Preface xi

About the Author xii

1. Introduction 1

What Is Standards-Based Teaching? 2
Inquiry 2
Constructivism 12
Resources for Educators 14

2. Science as Inquiry 17

The Inquiry Cubes 18
She Turned Me into a Newt (I Got Better) 25
Storytelling Graphing 29
Crossed Knives: A Pattern Game 33
The Distraction Stick: Another Pattern Game 37
Case Study Study 40
Investigating Plant Growth 45
Scientific Inquiry Assessment 50
Biology Portfolio 54

3. The Cell 59

What Is Life? Part 1: Glue Goblins 60
What Is Life? Part 2: Investigations 65
What Is Life? Part 3: *The Andromeda Strain* 70
Potato Bubbles: An Introduction to Enzymes 73
Floating Filter Paper Chips: An Exploration of
Enzyme Activity 79
Breakfast Is Ready: Bacon Diffusion 85
Investigating Osmosis in Plant Cells 88
The Osmosis Inquiry Egg 93
Mitosis Sequencing 98

4. The Molecular Basis of Heredity 103

Mendel's Data 104
Multifactorial Inheritance 110
Nature *and* Nurture 115
Chargaff's DNA Data 121
Classifying Oaks with DNA 127

- 5. Biological Evolution 137**
 - Explaining Evolution 138
 - The Lost World 143
 - Are Humans Still Evolving? 150
 - Dissecting Frog Evolution 157

- 6. The Interdependence of Organisms 167**
 - History of a Carbon Atom: Part 1 168
 - History of a Carbon Atom: Part 2 170
 - Life or Death Food Chain Decision 174
 - Investigating Forest Succession 178

- 7. Matter, Energy, and Organization in Living Systems 185**
 - Water Discrepancies 186
 - Why Are Plants Green? 193
 - Why Are Plants Not Always Green? 199
 - Autotroph Inquiries: Comings and Goings 204
 - Autotroph Inquiries: Do Plants Respire? 211
 - Autotroph Inquiries: Building Organic Molecules 216
 - Cold-Blooded Thermometers 220
 - Energy Storage Molecules and Natural Selection 224

- 8. The Behavior of Organisms 227**
 - Termite Trails Mystery 228
 - Red Dot Special 234
 - The Mozart Effect: Investigating Music and Memory 240
 - The Mozart Effect: Are You Buying It? 245

- 9. Science in Personal and Social Perspectives 253**
 - Putting SPF to the Test 254
 - Watershed Investigations 259
 - Consider the Issues 269
 - Debating Biological/Societal Topics 275
