Preface	xv
PART I: THE NATURE AND ASSESSMENT OF PSYCHIATRIC DISORDER	1
1 Classification	3
The basis of classification	4
Reliability and validity	4
Limitations and problems of classification	5
Common terms in psychiatric classification	6
Classification systems	7
2 Causes and Prevention	11
Causation in clinical practice	11
Historical background	12
Genetics	12
Neurochemistry	14
Neuroradiology	15
Epidemiology	15
Individual life experience	18
Prevention of psychiatric disorder	19
3 Assessment	23
Circumstances of referral	23
The psychiatric interview	24

Mental state examination	28
Physical examination	32
Structured interviews and questionnaires	34
Further assessments	35
Physical investigations	36
PART II: CLINICAL SYNDROMES	39
4 Schizophrenia	41
Definition	41
Frequency	41
Epidemiology	42
Causation	42
Clinical features	48
Clinical types	55
Diagnostic criteria	58
Differential diagnosis	60
Treatment	61
Prognosis	66
5 Mood Disorders: Depressive Illness and Mania	69
Frequency	70
Epidemiology	71
Causes	71
Clinical features of depressive illness	76
Types of depressive illness	79
Diagnosis of depressive illness	85
Clinical features of mania	85
Differential diagnosis of mood disorders	86
Treatment of depressive illness	87
Treatment of mania	92
Prophylaxis of affective disorder	92
6 Anxiety and Stress-Related Disorders	95
Boundaries of anxiety disorder	96
Hierarchy of diagnosis	96
Frequency	96
Epidemiology	97
Causes	97
Clinical features	98
Differential diagnosis	100

Treatment	100
Prognosis	103
Generalized anxiety disorder (anxiety state)	104
Panic disorder	105
Agoraphobia	105
Social phobia	106
Simple phobias (specific phobias, monophobias)	106
Obsessive-compulsive disorders	106
Post-traumatic stress disorder (PTSD)	107
Adjustment disorders	111
Bereavement	111
7 Personality Disorders	113
Definition	113
Classification	113
Types of personality disorder	115
Epidemiology	117
Differential diagnosis	118
Treatment	119
Prognosis	121
Sociopathic (dissocial) personality disorder	121
8 Paranoid States	125
Definition	125
Predisposing factors	125
Differential diagnosis of paranoid states	126
Management	127
Culture-bound syndromes	127
9 Physical Symptoms and Psychiatric Disorder	129
Introduction	129
Assessing physical symptoms in psychiatric practice	130
Unexplained physical symptoms	131
Management	137
Malingering and exaggeration	139
10 Organic Brain Syndromes	143
Causes	144
Clinical features	145
Delirium	145

Dementia	147
Focal brain damage	159
11 Liaison Psychiatry	163
Psychological influences on the course of physical disease	164
The stresses of physical illness	165
Adjustment and coping	165
Clinical depression in medically ill patients	166
Management and prevention	167
Liaison psychiatric services	168
12 Drug Misuse	171
Definitions	171
Epidemiology	172
Causes	172
Psychiatric and physical complications	172
Legal aspects	173
Pharmacology	174
Prevention	174
Treatment	175
Opiates	176
Amphetamines (speed)	179
Cocaine and crack	180
Cannabis (Indian hemp, hashish, pot)	181
Lysergic acid diethylamide (LSD, acid)	182
MDMA (Ecstasy)	183
Glues and solvents	184
Tobacco	184
Caffeine	185
Barbiturates	186
Benzodiazepines	187
13 Alcohol Misuse	189
Safe limits of drinking	189
Frequency	190
Epidemiology	190
Causes	191
Effects of alcohol	192
Course of alcohol abuse	195
Recognition	195
Treatment	196

Prognosis	198
Prevention	198
14 Deliberate Self-Harm	199
Suicide	199
Non-fatal deliberate self-harm (parasuicide, attempted suicide)	205
15 Eating Disorders: Anorexia Nervosa and Bulimia Nervosa	211
Introduction	211
Anorexia nervosa	211
Bulimia nervosa	216
Obesity	217
16 Disorders of Female Reproductive Life	219
Pregnancy	219
Puerperal psychosis	220
Post-natal depression and other neurotic syndromes	222
Abortion	225
Stillbirth and perinatal death	225
Premenstrual syndrome	225
The menopause	226
Hysterectomy	226
17 Sexual Problems	227
Sexual dysfunctions	227
Sexual deviations	231
Gender-identity disorders	235
Homosexuality	236
18 Child and Adolescent Psychiatry	237
Predisposing factors	237
Classification	238
History taking and examination	239
Treatment	241
Relationship with adult disorder	241
Neurotic (emotional) disorders	242
Conduct disorders	243
Attention deficit disorder	243
Psychoses	244
Delays in development	244

Symptomatic disorders	246
Child abuse	247
Psychiatry of adolescence	249
19 Learning disability	251
Frequency	251
Causes	251
Diagnosis of learning disability	252
Associated phenomena	253
Management	254
Prognosis	255
Prevention	255
Chromosomal abnormalities	258
Gene abnormalities	259
Acquired handicap	261
Miscellaneous	261
20 Psychiatry of Old Age	263
Frequency	263
Clinical syndromes	264
Assessment	266
Specific treatments	267
Organization of services	269
21 Forensic Psychiatry	271
Offending behaviour	272
Predicting violence and dangerousness	273
Psychiatric aspects of specific offences	274
Treatment: general considerations	278
Facilities for mentally disordered offenders	279
Psychiatric reports: criminal	282
PART III: TREATMENT	287
22 Psychological Treatment	289
Historical background	289
Principles of psychotherapy today	292
Counselling	294
Cognitive-behavioural therapy (CBT)	295
Psychodynamic psychotherapy	301

Group therapy	303
Family and marital therapy	303
Recent advances	305
23 Psychopharmacology	307
General principles of using psychotropic drugs	307
Antipsychotics	310
Antidepressants	315
Antidepressants: tricyclic group	316
Antidepressants: SSRI group	319
Antidepressants: MAOI group	322
Other antidepressant drugs	323
Benzodiazepines	324
Mood stabilizers	328
Other drugs	331
24 Electroconvulsive Therapy (ECT) and Psychosurgery	333
Indications	334
Mode of action	334
Efficacy and prediction of response	335
Timing and number of treatments	335
Practicalities of treatment	335
Contraindications	336
Bilateral versus unilateral ECT	336
Unwanted effects	336
Consent for ECT	337
Myths	337
For the future	338
Psychosurgery	338
Video	339
25 Organization of Services	341
Introduction	341
Background and history	342
Community care	343
The psychiatric multidisciplinary team	344
Psychiatry in primary care	345
Inpatient services	346
Outpatient clinics	347
Crisis and home treatment	347
Day hospitals	348

Resource centres and day centres	348
Assertive outreach teams	348
Recovery and rehabilitation	348
The care programme approach	350
Non-NHS health-care facilities	350
26 The Mental Health Act 1983	353
Introduction	353
Background	354
Compulsory admission	355
Patients already in hospital	356
Patients in the community	356
Relatives	357
Approved social workers (ASWs)	357
Police powers	358
Mentally abnormal offenders	358
Consent to treatment	359
Information for detained patients	360
Mental Health Act Commission	361
Glossary	363
Index	387
