Numerics

3-D objects

- building, 360–361
- charts, 249, 256, 276
- commands for, 360
- described, 359
- diagrams, 304, 308
- lines, 321

A

- .accdb file extension, 32
- Access file extensions, 32
- action buttons. *See also* hyperlinks
 - changing, 544
 - custom, creating, 544
 - described, 534, 536, 541
 - drawing, 542–543
 - fitting on slides, 537
 - hyperlinks versus, 539–540
 - illustrated, 537
 - on master slides, 546
 - mouse over for, 541, 543
 - removing hyperlink, 544
 - ScreenTips on, 545
 - table of, 541–542
- add-ins, installing, 623–624
- aligning objects, 351–352
- aligning text. *See* text alignment
- All Caps text effect, 149
- animations
 - Advanced Timeline, 442–444
 - After Animation options, 432–433
 - applying effects, 422–423
 - basics, 417–419
 - building slide one element at a time, 449
 - changing effects, 423
 - for charts, 281, 410–411, 450

- choosing elements for, 411–412
 - for colors, 432–433
 - Custom Animation task pane, 417–421
 - emphasis effects, 412, 424
 - entrance effects, 412, 424, 425–426
 - exit effects, 413, 424, 425–426
 - for fonts, 432
 - grow/shrink effects, 427–428, 448–449
 - hiding elements after, 432–433
 - by letters, 431
 - for lists, 410, 448
 - motion paths, 413, 433–439
 - order for, 413, 439, 440
 - overview, 12, 409
 - by paragraphs, 415, 428–430
 - planning, 417
 - prebuilt, 415–416
 - removing, 416, 423
 - repeating, 427
 - selecting, 421
 - smooth start and end, 428
 - sound settings, 447–448
 - speed (duration), 426–427
 - start methods, 414–415, 439–440, 441, 444–447
 - for text boxes and frames, 424, 428–432
 - timing, 440, 442–444
 - transitions versus, 405–406
 - triggers for, 415, 444–447
 - uses for, 409–411
 - by words, 431
- annotating charts, 279–280
 - area charts, 247, 253–254, 262
 - arrow pointer, 504
 - arrowheads, 321–322
 - arrows, 317, 318, 328
 - aspect ratio, locking, 344
 - assembling the content, 59

audience

- anticipating questions, 65–66, 88–89
 - connecting with, 65
 - introducing yourself, 67
 - tailoring design to, 61–62
- AutoCorrect feature
 - adding entries, 34–35, 157, 165
 - capitalization settings, 153, 157–158, 159
 - dash and quote settings, 155–156
 - deleting entries, 35, 157
 - described, 156, 157
 - First Letter tab, 159
 - INitial CAPs tab, 159
 - quick text entry, 33–35
 - Smart Tags, 179
 - AutoFit, 187, 189–192
 - AutoRecovery files, 25–26
 - axes of charts
 - defined, 243
 - labels, 271, 272
 - numerical and date, options for, 272
 - scale settings for, 272–273, 286
 - text, options for, 272
 - titles for, 271

B

backgrounds

- Apply to All button, 129
- assigning to Slide Master, 104
- changing, 112–113, 129–131
- of charts, 278–279
- choosing colors, 112–113
- clip art for, 111, 124–126, 393–394
- examples, 111
- gradient, 111, 122–124
- for handouts, 518

backgrounds (*continued*)
 hiding and displaying graphics, 107, 119
 importance of, 109
 pictures for, 111, 126–127, 376–380
 removing from a slide, 106–107
 self-made, 111
 simplicity in, 110
 solid or transparent color, 111, 121–122
 styles, 110–111, 121–128
 of tables, 237–238
 testing, 114
 for text, 378–380
 text for, 377
 textures for, 127–128
 for themes, customizing, 118–119
 tone set by, 111–112
 Ballpoint Pen, 502
 banded rows or columns, 234
 bar charts, 247, 252–253
 bar of pie charts, 261
 bitmap graphics
 color depth, 366, 368
 compression, 366, 367–368
 file formats, 366, 368–369
 vector graphics versus, 366
 bits, 366, 368
 Blank layout, 76
 blank presentations, 17, 18–19
 blanking the screen, 67, 505
 boilerplate content, 18, 579, 589
 bold font style, 3, 147
 borders
 of tables, 222, 225, 234–235
 for video, 463
 Brightness command, 371–372, 382, 394
 Bring Forward command, 348–349
 Bring to Front command, 348–349

bubble charts, 247, 258–259
 building an argument, 58
 bulleted lists
 alternatives to, 62, 63
 animating, 410, 448
 bullet character for, 205–206, 207
 bullet, defined, 204
 converting to diagrams, 303
 converting to numbered lists, 205
 converting to paragraphs, 199–200
 creating, 204–205
 creating from Word headings, 81–82
 disadvantages of, 62
 entering on diagram shapes, 302
 entering text in, 199
 nested (sublists), 208–209
 nonstandard, 12
 removing bullets, 205
 removing items from diagrams, 302
 restoring default bullet, 207
 slide layouts for, 204
 uses for, 204
 burning to CD. *See* packaging for CD
 burning to DVD, 563

