# Contents

<i>Introduction</i>		<i>xxi</i>
<b>Chapter 1</b>	<b>Database Logical Modeling</b>	<b>1</b>
	Designing a Database System	2
	The Entity/Relationship Model	5
	Defining Entities and Attributes	7
	Defining Relationships and Keys	10
	Adding Data Integrity Rules	22
	The Relational Model and the Normalization Process	28
	The Relational Table	29
	Normal Forms	31
	The Denormalization Process	41
	Adding a Redundant Column	43
	Adding a Derived Column	45
	Partitioning Tables	46
	Summary	48
	Exam Essentials	48
	Key Terms	49
	Review Questions	50
	Answers to Review Questions	59
<b>Chapter 2</b>	<b>Database Physical Modeling</b>	<b>63</b>
	Creating and Managing a Database	64
	Creating a Simple Database	65
	Data and Log Files	66
	Managing Databases	73
	Space Management	94
	Database Options	113
	Filegroups	120
	Creating Filegroups	121
	Maintenance and Performance	125
	File Placement and Performance	127
	Data Placement	129
	Log File Placement	130

Summary	132	
Key Terms	132	
Exam Essentials	133	
Review Questions	133	
Answers to Review Questions	145	
<b>Chapter 3</b>	<b>Creating and Maintaining Tables</b>	<b>149</b>
Creating and Altering a Table	150	
Creating a Table	151	
Altering a Table	170	
Columns and Datatypes	176	
System Datatypes	176	
User-defined Datatypes	184	
Computed Columns	188	
Extended Properties	190	
Table Storage	195	
Record Storage	196	
Text, ntext, and Image Storage	198	
Summary	204	
Key Terms	204	
Exam Essentials	205	
Review Questions	205	
Answers to Review Questions	218	
<b>Chapter 4</b>	<b>Implementing Data Integrity</b>	<b>221</b>
Data Integrity	222	
Integrity Types	222	
Integrity Implementation	223	
Default Values	227	
Default Constraint	228	
Default Object	232	
Check	234	
Check Constraints	235	
Rules	239	

Primary Keys	240	
Defining a Primary Key Constraint at Table Creation	241	
Defining a Primary Key at Table Modification	245	
Unique Constraints	246	
Defining a Unique Constraint at Table Creation	247	
Defining a Unique Constraint at Table Modification	251	
Foreign Keys and Relationships	252	
Defining a Foreign Key Constraint at Table Creation	253	
Defining a Foreign Key Constraint at Table Modification	266	
Summary	267	
Key Terms	268	
Exam Essentials	268	
Review Questions	269	
Answers to Review Questions	284	
<b>Chapter 5</b>	<b>Creating and Maintaining Indexes</b>	<b>287</b>
Definition and Advantages of Indexes	288	
Heaps and Indexes	289	
Clustered Index	291	
Nonclustered Index	294	
Composite Indexes	296	
Unique Indexes	296	
Accessing Data with and without Indexes	297	
Accessing Data with a Heap	297	
Accessing Data with a Clustered Index	299	
Accessing Data with a Nonclustered Index	302	
Statistics and Index Choice	306	
Distribution Statistics	307	
Index Choice	312	
Statistics Maintenance	315	
Creating Indexes and Statistics	320	
Indexes	321	
Statistics	331	

Fragmentation and Index Maintenance	332	
Fragmentation Types	333	
Inserts	336	
Updates	337	
Deletes	338	
What to Do Now	339	
Summary	342	
Key Terms	342	
Exam Essentials	342	
Review Questions	343	
Answers to Review Questions	353	
<b>Chapter 6</b>	<b>Creating and Maintaining Database Objects</b>	<b>357</b>
Views	359	
Definition and Advantages of Views	360	
Creating and Altering Views	362	
Using Views	367	
Indexed Views	369	
Partitioned Views	372	
Stored Procedures	378	
Definition and Advantages of Stored Procedures	379	
Creating and Altering a Stored Procedure	380	
Using Parameters	384	
Executing a Stored Procedure	386	
Error Handling	392	
Transactions	396	
User-defined Functions	399	
Definition and Advantages of User-defined Functions	399	
Creating and Altering a UDF	400	
Using UDFs	404	
Triggers	406	
Definition and Advantages of Triggers	406	
AFTER Triggers	407	
INSTEAD OF Triggers	413	

