Preface	vii
2007 PEI Officers	ix
2007 Technical Forum Committee	xi
Past Chairs of PEI Technical Forums	xiii
Surface Tension and Fusion Properties of Porcelain Enamels Charles Baldwin and Sid Feldman	1
Status of Porcelain Enameling Steel Market Kim Frey	11
Gage Reduction and the Impact on Porcelain Enamel Parts Larry Steele	13
Cast Iron Process Control in a Developing Market Liam O'Byrne	19
Recycle-Friendly Aqueous Cleaners Elizabeth J. Siebert, William G. Kozak, and William E. Fristad	23
Cost Driven Development of New Cleaners Kenneth R. Kaluzny	33
2C/1F Enamelling Process—A Growing Demand Hans-Juergen Thiele	35
Powder Coating Colors: Porcelain Enamel Versus Paint Holger F. Evele	43
Powder Enameling Control Systems Phil Flasher	49

Advanced Porcelain Enamel Coatings with Novel Properties Charles Baldwin and Jim Gavlenski	53
Absorption and Emissivity of Radiant Energy by Porcelain Enamels William D. Faust	59
New Product Design, Development, Validation, and Launch: Getting it Right the First Time! Kara Joyce Kopplin	65
Update on Current EPA and OSHA Issues that Will Impact Your Industry Jack Waggener	69
Case Study: Benefits of a New High Efficiency Furnace Jason Butz	75
Chemical Bonding of Concrete and Steel Reinforcement Using a Vitreous Enamel Coupling Layer Larry Lynch, Charles Weiss, Jr., Donna Day, Joe Torn, Philip Malone, and Cullen Hackler	81
Importance of Rheology in Enamel Application Michael Sierocki	95
Author Index	103
