

Contents at a Glance

Introduction	1
Part I: Getting Started with Excel Charts	7
Chapter 1: Harnessing the Power of Excel Charts	9
Chapter 2: Understanding How Charts Are Constructed	19
Chapter 3: Making Great Charts with the Chart Wizard	39
Part II: Exploring Chart Types	69
Chapter 4: Creating Charts That Compare Items	71
Chapter 5: Creating Charts That Show Change	91
Chapter 6: Creating Charts That Display Data Relationships	113
Chapter 7: Working With Custom Chart Types	133
Part III: Formatting Charts	143
Chapter 8: Positioning and Sizing Your Charts	145
Chapter 9: Formatting the Chart Area, Plot Area, and Gridlines	155
Chapter 10: Formatting the Axes' Patterns, Font, Number Format, and Alignment	177
Chapter 11: Working With the Category-Axis Scale Settings	189
Chapter 12: Working With the Value-Axis Scale Settings	207
Chapter 13: Formatting the Data Series	225
Chapter 14: Working With 3-D Views	249
Chapter 15: Using AutoShapes and Graphics	265
Part IV: Advanced Chart Techniques	277
Chapter 16: Adding Trendlines to a Chart	279
Chapter 17: Using Combination Charts	287
Chapter 18: Creating and Saving User-Defined Charts	297
Chapter 19: Creating Pivot Tables and Pivot Charts	303
Chapter 20: Interacting with External Programs	325
Part V: The Part of Tens	341
Chapter 21: Ten Chart Remakes	343
Chapter 22: Ten (or So) Fancy Charts	353
Index	363

Introduction 1

About This Book.....	1
Foolish Assumptions	2
How to Use This Book	2
How This Book Is Organized.....	2
Part I: Getting Started with Excel Charts.....	2
Part II: Exploring Chart Types.....	3
Part III: Formatting Charts.....	3
Part IV: Advanced Chart Techniques.....	4
Part V: The Part Of Tens	4
Icons Used in This Book.....	4
Where to Go from Here.....	5

Part 1: Getting Started with Excel Charts..... 7

Chapter 1: Harnessing the Power of Excel Charts 9

Creating Charts with Excel.....	10
Looking At the Different Types of Charts.....	12
Making Your Chart Look Good	15
Taking Your Chart to the Next Level.....	18

Chapter 2: Understanding How Charts Are Constructed 19

An Overview of Charts	20
Reviewing Basic Chart Components.....	24
Using Charts to Display Prominent Information about Your Data.....	26
Understanding Series Data.....	27
Introducing the Standard Chart Types.....	32
Looking At Chart Subtypes	34
Understanding Custom Chart Types	34
Deciding Whether to Use an Embedded Chart or a Chart Sheet	36

Chapter 3: Making Great Charts with the Chart Wizard 39

Starting Up the Chart Wizard	39
Selecting Source Data	41
Selecting a Chart Type with the Chart Wizard Step 1	43
Determining which chart type to use	44
Choosing a chart subtype	46

Establishing the Source Data with the Chart Wizard Step 2.....	50
Selecting the data range and orientation	51
Working with individual data series.....	55
Rounding Out a Chart's Appearance with the Chart Wizard Step 3	58
Using titles.....	59
Selecting axes.....	60
Choosing gridline types	61
Deciding to use a legend and where to place it.....	62
Working with data labels	63
Deciding to show the data table.....	65
Choosing Where the Chart Will Go with the Chart Wizard Step 4	66
Selecting to have the chart appear on a separate chart sheet.....	67
Putting a chart on a worksheet	67