C

captions, 381, 383
 case
 All Caps text effect, 149
 AutoCorrect settings for, 153, 157–158, 159
 changing, 152
 defined, 151
 examples, 151–152, 153
 matching when finding text, 160
 small caps, 148–149
 spell checking settings for, 165–166

categories for charts, 242, 285
 CDs
 packaging sound, 467
 packaging video, 452
 playing songs from, 472, 476–479
 for presentations, 13, 557–563
 cells of tables
 background, 237–238
 changing margins, 231
 defined, 222
 diagonal lines in, 239
 drawing oval shape around, 239–240
 merging, 227–228
 selecting, 225
 splitting, 227
 centering text, 194. *See also* text alignment
 character spacing, 212–213
 characters
 for bullets, 205–206, 207
 Equalize Character Height effect, 149
 kerning, 212–213
 symbols or foreign, entering, 154–156
 Chart Tools tabs, 268
 charts
 adding icon to layouts, 103
 animating, 281, 410–411, 450
 annotating, 279–280
 area, 247, 253–254
 axes, 243, 271–273
 background, 278–279
 bar, 247, 252–253
 bar of pie, 261
 bubble, 247, 258–259
 as bullet point alternatives, 62, 63
 changing element colors, fonts, or line width, 275–276
 changing layout, 270–273
 changing shape, 269

- changing type, 268
- Chart Tools tabs for, 268
- choosing, 245–247
- column, 247, 248–249
- combination, 260–262
- conventional versus PowerPoint, 246
- creating, basics, 244–245
- creating from templates, 277–278
- data labels, 243, 271
- date format, 266–267, 285
- displaying raw data
 - alongside, 280–281
- doughnut, 247, 257–258
- drop lines in, 262
- entering data in Excel, 263–264
- error bars on, 262
- Excel, importing, 245
- gridlines, 242, 273–274
- keeping simple, 246–247
- legend, 243, 271
- line, 247, 250–251, 262
- MS Graph, converting, 283–285
- number format for, 285
- overlay, 282
- pie, 247, 251–252
- pie of pie, 261
- plot area, 242, 276
- positioning elements, 271
- providing data for, 262–267
- radar or spider, 248, 259–260
- rearranging data markers, 265–266
- saving as templates, 277
- scale settings for, 272–273, 286
- selecting parts of a worksheet, 265
- stacked area, 253–254
- stacked bar, 252–253
- stacked column, 248–249
- stock, 248, 255–256
- styles, 269–270
- surface, 248, 256–257
- terminology, 241–243
- 3-D, 249, 256, 276
- title, 271
- trendline, 261
- troubleshooting, 285–286
- types of (table), 247–248
- updating data for, 267
- up/down bars in, 262
- widening columns in Excel, 264–265
- XY (scatter), 248, 254–255
- Chicago Manual of Style*, 148–149
- clip art. *See also*
 - manipulating objects; pictures
 - adding icon to layouts, 103
 - for backgrounds, 111, 124–126, 393–394
 - brightness, adjusting, 394
 - Clip Organizer for, 394–402
 - contrast, adjusting, 394
 - described, 391
 - examples, 392
 - finding, 125
 - inserting in slides, 392–393
 - recoloring, 394
 - shadows for, 362
 - shape effects for, 358–359
 - third dimension for, 360
- Clip Organizer
 - adding media files to, 399–400, 401
 - automatically cataloging media files, 401
 - Collection List pane, 395
 - creating My Collections subfolders, 402
 - finding media files, 395–398
 - inserting media files in slides, 398
 - inserting video in slides, 456
 - opening, 394
 - organizing files in My Collections subfolders, 400–402
- Search task pane overview, 395
 - uses for, 394
- Clipboard, defined, 138
- Clipboard task pane, 138–140
- Clipboard Viewer, 139
- closing
 - ending presentations, 499, 531
 - Equation Editor, 311
 - PowerPoint windows, 54
 - presentations, 29–30
 - Reuse Slides task pane, 81
 - Slide Master view, 21
 - Slides pane, 52
- codecs for video, 454
- collaboration
 - comments for, 593–597
 - passwords for, 597–599
 - SharePoint Services for, 602–607
 - slide libraries for, 599–601
- color depth for bitmap graphics, 366, 368
- colors. *See also*
 - backgrounds; themes; transparency
 - animating, 432–433
 - associations with, 112
 - balancing in pictures, 387
 - brightness adjustment, 371–372, 382, 386–387
 - for bullets, 206, 207
 - for chart elements, 275–276
 - for chart gridlines, 274
 - color depth, 366, 368
 - company, using, 61, 579, 581–585, 586
 - contrast adjustment, 371–372, 382, 386–387
 - default style for, 357
 - for diagram shapes, 307
 - for diagrams, 304–305
 - for drawing on slides, 502
 - HSL setting for, 581–585
 - inherited from template, 17–18
 - for lines, 317, 320

