## A

- Academic language therapists:  
determining need for, 187–188; general information, 187; locating, 188–189; tips on using, 189–190
- Accommodations: assistive technology as, 158; general information, 223–224; homework, 199, 231; reading, 154–155; Section 504, 292–293; in testing, 240–245; when to use, 225; writing, 156–158
- Achievement tests, 32
- Acronyms, 112, 253
- Acrostics, 253–254
- Activities: partner, for differentiating instruction, 234–235; for reinforcing phonics skills, 71–72; for reinforcing spelling skills, 123–125, 160; for strengthening language skills, 160–162; for teaching decoding, 78–79, 84–85; for teaching sight words, 87–89. *See also* Games
- Adaptations: general information, 222–223, 225; homework, 231; of learning materials, 237–239; in testing, 240–245. *See also* Accommodations; Modifications
- Adopted children, 11
- Americans with Disabilities Act (ADA), 270; Amendments Act of 2008, 290, 291–292
- Anxiety, 23, 51, 191, 194
- Archer, A. L., 84
- Assessment: of fluency, 96–97; of phonics skills, 70–71; of phonological awareness, 33, 65–66; of word identification skills, 76–78. *See also* Tests
- Assignments: differentiating, 235–236; rubrics for, 134–135, 143, 235
- Assistive technology, 146–153; general information, 146, 158; for help with homework, 200; sources of, 147–148, 152–153; to support reading, 146–148, 151, 152–153; to support writing, 148–153; types of, 146–152; web sites on, 148, 153
- Attention-deficit/hyperactivity disorder (ADHD), 9, 20, 24, 296. *See also* Dual exceptional (2e) students

Audio books, 146, 147, 148  
Auman, M., 135  
Auray, D. P., 135  
Automaticity, 91

## B

“Basic Spelling Vocabulary List,”  
125, 163–168  
Behavior problems: acting  
out, 24, 191; and executive  
functioning of brain, 22  
Blending, 65, 72, 74, 76  
Books: audio, 146, 147, 148;  
for children to learn about  
dyslexia, 181; electronic,  
146–148  
Bookshare.org, 148  
Boys, dyslexia among, 7  
Brain: changed functioning of,  
with training, 19; executive  
functioning of, 22; of people  
with dyslexia, 9, 16–18

## C

Checklists for parents, 177–219;  
advocating for child with  
dyslexia, 182–186; building  
child’s self-esteem, 193–194;  
building child’s study skills,  
213–217; finding tutors  
or educational therapists,  
187–190; helping child with  
organization, 206–209; helping  
child with time management,  
210–212; helping with  
homework, 195–200;  
reinforcing reading skills at  
home, 201–205; talking with  
child about dyslexia, 178–181.

*See also* Checklists for parents  
and teachers  
Checklists for parents and  
teachers, 265–301; college  
students with dyslexia,  
270–273; high school students  
with dyslexia, 266–269;  
Individualized Education  
Programs (IEPs), 287–289;  
national organizations and  
resources, 294–301; Response  
to Intervention (RtI), 274–281;  
Section 504, 290–293; special  
education, 282–286. *See  
also* Checklists for parents;  
Checklists for teachers  
Checklists for teachers,  
221–263; adaptations and  
accommodations in testing,  
240–245; adaptations and  
modifications of materials,  
237–239; adaptations  
vs. accommodations vs.  
modifications, 222–225;  
differentiating instruction,  
232–236; helping with  
homework, 226–231;  
helping with organization,  
246–249; helping with time  
management, 249–252;  
strategies for teaching reading  
in content areas, 258–262;  
strategies to aid memory,  
253–257. *See also* Checklists  
for parents and teachers  
Children with dyslexia: books  
about dyslexia for, 179; how  
parents can advocate for,  
182–186; parents’ talking  
with, about dyslexia, 178–181;

- reinforcing reading skills of, at home, 201–205; symptoms of dyslexia in, 11–15; what's needed by, from parents and teachers, 43–44. *See also* People with dyslexia; Students with dyslexia
- Cloze technique, 100, 111
- Coexisting disorders, 9, 20, 24, 296
- College students with dyslexia, 270–273; diagnosing, 29; general information, 270; recommendations for, 270–273
- Communication: tips for parents, 183–185, 199; tips for teachers, 227–228, 229
- Composition. *See* Writing
- Comprehension, 104–114; general information, 48, 104; good readers' strategies for, 104–105; methods for teaching, 106–114, 261–262; monitoring, 107–108; reasons for dyslexic readers' problems with, 105–106
- Connecticut Longitudinal Study, 16
- D**
- Decoding, 73–85; activities for teaching, 78–79, 84–85; brain activity related to, 17, 18; general information, 48, 73; methods for teaching, 73–76, 79–84; miscue analysis for assessing skills in, 76–78; multisyllabic words, 79–85
- Denton, P. H., 112
- Depression, 10, 191, 192, 194
- Deshler, D. D., 112, 144
- Diagnosing dyslexia, 27–34; general information, 27–29; and standardized test scores, 29–30; tests for, 31–34; in young adults, 29
- Dolch word list, 86, 89
- Drafts: reading aloud, 141; writing, 127, 136–137
- Dual exceptional ( 2e) students, 50–53
- Dysgraphia, 20, 24
- Dyslexia: benefit of early identification of, 18; causes of, 7, 9, 16; defined, 3, 4; diagnosing, 27–34; general information, 7–9; incidence of, 3, 7; research findings on, 16–19; risk factors for, 9, 11, 18; signs and symptoms of, 11–15, 20–24; social problems associated with, 9–10. *See also* Children with dyslexia; People with dyslexia; Students with dyslexia

