Contents

<i>Introduction</i>	<i>xxi</i>
<i>Assessment Test</i>	<i>xxxiv</i>
Chapter 1	Getting Started with Windows XP Professional 1
Preparing to Install Windows XP Professional	2
Hardware Requirements	3
The Hardware Compatibility List (HCL)	5
BIOS Compatibility	6
Driver Requirements	6
Clean Install or Upgrade?	6
Installation Options	7
Choosing Your Installation Method	10
Running the Windows XP Professional Installation Process	11
Collecting Information	12
Preparing Installation	12
Installing Windows XP Professional	12
Finalizing Installation	14
Using Automatic Updates	17
Using Product Activation	17
Using Windows Update	18
Accessing Windows Update	18
Other Windows Update Options	19
Windows Service Packs	23
Troubleshooting Installation Problems	23
Identifying Common Installation Problems	24
Troubleshooting Installation Errors with the <i>Boot.ini</i> File	25
Installing Non-Supported Hard Drives	26
Troubleshooting with Installation Log Files	26
Supporting Multiple-Boot Options	27
Summary	28
Exam Essentials	28
Review Questions	29
Answers to Review Questions	34
Chapter 2	Automating the Windows XP Installation 37
Choosing Automated Deployment Options	38
An Overview of Unattended Installation	39
An Overview of Remote Installation	40
An Overview of the System Preparation Tool and Disk Imaging	42

Summary of Windows XP Professional	
Deployment Options	44
Accessing the Windows XP Professional Deployment Tools	45
Deploying Unattended Installations	47
Using Remote Installation Services (RIS)	49
RIS Client Options	50
Preparing the RIS Server	51
Preparing the RIS Client	59
Installing Windows XP Professional through RIS	60
Using the System Preparation Tool to Create Disk Images	61
Preparing for Disk Duplication	61
Using the System Preparation Tool	62
Using Setup Manager to Create Answer Files	66
Options That Can Be Configured through Setup Manager	66
Creating Answer Files with Setup Manager	67
Manually Editing Unattended Answer Files	72
Installing Applications with Windows Installer Packages	78
Copying the MSI Application to a Share	79
Creating a Group Policy Object	79
Filtering the Group Policy Object	80
Adding the Package to the Group Policy Object	81
Installing a Published Application	83
Summary	85
Exam Essentials	85
Review Questions	86
Answers to Review Questions	90
Chapter 3	
Upgrading to Windows XP Professional	93
Deciding Whether to Upgrade	94
Preparing to Upgrade to Windows XP Professional	95
Client Upgrade Paths and Requirements	95
Upgrade Considerations for Windows NT 4 Workstation and Windows 2000 Professional	96
Upgrade Considerations for Windows 98 and Windows Me	96
An Upgrade Checklist	99
Performing the Windows XP Upgrade	100
Migrating Files and Settings	102
Migrating User Data	103
Overview of the User State Migration Tool	103
Requirements for the User State Migration Tool	104
Using the User State Migration Tool	105
Troubleshooting XP Professional Upgrades	106
Incompatible Hardware Drivers	106
Incompatible Software Applications	107
User Settings Lost after Upgrade	108
Reversing a Windows XP Professional Upgrade	108

	Summary	108
	Exam Essentials	109
	Review Questions	110
	Answers to Review Questions	115
Chapter 4	Configuring the Windows XP Environment	117
	New Device and Hardware Support for Windows XP	118
	Windows Image Acquisition Architecture	118
	Support for Digital Audio and Video	121
	Dualview Multi-Monitor Support	121
	Windows XP Management Utilities	121
	Microsoft Management Console	121
	Registry Editor	124
	Device Manager	125
	Installing Hardware	127
	Installing Plug and Play Devices	128
	Installing Non-Plug and Play Devices	128
	Managing Device Drivers	129
	Updating Drivers	129
	Managing Driver Signing	130
	Managing Disk Devices	132
	Managing DVD and CD-ROM Devices	133
	Managing Removable Media	134
	Managing Display Devices	134
	Configuring Video Adapters	134
	Using Multiple-Display Support	137
	Managing Mobile Computer Hardware	138
	Power Management	138
	Managing Card Services	145
	Managing I/O Devices	146
	Configuring the Keyboard	146
	Configuring the Mouse	147
	Configuring Wireless Devices	148
	Managing USB Devices	149
	Managing Imaging Devices	150
	Managing Processors	152
	Configuring Fax Support	153
	Setting Fax Properties	153
	Starting the Fax Service	154
	Troubleshooting Devices	155
	Managing Windows XP Services	155
	Managing Multiple Hardware Profiles	159
	Summary	160
	Exam Essentials	160
	Review Questions	162
	Answers to Review Questions	166

