

# INDEX

- abandonment 257
- abusive behaviour inventory (ABI) 258
- Acceptance of Interpersonal Violence (AIV) 101
- action-based judgments 56
- actions 54, 55
- active responsibility 123
  - obstacles to 124–5
- adaptive coping strategies 107
- addressing cognitions
  - vs. challenging cognitions 127
  - methods 128–30
- Adversarial Sexual Beliefs (ASB) 101
- affect, extreme 15
- affect-oriented (AO) groups 104
- aggression
  - alcohol and 232–5
  - definition 158, 219
- Aggression Questionnaire (AQ) 182
- Aggression Replacement Training (ART) 210, 223–4
- aggressive cues 170
- alcohol 102, 164, 231–43
  - aggression and 232–5
  - aggressive cognition and 235–41
  - executive functioning and 162
  - treatment 241–3
- alcohol-aggression outcome expectancies 237–9
- Alcohol Expectancies Questionnaire – Adolescent Form (AEQ-A) 239–40
- alcohol myopia 237
- Alcohol-Related Aggression Questionnaire (ARAQ) 239, 240
- Alcohol Use Disorders Identification Test (AUDIT) 232, 236, 240
- anchoring effects 218
- anger 105, 107, 140
  - definition 219
  - determinants and consequences of 216
  - anger control training 210, 224
  - anger management 48, 141, 220–3
  - application phase 221–2
  - assessment 220
  - cognitive preparation 221
  - effectiveness with offenders 222–3
  - intervention 221–2
  - multimodal context 223–4
  - pre-intervention 220
  - skills acquisition and rehearsal 221
- anger model, Novaco's 215–19
- anger-motivated rapists 46
- anger schemas 217
- antisocial personality disorder 137, 140, 162, 234
- anxiety 84
- appraisal of emotion 26
- articulated thoughts and simulated situations (ATTS) 256
- assertiveness training 222
- attentional cueing 218
- attitudes supporting aggression 101
- attributable fraction 231–2
- attribution error 119
- AUDIT 232, 236, 240
- autonomous reasoning 200
- Bakker Assertiveness-Aggressiveness Inventory 252
- beat or be beaten schema 190
- behaviour 94
- behavioural experimentation 129
- behavioural intent 105
- behavioural observation 220
- behavioural response selection 165
- belief-based judgments 56, 65
- belief-driven violent assaults 184–5
- beliefs 32, 54, 59
- benign memory distortions 81
- binocular rivalry task 187–8
- blameworthy behaviour 256
- borderline personality disorder 145, 146
- Bumby Rape Myth Scale 143

- California Sex Offender Treatment and Evaluation Project 137
- categories 32
- catharsis theory 158
- change recognition 130
- child Internet pornographers 137
- Child Molester Empathy Measure 78
- Child Molester Scale 76, 77
- child sexual abuse 11–28
- cognition: research evidence 73–84
  - cognitive content and structure 74, 82–4
  - cognitive products 74–9
  - socio-cognitive processing 74, 79–82
  - treatment 136–7
- children as sex objects 33, 35, 49
- children as sexual beings 61, 63, 120
- chronically accessible schemas 73
- Cognitions Scale (CS) 13–14, 75, 76
- cognitions that increase vulnerability to offend 130
- cognitive associative networks 191–2
- cognitive behavioural therapy (CBT) 48, 117, 136, 168, 173, 260
- in anger treatment 222
- cognitive content 179, 180, 181–6
- domestic violence and 248
  - questionnaire studies 181–4
    - aggression or violent attitudes 181–2
    - general criminal attitudes 183–4
    - impression management 184  - interview studies 184–5
- cognitive control system, alcohol and 234
- cognitive deconstruction theory 125
- cognitive defence mechanisms 13
- cognitive distortions 12–23, 31, 32, 60, 74, 92–3, 119, 120, 135, 137
- as belief, value and action judgments 53–68
  - critique and elaboration of early ideas 14–16
  - origins and early conceptualisations 12–14
  - origins of sexual offenders' cognitive distortions 54–6
  - schema model of offenders' cognition 16–18
- cognitive labelling 216
- cognitive miser 73
- Cognitive Neoassociationist Aggression Model (CNA) 163–5, 174
- cognitive operations 218
- cognitive processing 92, 94, 179, 180, 186–90
- experimental studies 187–9
  - questionnaire studies 186–7
- cognitive products 32, 73, 78, 95, 181
- cognitive propositions 218
- cognitive restructuring 128–9
- cognitive risk factors 254
- cognitive structures 16, 94, 179, 180
- domestic violence and 248
  - collective violence 215
  - common couple violence 247
- Communications Patterns Questionnaire (CPQ) 258
- conditioning 13
- condoning of violence 253
- confidence, alcohol and 239–41
- conflict resolution 157, 258
- Conflict Tactics Scale (CTS) 257
- connectionist learning 104
- constellation of abuses 248
- control 17, 36, 96, 142
- Control of Violence for Angry Impulsive Drinkers (COVAID) 241–3
- conventional reasoning 201
- coping 15, 107, 257
- core beliefs 56
- core schemas in sexual offenders 33–5
- Correctional Drug Abuse Treatment Effectiveness (CDATE) project 243
- Corrections Victoria Sex Offender Programme 142–8
- assessment strategies and protocols 143–4
  - cognitive-driven process issues 146–7
  - content 144–6
  - logistics 144
  - therapists' reflections on reframing cognitive distortions 147–8
- Criminal Attitudes to Violence Scale (CAVS) 182
- Criminal Sentiments Scale Modified (CSSM) 182, 183
- criminal violence, definition 219
- cue for punishment system 234
- cue for reward system 234
- cued recall paradigm 188, 189
- cultivation theory 160–1
- culture of honour schema 189
- dangerous world 33, 34, 35, 37–8, 40, 43, 47, 48, 49, 61, 62, 96, 120, 125, 141, 142, 145
- decision skills 81
- deep cognitions 32
- defence mechanism 13
- Defining Issues Test (DIT) 206–7
- denial 13, 59, 100
- depression 12, 84
- desires/goals 32
- deviant arousal 137
- deviant sexual arousal 92
- deviant sexual coping 15
- deviant sexual fantasising 107
- dialectical behaviour therapy 145, 146
- dichotomous listening paradigm 188
- dichotomous thinking 257
- disadvantaged schema 120

- discriminative validity studies 97–8  
 disrespect for certain women 14, 36, 96  
 disruptive thoughts 12  
 distorted attitudes 136  
 domestic violence 247–63  
   attitudes 251–3