- Ear infections, 11
- Early intervening services (EIS), 274, 278
- E-books, 146–148
- Editing written work, 127–128, 140, 142–145
- Educational therapists: determining need for, 187–188; general information, 187; locating, 188–189; private, 185–186; tips on using, 189–190

Electronic text, 146–148  
Elementary school students with dyslexia: reinforcing reading skills of, at home, 201–203, 204–205; symptoms in, 14–15  
Emotional difficulties: for individuals with dyslexia, 23–24; related to low self-esteem, 191–192; for twice exceptional students, 51  
E-text, 146–148  
Executive functioning of brain, 22

## F

Fetzer, N., 48, 135  
Figurative language, 102–103, 136  
Fluency, 18–19, 91–97; assessing, 96–97; brain activity related to, 17; factors contributing to, 91–92; general information, 48, 91; methods for building, 19, 92–96  
Frames: in math, 239; in reading, 113, 237; in writing, 130, 134, 156, 235  
Friedlander, B., 138  
Fry, E., 90  
Fry's instant words, 86, 90  
Functional magnetic resonance imaging (fMRI), 16

## G

Games: to aid memory, 256; for developing vocabulary, 102; to strengthen language skills, 159–160; for teaching spelling, 159, 161; as way to study, 217.  
*See also* Activities

Genetics, 9, 11, 18  
Gifted students, 50  
Gillingham, A., 35  
Girls, dyslexia among, 7  
Gleason, M. M., 84  
Graham, S., 125, 138, 163  
Graphic organizers: for increasing comprehension, 113; for learning vocabulary, 100–101; for prewriting, 130–131

## H

Handwriting, difficulty with, 20, 24  
Harris, K., 125, 163  
Harris, K. R., 138  
Hasbrouck, J., 97  
High school students with dyslexia, 266–269; general information, 266–267; recommendations for, 267–269; reinforcing reading skills of, at home, 203–205; symptoms in, 15  
Homework: parental help with, 195–200; supply kit for, 207–208; teacher's help with, 226–231  
Homophones (homonyms), 101

## I

Individualized Education Programs (IEPs): general information, 287–289; for high school students with dyslexia, 267, 269; homework accommodations in, 199; IDEA requirement

- for, 282; and parents, 183, 184–185, 288
- Individuals with Disabilities Education Act (IDEA):  
 history of, 282; on rights of special education students, 182, 282–283; and RtI, 274, 277–279, 284–285; on specific learning disabilities, 3, 5–6; and testing accommodations, 244
- Infants, risk factors for dyslexia in, 11
- Instructional methods: for composition, 133–139; for comprehension, 106–114, 261–262; for decoding, 73–76, 79–84; for differentiating instruction, 232–236; for fluency, 19, 92–96; key elements of, for students with dyslexia, 45–49; National Reading Panel recommendations on, 19; for phonics, 68–70; for phonological awareness, 18–19, 63–65; for prewriting, 129–131; for revising and editing written work, 140–145; for spelling, 118–125; for vocabulary, 98–103, 260–261. *See also* Activities; Games; Response to Intervention (RtI)
- Intelligence: of people with dyslexia, 7; and processing speed of brain, 22–23; reassuring children with dyslexia about, 179. *See also* Gifted students
- Intelligence tests, 31

## How to Reach and Teach All Children in the Inclusive Classroom

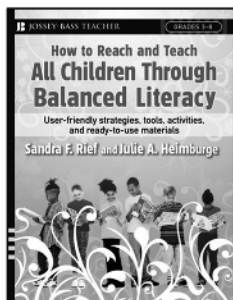

Practical Strategies, Lessons, and Activities,  
*2<sup>nd</sup> Edition*

By: **Sandra F. Rief, M.A.** and  
**Julie A. Heimburge**

ISBN 978-0-7879-8154-9

Paperback | 480 pp.

This thoroughly updated edition gives all classroom teachers, special educators, and administrators an arsenal of adaptable and ready-to-use strategies, lessons, and activities. It is a comprehensive resource that helps teachers reach students with varied learning styles, ability levels, skills, and behaviors. The authors offer a team approach that includes parents, colleagues, and learning specialists, enabling teachers to guide diverse groups of students in grades 3–8 toward academic, social, and emotional success.

## How to Reach and Teach All Children Through Balanced Literacy

User-Friendly Strategies, Tools, Activities, and  
Ready-to-Use Materials

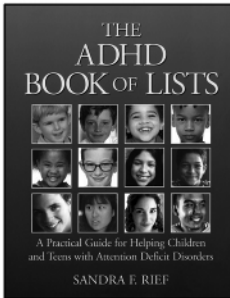

By: **Sandra F. Rief, M.A.** and  
**Julie A. Heimburge**

ISBN 978-0-7879-8805-0

Paperback | 352 pp.

The balanced literacy method combines the best practices of phonics and other skill-based language instruction with the holistic, literature-based approach in order to help you teach reading, writing, and speaking in a clear and approachable format. The book includes detailed descriptions of what a balanced literacy classroom looks like and shows how to create a program from the ground up or give your existing program a boost. This reference can be used across content areas and is filled with reproducible worksheets, activities, and other handy classroom tools.
