<i>Introduction</i>	1
About This Book	1
Conventions Used in This Book	2
What You're Not to Read	2
Foolish Assumptions	2
How This Book Is Organized	3
Part I: Can I Really Do This?	3
Part II: Building Your PC	4
Part III: Adding the Fun Stuff	4
Part IV: Adding the Advanced Stuff	4
Part V: The Part of Tens	4
Part VI: Appendixes	4
Icons Used in This Book	5
Where to Go from Here	5
<i>Part I: Can I Really Do This?</i>	7
Chapter 1: What's in a Computer, Anyway?	9
Anyone Can Assemble a PC	10
Building a better mousetrap (or computer)	11
The primary, number-one, all-important, absolutely necessary, required rule	13
The other primary, number-one, all-important, absolutely necessary, required rule	13
PCs Are Built with Standard Parts	13
Understanding Your Computer's Components	14
The metal mansion	14
The big kahuna	15
The eye candy	16
The places for plugs	17
The data warehouse	18
The bells and whistles	18
Connecting Your Computer Components	19
Chapter 2: What Type of PC Should I Build?	21
Interrogating Yourself on Your Computer Needs	21
Answering Your Computer-Needs Questions	23
Design 1: The Jack Benny economy-class	24
Design 2: The Cunningham standard edition	25
Design 3: The Wayne Manor Batcomputer	27

Getting Your Hands on the Special Stuff	28
Drafting, graphics, and pretty pictures	28
Home-office and small-business stuff	30
Mozart's musical computer	30
The ultimate bad-guy blasting box	31
Picking Up the Parts	33
Researching before you buy	33
I live for mail order	34
Ordering parts online	36
Scavenging can be fun!	36
What's the deal with used parts?	38

***Part II: Building Your PC*** **41**

Chapter 3: Building the Foundation: The Case and Motherboard .. **43**

A Case Is Not Just a Box	44
Choosing a case style that suits your needs	45
Feeding power to your computer	47
Keeping your computer cool	48
Buttons, lights, and other foolishness	49
How about those slots?	50
Your Motherboard Is Your Best Friend	51
Motherboard sizes	52
Motherboard features	52
Grab Your Screwdriver and Install That Motherboard	54
I Laugh at Pesky Wires!	57
Pumping power to your motherboard	58
Flashing lights, clicking switches, and a beeper to boot	58

Chapter 4: A Bag of Chips: Adding RAM and a CPU

FYI about CPUs	62
Celeron and Sempron processors	62
Pentium and Athlon processors	63
Your Monster Needs a Brain	65
Add RAM Until the Mixture Thickens	67
Time to Meet Your Bus Slots	70
Fire That Puppy Up!	71

Chapter 5: The Three PC Senses: Ports, Mouse, and Keyboard **73**

Pursuing Your Port Preferences	74
Of Keyboards, Mice, and Men (and Women)	78
The mouse has mutated	79
The key to keyboards	81
Installing a Port Adapter Card	83
Connecting External Ports	85

Connecting Your Keyboard and Pointing Thing86
 Installing a keyboard86
 Installing a non-USB mouse (or other pointing thing)87
 Check It Once, and Check It Twice!87

Chapter 6: Images “R” Us: Adding Video and a Monitor 89

I’m Okay, You’re a Video Card89
 Full speed ahead with accelerated graphics90
 Will 3-D video transform my entire existence?91
 Thanks for the memory94
 Look out! Digital video from the planet MPEG!97
 What else do I need from a video adapter?97
 Staking Out Your Visual Territory99
 Deciphering monitor sizes (and choosing the one for you)100
 Comparing dot pitch among monitors100
 Feeling refreshed?101
 What else makes a great monitor?102
 Installing a Video Adapter Card105
 Connecting Your Monitor106
 Hey, I Can Finally (Kind of) Boot!107

