

# Contents

Preface	xi
How to use this book	xiii
<b>1 Type 1 Diabetes</b>	<b>1</b>
What causes type 1 diabetes?	1
Who gets type 1 diabetes?	1
How does it present?	2
Essentials of management	2
Insulin	2
Food	3
Hypoglycaemia	6
Ketoacidosis	6
Living with type 1 diabetes	6
Blood glucose testing	8
Complications	8
History	10
Fact file	11
Further reading	12
<b>2 Type 2 Diabetes</b>	<b>13</b>
What causes type 2 diabetes?	13
Who gets type 2 diabetes?	13
How does it present?	14
Management	14
Eating	14
Physical activity	15
Tablets	16
Insulin	17
Living with type 2 diabetes	17
Blood glucose and urine testing	17
Complications	17
History	21
Further reading	21
Fact file	22

<b>3</b>	<b>The Eye in Diabetes</b>	23
	Structure of the normal eye	23
	The retina	25
	Diabetic retinopathy	26
	Other diabetes-associated changes in the eye	29
	Further reading	30
	Fact file	31
<b>4</b>	<b>The Need to Screen</b>	33
	Is blindness preventable?	33
	Can the progression of retinopathy be slowed?	35
	Detecting asymptomatic retinopathy	37
	The five principles of retinal screening	40
	Quality assurance	41
	History of the development of retinal screening by photography-based systems in the UK	44
	Fact file	45
	Further reading	46
<b>5</b>	<b>Practical Screening</b>	47
	Important first steps	47
	Measuring visual acuity	48
	Interpretation of visual acuity measurement	48
	Instilling eye drops	51
	Tropicamide	51
	Other eye drops	53
	Obtaining the image	54
	Examining the image	56
	Disc	57
	Vessels	57
	Retina	58
	Explaining the results of screening	58
	Organization of a district screening system	60
	Links with your ophthalmologist	60
	Further reading	61
	Fact file	63
<b>6</b>	<b>Normal Retinal Appearances</b>	65
	Light reflection artefact (Figure 6.1)	66
	Light reflection artefact (Figure 6.2)	67
	Tortuous vessels (Figure 6.3)	68
	Tiger striping (Figure 6.4)	69
	Tiger striping (Figure 6.5)	70
	Myelinated fibres (Figure 6.6)	71

Myopic crescent (Figure 6.7)	72
Pigmented image (Figure 6.8)	73
Asteroid hyalosis (Figure 6.9)	74
Choroidal circulation (Figure 6.10)	75
Eyelash artefact (Figure 6.11)	76
<b>7 Background Retinopathy</b>	<b>77</b>
What is background retinopathy?	77
Lesions	77
Early background (Figure 7.1)	79
Early background (Figure 7.2)	80
Early background (Figure 7.3)	81
Early background (Figure 7.4)	82
Early background (Figure 7.5)	83
Moderate background (Figure 7.6)	84
<b>8 Severe Non-proliferative ('Pre-proliferative') Retinopathy</b>	<b>85</b>
Severe non-proliferative retinopathy (Figure 8.1)	86
Severe non-proliferative retinopathy (Figure 8.2)	87
Severe non-proliferative retinopathy (Figure 8.3)	88
Severe non-proliferative retinopathy (Figure 8.4)	89
<b>9 Maculopathy</b>	<b>91</b>
What is maculopathy?	91
Management of maculopathy	92
Blood pressure control	92
Blood glucose control	93
Referral to ophthalmologist	93
Exudates close to the fovea (Figure 9.1)	94
Severe retinopathy close to the macula (Figure 9.2)	95
Widespread exudates (Figure 9.3)	96
Large plaque exudates (Figure 9.4)	97
Linear exudates close to the fovea (Figure 9.5)	98
Plaque exudates near the fovea (Figure 9.6)	99
Circinate exudates within the arcades (Figure 9.7)	100
Widespread exudates with circinates (Figure 9.8)	101
Coalescent exudates in the macula region (Figure 9.9)	102
<b>10 Proliferative Retinopathy</b>	<b>103</b>
What is proliferative retinopathy?	103
New vessels on the disc (Figure 10.1)	104
Disc new vessels (Figure 10.2)	105
New vessels on the retina (Figure 10.3)	106

Disc new vessels (Figure 10.4)	107
New vessels on the retina (Figure 10.5)	108
New vessels on the retina (Figure 10.6)	109
Old pan-retinal laser scars (Figure 10.7)	110
Pan-retinal laser scars (Figure 10.8)	111
<b>11 Advanced Diabetic Eye Disease</b>	<b>113</b>
What is advanced?	113
Early fibrosis (Figure 11.1)	114
Fibrosis (Figure 11.2)	115
Fibro-vascular membrane (Figure 11.3)	116
Pre-retinal haemorrhage (Figure 11.4)	117
Pre-retinal haemorrhage (Figure 11.5)	118
Severe exudative maculopathy (Figure 11.6)	119
Pre-retinal haemorrhage and persisting new vessel formation (Figure 11.7)	120
Pre-retinal haemorrhages (Figure 11.8)	121
Fibrous band and heavy laser scars (Figure 11.9)	122
<b>12 Non-diabetic Eye Disease</b>	<b>123</b>
What other diseases are common?	123
Other eye diseases	124
Glaucoma	124
Conjunctivitis	125
Sub-conjunctival haemorrhage	125
Uveitis	125
Drusen (Figure 12.1)	127
Drusen (Figure 12.2)	128
Atrophic chorioretinital scars (Figure 12.3)	129
Old chorioretinitis (Figure 12.4)	130
Papilloedema (Figure 12.5)	131
One year later – same eye as Figure 12.5 (Figure 12.6)	132
Papilloedema (Figure 12.7)	133
Pigment epithelial hypertrophy (Figure 12.8)	134
Cholesterol embolus (Figure 12.9)	135
Branch retinal vein occlusion (Figure 12.10)	136
Branch retinal artery occlusion (Figure 12.11)	137
Glaucomatous disc (Figure 12.12)	138
Macular hole (Figure 12.13)	139
<b>13 Self-assessment Questions</b>	<b>141</b>
Chapter 1	141
Chapter 2	143
Chapter 3	144
Chapter 4	145

---

Chapter 5	146
Chapters 6–12	148
<b>14 Background Information</b>	<b>149</b>
Driving and diabetes	149
Insurance and diabetes	150
Employment and diabetes	150
Prescription charges	150
British Association of Retinal Screeners (BARS)	151
Diabetes UK	151
National Retinopathy Screening Systems	152
Laser therapy	152
Vitrectomy	153
Ophthalmoscopy	153
<b>15 Answers to Self-assessment Questions</b>	<b>157</b>
Chapter 1	157
Chapter 2	159
Chapter 3	160
Chapter 4	160
Chapter 5	161
<b>16 Glossary of Terms</b>	<b>165</b>
<b>Index</b>	<b>169</b>
