Technique 48: Getting More Than Music out of Your iPod	372	Technique 60: Customizing Your Terminal	462
<b>Part VIII: Security and Maintenance</b>	<b>381</b>	Technique 61: Automating Your Routines	470
Technique 49: Better Backups with rsync and .Mac	383	Technique 62: Entertaining Yourself with Screen Savers	478
Technique 50: Battling Viruses	391	<b>Index</b>	<b>485</b>

# Table Of Contents

<b>Introduction</b>	<b>1</b>	<b>Technique 3: Running Tiger Faster</b>	<b>26</b>
Saving Time with This Book	1	Optimizing Your System through Maintenance	26
What's New in Tiger	2	Disabling Unnecessary Features	29
What's New in This Book	2	Longer Battery Life	30
Foolish Assumptions	2	Improving Performance through Hardware	32
How This Book Is Organized	3	<b>Technique 4: When Good Applications Go Bad</b>	<b>34</b>
<i>Part I: Starting, Stopping, and Running Your Mac Faster</i>	3	Slaying Stalled Apps with the Dock	34
<i>Part II: Optimizing Your Interface</i>	3	Gaining Better Performance through Activity Monitoring	35
<i>Part III: Handling Files (And Other Stuff) Quickly</i>	3	Crashing Your Mac	37
<i>Part IV: Improving Application Performance</i>	3	<b>Technique 5: Logging Out and Shutting Down</b>	<b>39</b>
<i>Part V: Cranking Up Your Internet Activities</i>	4	Logging Out	39
<i>Part VI: Optimizing Your Network</i>	4	Securing Your System with a Screen Saver	41
<i>Part VII: Fast and Furious Multimedia</i>	4	Fast User Switching	42
<i>Part VIII: Security and Maintenance</i>	4	Making the Quick Exit	44
<i>Part IX: The Scary Or Fun Stuff</i>	4	<b>Technique 6: Goodbye Microsoft, Hello Mac!</b>	<b>45</b>
Conventions Used in This Book	4	Where Is the Alt Key? Mac Basics	45
Icons Used in This Book	5	<i>Your new keyboard</i>	46
Comments and Questions	5	<i>How to use a one-buttoned mouse</i>	47
		<i>Working with the Finder, your new Desktop</i>	47
<b>Part I: Starting, Stopping, and Running Your Mac Faster</b>	<b>7</b>	Setting System Preferences	48
<b>Technique 1: Installing Tiger without the Hassle</b>	<b>9</b>	Using Mac Help	49
What Tiger Can Do for You	9	Useful Migration Resources	50
Choosing an Installation Method	10	<b>Part II: Optimizing Your Interface</b>	<b>51</b>
Managing Your Hard Drives	11	<b>Technique 7: Making Your Mac More Accessible</b>	<b>53</b>
Formatting a Volume	12	Listening to Your Mac	53
Installing Tiger	13	Talking Back to Your Computer	56
Working with Setup Assistant	17	Using Visual Clues	57
Transferring Files Flawlessly	18	Customizing the Keyboard and Mouse to Suit Your Needs	58
<b>Technique 2: Starting Up with Speed</b>	<b>20</b>		
Faster Startups: Never Shut Down	20		
Scheduling Your Startups	21		
Speeding Up the Login Process	22		
Starting Applications Automatically	23		
Keeping the System Preferences Handy	25		

<b>Technique 8: Working with Displays</b>	<b>61</b>	<b>Technique 13: Establishing an Efficient Dock</b>	<b>102</b>
Managing Your Display Resolution	61	Customizing the Dock	102
Adjusting the Colors	63	Organizing the Dock	104
Handling Fonts	65	Keyboard and Mouse Shortcuts for the Dock	104
Using Multiple Displays	66	Shareware for the Dock	107
<b>Technique 9: Speedy Keyboard Navigation</b>	<b>69</b>	<b>Technique 14: Saving Steps with Contextual Menus</b>	<b>108</b>
Keyboard Characters	69	Grasping the Basics of Contextual Menus	108
Moving Around in a Finder Window	70	Using CMs with Third-Party Applications	110
<i>Navigating in any view mode</i>	70	AppleScript, Contextual Menus, and You	111
<i>Navigating in icon view</i>	71	<b>Technique 15: Easily Managing Windows with Exposé</b>	<b>114</b>
<i>Navigating in list view</i>	72	Introducing Exposé	114
<i>Navigating in column view</i>	72	Getting the Most out of Exposé	116
Navigating the Desktop	74	<i>Dragging and dropping with Exposé</i>	118
Getting Places	74	<i>Using Exposé without the mouse</i>	119
<b>Technique 10: Essential Keyboard Shortcuts</b>	<b>78</b>	Dashing to the Dashboard	119
The Most Essential of the Essential Keyboard Shortcuts	78	<b>Part III: Handling Files (And Other Stuff) Quickly</b>	<b>121</b>
Application Shortcuts	80	<b>Technique 16: Organizing Your Home Directory</b>	<b>123</b>
Function Keys	82	Your Stuff, Your Home Directory, and You	123
Programming Your Own Keyboard Shortcuts	82	Checking Out Your Library	126
<b>Technique 11: A Faster Finder</b>	<b>84</b>	A Cluttered Desktop Is a Sign of a Cluttered Mind	128
Finder Preferences	84	Revisiting Our Friend, the Dock	130
<i>General</i>	85	<b>Technique 17: Managing Aliases, Favorites, and Icons</b>	<b>132</b>
<i>Labels</i>	85	Also Known As: Working with Aliases	132
<i>Sidebar</i>	87	These Are a Few of My Favorites Things	135
<i>Advanced</i>	87	If You Can, Icon	137
Show View Options	88	<b>Technique 18: Addressing Your Addresses</b>	<b>141</b>
Menus	89	Getting to Know the Address Book	141
Using Your Input Device	91	Customizing the Template	142
<b>Technique 12: Customizing Windows for Your Convenience</b>	<b>93</b>	Creating Your Own vCard	144
Understanding the View Modes	93		
<i>Icon view</i>	94		
<i>List view</i>	95		
<i>Column view</i>	97		
Customizing Windows	97		
<i>Toolbar</i>	98		
<i>Sidebar</i>	99		
<i>Scroll bars</i>	100		
Moving Windows Around	101		

