## *Symbols and Numbers*

---

& (ampersand), menu commands and, 654  
' (apostrophe)  
    single curly, creating, 273  
    VBA comment lines, 684  
\* (asterisk)  
    advanced search operator, 256  
    formula number formatting, 207  
. (decimal point), formula number  
    formatting, 207  
, (digit grouping' symbol), formula number  
    formatting, 207  
\$ (dollar sign), formula number formatting,  
    207  
# (field formatting switch), 494–497  
\* (field formatting switch), 494–497  
@ (field formatting  
    switch), 494  
- (minus sign), formula number formatting,  
    207  
% (percent sign), formula number  
    formatting, 207  
+ (plus sign), formula number formatting,  
    207  
# (pound sign)  
    advanced search operator, 256  
    formula number formatting, 207  
? (question mark) advanced search  
    operator, 256  
\_ (underscore), VBA line continuation  
    character, 685  
0 (zero), formula number formatting, 207  
3-D charts, defined, 388  
3-D Color button (3-D toolbar), 369  
3-D On/Off button (3-D toolbar), 368  
3-D Style button (Drawing toolbar), 338  
3-D toolbar, buttons, 367–369

## *A*

---

Accept Change button (Reviewing toolbar),  
    304  
accepting/rejecting changes (Track  
    Changes), 311–312

Activate method (Document object), 714  
ActiveDocument property (Application  
    object), 712  
ActiveWindow property (Application  
    object), 712  
Actual Page button (Reading Layout  
    toolbar), 303  
Add Network Place Wizard, 428–430  
Add property (VBA), 695  
Add to My Places command (Open dialog  
    box Tools menu), 26  
address blocks, mail merge, 600–602  
address lists, mail merge, 597–599  
AddressBlock field code, 499  
addresses  
    creating hyperlinks from, 274  
    mail merge, creating storage directory,  
        612–613  
    URLs for documents, 430–431  
Advance field code, 499  
Advanced File Search task pane, overview,  
    30–33  
Advanced (Options dialog box Security  
    tab), 640  
advanced searching  
    case, matching, 256  
    Find All Word Forms option, 257  
    formats, 257–258  
    overview, 255  
    search direction, changing, 255  
    Sounds Like option, 257  
    special characters, 258–259  
    whole words, finding, 256  
    wildcards and, 256–257  
Align button (Tables and Borders toolbar),  
    194  
alignment  
    drawing objects, 355–356  
    drawing objects, grid, 356–357  
    drawing objects, groups, 357–358  
    drawing objects, overview, 355–356  
    Equation Editor, shortcut keys, 422  
    table cell contents, setting, 194  
Alignment property (ParagraphFormat  
    object), 730

- All (Options dialog box Formatting Marks options), 627
- All Programs menu, launching Word, 10
- Allow A4/Letter Paper Resizing option (Print dialog box), 93
- Allow Background Open of Web Pages (Options dialog box General tab), 630
- Allow Background Saves option (Save As dialog box), 35
- Allow Fast Saves option (Save As dialog box), 35
- Allow Fast Saves (Options dialog box Save tab), 635
- Allow Multiple Pages button (Reading Layout toolbar), 303
- Allow Starting in Reading Layout (Options dialog box General tab), 629
- alphabetizing, table contents, 194
- Alt key, forms, filling out, 517
- Always Create Backup Copy option (Save As dialog box), 35
- Always Create Backup Copy (Options dialog box Save tab), 635

    - table cells, 194
  - Borders and Shading command, style formatting, 142
  - Borders and Shading dialog box
    - borders, 131–133
    - entire page borders, 137–138
    - horizontal lines, 138–139
    - horizontal lines, adding to Web pages, 455–457
    - shading, 135–137
  - Borders option (Page Setup dialog box), 171
  - Borders property (ParagraphFormat object), 730
  - Bottom option (Page Setup dialog box), 167
  - boxes, drawing around text, 131–133
  - branch box (organization chart), 400
  - Break command, section formatting, 164
  - Break dialog box, section breaks, inserting, 165–166
  - Break Forward Link button (Text Box toolbar), 376
  - Bring Forward option (drawings), 355
  - Bring to Front option (drawings), 354
  - Brochure.dot template, 74–75
  - browse control
    - navigating documents with, 233
    - Select Browser Object dialog box, 235–236
  - Browsers tab (Web options dialog box), 444
  - browsers, Web pages, previewing, 447
  - bulleted lists
    - applying automatically, 274
    - AutoFormat, 212
    - bullet format, changing, 212–215
    - characters and images, selecting as
      - bullets, 214–215
    - creating with Formatting toolbar, 210–211
    - overview, 209–210
  - Bullets and Numbering command, style formatting, 142
  - Bullets and Numbering dialog box
    - bullet format, selecting, 212–215
    - numbering, breaking and continuing, 215–216
    - numbering, formatting, 216–218
    - outline list creation, 219
  - bullets, inserting pictures as in Web pages, 457–458
  - button argument, MsgBox command, 704
  - Byte data type (VBA), 687
- 
- ## C
- 
- calculation fields, defined, 512
  - calculations, in tables, 205–207
  - callouts, creating, 385–386
  - camera (digital), inserting images from, 327–328
  - Cancel button, UserForms, adding to, 738
  - Cancel option (grammar checker), 292
  - canvas (drawing), overview, 339–340
  - Canvas toolbar, displaying, 339
  - capitalization switches (fields), 495
  - Capitalize First Letter of Sentences option (AutoCorrect), 266
  - Capitalize first letter of table cells option (AutoCorrect), 267
  - Capitalize names of days option (AutoCorrect), 267

