2.4	MM and PDP Contexts	51
2.4.1	Contexts in SGSN	51
2.4.2	Contexts in the MS	54
2.4.3	Relationship between the MM States and the Contexts	55
2.5	Attach and Detach	56
2.6	Location Update	59
2.7	Serving RNC Relocation	64
2.8	UMTS-GPRS Intersystem Change	70
2.8.1	SGSN Change from UMTS to GPRS	70
2.8.2	SGSN Change from GPRS to UMTS	72
2.9	Concluding Remarks	73
2.10	Questions	74
3	Session Management for Serving GPRS Support Node	77
3.1	Session Management Functions	80
3.1.1	PDP Context Activation	80
3.1.2	PDP Context Deactivation	83
3.1.3	PDP Context Modification	85
3.2	SM Software Architecture	86
3.2.1	SM REGistration	86
3.2.2	SND CP SM	88
3.2.3	Relay Unit	89
3.2.4	QoS Manager	89
3.2.5	GMM SM	89
3.2.6	Maintenance Unit and Operating Service	90
3.2.7	Network Manager	90
3.2.8	SM for UMTS	90
3.3	SM Software Initiation and Configuration	91
3.3.1	Initiation	91
3.3.2	Configuration	93
3.4	SM Procedures in the SGSN	93
3.4.1	PDP Context Activation	93
3.4.2	PDP Context Deactivation	97
3.4.3	PDP Context Modification	101
3.5	Concluding Remarks	103
3.6	Questions	103
4	Session Management for Gateway GPRS Support Node	105
4.1	APN Allocation	108
4.2	IP Address Allocation	110
4.3	PDP Context Activation	112

4.4	Tunneling between UMTS and External PDN	115
4.5	Quality of Service	118
4.6	Concluding Remarks	123
4.7	Questions	124
5	Serving Radio Network Controller Relocation for UMTS	125
5.1	SRNC Duplication	127
5.2	Core Network Bi-casting	130
5.3	Fast SRNC Relocation	132
5.4	Comparison of the Relocation Mechanisms	135
5.5	Concluding Remarks	137
5.6	Questions	137
6	UMTS and cdma2000 Mobile Core Networks	143
6.1	UMTS and cdma2000 Protocol Stacks	146
6.1.1	Point-to-Point Protocol	149
6.1.2	Tunneling Protocols	150
6.2	Mobility and Session Management Mechanisms	151
6.2.1	Mobility Management	152
6.2.2	Session Management	154
6.2.3	Remarks on Mobility and Session Management	157
6.3	IP Mobility	157
6.4	UMTS and cdma2000 Interworking	164
6.5	Concluding Remarks	167
6.6	Questions	168
7	UMTS Charging Protocol	171
7.1	The GTP' Protocol	173
7.2	Connection Setup Procedure	176
7.3	GTP' CDR Transfer Procedure	177
7.4	GTP' Failure Detection	178
7.5	Concluding Remarks	180
7.6	Questions	182
8	Mobile All-IP Network Signaling	185
8.1	Signaling System Number 7	186
8.2	Stream Control Transmission Protocol (SCTP)	190
8.3	UMTS Network Signaling	193
