

Index

A

Aborigine culture, xxvi–xxviii, 194, 195
Accountability, 69, 113
Achievement: inadequate, criticism focused on, 9–10; measuring, versus assessing deep learning, 11
Adaptability: of human systems, 30, 31, 33; mapping, 32, 180; of natural living systems, 29
American Psychological Association (APA), 39, 101, 215–216
Annenberg/CPB project, 7–8
Aspen Grove Center for Inquiry and Imagination (possible new school): by design, 69–76; revisiting the design of, 171–181
Aspen groves, symbol for new story, 69
Assessment: contrasting stories of, 224; of deep learning, measuring achievement versus, 11; design principles for, 165–167; importance of, 158; as the information about learning, 102–104; in learner-centered education, 216; of learning, 103; that generates continuous feedback, need for, 164–165
Authority for learning, internal, developing, 86–87
Autopoiesis, defined, 27
Awakening and transformation, moment of, 186, 209

B

Beliefs and values, as a source of system identity, 92. *See also* Learning beliefs
Belonging: in community, 5; and learning relationships, 113; multiple ways of

knowing and, 47–50; naturally right places of, 211; principles of, as a source of system identity, 92
Beyond, realm and arena of, 57–58. *See also* Transdisciplinary understanding
Bodily-kinesthetic intelligence: access to, 83, 84; defined, 217
Boix-Mansilla, V., 151
Boundary: mapping, 25; of natural living systems, 24. *See also* Identity
Brain, the: neuroscientific findings on, 22, 87; patterns and structures of, 21; structure of, learning changing, 22, 88, 145–146. *See also* Mind entries
Brown, S., 121
Butterfly effect, 89–90

C

Capra, F., xii, 16, 31
Carver, G. W., 50
Challenging ourselves, importance of, 88
Change: predictive models of, xv; systemic, fundamental errors made in trying to impose, 148–149; understanding, importance of, 94
Chatwin, B., xxv
Chesterton, G. K., 69, 189
Cocreation, capacity for, 27
Cognition, xii, 22, 118. *See also* Knowing
Coherence: designing for, 117–129; of human systems, 30; mapping, 180; of natural living systems, 27
Collaboration: in human systems, 30, 31, 32; in learning, 72; mapping, 180
Collaborative learning, 88–90

- Commitment, 7, 12, 198, 205
- Communities of learning. *See* Learning communities
- Communities of practice, design of, 162–164
- Community at large, engaging the, in learning, 71–72
- Community belonging. *See* Belonging
- Community conversations, slower and deeper, engaging in, 204–207
- Community identity, 80
- Community life, learning linked to, 70
- Community-centered learning networks: at Aspen Grove, 73; student-generated and -led, 112
- Competency: core, of IMSA, defining the, 230–231*n*5; learning, community defining, 71. *See also* Learning competencies
- Competition, learning distortion involving, 85
- Complex systems, concept of, 21
- Conceptual understanding, focus on, 7, 89.
See also Deep learning and understanding “Confident error,” 8
- Context, importance of, 5
- Continuous feedback, assessment that generates, need for, 164–165
- Continuous learning, essentialness of, 22
- Contrasting stories, of learning and schooling, 39–40, 41–44, 48, 167–168, 169, 219–225
- Conversations, slower and deeper, communities engaging in, 204–207
- Courage, importance of, 210
- Cousineau, P., xi, 68
- Creativity: of human systems, 31, 32, 33; in learning, 72; mapping, 180; of natural living systems, 27
- Criticism, of public education, 9–10
- Cross-functional networks, 138
- Crow and Weasel* (Lopez), 3
- Csikszentmihalyi, M., 118
- Cultural mind shift, 179
- Current story: changing the, leadership needed for, 191–195; context framing the, 6–9, 12; contrasted with the new story, 39–40, 41–44, 48, 167–168, 169, 219–225; language in the, 16–17
- Curriculum: construct of a, for life, 151–154; contrasting stories of, 223; for deep understanding, 70–71; as the information for learning, 99–101; design principles for a, 155–156; prescribed, adherence to, requiring, effect of, 12
- D**
- Data collection, 97–98, 103
- Deep learning and understanding: assessing, design principles for, 165–167; benefits of, 45–46; commitment to, 7; curriculum for, 70–71; development of, 52–58; as essential, 40; learning structures encouraging, importance of, 146; measuring achievement versus assessing, 11; questions for, 152, 153–154; teaching for, 156–162
- Deeper and slower conversations, communities engaging in, 204–207
- Deficiency identity, 93–94
- Design principles: for assessing deep learning, 166–167; for a curriculum for life, 155–156; of generative learning and schooling, 74–75; for teaching for understanding, 161–162; using natural laws as, 34
- Developmental influences, 216
- Dialogue, calls for, 162
- Disciplinary domains, languages of, 52–58
- Disciplinary inquiry, 71
- Disciplinary understanding, 52–53
- Discovery, facilitating, 159
- Diversity: of human systems, 30, 31, 32, 33; learning and, 216; mapping, 180
- Dreams: distorting, 86; honoring, 89; as maps, 210
- Dreamtime, culture with origins in, xxvi–xxvii
- Dynamic living systems, 24–27; 89–90
- E**
- Economic principles and metrics, public discussion focused on, 177
- Ecosystems, 23, 27–28, 31
- Education, generative and life affirming, 189
- Effort, effects of motivation on, 216
- Einstein, A., 10
- Elder-leadership: essence of, 192–194, 198; need for, to change the current story, 191–195; new work of, 199–210
- Elders, concept of, understanding, 192–194
- Emergence (self-organization): by design, 32; natural, of living systems, 23, 24, 25, 27
- Emotional influences, 215
- Emotions: and cognition, 22; influence of, on motivation, 86, 87
- Energy: of human systems, 30, 31, 32; mapping, 180
- Energy and matter: mapping, 25; flow of, in natural living systems, 24–25. *See also* Information
- Engagement, in learning, 169, 219
- English, integrating physics within, 56
- Epistemology: becoming an ethic, 48, 124, 162; giving rise to a pedagogy, 162. *See also* Knowing
- Evidence-based information, 102, 103
- Existential intelligence, defined, 217

