

Contents

Author's "Disclaimer"	ix
Introduction	x
Derivatives Models on Models	xv
Nassim Taleb on Black Swans	1
Chapter 1 The Discovery of Fat-Tails in Price Data	17
Edward Thorp on Gambling and Trading	27
Chapter 2 Option Pricing and Hedging from Theory to Practice: Know Your Weapon III	33
1 The Partly Ignored and Forgotten History	34
2 Discrete Dynamic Delta Hedging under Geometric Brownian Motion	44
3 Dynamic Delta Hedging Under Jump-Diffusion	50
4 Equilibrium Models	54
5 Portfolio Construction and Options Against Options	55
6 Conclusions	63
Alan Lewis on Stochastic Volatility and Jumps	71
Chapter 3 Back to Basics: A New Approach to the Discrete Dividend Problem	79
Together with Jørgen Haug and Alan Lewis	
1 Introduction	79
2 General Solution	82
3 Dividend Models	87
4 Applications	89
Emanuel Derman the Wall Street Quant	101
Chapter 4 Closed Form Valuation of American Barrier Options	115
1 Analytical Valuation of American Barrier Options	115

2	Numerical Comparison	116
3	Conclusion	118
	Peter Carr, The Wall Street Wizard of Option Symmetry and Volatility	121
Chapter 5	Valuation of Complex Barrier Options Using Barrier Symmetry	129
1	Plain Vanilla Put–Call Symmetry	129
2	Barrier Put–Call Symmetry	130
3	Simple, Intuitive and Accurate Valuation of Double Barrier Options	132
4	Static Hedging in the Real World	137
5	Conclusion	138
	Granger on Cointegration	141
Chapter 6	Knock-in/out Margrabe	145
	with Jørgen Haug	
1	Margrabe Options	145
2	Knock-in/out Margrabe Options	146
3	Applications	147
	Stephen Ross on APT	153
Chapter 7	Resetting Strikes, Barriers and Time	157
	with Jørgen Haug	
1	Introduction	157
2	Reset Strike Barrier Options	160
3	Reset Barrier Options	161
4	Resetting Time	162
5	Conclusion	163
	Bruno Dupire the Stochastic Wall Street Quant	167
Chapter 8	Asian Pyramid Power	177
	with Jørgen Haug and William Margrabe	
1	Celia in Derivativesland	177
2	Calibrating to the Term Structure of Volatility	180
3	From Geometric to Arithmetic	184
4	The Dollars	185
	Eduardo Schwartz: the Yoga Master of Mathematical Finance	191

Chapter 9	Practical Valuation of Power Derivatives	197
1	Introduction	197
2	Energy Swaps/Forwards	199
3	Power Options	202
4	Still, What About Fat-Tails?	209
	Aaron Brown on Gambling, Poker and Trading	211
Chapter 10	A Look in the Antimatter Mirror	223
1	Garbage in, Garbage Out?	223
2	Conclusion	227
	Knut Aase on Catastrophes and Financial Economics	231
Chapter 11	Negative Volatility and the Survival of the Western Financial Markets	239
	Knut K. Aase	
1	Introduction	239
2	Negative Volatility – A Direct Approach	240
3	The Value of a European Call Option for any Value – Positive or Negative – of the Volatility	240
4	Negative Volatility – The Haug interpretation	242
5	Chaotic Behavior from Deterministic Dynamics	242
6	Conclusions	243
	Elie Ayache on Option Trading and Modeling	247
Chapter 12	Frozen Time Arbitrage	267
1	Time Measure Arbitrage	268
2	Time Travel Arbitrage	269
3	Conclusion	273
	Haug on Wilmott and Wilmott on Wilmott	277
Chapter 13	Space-time Finance The Relativity Theory's Implications for Mathematical Finance	287
1	Introduction	287
2	Time dilation	290
3	Advanced stage of Space-time Finance	292
4	Space-time Uncertainty	293
5	Is High Speed Velocity Possible?	295
6	Black-Scholes in Special Relativity	299
7	Relativity and Fat-Tailed Distributions	301

8	General Relativity and Space-time Finance	302
9	Was Einstein Right?	305
10	Traveling Back in Time Using Wormholes	307
11	Conclusion	308
Andrei Khrennikov on Negative Probabilities		317
Chapter 14	Why so Negative about Negative Probabilities?	323
1	The History of Negative Probability	323
2	Negative Probabilities in Quantitative Finance	324
3	Getting the Negative Probabilities to Really Work in Your Favor	327
4	Hidden Variables in Finance	328
5	The Future of Negative Probabilities in Quantitative Finance	329
6	Appendix: Negative Probabilities in CRR Equivalent Trinomial Tree	330
David Bates on Crash and Jumps		335
Chapter 15	Hidden Conditions and Coin Flip Blow Up's	343
1	Blowing Up	343
2	Coin Flip Blow Up's	344
Peter Jäckel on Monte Carlo Simulation		349
Index		359