- colors (*continued*)
 - for numbers in lists, 207, 208
 - for objects, 354–356
 - palettes, 368
 - recoloring clip art, 394
 - recoloring pictures, 372–373
 - returning from Pure Black and White or Grayscale views, 53
 - RGB setting for, 581–585
 - schemes, changing, 576–577
 - for shadows, 362
 - for shape outlines, 354, 357–358
 - for shapes, 317
 - for tables, 235
 - tailoring to the audience, 61–62
 - for text, animating, 432
 - for text, choosing, 150–151
 - for text-box shapes, 187, 332
 - for themes, customizing, 118, 119
 - tone set by, 111–112
 - for WordArt images, 334
- column charts, 247, 248–249
- columns in charts, rearranging, 265–266
- columns of tables
 - aligning text in, 226–227
 - banded, 234
 - calling attention to, 233–234
 - colorizing, 235
 - deleting, 230
 - distributing, 229
 - inserting, 230
 - moving, 230–231
 - resizing, 228–229
 - selecting, 225
- columns of text, 214, 240
- combination charts, 260–262
- comments
 - defined, 593
 - name and initials for, 596
 - reading and reviewing, 593, 595
 - removing, 595–597
 - writing and editing, 594–595
- company design
 - boilerplate content, 579, 586, 589
 - colors for, 61, 579, 581–585, 586
 - described, 579
 - fonts for, 61, 579, 585–586
 - logo in, 61, 499, 579, 586
 - setting view for, 590
 - slide layouts for, 587–589
 - telling co-workers how to use, 590–591
 - template for, 580, 586, 590–591
- Comparison layout, 75
- compatibility mode, 24
- compound files, 609
- compression
 - compressing files, 374–376, 389
 - cropped area of pictures, 375
 - cropped pictures, 374
 - described, 367–368
 - with file formats, 366
 - lossless versus lossy, 368
- computer for presentation delivery, 66
- connectors for shapes, 326–328
- consistency of design, 61, 91–92, 304
- content frames, 73, 455. *See also* frames
- content master slides, 78
- Content with Caption layout, 76
- context-sensitive tabs, 3, 42–43
- Contrast command, 371–372, 382, 394
- conventions in this book, 3–4
- converting
 - between bulleted and numbered lists, 205
 - bulleted lists to diagrams, 303
 - charts from MS Graph, 283–285
 - presentations from earlier versions, 24
- copying. *See also* reusing
 - Clipboard task pane for, 138–140
 - objects, 348
 - Paste Options for, 138
 - slides, and pasting, 78–79
 - slides, duplicating, 77–78
 - text, 136–140
- copyright issues, 369–370
- creating new presentations from another presentation, 20–21
 - blank, 19–20
 - from template, 20
 - from template versus blank, 17–19
- cropping pictures, 373–374, 387–388
- .crtx file extension, 277
- Custom Animation task pane
 - basics, 417–419
 - reading, 419–421
 - selecting animations, 421
- custom shows
 - assembling slides for, 506–507
 - editing, 507
 - hidden slides for, 89–90, 505
 - interrupting presentation with, 508–509
 - presenting, 507–508
 - uses for, 505
- Custom.dic dictionary, 167
- customizing. *See also* defaults
 - action buttons, 544
 - color schemes, 576–577
 - Quick Access toolbar, 571–574
 - sounds, 469
 - Status bar, 575–576
 - templates, 20
 - themes, 118–120

cutting and pasting
 Clipboard task pane for, 138–140