Expert learners, 134
 Exploration, constant, of natural living systems, 27; in learning, 72
 External forces, 23

F

Facilitating discovery, 159
 Faculty presentations, 162–164
 False proxies, xiii, 11
 Fearlessness, 101
 Feedback, continuous, assessment that generates, need for, 164–165
 Feedback loops: mapping, 25; of natural living systems, 26. *See also* Relationships
 Field Museum of Natural History, 125–126
 Firestorm, The, 4, 5, 46, 195, 205
 Flexibility: of natural living systems, 29; of structures of schooling, 146–148
 Flow, continuous: in human systems, 30; of natural living systems, 24–25
 Flow experience, 118
 Formal structures, 30
 Formally established hierarchies, 139
From Performance to Presence (Jones), 191
 Functional hierarchies, 30
 Funding, federal, losing, 103

G

Gardner, H., xii, 51, 83, 151, 217
 Garrison, J., 63
 Generativity, defined, 14; in learning communities, 15–16
 Gift, The, 4, 46, 195, 205
 Goals: distorting, 86; honoring, 89; of learning, 215; as a source of system identity, 92
 Goerner, S., xii
 Greenfield, Illinois, story about a student from, 124–126

H

Habits of mind, exploring, 37–66. *See also* Integral minds
 Havel, V., 187
 Hierarchies: formally established, 139; functional, 30
 High-stakes tests, 11, 12, 48, 85, 103, 164–165
 Historical thinking, tools and strategies in, 52–53
 History, as a source of system identity, 92
 Hock, D., xii
 Hollister, B., 54
 Human questions, universally, 151–152
 Human systems: attributes of, as generative living systems, 30, 31–33; connecting natural living systems with, 20, 31; properties and principles of, as generative social systems, 29–30

