

# Table Of Contents

<b>Introduction</b>	<b>1</b>		
About This Book	1	Showing More Icons on the My Places Bar	27
Foolish Assumptions	2	Moving Icons on the My Places Bar	28
What's in This Book	2	Removing Icons You Added	28
<i>Part I: Knocking Office Into Shape</i>	3	Hiding Built-In Icons	28
<i>Part II: Saving Time with Word</i>	3	<i>Backing up your My Places settings</i>	29
<i>Part III: Streamlining Outlook</i>	3	<i>Tweaking My Places in the Registry</i>	30
<i>Part IV: Exploiting Excel</i>	3		
<i>Part V: Pushing PowerPoint</i>	4	<b>Technique 5: Backing Up Quickly and Effectively</b>	<b>33</b>
<i>Part VI: Assimilating Access</i>	4	Backing Up: Why Pay More?	33
<i>Part VII: Combining the Applications</i>	4	Choosing a Third-Party Backup Program	34
<i>Part VIII: The Scary (Or Fun!) Stuff</i>	4	Choosing Which Files to Back Up	34
Conventions Used in This Book	4	<i>Finding your Office files</i>	35
Icons Used in This Book	4	<i>Saving your settings</i>	36
Where to Go from Here	5	Running ZipBackup	36
		Scheduling ZipBackup	39
<b>Part 1: Knocking Office Into Shape</b>	<b>7</b>	<b>Technique 6: Keeping Office Up-to-Date</b>	<b>41</b>
<b>Technique 1: Making Windows Safe for Office</b>	<b>9</b>	Patching Jargon: A Rose by Any Other Name	41
Updating Windows Manually	9	Finding (And Using) Office Update	43
Showing Filename Extensions	11	Applying Patches Manually	44
Using an Antivirus Product	12	Identifying Versions to Get Help	45
Firewalling	13	Updating Office 97	47
<b>Technique 2: Launching Office Quickly</b>	<b>15</b>	Updating Office 2000	48
Empowering Quick Launch	15	Updating Office XP	48
Putting Office Apps on the Quick Launch Toolbar	16		
Changing Quick Launch Names	18	<b>Technique 7: Disabling Automatic Hyperlinks</b>	<b>49</b>
Changing Start Menu Names	19	Understanding IntelliNONSense	49
<b>Technique 3: Organizing My Documents for Speed</b>	<b>21</b>	Turning Off Automatic Hyperlinks	50
Understanding Your Requirements	21	Creating a Manual Hyperlink — Quickly	52
Translating Requirements to Reality	23		
<b>Technique 4: Drilling Down with the My Places Bar</b>	<b>25</b>	<b>Technique 8: Digging with Research — Quickly</b>	<b>53</b>
Checking Out the Default My Places Bar	26	Fixing the Research Pane	53
Adding Locations to the My Places Bar	26	Finding Synonyms	55
		Looking in the Dictionary	55
		Using the Encarta Encyclopedia	56
		Searching for Business	57

<b>Technique 9: Copying and Pasting in a Nonce</b>	<b>59</b>	<b>Part II: Saving Time with Word</b>	<b>97</b>
Working with the Office Clipboard versus the Windows Clipboard	59	<b>Technique 15: Getting Word Settings Right</b>	<b>99</b>
Moving Stuff Onto and Off the Office Clipboard	61	Blistering the Bouncing Menus	99
Customizing the Clipboard	62	Seeing Clearly	100
Replacing the Office Clipboard	63	Zapping the Drawing Canvas	102
<b>Technique 10: Keying Combinations Quickly</b>	<b>64</b>	Taking Back Your Mouse	103
Exploiting Vital Shortcuts	64	Correcting AutoCorrect	104
Using Word Shortcuts	66	Making Final Timesaving Changes	105
Using Outlook Shortcuts	68	Saving Your Settings	107
Using Excel Shortcuts	68	<b>Technique 16: Changing Your Normal Template</b>	<b>108</b>
Using PowerPoint Shortcuts	69	Customizing Blank Documents	108
<b>Technique 11: Drawing Quickly</b>	<b>70</b>	Creating New Templates	111
Drawing on the Drawing Layer(s)	70	Making Privacy Settings Stick	112
Sketching Basic Shapes	73	Setting Formatting for Drawings	113
<i>Constraining a line</i>	73	<b>Technique 17: Laying Out a Page — Quickly</b>	<b>116</b>
<i>Fletching an arrow</i>	74	Seeing Word's Way	116
<i>Rolling your own shapes</i>	75	Laying Out Forms with Tabs	118
Adding AutoShapes	76	Aligning Text with Tables	120
Grouping, Aligning, and Distributing	78	Cramming Lists with Snaking Columns	122
<b>Technique 12: Shrinking Graphics</b>	<b>79</b>	Linking Text with Text Boxes	125
Picking Your Compression Battles	79	<b>Technique 18: Making Professional Labels</b>	<b>127</b>
Compressing an Image	81	Creating and Printing Simple Labels	128
<b>Technique 13: Modifying Toolbars</b>	<b>83</b>	Customizing a Template for Fancy Labels	129
Using Toolbars Effectively	83	Filling In and Printing Labels from a Template	133
Rearranging Toolbar Icons	85	Micro-Adjusting Pictures	134
Adding Recommended Icons	85	<b>Technique 19: Editing Like a Pro</b>	<b>136</b>
Making Any Command a Toolbar Icon	86	Editing in a SharePoint World	136
<b>Technique 14: Getting Help</b>	<b>89</b>	Tracking Changes	137
Making Help Visible	89	<i>Turning on Track Changes</i>	138
Popping the Question	91	<i>Working with Track Changes in Word 2003</i>	139
Drilling Down Fast	92	Making Comments	140
Digging Deeper: The Knowledge Base	93	Changing the Font of Tracked Changes and Comments	141
Finding Help from Other Users	95	Reviewing and Finalizing a Document	142
		Using Editing Tools the Timesaving Way	143

