Do Household Chores.....	298
Encourage Your Child to Play Video Games (Really!)	299

Chapter 19: Ten Commandments for Good Diabetes Management . . .301

An Affirmative Attitude	302
Total Testing	302
Extraordinary Eye Care	303
Foolproof Foot Care	303
Mega-Monitoring	304
Dedicated Dieting.....	305
Emphatic Exercising	306
Mindful Medicating	306
Planning for Potential Problems	307
Lifelong Learning.....	308

Chapter 20: Ten Myths about Type 1 Diabetes309

No Symptoms of Type 1 Diabetes Appear before Damage Has Occurred	310
Type 1 Diabetes and Type 2 Diabetes Are the Same	310
You Can't Eat Sugar with Type 1 Diabetes	311
You Have to Eat Special Foods When You Have Type 1 Diabetes.....	312
If You Take Insulin, You Must Have Type 1 Diabetes	312
Insulin Causes Atherosclerosis	313
Insulin Cures Type 1 Diabetes	313
You're More Prone to Illness When You Have Type 1 Diabetes	314
Women with Type 1 Diabetes Shouldn't Get Pregnant.....	314
Doctors Are Hiding the Cure for Type 1 Diabetes So They Can Make More Money	315

Chapter 21: Ten of the Latest Discoveries in Type 1 Diabetes	317
The Development of the GAD Vaccine.....	318
The Possible Prevention of Type 1 Diabetes with Oral Insulin	319
The Possible Prevention of Type 1 Diabetes with Intranasal Insulin	319
The Study of Continuous Glucose Monitoring	320
Contact Lenses That Indicate Your Glucose Level	320
A Drug to Fight Diabetic Neuropathy	321
Drugs to Block the Immunity That Kills Beta Cells.....	321
The Regeneration of Beta Cells with a Protein.....	322
The Infusion of Stem Cells.....	322
The Use of Cord Blood to Regenerate Beta Cells.....	323
 Part VI: Appendixes	 325
Appendix A: Glossary	327
Appendix B: Resources for the Latest Information	335
My Web Site.....	335
General Web Sites.....	336
Government Web Sites	337
Companies That Make Diabetes Products.....	338
Glucose meters	338
Lancing devices	339
Insulin	339
Insulin syringes.....	339
Insulin jet injection devices	339
Insulin pumps	340
Recipes for People with Diabetes	340
Web Sites for Diabetes Complications.....	341
Vision	341
Kidneys	342
Diabetic neuropathy	342
Heart disease	342
 Index.....	 343