	Performance Considerations	418
	Various Considerations	419
	Summary	420
	Key Terms	421
	Exam Essentials	421
	Review Questions	422
	Answers to Review Questions	438
<b>Chapter 7</b>	<b>Accessing Data</b>	<b>441</b>
	The SELECT Command	443
	Single Table SELECT	444
	Inner Joins	456
	Outer Joins	458
	Aggregate Operators	464
	The UNION Command	470
	The Distinct Command	470
	Scalars	471
	Subqueries	472
	Functions for Transforming Data	476
	Cursors	480
	Using a Cursor	481
	Cursor Declaration	484
	Retrieving Data from the Cursor	488
	Distributed Queries	489
	Linked Servers	490
	The OPENROWSET Function	494
	Distributed Partitioned Views	496
	SQL Server 2000 and XML	500
	Summary	515
	Exam Essentials	516
	Key Terms	518
	Review Questions	519
	Answers to Review Questions	529

<b>Chapter 8</b>	<b>Modifying Data</b>	<b>533</b>
	The INSERT Statement	535
	Single Row Insert	535
	Inserting a Single Row with Selected Columns	538
	Inserting Single Rows with an Identity Field	540
	Inserting Multiple Rows	542
	The UPDATE Statement	544
	Updating All Rows	545
	Updating a Set of Rows	547
	Updating Multiple Columns	548
	Updating a View	550
	The DELETE Statement	551
	Deleting All Rows	551
	Deleting a Set of Rows	552
	Modifying Data inside a Cursor	555
	Declaring an Updateable Cursor	555
	Updating Data within a Cursor	556
	Modifying Data Using XML	559
	Modifying Data Using OPENXML	559
	Using Distributed Queries to Modify Data	568
	Modifying Data Using Linked Servers	569
	Modifying Data Using OPENROWSET	570
	Summary	573
	Key Terms	573
	Exam Essentials	574
	Review Questions	574
	Answers to Review Questions	584
<b>Chapter 9</b>	<b>Importing and Exporting Data</b>	<b>587</b>
	Bulk Copy	588
	BCP	588
	BULK INSERT	602
	Data Transformation Services	607
	The DTS Environment	608

	Summary	617
	Key Terms	618
	Exam Essentials	618
	Review Questions	619
	Answers to Review Questions	623
<b>Chapter 10</b>	<b>Locking</b>	<b>625</b>
	The Lock Manager	627
	Lock Modes	629
	Levels of Locking	633
	Transactions and Locking	634
	Blocking	634
	Deadlocks	635
	Locking Options	638
	Viewing Locks	638
	Lock Isolation Levels	642
	Lock Hints	643
	Summary	645
	Key Terms	646
	Exam Essentials	647
	Review Questions	647
	Answers to Review Questions	651
<b>Chapter 11</b>	<b>Developing a Security Plan</b>	<b>653</b>
	Overview of SQL Server Security	654
	Server Access	655
	Creating and Managing Database Access	659
	Assigning Object Rights	667
	Ownership Chains	684
	Summary	685
	Key Terms	686
	Exam Essentials	686
	Review Questions	687
	Answers to Review Questions	693

<b>Chapter 12</b>	<b>Analyzing and Optimizing Data Access</b>	<b>697</b>
	The Query Optimizer	699
	Single Statement Optimization	700
	Batch Optimization	702
	Analyzing Queries	703
	Using SET Statements	703
	Analyzing the Execution Plan	709
	Optimizing Queries	717
	Indexes	717
	Query Hints	726
	Using the Profiler to Capture Activity	731
	Functions of the Profiler	733
	Using the Index Tuning Wizard	741
	Optimize Stored Procedures and Triggers	744
	The Stored Procedure Debugger	746
	Summary	755
	Key Terms	755
	Exam Essentials	757
	Review Questions	758
	Answers to Review Questions	766
	<i>Index</i>	769