<b>Technique 20: Finding and Replacing in the Wild</b>	<b>145</b>	<b>Technique 25: Typing Fractions Fast</b>	<b>190</b>
Streamlining Text Searches	145	Creating Consistent-Looking Fractions	190
Searching for More Than Plain Text	147	Building Your Own Fractions	191
Matching Wildcards	149	<i>Creating the fractions you want to use</i>	191
Replacing with Care	152	<i>Entering fraction sets in AutoCorrect</i>	193
<i>Replacing with wildcards</i>	152		
<i>Removing extra paragraph marks</i>	153	<b>Part III: Streamlining Outlook</b>	<b>195</b>
<b>Technique 21: Rapid-Fire Styles</b>	<b>155</b>	<b>Technique 26: Getting Outlook Settings Right</b>	<b>197</b>
Getting Styles	155	Strolling through the Panes	197
Applying Styles	156	Controlling the Navigation Pane	198
Finding Styles	159	Displaying Your Contacts and Calendar in Separate Windows	199
Remaking Word's Default Styles	161	Moving More Mail Faster	200
<i>Speaking style-name jargon</i>	161	<i>Slimming down the Message List pane</i>	201
<i>Modifying a style</i>	161	<i>Navigating the Message list in a flash</i>	202
<i>Numbering headings automatically</i>	162	<i>Downloading only the images you want to see</i>	202
Making New Styles	165	Adjusting the E-Mail Editor Settings	203
Refreshing Styles to Match a Template	166	Making Other Timesaving Changes	205
<b>Technique 22: Fast Links inside Documents</b>	<b>168</b>	<b>Technique 27: Searching with Folders</b>	<b>206</b>
Creating a Linked Table of Contents Automatically	168	Using Search Folders	206
Linking Text to Headings in a Document	169	Creating Search Folders	208
Creating Custom Links That Are Hard to Break	170	Rationalizing Search Folders	210
<b>Technique 23: Setting Up Your Own Letterhead</b>	<b>172</b>	<b>Technique 28: Organizing with Flags</b>	<b>212</b>
Making Letterhead Decisions	172	Marking Mail	212
Creating a New Letterhead Template	173	<i>Flagging mail you've received</i>	212
Laying Out the Letterhead	174	<i>Flagging mail before you send it</i>	213
Altering Template Settings	175	<i>Tacking other information to a flag</i>	213
Adding Text to Your Letterhead Template	178	Following Up on Flags	214
Making Dates — With a Macro	180	Choosing Flag Colors	215
Distributing the Letterhead Template	182	Moving the Flag Column	215
<b>Technique 24: Positioning Pictures Just Right</b>	<b>183</b>	<b>Technique 29: Taming AutoComplete in Outlook</b>	<b>217</b>
Working with the Drawing Layer	183	Understanding AutoComplete	217
Making a Picture Float	185	Cleaning Up the Cache	219
Working with Anchors	188	Setting the Address Book Straight	219
Moving Pictures Small Distances	188		