Creating and Using Groups	146		
<i>Using the New Group From Selection tool</i>	146		
<i>Creating a group manually</i>	147		
<i>Duplicating an existing group</i>	148		
<i>Creating Smart Groups</i>	148		
Other Cool Address Book Tricks	149		
<b>Technique 19: Managing Information Effectively</b>	<b>151</b>		
Storing Information as a Sticky Note	151		
Stickies Lite: Using Dashboard	152		
Stickies Pro: Using StickyBrain	153		
<b>Technique 20: Working with Files</b>	<b>155</b>		
Understanding a File's Properties	155		
<i>The General panel</i>	156		
<i>The More Info panel</i>	157		
<i>The Name &amp; Extension panel</i>	158		
<i>The Open With panel</i>	159		
<i>The Preview panel</i>	159		
<i>The Ownership &amp; Permissions panel</i>	160		
<i>The Spotlight Comments panel</i>	161		
Solving Common File Problems	162		
<i>Deleting locked files</i>	162		
<i>Ejecting stuck disk images</i>	162		
<i>Finding the original for an alias</i>	162		
<i>Sharing files with another OS</i>	163		
<b>Technique 21: Finding Things in Tiger</b>	<b>164</b>		
Basic Finder Window Searches	164		
Using a Find Window	166		
Working With Smart Folders	168		
Searching for Things with Spotlight	170		
<b>Technique 22: Slimming Down Your Hard Drive</b>	<b>172</b>		
Avoiding Unnecessary Installations	172		
Weeding Your Hard Drive: Manually Deleting Files	173		
<i>Pruning your Home directory</i>	174		
<i>Thinning out no-longer-required applications</i>	174		
<i>Cleaning out your System and Library folders</i>	175		
<i>Cleaning other volumes</i>	175		
Diet Tools: Third-Party Applications	176		
Hands Off: What Not to Trash	176		
		<b>Part IV: Improving Application Performance</b>	<b>177</b>
		<b>Technique 23: Launching Applications Fast</b>	<b>179</b>
		Auto-Launching with the Accounts Panel	179
		Launching with the Finder	181
		Launching with the Dock	182
		Other Ways to Launch Applications	184
		<i>Favorites and aliases</i>	184
		<i>Recent Items</i>	184
		Launching with Shareware Tools	184
		<b>Technique 24: Switching, Hiding, and Quitting Applications</b>	<b>186</b>
		Switching among Open Applications	186
		<i>Switching apps with Tiger</i>	186
		<i>Switching apps with shareware</i>	188
		Hiding Applications	188
		Quitting Applications	190
		Logging Out and Shutting Down	190
		<b>Technique 25: Opening Files Faster</b>	<b>191</b>
		Opening Files with the Finder	191
		Opening Files with Specific Applications	192
		<i>Using the Finder Window toolbar to open files</i>	192
		<i>Using the Dock to open files</i>	192
		<i>Using Favorites to open files</i>	192
		<i>Opening files with a contextual menu</i>	192
		Using LaunchBar	193
		Opening Files within an Application	194
		Recalling Recent Items	194
		<i>Recalling files from the Apple menu</i>	195
		<i>Recalling files from application menus</i>	195
		Setting the Default Application for Files	196
		<b>Technique 26: Saving and Printing Files</b>	<b>197</b>
		Saving Files	197
		<i>Marc's cool trick for navigating in Save dialogs</i>	200
		<i>Overwriting existing files</i>	200
		Printing	201
		<i>Customizing print settings</i>	201
		<i>Previewing your documents</i>	202
		<i>Desktop printing</i>	202
		Creating PDFs	202