- Caption dialog box
  - tables of contents, creating, 563–564
  - tables of figures, creating, 564
- captions
  - callouts, creating, 385–386
  - creating, 379–381
- caret character, searching for, 259
- cascading style sheets
  - priority, changing, 467
  - Web pages, 466–467
- case
  - changing, 250–252
  - matching in text searches, 255
- Category option (table of authorities), 571
- CDR files, defined, 320
- Cell object, 710
- center paragraph, 117
- center tab, 123
- CGM files, defined, 320
- Change Case command, 250–252
- Change option (grammar checker), 292
- Change Text Direction button (Text Box toolbar), 376
- character count, overview, 249–250
- Character Spacing tab (Font dialog box), 112–114
- character styles, creating, 156–157
- characters. *See also* fonts
  - advanced searches, operators for, 256
  - case, changing, 250–252
  - formatting, 106, 107–109
  - formatting, copying, 116–117
  - formatting with Font dialog box, 110–115
  - fractions, 273
  - searching for, 259
  - selecting as bullets, 214
  - special characters, finding, 258–259
  - special characters, inserting, 115–116
  - VBA line continuation, 685
  - VBA variables, allowable, 687
- Characters property, 724
- Chart Type dialog box, 392–393
- charts
  - captions, adding, 379–381
  - creating from tables, 390
  - customizing, 393–396
  - datasheets, 390–392
  - Diagram Gallery, 396–398
  - inserting, 389–390
  - organization charts, 396–402
  - overview, 387–388
  - types, 388
  - types, changing, 392–393
- check box field button (Forms toolbar), 510
- check box fields, creating for forms, 513–514
- check boxes, UserForms, adding, 741–743
- Check Grammar as You Type option (grammar checker), 295
- Check Grammar with Spelling option (grammar checker), 295
- Check Spelling as You Type option (spell checker), 289
- Chr() function, 691
- circles, drawing, 342
- citations (tables of authorities), creating, 568–570
- CleanString method (Application object), 713
- clip art
  - Clip Organizer, 321–322
  - inserting, 322–324
  - Internet, OfficeOnline site, 325
- Clip Art task pane, overview, 324
- Clip Organizer, overview, 321–322
- Clipart Pictures (Options dialog box File Locations tab), 639
- Clipboard task pane, overview, 246–247
- Close button (Reading Layout toolbar), 303
- Close method (Document object), 714
- closing documents, 18–19
- collaboration, STS (SharePoint Team Services), 313–316
- Collapse/Expand Subdocument button (Master Document toolbar), 537
- collapsing Outline view, 525–527
- Collate check box (Print dialog box), 91
- collections (VBA), 695–696

- color
  - border styles, 133
  - highlighter, changing, 305
  - setting for fill, line, and fonts in drawings, 348–351
  - shading text, 137
  - table cells, 194
- Color button (Picture toolbar), 329
- Color property (Font object), 729
- Colors dialog box, drawings and, 351–352
- column breaks
  - defined, 165
  - forcing, 182–183
  - searching for, 259
- column formatting
  - Column dialog box, 180–182
  - linked text boxes and, 183
  - overview, 179
  - width, adjusting, 182
- Column object, 710
- columns
  - creating with Standard toolbar, 179–180
  - selecting, 242
  - tables, adjusting width, 198–199
  - tables, inserting, 196–197
  - tables, number allowed for, 188
- Columns command, section formatting, 164
- Columns dialog box, column formatting, 180–182
- Columns option (indexes), 550
- Combine Subdocument button (Master Document toolbar), 537
- combo boxes, UserForms, adding, 743–744
- command buttons, UserForms, adding, 737–739
- comment lines (VBA), 684, 685
- comment mark, searching for, 259
- comments
  - creating, 305–307
  - removing, 308
  - viewing, 307–308
- Comments field code, 500
- Compare field code, 500
- comparing documents, overview, 310–311
- comparisons, mail merge data relationships, 616–618
- Compatibility tab (Options dialog box)
  - options, 636–638
  - overview, 622
- compatibility, Word versions and XML features, 483
- Compress Pictures button (Picture toolbar), 329
- concatenation, strings (VBA), 689–690
- condition settings, advanced file search properties, 32–33
- condition test (VBA), 697
- conditions (VBA), defined, 701
- Confirm Conversion at Open (Options dialog box General tab), 629
- constants
  - document stories, 716–717
  - Selection object, 722
  - selection types, 719
- Contains comparison test (mail merge data), 617
- Continuous option (section breaks), 165
- controls, UserForms
  - adding to, 736–737
  - overview, 732–733
- conversion, text to and from tables, 207–208
- Copy command, Open dialog box shortcut menu, 26
- copy header/footer from preceding section button (Headers and Footers toolbar), 176
- copy/cut/paste commands
  - overview, 245–246
  - VBA, 727
- copyright symbol, 268
- Correct accidental usage of cAPS LOCK key option (AutoCorrect), 267
- COUNT() formula, 206
- Count property (VBA), 695
- coworker box (organization chart), 400
- CPU, speech recognition system requirements, 662