Chapter 5	Managing the Windows XP Professional Desktop	169
	Managing Desktop Settings	170
	Customizing the Taskbar and Start Menu	172
	Using Shortcuts	176
	Setting Display Properties	176
	Managing Multiple Languages and Regional Settings	179
	Using Multilingual Technology	179
	Choosing Windows XP Multiple-Language Support	180
	Enabling and Configuring Multilingual Support	181
	Configuring Accessibility Features	183
	Setting Accessibility Options	183
	Using Accessibility Utilities	185
	Summary	187
	Exam Essentials	188
	Review Questions	189
	Answers to Review Questions	193
Chapter 6	Managing Users and Groups	195
	Overview of Windows XP User Accounts	196
	Built-in Accounts	197
	Local and Domain User Accounts	197
	Logging On and Logging Off	198
	Local User Logon Authentication	198
	Logging Off Windows XP Professional	199
	Working with User Accounts	200
	Using the Local Users and Groups Utility	200
	Creating New Users	201
	Disabling User Accounts	205
	Deleting User Accounts	206
	Renaming User Accounts	208
	Changing a User's Password	208
	Managing User Properties	209
	Managing User Group Membership	209
	Setting Up User Profiles, Logon Scripts, and Home Folders	211
	Troubleshooting User Accounts Authentication	215
	Troubleshooting Local User Account Authentication	216
	Domain User Accounts Authentication	217
	Caching Logon Credentials	218
	Creating and Managing Groups	219
	Using Built-in Groups	219
	Default Local Groups	219
	Special Groups	223
	Working with Groups	224
	Renaming Groups	228
	Deleting Groups	228
	Summary	229

xii Contents

	Exam Essentials	230
	Review Questions	231
	Answers to Review Questions	235
Chapter 7	Managing Security	237
	Options for Managing Security Configurations	238
	Group Policy Objects and Active Directory	239
	Active Directory Overview	239
	GPO Inheritance	240
	Using the Group Policy Result Tool	241
	Applying LGPOs	242
	Using Account Policies	244
	Using Local Policies	248
	Analyzing System Security	264
	Specifying a Security Database	264
	Importing a Security Template	265
	Performing a Security Analysis	267
	Reviewing the Security Analysis and Resolving Discrepancies	267
	Using Windows Security Center	270
	Summary	270
	Exam Essentials	271
	Review Questions	272
	Answers to Review Questions	276
Chapter 8	Managing Disks	279
	Configuring File Systems	280
	File System Selection	281
	File System Conversion	283
	Configuring Disk Storage	285
	Basic Storage	285
	Dynamic Storage	285
	Using the Disk Management Utility	288
	Managing Basic Tasks	289
	Managing Basic Storage	302
	Managing Dynamic Storage	302
	Troubleshooting Disk Management	303
	Managing Data Compression	305
	Using the Compact Command-Line Utility	307
	Using Compressed (Zipped) Folders	308
	Setting Disk Quotas	308
	Configuring Disk Quotas	309
	Monitoring Disk Quotas	313
	Managing Data Encryption with EFS	314
	New EFS Features in Windows XP and Windows Server 2003	314