***Part II: Exploring Chart Types*69**

Chapter 4: Creating Charts That Compare Items71

Working with Comparison-Based Data.....	72
Putting Items Side-by-Side with Column and Bar Charts	73
Making a Column chart.....	74
Changing the chart type to a Bar chart	75
Seeing How Data Stacks Up with Stacked Column and Bar Charts	77
Changing the chart subtype.....	77
Displaying a Stacked Column chart	78
Displaying a 100% Stacked Column chart	79
Getting Jazzy with Cylinder, Cone, and Pyramid Charts.....	80
Changing the Data Orientation to Make a Series-Segregated	
Side-by-Side Comparison.....	82
Comparing Slices of Data with Pie Charts.....	83
Using a single series to make a Pie chart	84
Using labels to point out the exact values	85
Comparing Bites of Data with Doughnut Charts	87
Displaying multiple series in a Doughnut chart	87
Displaying a single series in a Doughnut chart	89

Chapter 5: Creating Charts That Show Change91

Working with Data That Contains Change over Time	93
Looking at a plot of time-based performance.....	93
Looking at the data	94
Laying Out the Sequence of Data Points with Line Charts	96
Charting a single time-based series	96
Plotting multiple-series time-based data.....	101
Stacking multiple series in a Line chart	103

Giving Perspective to Data with Area Charts	104
Watching out for hidden data	105
Stacking data in an Area chart.....	106
Tracking Price Fluctuations with Stock Charts.....	107
Finding and plotting financial data	108
Plotting volume with price data	110
Chapter 6: Creating Charts That Display Data Relationships	113
Working with Data That Is Related to Other Data.....	113
Laying It Out with XY (Scatter) Charts.....	116
Looking for the trend	116
Changing the points to a line	118
Using Data and Size to Boil Up Bubble Charts	119
Plotting onto bubbles	120
Formatting the bubbles	121
Keeping an Eye on It All with Radar Charts.....	123
Creating a Radar chart.....	125
Reordering the series.....	125
Seeing Where the Data Lands with Surface Charts.....	126
Plotting by value, not series	127
Reviewing Surface chart subtypes	130
Chapter 7: Working With Custom Chart Types	133
Introducing the Custom Chart Types	134
Building Area Blocks.....	135
Going for the Cool Look with Black-and-White Charts.....	136
Creating a black-and-white Area chart	136
Switching to a black-and-white Column chart	137
Converting to a black-and-white Line – Timescale chart	138
Cooking up a black-and-white Pie chart	138
Creating Colorful Charts	139
Making a very colorful pie.....	139
Going for the levitating effect with floating bars.....	140
Plotting data in the great outdoors	141
Part III: Formatting Charts	143
Chapter 8: Positioning and Sizing Your Charts	145
Placing Charts on a Separate Chart Sheet	146
Placing Charts on Worksheets.....	148
Moving and Resizing Charts	150
Copying, Cutting, and Pasting Charts.....	153

Chapter 9: Formatting the Chart Area, Plot Area, and Gridlines . . .	155
Working With Borders and Areas	157
Laying it on with borders	157
Filling in the area	162
Applying Font Attributes.....	169
Setting Moving and Sizing Properties.....	172
Working With Gridlines	174
Chapter 10: Formatting the Axes' Patterns, Font, Number Format, and Alignment	177
Applying Settings in the Patterns Tab	178
Changing the axis line style, color, and weight	178
Applying tick-mark types and labels.....	179
Adjusting the Font Settings.....	182
Specifying the Number Format.....	184
Working With Text Alignment.....	185
Chapter 11: Working With the Category-Axis Scale Settings	189
Selecting the Category Axis Type	191
Selecting the Category Where the Value Axis Crosses	194
Having the value axis cross at a specific category	194
Setting the value axis to cross at the maximum category	196
Setting the value axis to cross between categories	196
Reversing the Order of the Categories	197
Working With Time-Based Categories	198
Setting the base unit	199
Setting the minimum and maximum dates.....	200
Selecting the major and minor units.....	202
Working With Non-Time-Based Categories	203
Setting the number of categories between tick-mark labels.....	203
Setting the number of categories between tick marks	205
Chapter 12: Working With the Value-Axis Scale Settings	207
Setting the Minimum and Maximum Values.....	209
Declaring the Major Unit and Minor Unit Tick Marks	211
Selecting the Value Where the Category Axis Crosses	213
Selecting where to have the category axis cross	213
Forcing the horizontal axis to cross at the maximum value.....	218
Choosing the Display Units.....	219
Applying a Logarithmic Scale	221
Displaying the Values in Reverse Order	223