I

Identity: confluence of information, relationships, and, 35, 115–116; contrasting stories of, 41; everything emerging from, 90–91; of generative systems of learning and schooling, 76; of human systems, 30, 31, 32, 33; insights on generative, 206; of integral minds, 62; of learning abundance, grounding learning and schooling in, 93–94; physical embodiments of, 144; processes congruent with, result of, 126, 128; questions of, conversations for provoking, 205; redesigning learning structures in concert with, 147; sources of system, 92; of the system as essential for grounding the structures, 148–149. *See also* Learning identity
 Illinois Mathematics and Science Academy (IMSA), xi, xxv, 3, 37, 54, 57, 65, 82, 97–98, 101, 112, 120, 124–126, 152, 157, 159, 162, 169, 204, 207–208, 230–231n5(Ch4), 233n2(Ch12)
 Impoverished mind making, 135–136
 Independence, concept of, allure of, 26
 Indigenous ways of knowing, connecting scientific ways of knowing and, 50
 Individual differences, 216
 Informal structures, 30
 Informally emergent networks, 139
 Information: about learning, 102–104; beliefs about, 100; confluence of identity, relationships, and, 35, 115–116; contrasting stories of, 42; fearlessness with, 101; of generative systems of learning and schooling, 76; of human systems, 30, 32; insights on generative, 206; of integral minds, 62; for learning, 99–101; redesigning learning structures in concert with, 147. *See also* Learning information
 Innate learning identity, distorting, 84–86
 Input and output, in learning, 39
 Inquiries, leadership. *See* Leadership inquiries
 Inquiry, knowledge generation provoked by, 152. *See also* Questions
 Inquiry projects, presentation of, 72, 231n6
 Inquiry-based learning, 71, 125
 “Inspiration: Where Does It Come From?” (Lubow), 67
 Institute for Play, 121
 Instruction: contrasting stories of, 223–224; design principles for, 161–162; as teaching for understanding, aspects of, 156–161
 Instrumentalism, dominance of, 10–11
 Integral learning and schooling, 41
 Integral minds: growth of, context for, 15; habits of, nurturing, 46–62; and language, 18; mapping, 180; as wise minds, 63–66

Integral story, contrasted with reductive story, 169, 219–225

Integral ways of knowing: contrasted with reductive ways of knowing, 49; importance of, 46–47; as patterned thinking, 136–137

Integration, 31–33, 35, 76

Integrity: designing for, 79–96; of human systems, 30; mapping, 180

Intelligence, defined, 51

Intelligences: distortions involving, 84, 85; honoring our, by using them, 88; learning and, 22–23; multiple, 51–52, 83–84, 88, 217; and tests, 85, 89

Interdependence: designing for, 107–116; of human systems, 30; mapping, 180; of natural living systems, 26. *See also* Relationships

Interdependent systems, concept of, 21

Interdisciplinary inquiry, 71

Interdisciplinary understanding, 52, 53–57

Intergenerational learning: at Aspen Grove, 70, 71; benefits of, 69; relationships in, 111–112

Internal adaptation, 23

Internal authority, developing, for learning, 86–87

International Center for Research in Transdisciplinary Studies, 58

Internet, growing up on the, 140

Interpersonal intelligence, defined, 217

Intrapersonal intelligence, defined, 217

Intricacy: of feedback loops in natural living systems, 26; in human systems, 30, 31, 32, 33; mapping, 180

Intrinsic motivation, 216

Intuition, distorting, 86

J

Jones, M., 191, 192

Jordanian educator conference, 131–132

K

Kairos, meaning of, 186, 209

Kellner-Rogers, M., xii, 31

Kinesthetic intelligence: access to, 83, 84; defined, 217

Knisley, M., 124

Knowing: contexts of, exploring, 47–62; every way of, becoming a way of living, 48; multiple ways of, and belonging, 47–50; power of, 45; reductive and integral ways of knowing contrasted, 49

Knowledge acquisition and generation: contrasting stories of, 49; in learner-centered education, 215; provoked by inquiry, 152

L

Landscape, shaping the, way of, xxvi–xxvii. *See also* Learning landscape

Language: discipline serving as a, 52–58; imbuing, with new meaning, 69; new, need for, 16–18

Larsen, S., xi

Leaders: need for, to think differently, xv–xvii; right moment for, to answer the call for leadership, 185–190; role of, 94–95, 100, 198. *See also* Elder-leadership

Leadership and the New Science (Wheatley), 171

Leadership inquiries about learning and schooling: and identity, 95–96; and information, 104–105; and patterns, 140–141; and processes, 128–129; and relationships, 114–115; and structures, 168–169

Leadership work, essential, for creating the new story, 199–210

Learner identity: contrasting stories of, 169, 220; sources of, 81–82. *See also* Learning identity