<b>Technique 27: Cut, Copy, Paste</b>	<b>204</b>	Bookmark-Related Utilities	240
Copying and Pasting with the Keyboard and Mouse	204	What Your Parents Never Told You About JavaScript	241
Understanding the Clipboard	207	<i>Creating a print button</i>	242
Clipboard Shareware Alternatives	207	<i>Downloading existing bookmarklets</i>	242
Copy and Paste Tips and Tricks	207	<b>Technique 32: Managing Bookmarks Better</b>	<b>243</b>
<i>Copying items within the Finder</i>	208	Managing Bookmarks in Safari	243
<i>Using the Find Clipboard</i>	208	<i>Bookmarking a page</i>	245
<b>Technique 28: Managing Fonts</b>	<b>209</b>	<i>Using the Bookmarks window</i>	245
Fonts Supported in Tiger	209	<i>Using the Bookmarks Menu</i>	246
Installing Fonts	210	<i>Working with the Bookmarks Bar</i>	246
Viewing Fonts	210	<i>Setting bookmark preferences in Safari</i>	247
<i>Character Palette</i>	211	Accessing Safari Bookmarks	248
<i>Font panel</i>	213	Sharing Bookmarks across Browsers	249
<i>Font Book</i>	214	Bookmark Tips and Tricks	250
Managing Fonts	215	<b>Technique 33: Speedy Searches with Google</b>	<b>251</b>
<b>Technique 29: Getting to Know Services</b>	<b>217</b>	Doing Basic Google Searches	251
What Are Services?	217	Doing Advanced Google Searches	252
Grasping the Best Services Techniques	219	Doing Specialized Google Searches	253
Adding Services	221	Searching Google with Safari	254
<b>Part V: Cranking Up Your Internet Activities</b>	<b>223</b>	Google Tips and Tricks	255
<b>Technique 30: Surfing with Safari</b>	<b>225</b>	<i>Google, the dictionary</i>	255
Navigation Shortcuts	225	<i>Google, the mathematician</i>	255
Standard Shortcuts	226	<i>Google, the unit converter</i>	256
Other Shortcuts	227	<i>Google, the linguist</i>	256
Setting Preferences	228	<i>Google, the investor</i>	257
<i>Setting General preferences</i>	228	<i>Google, the cartographer</i>	257
<i>Working with tabbed browsing</i>	229	<i>Google, the (fill in the blank)</i>	257
Blocking Pop-Up Windows	231	<b>Technique 34: Mastering Mail</b>	<b>258</b>
Saving Time with AutoFill Forms	232	Using Keyboard Shortcuts	258
Managing Usernames and Passwords	233	<i>Navigation shortcuts</i>	259
Marking Pages with SnapBack	234	<i>Other shortcuts</i>	259
Working with Really Simple Syndication	235	Customizing Mail's Appearance and Behavior	260
<b>Technique 31: Customizing Safari</b>	<b>237</b>	<i>Setting General preferences</i>	260
Improving Your Surfing Experience	237	<i>Setting Composing preferences</i>	260
Safari Search Enhancements	240	<i>Customizing the Mail toolbar</i>	261
		<i>Customizing the messages window</i>	262
		<i>Customizing the New Message window</i>	263
		Organizing Your Mailboxes	265

Performing Searches	266	Using Bonjour with Software	305
Creating and Using Signatures	267	<i>Using Bonjour with iChat</i>	306
Discovering the Best Mail Tips and Tricks	268	<i>Using Bonjour with iTunes</i>	308
<i>Using the Dock icon</i>	268	<i>Using Bonjour with iPhoto</i>	309
<i>Sending attachments</i>	269	Using Bonjour with Hardware	310
<i>Creating Smart Mailboxes</i>	269		
<b>Technique 35: Stopping Spam in Its Tracks</b>	<b>271</b>	<b>Technique 40: Share the Love: Sharing Files, Printers, and More</b>	<b>311</b>
Fighting Spam with the Junk Mail Button	271	Safe Sharing	311
Creating and Using Rules	273	Sharing a Web Page	312
Stopping Spam before It Gets to You	275	What's in a Name (Or URL)?	313
<i>Bouncing spam</i>	276	Fun with File Sharing	314
<i>Other spam tools</i>	277	Personal File Sharing	314
<b>Technique 36: Innovative iChat</b>	<b>278</b>	Print Sharing	316
Keyboard and Mouse Shortcuts	278	Sharing Your Internet Connection	316
Customizing iChat	280	<b>Technique 41: Network Security</b>	<b>319</b>
Transferring Files with iChat	282	Keeping Your Mac Secure	319
Using the Videoconference	283	Using a Firewall	320
Creating URLs	285	<i>Software firewalls</i>	320
		<i>Hardware firewalls</i>	321
<b>Part VI: Optimizing Your Network</b>	<b>287</b>	Checking for Security Problems	322
<b>Technique 37: Getting Your Mac Online</b>	<b>289</b>	<b>Technique 42: Your Guide to .Mac: \$100 Well Spent</b>	<b>324</b>
Defining a Location	289	Top Ten Reasons to Use .Mac	324
Using a Modem	292	I Like My iDisk: Storing Stuff Online	325