Chapter 13: Formatting the Data Series	225
Formatting the Data Series for Line, XY (Scatter), and Radar Charts.....	226
Changing the line style, color, and weight	226
Changing the marker style, foreground, and background	228
Using high-low lines to emphasize the highest and lowest values per category	230
Using up-down bars to accentuate the first and last series.....	232
Formatting the Data Series for Bar, Column, and Area Charts	234
Changing the border style, color, and weight.....	235
Formatting the data series area.....	236
Adjusting the overlap and gap width on Bar and Column charts.....	238
Formatting Individual Data Points	240
Working with individual data points.....	240
Varying colors by point	242
Using Formatting Line Options.....	243
Applying drop lines	243
Using series lines	244
Formatting Pie Charts and Doughnut Charts	245
Moving individual slices	246
Rotating the Pie or Doughnut	248
 Chapter 14: Working With 3-D Views	 249
Raising and Lowering a Chart's Elevation.....	251
Rotating a Chart	253
Adjusting the Perspective	255
Forcing Right-Angle Axes	257
Applying Scaling.....	258
Adjusting scaling manually	258
Using the Auto Scaling feature.....	260
Working With Walls and Floors.....	260
Adjusting 3-D Series Options	261
 Chapter 15: Using AutoShapes and Graphics	 265
Inserting AutoShapes.....	266
Using Lines and Arrows.....	268
Inserting Text.....	270
Using WordArt	272
Using Clip Art.....	274
Inserting a Photograph.....	275

Part IV: Advanced Chart Techniques277**Chapter 16: Adding Trendlines to a Chart279**

Exploring Trendline Types	280
Naming the Trendline	281
Applying a Forward or Backward Forecast.....	283
Formatting a Trendline	284
Displaying the Equation or the R-Squared Value	285

Chapter 17: Using Combination Charts287

Working With the Secondary Axis.....	289
Mixing Chart Types Together	291

Chapter 18: Creating and Saving User-Defined Charts297

Creating a Chart Layout	297
Adding a User-Defined Custom Chart to the Collection of Chart Types	298
Using a User-Defined Chart Layout.....	301

Chapter 19: Creating Pivot Tables and Pivot Charts303

Introducing the Wizard.....	306
Selecting a Data Source Type and Report Type with Step 1.....	307
Selecting the Data with Step 2	308
Selecting Layout and Options with Step 3	311
Reviewing the Pivot Table and Pivot Chart Report	315
Changing the Layout.....	316
Using the PivotTable Toolbar	318
Applying a Filter	321
Using Page Fields.....	323

Chapter 20: Interacting with External Programs325

Pasting an Excel Chart into a PowerPoint Presentation or a Word Document	326
Editing the chart	328
Linking the chart	330
Selecting to display an icon	330
Converting the chart to a graphic.....	331
Using Shift and Copy to create an instant graphic.....	332
Placing Charts on Web Pages	334
Saving a chart to a Web page.....	334
Adding interactivity to a Web-page chart	338

<i>Part V: The Part of Tens</i>	341
Chapter 21: Ten Chart Remakes	343
Removing the Clutter	343
Plotting the Unknown	345
Replacing Beauty with Common Sense	345
Looking for Sanity in Chaos	346
Scaling to the Data	347
Easing Off the Categories	348
Displaying Nonsense.....	349
Hiding Data.....	350
Playing Perspective Tricks.....	351
Misusing Graphics to Inflate Results	351
Chapter 22: Ten (or So) Fancy Charts	353
Getting Supply to Meet Demand	353
Wrapping Up Your Data in Bins	354
Adding Visual Value with a Map	355
Getting Organized	356
Going 'Round and 'Round	357
Putting the Parts Together.....	358
Building a Pyramid.....	359
Looking At the Overlap	360
Going For a Bull's-eye	361
<i>Index</i>	363