Chapter 7: Make Room! Your Hard Drive and Other Storage Devices111

“Be Vewy Quiet . . . I’m Hunting for Hawd Dwives!”112
 Enhanced IDE hard drives112
 Serial ATA hard drives113
 SCSI hard drives115
 Comparing EIDE, SATA, and SCSI hard drives116
 More stuff about hard drives116
 The Ancient Floppy Still Lives118
 Why aren’t floppies trendy anymore?118
 Selecting a floppy drive119
 Don’t Forget Your Controller Card119
 Backing Up Your Data120
 Selecting a Tape Drive121
 Hey, You Just Removed Your Media!122
 The Zip drive: The floppy with muscle123
 The REV has landed124
 Connecting Your Drive Controller124
 Installing Your EIDE Hard Drive125
 Installing Your SATA Hard Drive128
 Installing Your 3½-Inch Floppy Disk Drive128
 Installing Your Internal Tape Backup Drive129
 Setting Up Your PC and Configuring Your Hard Drive130
 Formatting Your Hard Drive131

Part III: Adding the Fun Stuff 133**Chapter 8: Putting the Spin on CD-ROM and DVD135**

Discovering the Details about CD and DVD	136
Name your CD-ROM/DVD interface	136
The great CD-ROM and DVD speed myth	137
The battle of the drives: Internal versus external	139
Turning your computer into a jukebox	139
Reading multiple CDs at once	140
Will that be caddy or tray?	140
Other read-only CD-ROM and DVD features to covet	141
What You Need to Know about DVD	142
Do I need DVD for my computer?	144
The whole decoder thing explained	145
What You Need to Know about CD and DVD Recorders	145
Why record my own CDs and DVDs?	146
What's the deal with rewriteable discs?	148
Installing Your EIDE CD or DVD Drive	150
Loading Drivers and Testing Everything	152

Chapter 9: Let Your PC Rock!153

Sorting Out Sound Card Basics	154
Recognizing common breeds of sound cards	154
Don't forget the software part!	157
Riding the wavetable	157
Why do I need 3-D for my ears?	158
"Send help — I'm surrounded by sound!"	159
MP3 fanatics, pay attention!	159
Do I need MIDI ports?	160
Uhh . . . Is This Microphone On?	160
Speaking of Speakers	163
The Subwoofer: Big Dog of Computer Speakers	164
Putting Together Your PC Sound System	165
Installing your sound card	165
Connecting your speakers	166
Configuring software and testing your sound card	168
Adding a microphone	168
Installing a subwoofer	169

Chapter 10: Modems and the Call of the Internet171

A Modem Primer for Real People	172
The whole speed thing explained	173
Behind-the-scenes stuff: Modem standards	174
Will That Be a Card or a Case?	176
Time to Face the Fax	178
The good and the bad on fax/modems	178
More good fax facts	179
Let Your Modem Speak!	180

Installing an Internal Modem181
 Connecting an External Serial Modem183
 Connecting an External USB Modem184
 Installing Software and Testing Your Modem185

Part IV: Adding the Advanced Stuff 187

Chapter 11: Attack of the SCSI Monster189

Do I Really Need SCSI?190
 Figuring Out SCSI191
 More about SCSI ID numbers192
 More about SCSI terminators194
 External SCSI197
 Your SCSI Shopping List198
 Installing Your SCSI Card199
 Adding an Internal SCSI Device200
 Connecting an External SCSI Device202
 Installing Software and Testing Your SCSI Adapter203
 Troubleshooting Your SCSI Devices203

Chapter 12: So You Want to Add a LAN?205

Adding the Network Advantage206
 Convenience206
 Communication206
 Cooperation207
 Contact207
 Deciding Which Network Architecture Is Best for You208
 Comparing client-server and peer-to-peer networks208
 Comparing network configurations209
 Selecting a network operating system211
 Collecting What You Need for an Ethernet Network211
 More stuff about network interface cards213
 More stuff about cables and connections214
 There Are Always Exceptions!215
 Use your telephone wiring215
 Use your AC wiring216
 Use your USB port216
 Go wireless216
 Installing Your Network Interface Card217
 Connecting a Twisted-Pair Cable218
 Turning Things On219

Chapter 13: Life in the Fast Lane with Broadband221

Figuring Out Whether You Need Broadband222
 Comparing Communications Technologies223
 Figuring Out Those Connection Charges226
 Locating an Internet Service Provider227