# Table of Exercises

<b>Exercise 2.1</b>	Creating a Database with SQL Enterprise Manager .....	76
<b>Exercise 2.2</b>	Increasing the Size and Shrinking a Database with SQL Enterprise Manager .....	86
<b>Exercise 2.3</b>	Shrinking a Database File with SQL Enterprise Manager .....	90
<b>Exercise 2.4</b>	Adding a File and a Filegroup to an Existing Database .....	124
<b>Exercise 3.1</b>	Creating a Simple Table with SQL Enterprise Manager .....	155
<b>Exercise 3.2</b>	Creating and Managing a GUID Column .....	162
<b>Exercise 3.3</b>	Using Filegroups .....	168
<b>Exercise 3.4</b>	Creating and Managing User-defined Datatypes .....	186
<b>Exercise 3.5</b>	Creating and Managing Computed Columns .....	189
<b>Exercise 4.1</b>	Defining and Testing Default Values .....	233
<b>Exercise 4.2</b>	Creating and Using a Check Constraint .....	238
<b>Exercise 4.3</b>	Creating and Using a Primary Key Constraint .....	244
<b>Exercise 4.4</b>	Creating and Using a Unique Constraint .....	250
<b>Exercise 4.5</b>	Creating and Using a Foreign Key Constraint .....	257
<b>Exercise 4.6</b>	Creating and Using a Cascading Foreign Key Constraint .....	260
<b>Exercise 7.1</b>	Single Table Selects .....	453
<b>Exercise 7.2</b>	Joining Tables Together .....	463
<b>Exercise 7.3</b>	Using Aggregates .....	468
<b>Exercise 7.4</b>	Creating a Distributed Partitioned View .....	497
<b>Exercise 7.5</b>	Extracting Data In XML Format .....	507
<b>Exercise 8.1</b>	Inserting a Single Row .....	537
<b>Exercise 8.2</b>	Insert Selected Columns .....	539
<b>Exercise 8.3</b>	Inserting Identity Values .....	541
<b>Exercise 8.4</b>	Using a Query to Insert Multiple Rows .....	542
<b>Exercise 8.5</b>	Using a Stored Procedure to Insert Multiple Rows .....	543
<b>Exercise 8.6</b>	Update All Rows .....	545
<b>Exercise 8.7</b>	Updating a Set of Rows .....	547
<b>Exercise 8.8</b>	Updating Multiple Columns .....	549
<b>Exercise 8.9</b>	Remove All Rows From a Table .....	552
<b>Exercise 8.10</b>	Deleting a Set of Rows .....	553

<b>Exercise 8.11</b>	Modifying Data Using a Cursor .....	557
<b>Exercise 8.12</b>	Inserting Data with OPENXML .....	564
<b>Exercise 8.13</b>	Updating Data with OPENXML .....	565
<b>Exercise 8.14</b>	Deleting Data with OPENXML .....	566
<b>Exercise 8.15</b>	Modifying Data with OPENROWSET .....	570
<b>Exercise 9.1</b>	Using the BCP Utility .....	600
<b>Exercise 9.2</b>	Using BULK INSERT .....	606
<b>Exercise 9.3</b>	Using DTS .....	613
<b>Exercise 10.1</b>	Create a Deadlock Condition in SQL Server .....	636
<b>Exercise 10.2</b>	Viewing Locks with Enterprise Manager .....	639
<b>Exercise 11.1</b>	Adding a New Login .....	657
<b>Exercise 11.2</b>	Adding a New Database User .....	660
<b>Exercise 11.3</b>	Adding a Role and a User .....	663
<b>Exercise 11.4</b>	Using Application Roles .....	665
<b>Exercise 11.5</b>	Granting Rights to a Table .....	672
<b>Exercise 11.6</b>	Granting Rights to Selected Columns in a Table .....	674
<b>Exercise 11.7</b>	Granting Rights to a View .....	676
<b>Exercise 11.8</b>	Granting Rights to a Stored Procedure .....	678
<b>Exercise 11.9</b>	Granting Rights to a User-defined Function .....	682
<b>Exercise 12.1</b>	Analyzing a Query .....	714
<b>Exercise 12.2</b>	Optimizing Queries by Limiting the Result Set .....	721
<b>Exercise 12.3</b>	Optimizing a Query by Changing an Index .....	723
<b>Exercise 12.4</b>	Improving Performance with a Lock Hint .....	731
<b>Exercise 12.5</b>	Creating a Trace Using the Profiler .....	738
<b>Exercise 12.6</b>	Replaying a Saved Trace File .....	739
<b>Exercise 12.7</b>	Using the Index Tuning Wizard .....	742
<b>Exercise 12.8</b>	Debugging a Stored Procedure .....	749