	Encrypting and Decrypting Folders and Files	314
	Managing EFS File Sharing	315
	Using the DRA to Recover Encrypted Files	317
	Using the <i>Cipher</i> Utility	319
	Using the Disk Defragmenter Utility	321
	Analyzing Disks	322
	Defragmenting Disks	323
	Using the Disk Cleanup Utility	323
	Troubleshooting Disk Devices and Volumes	324
	Summary	326
	Exam Essentials	326
	Review Questions	328
	Answers to Review Questions	332
Chapter 9	Accessing Files and Folders	335
	File and Folder Management Basics	336
	Organizing Files and Folders	336
	Managing Folder Options	340
	Searching for Files and Folders	352
	Managing Local Access	354
	Design Goals for Access Control	354
	Applying NTFS Permissions	354
	Understanding Ownership and Security Descriptors	360
	Determining Effective Permissions	361
	Viewing Effective Permissions	364
	Determining NTFS Permissions for Copied or Moved Files	365
	Managing Network Access	365
	Creating Shared Folders	365
	Configuring Share Permissions	367
	Using the Shared Documents Folder	369
	Managing Shares with the Shared Folders Utility	369
	Creating New Shares	371
	Providing Access to Shared Resources	373
	The Flow of Resource Access	376
	Access Token Creation	377
	DACLS and ACEs	377
	Local and Network Resource Access	378
	Summary	379
	Exam Essentials	380
	Review Questions	381
	Answers to Review Questions	387
Chapter 10	Managing Network Connections	389
	Installing and Configuring Network Adapters	390
	Installing a Network Adapter	390
	Configuring a Network Adapter	391

Managing Authentication	396
Managing Advanced Configuration Properties	396
Managing Network Bindings	398
Troubleshooting Network Adapters	398
Supporting Wireless Network Connections	400
Configuring Wireless Network Settings	400
Configuring Security for a Small Wireless Network	403
Overview of Network Protocols	405
Overview of TCP/IP	406
Options for Deploying TCP/IP Configurations	412
Additional TCP/IP Features and Options	421
Using NWLink IPX/SPX/NetBIOS	427
Summary	429
Exam Essentials	429
Review Questions	430
Answers to Review Questions	437
Chapter 11	Managing Printing
	439
Printing Basics	440
The Windows XP Printing Process	441
The Roles of Print Devices and Printers	443
Setting Up Printers	443
Managing Printer Properties	449
Configuring General Properties	449
Configuring Sharing Properties	453
Configuring Port Properties	454
Configuring Advanced Properties	456
Separator Pages	461
Security Properties	462
Print Permission Assignment	464
Advanced Settings	465
Device Settings Properties	466
Managing Printers and Print Documents	467
Managing Printers	467
Managing Print Documents	468
Connecting to Printers	470
Troubleshooting Printing	471
Summary	472
Exam Essentials	472
Review Questions	474
Answers to Review Questions	479
Chapter 12	Dial-Up Networking and Internet Connectivity
	481
Overview of Dial-Up Networking	482
Understanding Connection Options	483

Local Area Network Connections	484
Remote Access Connections	485
Virtual Private Network Connections	485
Wide Area Network Connections	486
Direct Cable Connections	486
Incoming Connection	487
Understanding Remote Access Security	487
Authentication Methods	487
Remote Data Encryption Options	489
Setting Up a Modem	489
Configuring General Modem Properties	490
Configuring Modem Properties	491
Running Modem Diagnostics	491
Configuring Advanced Modem Properties	491
Viewing Driver Details and Updating Drivers	495
Viewing Modem Resources	496
Using the New Connection Wizard	496
Creating a Connection to a Remote Access Server	497
Creating a RAS Connection	498
Managing the Properties of a RAS Connection	500
Troubleshooting Remote Access Connections	507
Creating a Connection to the Internet	508
Using Virtual Private Network Connections	508
Using Internet Connection Sharing	512
Configuring Internet Connection Sharing on the Host Computer	513
Configuring Internet Connection Sharing on the Network Computers	515
Troubleshooting Internet Connection Sharing	516
Using an Internet Connection Firewall Without a Service Pack or with Service Pack 1	517
Using Windows Firewall	518
Configuring and Managing Internet Explorer	521
Accessing Resources through Internet Explorer	521
Configuring Internet Explorer	522
Managing Internet Printers	528
Overview of Internet Information Services	530
Installing Internet Information Services	530
Managing a Website	531
Troubleshooting Website Access	541
Summary	542
Exam Essentials	542
Review Questions	543
Answers to Review Questions	548