Chapter 14: Input and Output: Scanners, Cameras, Video Capture, and Printers	229
The Wide, Wonderful World of Scanners	230
Recognizing scanners in the wild	230
Diving into color depth	233
Please pass the image	233
Resolving the right resolution	234
Scanners and . . . Mark Twain?	235
Digital Camera Details	236
Digital Video Capture: Its Time Has Come	239
Making sure your PC can handle digital video	239
Getting other gadgets for digital video	239
One Word: Printers, Printers, Printers!	241
Will that be laser or inkjet?	241
Advantages of inkjet printers	243
Advantages of laser printers	244
Installing a Printer with a Parallel Port Interface	244
Installing a Scanner, Capture Device, or Printer with a USB Connection	245
 Chapter 15: More Power User Toys	 247
Live, Via Satellite: The Internet!	248
What comes with an Internet satellite system?	249
How expensive is a satellite Internet connection?	251
Okay, it's neat, but	251
Reading a Pesky Macintosh Disk	251
Conversing with Quake	252
Even People like You and Me Need Internet Security	253
Hey, I Can Get TV and FM Radio on My PC!	254
Backing Up to the Web	255
Will You Move the Joystick, or Will It Move You?	256
 Part V: The Part of Tens	 259
 Chapter 16: Ten Reasons Not to Buy a Retail PC	 261
It Just Plain Costs Less to Build Your Own PC!	261
Recycle Used and Scavenged Hardware	262
Avoid the Monster Myth	262
Encourage Freedom of Choice!	263
Enjoy the Learning Experience	264
Spare Yourself the Shipping and Repair Hassles	264
Dodge Bundled Software Costs and Get What You Want	265
Avoid the Computer Sales Experience	265
Select the Brands That You Prefer	266
Get the Full Warranty for Each Part	266

Chapter 17: Ten Tools and Tasks for a Power User's PC267

- Forget Your Mouse268
- Guard That Power Supply!268
- Back Up, Back Up, Back Up269
- Diagnostics Software to the Rescue270
- Stick Your Keyboard in a Drawer!270
- Stop the Spread of Viruses271
- Organize Your Software272
- Use the Power of Your Voice272
- Everyone Needs a Good Image Editor273
- Keep It Clean!273

Chapter 18: Ten Important Assembly Tips275

- Read the Instructions First! (Rule Number One)275
- Build the Perfect Workspace276
- Keep Track of UTOs (Unidentified Tiny Objects)276
- Make Sure That You Have Everything You Need277
- Yell for Help If Necessary277
- Use a Magnetic Screwdriver278
- Start Your Own Parts Box278
- Take Your Time: The Zen of Assembly279
- Don't Cover Up Too Quickly279
- The Cable Rule: Check and Double-Check279

Chapter 19: Ten Ways to Speed Up Your PC281

- Defragment Your Hard Drive281
- Get Connected with the Speediest Interfaces282
- Install More RAM282
- Crank Up the CPU Steam283
- Keep Your Backgrounds Plain283
- Install a Fast CD-ROM or DVD Drive283
- Remove Resident Programs284
- Accelerate Windows with Your Video Card285
- Use a Native File System285
- Don't Forget That Turbo Button!286

Chapter 20: Ten Things to Avoid Like the Plague287

- It's "Refurbished" for a Reason288
- Looking for an Antique? Buy a Pentium III CPU288
- Never Depend on Floppies289
- Help Stamp Out Unnecessary Passwords!290
- Honor Thy Friend's Copyright290
- Your PC Is Not a Kindergarten291
- Don't Jump on the Pirate Ship291
- Keep Out of Monitors and Power Supplies291
- Don't Lease a PC for the Long Haul292
- Avoid Older Versions of PC Software292

<i>Part VI: Appendixes</i>	293
Appendix A: Choosing Your Operating System	295
Become Your Own Consultant!	295
“But, Wait — I Collect Operating Systems!”	297
DOS: The Old Workhorse Lives On	298
Windows 95, 98, and Me: Thanks for the Memories	299
Windows 2003 Server: Microsoft’s First String	300
Windows XP: The King of the Hill	301
Linux: It’s Not Just for Techno-nerds!	303
Before You Install Your Operating System	305
Appendix B: Glossary	307
<i>Index</i>	323