<b>Technique 30: Dealing with Spam</b>	<b>222</b>	<b>Technique 37: Ripping through Lists</b>	<b>266</b>
Employing an Ounce of Prevention	222	Making a List, Checking It Twice	266
Deploying a Pound of Cure	226	Entering Data Manually with a Form	268
<b>Technique 31: Preventing Infection</b>	<b>229</b>	Filling In Data with AutoComplete	268
Understanding the Classic Hooks	229	AutoFiltering to Find Stuff Fast	269
Phishing for Fun and Profit	231	<b>Technique 38: Running Subtotals</b>	<b>271</b>
Taking the Necessary Precautions	232	AutoFiltering Totals	271
<i>Safeguarding against attachments</i>	232	<i>Setting up data for AutoFiltering</i>	271
<i>Keeping phishers at bay</i>	232	<i>Generating the totals</i>	273
<b>Technique 32: Working with E-mail Attachments</b>	<b>234</b>	Showing Subtotals	274
Understanding Draconian Blocks	234	<b>Technique 39: Creating Custom AutoFill Series</b>	<b>276</b>
Bypassing the Blocks	237	Using Fill Lists	276
<b>Technique 33: Securing Your Mail</b>	<b>239</b>	Making Your Own AutoFill Series	279
Getting a Digital Certificate	239	<b>Technique 40: Grabbing the Best with Pivot Tables</b>	<b>281</b>
Using a Digital Certificate	241	Creating a Pivot Table	281
Encrypting Messages	242	Manipulating a Pivot Table	283
<b>Part IV: Exploiting Excel</b>	<b>245</b>	Making a Pivot Table Boogie	285
<b>Technique 34: Getting Excel Settings Right</b>	<b>247</b>	<b>Technique 41: Creating Pivot Charts That Work Right</b>	<b>289</b>
Bagging the Bouncing Menus	247	Starting with a Good List	289
Making Key Changes	248	Building a Pivot Chart	290
<i>Setting up the Options dialog box and AutoCorrect</i>	249	Re-Creating a Pivot Chart	291
<i>Increasing the levels of undo</i>	251	Changing the Chart Type	292
Modifying Your Default Spreadsheet	252	Gussyng Up Pivot Charts	293
<b>Technique 35: Building Self-Verifying Spreadsheets</b>	<b>255</b>	<b>Technique 42: Setting Scenarios and Seeking Goals</b>	<b>294</b>
Highlighting Conditionally	255	Building a Loan Amortization Spreadsheet	295
Running Self-Verifying Cross-Totals	257	Establishing Scenarios	296
<b>Technique 36: Freezing Columns and Rows</b>	<b>261</b>	Working Backward: Goal Seeking	298
Freezing Column Headings	261	<b>Technique 43: Using the Lookup Wizard</b>	<b>300</b>
Splitting the Screen	262	Setting Up the Lookup Wizard	301
Printing Repeating Column Headings	263	Primping a List for Lookup	301
Hiding Rows and Columns	264	Running a Comparative Lookup	302
Bending an Elbow at A1	264	Running an Exact Lookup	305

<b>Part V: Pushing PowerPoint</b>	<b>307</b>	<b>Technique 49: Answering Predictable Questions</b>	<b>335</b>
<b>Technique 44: Getting PowerPoint Settings Right</b>	<b>309</b>	Planning for the Predictable	335
Working through the Changes	309	Creating the Supporting Slide	336
Blistering the Bouncing Menus	310	Running Several Supporting Slides	339
Setting the View	310	<b>Technique 50: Building toward a Goal</b>	<b>341</b>
Showing More Files	311	Reducing the Goal Slide	342
Taking Back Control	311	Building Forward to the Goal Slide	344
Reversing a Privacy-Busting Setting	312	<b>Technique 51: Tripping the Light Fantastic with Multimedia</b>	<b>346</b>
Installing All Your Templates	313	Choosing the Right Player	346
<b>Technique 45: Choosing the Right PowerPoint File Type</b>	<b>314</b>	Inserting Multimedia with Native PowerPoint Tools	347
Understanding PowerPoint File Types	314	Inserting a Media Player Movie	348
Saving Files to Run Automatically	315	<b>Technique 52: Taking a Presentation on the Road</b>	<b>351</b>
Adding a Custom Presentation Skeleton to the AutoContent Wizard	316	Packaging for CD	351
<b>Technique 46: Changing Your Blank Presentation</b>	<b>319</b>	Playing the Burned CD	353
Understanding Blank Presentations	319	Covering Your B...ases	354
Creating a Bare-Bones Blank Presentation	320	<b>Part VI: Assimilating Access</b>	<b>357</b>
Using Slide Masters	322	<b>Technique 53: Getting Access Settings Right</b>	<b>359</b>
<b>Technique 47: Recording a Sound Track</b>	<b>324</b>	Setting Access Startup Options	359
Using Recorded Narrations	324	Changing Access Defaults	361
Creating a Narration	325	<b>Technique 54: Adding a Cover Sheet to an Access Report</b>	<b>364</b>
Playing a Narration	327	Generating a Report	364
Editing a Narration	327	Creating the Cover Sheet	366
<b>Technique 48: Making a Presentation Run Itself</b>	<b>329</b>	Formatting the Report Cover Sheet	367
Choosing Self-Running Transitions	329	<i>Centering the report title</i>	367
Looping a Presentation Continuously	330	<i>Adding text to the cover sheet</i>	368
Getting the Slide Timings Just Right	331		
<i>Applying slide timing manually</i>	331		
<i>Adding timing settings with a rehearsal timing</i>	332		
Adding Navigation Action Buttons	333		