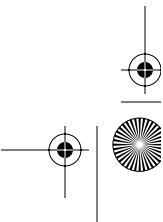

Chapter 13	Optimizing Windows XP	551
	Overview of System Monitoring Tools	552
	Creating Baselines	552
	Identifying System Bottlenecks	553
	Determining Trends	553
	Testing Configuration Changes or Tuning Efforts	554
	Using Alerts for Problem Notification	554
	Using System Monitor	554
	Selecting the Appropriate View	557
	Adding Counters	559
	Managing System Monitor Properties	561
	Using Performance Logs and Alerts	564
	Creating a Counter Log	565
	Creating a Trace Log	567
	Creating an Alert	570
	Managing System Performance	572
	Monitoring and Optimizing Memory	572
	Monitoring and Optimizing the Processor	576
	Monitoring and Optimizing the Disk Subsystem	578
	Monitoring and Optimizing the Network Subsystem	580
	Creating Baseline Reports	581
	Minimizing the Performance Effects of System Monitoring	583
	Using the System Tool in Control Panel	584
	Using Task Manager	586
	Managing Application Tasks	586
	Managing Process Tasks	587
	Managing Performance Tasks	590
	Managing Networking Tasks	591
	Scheduling Tasks	591
	Managing Scheduled Task Properties	593
	Troubleshooting Scheduled Tasks	596
	Summary	597
	Exam Essentials	597
	Review Questions	598
	Answers to Review Questions	603
Chapter 14	Performing System Recovery Functions	605
	Safeguarding Your Computer and Recovering from Disaster	607
	Using Event Viewer	609
	Reviewing Event Types	610
	Getting Event Details	611
	Managing Log Files	612
	Setting Log File Properties	613
	Understanding the Windows XP Professional Boot Process	617
	Reviewing the x86-Based Boot Process	618

Configuring the <i>BOOT.INI</i> File	623
Reviewing the Itanium Boot Process	629
Managing NVRAM Startup Settings	631
Creating the Windows XP Boot Disk	631
Using Advanced Startup Options	633
Starting in Safe Mode	633
Enabling Boot Logging	635
Using Other Advanced Options Menu Modes	637
Using Driver Rollback	638
Using Startup and Recovery Options	639
Using the Dr. Watson Utility	641
Using the Backup Utility	643
Using the Backup Wizard	644
Configuring Backup Options	645
Using the Restore Wizard	650
Using the Automated System Recovery Wizard	651
Using System Restore	652
Using the Recovery Console	654
Starting the Recovery Console	654
Working with the Recovery Console	656
Using Remote Desktop and Remote Assistance	659
Using Remote Desktop	659
Using Remote Assistance	664
Summary	670
Exam Essentials	670
Review Questions	672
Answers to Review Questions	676

Table of Exercises

Exercise 1.1	Installing Windows XP Professional	15
Exercise 1.2	Troubleshooting Failed Installations with Setup Logs	26
Exercise 2.1	Extracting the Windows XP Deployment Tools	46
Exercise 2.2	Using the System Preparation Tool.	64
Exercise 2.3	Installing Windows XP Professional from a Disk Image	65
Exercise 2.4	Publishing an Application with Windows Installer.	83
Exercise 2.5	Installing a Published Application	84
Exercise 3.1	Upgrading to Windows XP Professional.	102
Exercise 4.1	Updating a Device Driver	129
Exercise 4.2	Managing Driver Signing	132
Exercise 4.3	Managing Disk Devices.	133
Exercise 4.4	Viewing Video Adapter Settings	136
Exercise 4.5	Configuring Multiple-Display Support.	137
Exercise 4.6	Configuring Power Management Support	144
Exercise 4.7	Configuring I/O Devices	148
Exercise 4.8	Managing and Monitoring Imaging Devices	151
Exercise 4.9	Configuring Multiple Processors	152
Exercise 4.10	Using the Troubleshooter Wizard	155
Exercise 5.1	Configuring Taskbar and Start Menu Options	175
Exercise 5.2	Creating a Shortcut	176
Exercise 5.3	Configuring Display Options	178
Exercise 5.4	Configuring Locale Settings	182
Exercise 5.5	Using Accessibility Features.	187
Exercise 6.1	Accessing the Local Users and Groups Utility	200
Exercise 6.2	Creating New Local Users	204
Exercise 6.3	Disabling a User	206
Exercise 6.4	Deleting a User	207
Exercise 6.5	Renaming a User	208
Exercise 6.6	Changing a User's Password	209
Exercise 6.7	Adding a User to a Group.	210
Exercise 6.8	Using Local Profiles	212
Exercise 6.9	Assigning a Home Folder to a User.	215
Exercise 6.10	Troubleshooting User Authentication	218