Learner-centered education, principles for, 101, 215–216

Learning: assessment of, 103; changing brain structure, 88; as collaborative, creative, and exploratory, 72–73; community engagement in, 71–72; context of, 215; continuous, essentialness of, 22; definition of, 39; developing internal authority for, 86–87; distorting, 85; and diversity, 216; effect of, on the brain, 22, 88, 145–146; engaging in, contrasting stories of, 49; essential process of, 120; goals of, 215; honoring, 88–90; how to learn, 122–123; individual differences in, 216; influence of, on the structure of the brain, 22, 88, 145–146; influences on, 215, 216; information about, 102–104; information for, 99–101; and intelligences, 22–23; intergenerational, 69, 70, 71, 111–112; lifelong, disposition for, 160; method of, distortion involving, 85; model for, 65; multiple dimensions (pillars) of, 58–62, 153–154; nature of, 215; new context for, xii–xiii; playful, 120–121; principles of, 38, 39; as the process of life, 38, 118–119; as a process of live encounters, 122–124; relational, 110–111; shallow, 40; social, 88–90; thinking schooling is the same as, problem of, 39, 85. *See also* Deep learning and understanding

Learning abundance, identity of, 93–94

Learning and schooling systems: complete

- map of generative, 180; organizing dynamics and organization of, 179–181. *See also specific system properties and attributes*
- Learning and schooling, two stories of, contrasted, 39–40, 41–44, 48, 167–168, 169, 219–225. *See also* Current story; New story
- Learning beliefs: comparison of, 39–40, 41–44; as “rules,” 38; that ground generative learning and schooling, 81, 100, 109, 119, 133, 145
- Learning clusters, 70
- Learning communities: natural, 23; new design for, 69–76; in the new story, 14–16; revisiting the generative design of, through each aspect, 171–181
- Learning competencies, grounding curriculum in specific, 71
- Learning contexts, interconnected, 110–111
- Learning experiences, personalized and intergenerational, 70
- Learning habitats, as arboretums, xii; ability to create, that are naturally right, 190
- Learning identity: and access to multiple intelligences, 83–84; of Aspen Grove, generative design of, 171–172; beliefs that ground a generative, 81; clear and compelling, 90–91; context of defining, 144; contrasting stories of, 169, 219–220; creating and deepening, 80–82; designing the, for a new landscape, 79–96; elder-leadership work involving, 199–200; innate, distorting, 84–86; leadership inquiries about, 94–95; mapping, 180; of a new school system, 91, 93; and the role of leaders, 94–95; structures designed to enable the system’s, 148; unique, honoring, 88–90
- Learning information: of Aspen Grove, generative design of, 172–173; beliefs that ground generative, 100; contrasting stories of, 169, 220; designing the, for a new landscape, 97–105; dimensions of, 99–104; elder-leadership work involving, 200–201; leadership inquiries about, 104–105; learning structures responsive to, importance of, 146; mapping, 180; structures designed to enable the system’s, 148
- Learning Invitations, power of, 151
- Learning landscape: designing the new, aspects in, 79–181; shaping the, by design, 67–76
- Learning patterns: of Aspen Grove, generative design of, 175; beliefs that ground generative schooling and, 133; contrasting stories of, 169, 222; designing the, for a new landscape, 131–141; elder-leadership work involving, 203; leadership inquiries about, 140–141; mapping, 180; structures designed to enable the system’s, 148
- Learning processes: of Aspen Grove, generative design of, 174; beliefs that ground generative, 119; contrasting stories of, 169, 221–222; designing the, for a new landscape, 117–129; elder-leadership work involving, 202–203; generative, as sources of system coherence, 126–128; leadership inquiries about, 128–129; mapping, 180; structures designed to enable the system’s, 148
- Learning relationships: of Aspen Grove, generative design of, 173–174; beliefs that ground generative, 109; connecting the system to itself through, 113–114; contrasting stories of, 169, 220–221; designing the, for a new landscape, 107–116; elder-leadership work involving, 201–202; leadership inquiries about, 114–115; learning structures encouraging, importance of, 146; mapping, 180; social context of, 111–112; structures designed to enable the system’s, 148
- Learning self. *See* Learning identity
- Learning structures: of Aspen Grove, generative design of, 175–176; beliefs that ground generative, 145; contrasting stories of, 169, 222–223; designing the, for a new landscape, 143–169; elder-leadership work involving, 203–204; generative, power of, 149–151; leadership inquiries about, 168–169; mapping, 180
- Learning systems: connecting living systems and, 20, 33–34; diverse and vibrant, Aspen Grove as only one node in, 176–177; natural, 22, 23
- Learning to be: concept of, 58, 59; and the habits of integral minds, 60–61; mapping, 180; questions for, 154
- Learning to do: concept of, 59; and the habits of integral minds, 60–61; mapping, 180; questions for, 153
- Learning to know: concept of, 59; and the habits of integral minds, 60–62; mapping, 180; questions for, 153
- Learning to live together: concept of, 58, 59; and the habits of integral minds, 60–61; mapping, 180; questions for, 154
- Letter to grandchildren, lessons embedded in, 212–214
- Letters to a Young Poet* (Rilke), 185, 197
- Lifelong learning, essential disposition for, 160