Create New Document option (Insert Hyperlink dialog box), 451

Create New Folder option, Save As dialog box, 34

Create Shortcut command, Open dialog box shortcut menu, 26

Create Subdocument button (Master Document toolbar), 537, 540

Create Text Box Link button (Text Box toolbar), 376

CreateData field code, 500

criteria, advanced file searching, 30–33

Crop button (Picture toolbar), 329

cross-references (indexes), 554

Ctrl key, forms, filling out, 517

Currency data type (VBA), 687

Current page option (Print dialog box), 90

cursor movement keys, insertion pointer, 14

curved lines, drawing, 347–348

custom date and time format switches (fields), 497

Custom Dictionaries option (spell checker), 289

custom dictionaries (spell checker), overview, 286–288

custom number format switches (fields), 496–497

Customer Feedback Options (Options dialog box General tab), 630

Customize Bulleted List dialog box, bullet format, selecting, 213–215

Customize dialog box

- toolbar buttons, adding, 647–648
- toolbar buttons, removing, 646–647
- toolbar options, setting, 652–653

Customize Keyboard dialog box

- keyboard shortcuts, creating, 658
- styles, assigning keyboard shortcuts to, 151

Customize Numbered List dialog box, number format, selecting, 216–218

Customize Outline Numbered List dialog box, 219

Cut command, Open dialog box shortcut menu, 26

cutting text, overview, 245–246

cycle diagrams, defined, 397

---

## D

---

Dash Style button (Drawing toolbar), 338

dashes, replacing hyphens with, 273–274

data labels, charts, adding to, 395–396

data source (mail merge)

    - programming style recommendations, 685
    - projects, 686
    - With statement, 694–695
    - statements, importance of white space, 685
    - strings, concatenation, 689–690
    - strings, functions, 690–691
    - strings, overview, 689

## VBA (continued)

- Sub statement, 684
- text, copy/cut/paste, 727
- text, deleting, 726–727
- text, formatting, 728–730
- text, inserting, 725–726
- user-defined procedures, 706–707
- UserForms, adding check boxes, 741–743
- UserForms, adding combo boxes, 743–744
- UserForms, adding command buttons, 737–739
- UserForms, adding controls, 736–737
- UserForms, adding frames, 740
- UserForms, adding labels, 739
- UserForms, adding list boxes, 744–746
- UserForms, adding text boxes, 739–740
- UserForms, creating, 733–736
- UserForms, overview, 731–733
- variables, assignment statements, 686
- variables, declaring, 687
- variables, defined, 686
- variables, Option Explicit, 688–689
- variables, static, 688

vector images. *See also* images  
overview, 321

Venn diagrams, defined, 398

version compatibility, XML features, 483

Version property (Application object), 713

Vertical Alignment option (Page Setup dialog box), 171

Vertical option (Frame dialog box), 379

Vertical Pitch field (New Custom laser dialog box), 585

Vertical Ruler (Options dialog box Print and Web Layout options), 627

Vertical Scroll Bar (Options dialog box Show options), 626

Vertical Text button (WordArt toolbar), 384

view buttons, 13–14

View menu

- footnotes, displaying, 225
- headers and footers, creating, 174–177
- section formatting and, 164
- toolbars, displaying, 645–646

View object, 712

View tab (Options dialog box)

- Formatting Marks options, 626–627
- Normal options, 627–628
- Outline options, 627–628
- overview, 622, 624
- Print Layout options, 627
- Show options, 625–626
- Web Layout options, 627

views

- Open dialog box, 23–24
- Reading Layout, 301–303
- thumbnail, 240
- view buttons, 13–14

Views option, Save As dialog box, 34

viruses, macros, protecting against, 681

Visual Basic editor, launching, 678

voice commands (speech recognition), 664–665

voice training (speech recognition), 663
