

Index

- 3-4-5 right angle, 112–113
- 401(k) plan, 165
- π (pi), 8, 94–95

- actuarial tables, 153–156
- addition, 11–13, 49–50
 - in algebra, 168–171
 - of fractions, 41–43, 59–61
- addition flashcards, 181–190
- adjustable rate mortgage (ARM), 142–143
- algebra, basics of, 168–171
- angles, 102–105, 108
- Annual Percentage Yield (APY), 135, 161–162
- area, 85–87, 122–124, 178
- associative property, 12
- ATM transactions, 126–127
- automobile insurance, 157

- ballpark figures, 2–3, 30–33
- bank savings account, 159–160
- bonds as investments, 163

- canceling, 45
- capital gains, 162
- cardinal numbers, 5
- centimeter/meter, 84–85
- certainty (probability of 1), 151
- certificate of deposit (CD), 160–162
- checkbooks, 126–132
- circles, calculating area of, 92–95
- circumference, 93–95
- closed figures, 105–108, 114–117
- closed-end (mutual) funds, 164

- coefficients, numeric, 169
- comma, placement of, 3
- common fractions, 7–8, 37–40, 109–110, 151–152
 - adding and subtracting, 41–43
 - dividing, 47–48, 54–55
 - mixed numbers, 49–55
 - multiplying, 44–46, 54–55
 - remainders as, 29, 33
- common stock, 162
- commutative property, 12
- comparison shopping, 98–99
- compound interest, 70–72
- congruent figures, 38
- constants and variables, 168
- conversion tables, 177–178
- counting numbers, 5
- coupon rate (bond), 163
- credit cards, 134–140
- cubic measurements, 117–124

- decimal fractions, 8, 56–67
- decimal point, 58–59, 68–70
- denominators, 7, 37, 41–44, 49
- Descartes, Rene, 103
- digits (place-value numerals), 2
- discounts, calculating, 77–82, 204
- distance, measuring, 83–85, 168–175
- dividend, 26, 47, 162
- division, 26–27, 29, 54, 173
 - in algebra, 168–171
 - of fractions, 47–48, 64–66
 - ladder (multi-digit), 30–33
 - long division, 27, 34–36
 - short division, 27–29
- divisor, 26

- English system of measurement, 83, 85–87, 177–178
- equations, solving, 169–171
- equivalent fractions, 39
- even numbers, 8
- expenses on investments, 144, 162, 165–166
- exponents, 86
- factors, 9
- families of numbers. *See* realms
- feet/inches, 83–84
- Fibonacci, Leonardo, 6
- first prime, 9
- fixed income securities, 160
- flashcards, 181–200
- fluid measurement, 96–99
- 401(k) plan, 165
- fractions. *See* common fractions; decimal fractions; percent
- fuel economy, 173
- government bonds, 160
- gratuity. *See* tips/tipping
- Greatest Common Factor (GCF), 39–40
- hypotenuse, 112–113
- identity element, 14
- imaginary numbers, 8
- impossibility (probability of 0), 151
- inches/feet, 83–84
- income tax, 72
- Individual Retirement Account (IRA), 165
- infinity, 6–7, 9
- insurance, 151–158
- integers, 6–8
- interest, 68, 70–72, 126, 134–138, 142, 159–163, 166
- investments, 157, 159–166
- irrational numbers, 8, 94
- ladder division, 30–33
- least common denominator (LCD), 43–44, 49–50
- life expectancy, 152–154
- life insurance. *See* insurance
- linear equations, 169–171
- linear measurement, 83–85, 177
- lines/line segments, 101–105, 118
- liquids, measuring, 84–85, 96–97, 178
- loan amortization, 72
- long division (“guhzintuhs”), 27, 34–36
- measurement
- area, 85–90, 122–124, 178
 - cubic volume, 117–122
 - English and SI, 176–178
 - length, 83–85, 171–175, 177
 - liquids, 96–97, 178
- Measurement Tip Sheet, 176–178
- metric system (SI units), 83–85, 176–177
- miles per gallon, 173
- mixed numbers, 49–55
- money market, 166
- mortgages, 142–149, 160
- multiplication, 9, 14–19, 54–55
- in algebra, 168–171
 - exponents, 86
 - of fractions, 44–46, 62–63
- multiplication flashcards, 191–200
- mutual funds, 163–166
- natural numbers, 5
- net asset value (NAV), 165
- New York Stock Exchange (NYSE), 162
- Newton’s Second Law of Motion, 85
- nonterm life insurance, 156
- numerators, 7, 37, 41–43, 49

208 *Math You Can Really Use—Every Day*

- odd numbers, 8
- odds, 151–152
- open-end (mutual) funds, 164
- ordinal numbers, 5

- parallelogram, 115
- percent, 8, 68–82, 204
- period life insurance, 152–155
- Period Life Table, 153–154
- pi (π), 8, 94–95
- place-value numerals, 2, 56–59
- plane figures, 100
- “point” in geometry, 100–102
- polygons, 105–108, 114–117
- preferred stock, 162
- prime factor trees, 44
- prime numbers, 9
- probability, 151–152
- proportion, 109–111
- prospectus (mutual fund), 165
- Pythagorean Theorem, 111–114

- quadrilaterals, 114–117
- quotient, 26, 29, 33

- ratio, 109–111, 151–152
- rational numbers, 7–8
- ray, 101–102
- real numbers, 8
- realms as families of numbers, 5–8
- reciprocals, 46
- rectangles, 85–87, 116–117
- remainder (“r”), 29, 33
- renaming (in subtraction), 22
- return on investment, 156, 159–166
- rhombus, 116–117
- Roman numerals, 6
- rounding up/down, 2–3, 132

- sales (markups/markdowns), 68, 77–81, 204
- sales tax, 72–74, 205

- savings account, 159–160
- Securities and Exchange Commission (SEC), 163–165
- SI units. *See* metric system
- simple interest, 70–71
- solids, 100, 117–125
- square root, 8, 113
- square unit of measure, 85–87
- stocks/stock market, 162–163
- subtraction, 20–24, 29, 41–43, 51–53, 59–61, 168–171
- Système Internationale (SI), 83, 176–178

- taxes, 68, 72–74, 162, 201–205
- T-bills (Treasury bills), 163, 166
- term life insurance, 152–155
- terms (of fractions), 39
- 3-4-5 right angle, 112–113
- times tables, 14
- tips/tipping, 2, 68, 74–76, 201–203
- trapezoids, 115
- Treasury bills/notes/bonds, 163, 166
- triangles, 87–90, 105–108, 110–114

- unit pricing, 98–99
- units, 2, 100–102, 117, 176
- units of area, 85–90, 92–95, 178
- universal default, 139
- universal life insurance, 156

- variables and constants, 168
- volume measurements, 117–122

- weight, measuring, 84–85, 96–99, 177
- whole life insurance, 156
- whole numbers, 5–7, 11–36

- x-axis/y-axis, 103

- zero, 5–6, 57
