CHAPTER 1	Introducing Revit and the User Interface	1
	Understanding the Revit Interface	1
	Properties Palette	2
	Project Browser	4
	Status Bar	5
	View Control Bar	5
	ViewCube	5
	Options Bar	6
	Understanding the Interface Workflow	6
	Creating a Simple Layout	7
	Using Filter, Mirror, and Trim/Extend	8
	Adjusting Datums	10
	Changing Element Types	13
	Using Common Modifying Tools	16
	Using Dimensions for Modifying Designs	17
	Aligning Elements	20
	Rotating, Grouping, and Arraying	23
	Aligned Copying and Group Editing	26
CHAPTER 2	Schematic Design	29
	Working from a Sketch	29
	Importing Background Images	30
	Accurately Scaling Images	32
	Reference Planes and Levels	34
	Creating and Placing Groups	37
	Modeling In-Place Masses	39
	Modeling the Base Mass	39
	Modeling the Middle Mass	41
	Modeling the Upper Mass	43
	Working in 3D	44

Creating Mass Floors	47
Scheduling Mass Floors	48
Updating the Massing Study.	50

CHAPTER 3 Walls and Curtain Walls 53

Creating Generic Walls	53
Creating Numerous Wall Configurations	57
Sketching Walls	57
Picking Walls	58
Hosting Elements in Walls	60
Containing Spaces	60
Modifying Walls.	63
Instance Parameters	64
Editing and Resetting Profiles.	66
Attaching and Detaching Top and Base	67
Resetting Profiles	68
Cutting Openings.	68
Splitting Walls	69
Swapping Walls	70
Creating Curtain Walls.	71
Grid Lines.	71
Adding Mullions	72
Embedding Curtain Walls	74
Modifying Curtain Walls.	75
Editing the Elevation Profile.	75
Adding and Modifying Grids and Mullions	76
Unpinning and Toggling Mullions.	76
Adding and Modifying Panels	77
Adding and Modifying the Curtain Panel Door	78
Understanding Basic Wall Parts and Parameters	79
Basic Walls	80
Stacked Walls	82
Curtain Wall Types.	82
Just One More Thing	83

CHAPTER 4	Floors, Roofs, and Ceilings	87
	Creating Floors	87
	Sketching	87
	Editing the Boundary	88
	Sloped Arrows and Floors	90
	Sloped Floors via Shape Editing	92
	Creating Openings by Sketching	93
	Creating Openings with Shafts	95
	Picking Walls	97
	Laying Out Roofs	99
	Picking Walls	99
	Extruded Roofs	103
	Adding Ceilings	105
	Automatic Ceilings	106
	Sketching Ceilings	107
	Bulkhead Conditions	109
	Adding Lights and Rotating the Grid	111
	Changing the Ceiling	112
	Sloping the Ceiling	113
CHAPTER 5	Stairs, Ramps, and Railings	115
	Creating Numerous Stair Configurations	115
	Creating the “Generic” Railing	115
	Creating Your Design Stair	118
	Straight Run	118
	Straight Run with Landing	119
	Multistory Runs	121
	Setting the Host Function for Railings	122
	Designing Ramps	124
	Straight Runs	125
	Editing Boundary Conditions	126
	Building Railings for Level and Sloped Conditions	128
	Set Host Function	130
	Working with Parts, Parameters, and Properties	130
	Stair Parameters	130
	Ramp Parameters	134
	Railing Parameters	134
	Just One More Thing	138

CHAPTER 6	Adding Families	143
	Understanding Different Family Types	143
	Loading Families.	144
	Placing Families	145
	Annotations	145
	Profiles	147
	Detail Components	148
	Repeating Details	150
	Title Blocks.	151
	Level Based.	151
	Face Based	152
	Hosted.	153
CHAPTER 7	Modifying Families	157
	Editing View Display and Detail Level	157
	View Display	159
	Level of Detail.	161
	Changing the Family Category	163
	Editing the Family	163
	Family Category and Parameters	164
	Editing the Insertion Point	164
	Modifying Family Geometry.	166
	Editing the Family	167
	Editing Profiles.	168
	Detail Components	170
	Repeating Details	171
	Title Blocks.	174
	Hosted Components.	177
CHAPTER 8	Groups and Phasing	183
	Using Groups	183
	Creating Groups	184
	Copying Groups	187
	Duplicating Groups	189
	Editing Groups	189
	Exchanging Groups	191

Saving Groups	192
Loading Groups	193
Some Best Practices	194
Using Phasing	195
Geometry Phases	195
View Phases	196
Demolition and Proposed Elements	200
Completed Views	205

CHAPTER 9 **Rooms and Color Fill Plans** **209**

Tagging Spaces with Room Tags	209
Room Tags	210
Room Boundaries	213
Room Separation Lines	214
Creating Room Keys	216
Creating Key Fields	218
Modifying Key Fields	219
Generating Color Fill Room Plans	220
Adding a Color Legend	220
Modifying Color Legends	222
Adding Tags and Fill Colors in Section	225

CHAPTER 10 **Worksharing** **229**

Enabling Worksharing	230
Saving the File	230
Creating Central and Local Files	232
Creating the Central File	232
Creating the Local File	232
Adding Worksets	234
Workset Visibility	235
Assigning Elements to Worksets	236
Saving to the Central File	239
Creating New Elements	241
Opening and Closing Worksets	244
Using Workset Display Filters	245
Using Worksharing to Work with Consultants	247
Using Guidelines for Worksharing	250

CHAPTER 11	Details and Annotations	253
	Creating Details	253
	Detail Line	254
	Regions	254
	Components	255
	Creating a Detail	255
	Insulation	264
	Detail Groups	264
	Linework	265
	Annotating Your Details	266
	Dimensions	267
	Tags	271
	Text	273
	Legends	274
CHAPTER 12	Creating Drawing Sets	279
	Creating Schedules	279
	Understanding Schedules	280
	Making Schedules	286
	Placing Views on Sheets	294
	Adding Floor Plans to the Sheet	294
	Adding the Schedules	300
	Printing Documents	302
	The Print Dialog Box	302
	Print Settings	303
	Options	304
CHAPTER 13	Workflow and Other Revit Essentials	309
	Understanding a BIM Workflow	309
	Staffing a BIM project	314
	Project Roles Using Revit	314
	Adding Team Members to Fight Fires	317
	Modeling Site	318
	Using a Toposurface	319
	Creating a Building Pad	321

Detailing in Revit	323
How many times will you see the detail in the model?	324
What scale are you drawing your detail in?	324
How good are you at using Revit?	324
Performing Quality Control on Your Revit Model	325
Keeping an Eye on File Size	325
Purging Unused Families and Groups	325
Cutting Down on the Number of Views	327
Finding Errors and Warnings	327

CHAPTER 14	Tips, Tricks, and Troubleshooting	331
-------------------	------------------------------------------	------------

Optimizing Performance	331
Using Best Practices	334
Fixing File Corruption	338
Learning Tips and Shortcuts	339
Finding Additional Resources	343

APPENDIX	Revit Certification	345