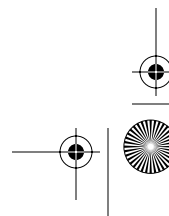

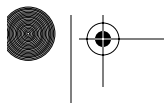

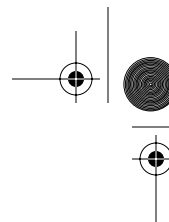

Table of Exercises **xix**

Exercise 6.11	Creating Local Groups226
Exercise 6.12	Adding Users to a Local Group227
Exercise 6.13	Renaming a Local Group228
Exercise 6.14	Deleting a Local Group229
Exercise 7.1	Adding the Local Computer Policy Snap-In to the MMC243
Exercise 7.2	Setting Password Policies246
Exercise 7.3	Setting Account Lockout Policies247
Exercise 7.4	Setting Audit Policies251
Exercise 7.5	Setting User Rights255
Exercise 7.6	Defining Security Options263
Exercise 7.7	Using the Security Configuration and Analysis Tool268
Exercise 8.1	Converting a FAT16 Partition to NTFS284
Exercise 8.2	Creating a New Partition299
Exercise 8.3	Editing a Drive Letter301
Exercise 8.4	Compressing and Uncompressing Folders and Files306
Exercise 8.5	Applying Default Quota Limits311
Exercise 8.6	Applying Individual Quota Limits313
Exercise 8.7	Using EFS to Manage Data Encryption315
Exercise 8.8	Using the CIPHER Utility320
Exercise 8.9	Analyzing and Defragmenting Disks323
Exercise 8.10	Using the Disk Cleanup Utility324
Exercise 8.11	Using the Check Disk Utility325
Exercise 9.1	Creating a Directory and File Structure338
Exercise 9.2	Configuring Offline Files and Folders351
Exercise 9.3	Configuring NTFS Permissions363
Exercise 9.4	Creating a Shared Folder367
Exercise 9.5	Applying Share Permissions368
Exercise 9.6	Accessing Network Resources376
Exercise 10.1	Viewing Network Adapter Properties396
Exercise 10.2	Manually Configuring IP415
Exercise 10.3	Using the IPCONFIG Command423
Exercise 10.4	Installing NWLink IPX/SPX Protocol427
Exercise 10.5	Configuring the NWLink IPX/SPX Protocol428
Exercise 11.1	Creating Printers444
Exercise 11.2	Sharing an Existing Printer454

xx Table of Exercises

Exercise 11.3	Managing Advanced Printer Properties	462
Exercise 11.4	Assigning Print Permissions.	465
Exercise 11.5	Managing Printers and Print Documents	470
Exercise 11.6	Connecting to a Shared Network Printer.	470
Exercise 12.1	Creating a Dial-Up Connection to the Internet	509
Exercise 12.2	Configuring a VPN Client	511
Exercise 12.3	Configuring Internet Connection Sharing	516
Exercise 12.4	Configuring Internet Connection Firewall	518
Exercise 13.1	Creating a Management Console for Monitoring System Performance	564
Exercise 13.2	Monitoring System Memory	575
Exercise 13.3	Monitoring the System Processor	577
Exercise 13.4	Monitoring the Disk Subsystem	579
Exercise 13.5	Monitoring the Network Subsystem	581
Exercise 13.6	Creating a Baseline Report	581
Exercise 13.7	Setting a Process Priority	590
Exercise 13.8	Creating a New Scheduled Task	592
Exercise 14.1	Using the Event Viewer Utility	616
Exercise 14.2	Creating a Windows XP Boot Disk	632
Exercise 14.3	Booting Your Computer to Safe Mode	635
Exercise 14.4	Using Boot Logging	636
Exercise 14.5	Using Startup and Recovery Options	641
Exercise 14.6	Using the Backup Wizard	644
Exercise 14.7	Using the Restore Wizard	650
Exercise 14.8	Using the Automated System Recovery Wizard.	651
Exercise 14.9	Using the System Restore Wizard	653
Exercise 14.10	Adding Recovery Console to Windows XP Startup	655
Exercise 14.11	Using the Recovery Console	658