Linguistic intelligence: defined, 217; focus on, 51, 83, 88

Listening, importance of, 158

Live encounters, learning as a process of, 122–124

Living systems: butterfly effect in, 89–90; as complex, interdependent, and networked, 21; connecting learning systems and, 20, 33–34; exploring aspects of, 19–36; human systems as, 29–33; as natural learning systems, 22, 23; organizing properties and principles of, 24–29; sustaining process of, 118; understanding, importance of, xii

Logical-mathematical intelligence: defined, 217; focus on, 51, 83, 88

Lopez, B., 3

Losing federal funding, 103

Loss, sustained, 11–14, 127, 132

- Organizing domains and dynamics, 24–26
- Organizing principles and properties: and attributes of generative human systems, 31–33; of generative social systems, 29–30; of natural living systems, 20, 23, 24–29, 31
- Output and input in learning, 39

P

- Palmer, P., xii, 14, 48, 53, 124, 158–159, 162, 195
- Paradigm shift, xiv, 5–6, 16
- Passion: distorting, 86; honoring, 89
- Pattern recognition, 133–135, 140
- Patterned thinking, 136–137
- Patterns: contrasting stories of, 44; discernment of, conversations for provoking, 205–206; emergence of, 35, 115, 116; of generative systems of learning and schooling, 73, 76; of human systems, 30, 32, 33; importance of, 180–181; insights on generative, 207; of integral minds, 63; link between, and structures, 27; of natural living systems, 25, 28; physical embodiments of, 144; redesigning learning structures in concert with, 147; and structures of the brain, 21. *See also* Learning patterns
- PBS series, 121
- Pedagogy, epistemology giving rise to a, 162
- Personal identity, 58, 59, 80, 93. *See also* Learning to be
- Personalized-learning program, 70, 231*n*6
- Physics, integrating English within, 56
- Pitjantjatjara Aboriginal Tribe, xxv–xxviii
- Play, an essential process of learning, 120–121
- Potentials, infinite, concept of, 21
- Power: of an altered world view, 46–47; of deep learning, 45; of generative learning structures, 149–151; of story, 3–18
- Presentations: faculty, 162–164; of inquiry and research projects, 72, 231*n*6
- Private Universe, A: Misconceptions That Block Learning* (video), 7–8

- Problem solving: focus on, 89; learning strategies for, 123–124
- Problem-based learning (PBL), 47–48, 71, 143–144, 156–157, 231*n*6
- Process rigidity, 127
- Processes: contrasting stories of, 43; emergence of, 35, 115, 116; of generative systems of learning and schooling, 76; of human systems, 30, 32, 33; insights on generative, 207; of integral minds, 62; as the link between patterns and structures, 27; of natural living systems, 25, 27–28; redesigning learning structures in concert with, 147. *See also* Learning processes
- Professional learning communities, design of, 162–164
- Professional opinions, distortion involving, 85–86
- Promise of Play, The (PBS series), 121
- Public discussion of learning, focus of, on economic principles and metrics, 177
- Public education: concept of, recasting the, 69; conversation on, allowing the, to be hijacked, 177; criticism of, 9–10
- Purpose: in human systems, 30, 31, 32; mapping, 180. *See also* Identity

Q

- Quality of mind. *See* Minds, quality of
- Questions: loving the, curriculum about, 151–154; naming the, to engage in creating the new story, importance of, 205; pursuing, focus on, 89, 125

R

- Radical, defined, 14; new story, 197–204
