- Acoustic measurement, 391–392
- Advance letters, 500–504, 510, 514, 518–519, 526, 531–532, 536, 563, 566, 570
- Answering machines, 6–8, 15, 214, 319–320, 346–348, 504, 512, 514, 519, 540
- Automated telephone answering systems, 222–223
- Automatic dialing, 319, 330
- Behavior coding, 286–287, 290–292
- Bias. *See also* Error; Nonresponse estimates of 77–81, 163–165, 564–566, 575–581, 589, 593–600, 611
- Call centers  
characteristics of, 25, 317–323, 326–330, 332–340, 347, 362, 369, 406, 408, 417–418
- Call forwarding, 428
- Call scheduling, *see* CATI: call scheduling
- CASI, 11, 110, 152, 207, 299–300
- CATI  
call scheduling, 21, 196, 332, 341, 345–348, 350, 352, 354, 357–358, 364, 438  
Canadian Community Health Survey, 300–314  
CAPI comparisons, 299–300  
costs, 5, 17, 104, 234, 280, 298, 319, 322, 340, 348, 357  
interviewers and organizational issues, 235, 236, 294–296  
oral translation, 233–234, 239  
questionnaire design, 19, 276–279, 281–284  
software, 321  
usability testing, 19  
web surveys, 15
- Cell telephones, *see* Mobile telephones
- Commercial list frames, 135, 161
- Commercial or private surveys, 508
- Confidentiality, *see* Privacy
- Costs, 4, 24, 32, 55, 115, 123, 156, 234, 320  
balancing with survey errors, 150–152  
call centers, 330–332  
CATI, *see* CATI: costs  
incentives, 441, 473–475, 481, 484, 495–496  
interviewer, 359, 361  
Mitofsky–Waksberg design, 17, 130  
mixed mode, 151, 297, 344, 493, 563  
mobile phone charges, 442  
multipurpose surveys, 131–132  
sample management, 353  
stratified sampling, 118  
two phase sampling, 123–125

- Coverage  
 mobile only households, 43, 88, 95–98, 100–102, 429, 430  
 noncoverage, 49, 60, 86, 114–117, 124, 129, 132, 135, 149, 151–153, 156–161, 163, 164, 168  
 nontelephone households, 17, 18, 116, 124, 129, 136, 151, 152, 160, 556  
 overcoverage, 435  
 undercoverage, 17, 54, 56, 57, 72, 74, 77, 80, 81, 83–86, 130, 435, 436, 438, 593
- Cues  
 clarification, 218–220  
 in conversation, 214–218  
 comprehension, 220–222
- Directory frame sampling, 33, 36, 53, 54, 430
- Disaster recovery, 328
- Discourse markers, 218
- Disfluencies, 212–214, 218–219
- Do not call lists, *see* Privacy: do not call lists
- Dual frame designs  
 list assisted sampling, 36  
 mixed mode designs, 151–152, 168–169  
 mobile and landline, 103, 111, 430, 432, 435, 439, 440, 441  
 principles, 157–162
- Error  
 interviewer bias, 194  
 interviewer error, 158, 187, 313, 349, 379, 380, 402, 403  
 interviewer variance, 164, 189, 191, 193, 197, 206, 234, 402  
 noncoverage bias, 114, 116, 149, 160, 169, 170, 176, 181, 183, 427  
 response bias, 74, 265, 267, 312, 313, 361, 589  
 response error, 24, 116, 170  
 sampling bias, 163  
 sampling error, 30, 32, 119, 151, 152, 156, 158, 159, 163, 168, 169, 304  
 sampling variance, 131, 165, 166, 402, 606
- Follow-up studies  
 mail surveys, 343  
 multiplicity sampling, 129, 138, 141  
 nonresponse, 163  
 telephone use, 4
- Government surveys, 16, 469–470, 493
- Hedges, 218–219
- Hesitations, 290
- Household roster, 40. *See also* Respondent selection
- Incentives  
 monetary, 20, 25, 139, 362, 430, 441, 449, 471, 473–475, 483, 493, 495, 504, 505, 532, 541, 560, 571  
 nonmonetary, 495, 505  
 prepaid, 20, 439, 495–497, 505
- Interactive voice response (IVR), 11, 138, 153, 168, 222, 259, 317, 329
- Interviewers  
 burden, 196–207  
 burden model, 197–198  
 interpenetration of assignments, 44, 214, 395, 492, 569  
 interviewer effects, 154, 189, 190, 234, 246, 312, 386, 402  
 training, 201, 204, 246, 327, 335, 336, 360, 362, 367, 370, 371, 378–382, 407, 410, 615  
 voice characteristics, 25, 385, 386, 407, 408
- Interviewing, process model, 191–196
- Internet. *See also* VoIP  
 access, 10, 98, 153, 257, 438, 442