<b>Technique 55: Including Totals in an Access Report</b>	<b>370</b>	<b>Technique 61: Managing an Electronic Newsletter</b>	<b>411</b>
Adding a Running Total	370	Choosing to Start a Newsletter	411
<i>Setting up the totals</i>	370	Starting Small with Outlook	412
<i>Setting up groups</i>	372	<i>Creating and maintaining a subscriber list</i>	412
Displaying Subtotals and Totals	373	<i>Creating and sending the newsletter</i>	414
<b>Technique 56: Printing Labels in Access</b>	<b>376</b>	Using a Newsletter Service	415
Running the Access Label Wizard	376	Growing Larger Gracefully	417
Tweaking the Label Wizard's Results	378	<b>Technique 62: Turning a Word Document Into a Presentation</b>	<b>418</b>
Creating Custom Labels and Reports	380	Understanding Outline Levels	418
<b>Technique 57: Reducing Repetitive Formatting Tasks</b>	<b>382</b>	Converting a TOC to a Presentation	420
Understanding Access Formatting	382	Converting a Presentation to a TOC	421
Setting Custom Defaults	383	<b>Technique 63: Animating a Chart in PowerPoint</b>	<b>424</b>
<i>Changing defaults via the Properties window</i>	384	Building Charts in Excel	424
<i>Changing defaults using an existing control</i>	385	Putting a Chart on a Slide	426
Creating a Form Template	386	Animating the Chart	428
Using a Form Template	387	Running Fine-Grain Animation	431
<b>Technique 58: Recycling Forms for Browsing and Data Entry</b>	<b>389</b>	<b>Technique 64: Rotating Text in a Word Document</b>	<b>433</b>
Understanding the Forms	389	Rotating Text with Word Tools	433
Creating the Omnipotent Form	390	Making a Name Tent	435
Modifying the Form	391	Rotating Any Text	436
Using the Modified Form	394	<b>Part VIII: The Scary (Or Fun!) Stuff</b>	<b>439</b>
<b>Technique 59: Creating Your Own AutoFormat</b>	<b>395</b>	<b>Technique 65: Taking Over Word's Show/Hide</b>	<b>441</b>
Applying an AutoFormat	395	Seeing Word's Critical Marks	441
Customizing AutoFormat Styles	397	Building a Better Show/Hide	442
Deleting Old Styles	399	Writing the Macro	443
<b>Part VII: Combining the Applications</b>	<b>401</b>	<b>Technique 66: Inserting Unformatted Text in Word</b>	<b>445</b>
<b>Technique 60: Inserting a Spreadsheet in a Document</b>	<b>403</b>	Word Pasting 101	445
Choosing an Insertion Method	403	Writing a Pasting Macro	447
Copying Data	404	Assigning a Shortcut to the Pasting Macro	448
Embedding a Spreadsheet	406		
Linking a Spreadsheet	409		

<b>Technique 67: Inserting Unformatted Text in Excel</b>	<b>450</b>	Checking Contacts	468
Recording a Macro	451	Printing Personalized Newsletters	470
Editing an Excel Macro	453	Printing Envelopes	472
E-mailing Holiday Greetings	453		474
<b>Technique 68: Printing a Bunch of Spreadsheets — Fast</b>	<b>455</b>	<b>Technique 71: Creating Versatile Watermarks</b>	<b>475</b>
Setting Up Excel for Macros	456	Setting a Standard Watermark	475
Building the PrintWorkbooks Macro	456	Modifying Watermark WordArt	476
Running and Testing the Macro	459	Making Watermarks Appear on the First Page Only	478
Assigning the Macro to a Button	460		
<b>Technique 69: Protecting Your Privacy</b>	<b>462</b>	<b>Technique 72: Building (And Stealing) E-mail Stationery</b>	<b>480</b>
Seeing the Hidden Stuff	462	Using Built-in Stationery	480
Zapping the Embarrassing Stuff	463	<i>Setting up stationery in Word</i>	481
<i>Setting up stationery in Outlook</i>			482
<b>Technique 70: Printing Personalized Greetings in Batches</b>	<b>465</b>	Stealing Incoming Stationery	483
Understanding Mass Mailing	465	Creating Your Own Stationery	483
Entering and Updating Contacts	466
